EUROPEAN AND MISCELLANEOUS.

This communication has been received by the acting secretary of the Toronto Board of Trade:

Imperial Institute of the United Kingdom, the Colonies and India:
OFFICES 1 ADAM-STREET, ADELPHI,
LONDON, W.C., May 11, 1888.

SIR: I am directed by His Royal Highness the Prince of Wales, President of the Imperial Institute, to request that you will have the goodness to acquaint your Board through its President that active steps are now being taken for the establishment of that Department of the Institute which is to deal with the collection and dissemination of commercial and industrial intelligence.

It is hoped that the work which is now being commenced in this direction will, before very long, furnish results calculated to widely interest and materially benefit the trading and industrial communities of the United Kingdom, the British Colonies, the Dominion of Canada and the Indian Empire.

VICARS & SMILY,
Real Estate, Loan and Insurance Agents.
Office—10 King-st. west, Toronto.

Estates managed, debts, rents and arrears collected. Money loaned at lowest rates. 462

His Royal Highness, the President, shares with the Organizing Committee the hope that your Board will gladly record every possible aid towards the development and maintenance of this department of the Institute so far as relates to the district and directions in which the work of your Board is carried on.

I am also to submit the request that your Board will cause the Imperial Institute to be continuously furnished (from the commencement of the present year) with two copies of each issue of the periodical reports of the Board and will have transmitted to this office, as soon as published, all other printed reports and documents issued by it which bear upon the trade and commerce of that part of the Dominion of Canada embraced by the operation of your Board.

The various Governments of Her Majesty's colonies and the Indian Council have been moved to promise their fullest co-operation in the regular supplement of the latest and most reliable information upon all matters concerning their trade and commerce, and it is hoped that every section of the Empire will, in time, become closely associated with the work of this department of the Institute.

The Organizing Committee will feel greatly obliged for any suggestions which your Board may feel disposed to afford with a view of facilitating the objects herein described and so to provide systematic and expeditious collection of details relating to the commercial and industrial resources and requirements of your district. F. A. ABEL, Organizing Secretary.

The Oil Market.

Oil opened in New York at 89½ to-day; touched 89⅞ and 89⅜ and closed at 89½.

The following shows the business of the Petrolea Oil Exchange for the week ending May 17:

Date.	Open'd.	Clos'd.	Hi'est.	Lo'est.	Clear'ncs.
11	1.18½	1.13	1.18½	1.13	8000
11	1.13	1.13	1.13	1.13	1514
14	No regular				1200
15	No transactions.				
16	No transactions.				
17	No regular.				4000

The total clearances on the Petrolea Oil Exchange for the week ending May 10 were 11,417 bbls.; for the week ending May 17 were 14,714 bbls.

For the last week past a good deal of excitement has been occasioned among the oil producing community by the well struck on the McFherson farm, lot 18, con. 10. This well was struck at the depth of four hundred and sixty-eight feet and opens up perhaps a large field. Just what this field will amount to is not known, as water seems to be the predominant part of the fluid supply. Before the end of the present month it will doubtless be determined whether the production from this section, which had been looked upon as of no particular value, will be an important factor in oil producing territory, but its exact extent will not be known for some time to come, for the very simple reason that the speculator is hampered for funds to spec. Opinions differ as to the probable extent and productiveness of this territory. There are many who look upon it as a second Oil Springs field, while others, equally well informed, express little faith that the production will prove important. The fear, however, that it may prove to be a large pool has a tendency to make operators on the Exchange wary.—Petrolia Topic.
