Communications.

Some poetry still on hand will come in its turn. Poetry hereafter sent must be accompanied by the author's name; also, if it require revision by the Editor it will be rejected. The letter from our Cornwall friend A. M. McK., was duly received. His indifference and dislike of the political toadyism of Canada are commendable, An independent man in Canada is not appreciated. He speaks of the ☞ *Canada Temperance Advocate*, not taking a bold stand on some subjects It will be found that, that this JAMES BECKETT of this *Advocate*, is a poor bigoted selfish creature. We dont know him, but have some idea of his character for meanness. He made an attack upon this paper in January 1852, (from pure jealousy, thinking our paper would take place of his small sheet,) and has again thought proper to obtrude his unprovoked censure upon us, who have not said a word against him, or even his paper for a year and a half. ☞ We may refer to this in our next.

The whole mounted with a solid platinum Silver Point, fourteen inches long, surrounded at the base with three angular projective points which possess the power to an extraordinary extent, of discharging the opposite elements of the most fearful thunder storm, and embrace the entire perfection of science up to the present time the whole constituting the most magnificent and perfect Patent ever presented to the public The public are cautioned against purchasing of any person or persons pretending to possess a commission or agency, signed E V Wilson, L R. Agent, or the Simple Point, or signed Spiral Reproducing Patents, &c, as we are sole and responsible for rods put up by any person unless they have our certificates as above Your attention is called to the above caution from the fact, that several persons have offered to the public an inferior article, pointed, tinned, and otherwise glazed over, when in truth they are not worth anything as Electric Points, nor do the parties offering them know anything about the laws of electricity, as exactly it is dangerous to employ ignorant men to protect your buildings and your lives
