. . Diet for a wise man—Sage.

. . Breeches of trust—trowsers on credit.

. . We must take it coolly, as the loafers said when a bucket of ice-water was poured over them.

. . A Chinese thief, having stolen a Missionary's watch, brought it back to him the next day, to learn how to wind it up.

. . 'Did you ever see a baby so small that it could creep into a quart measure?' 'Pooh, pooh! I've seen a grown up fellow walk into two quarts.'

. . "Harry, I don't know where that boy got his bad temper; I am sure not from me.' "No, my dear, for I don't find that you have lost any." (N. B.—These men are so ready with their nasty replies!)

. . A gentleman was agreeably surprised the other day to find a plump turkey served up for dinner, and inquired how it was obtained. Why, sir, was the reply, the turkey has been roosting on our fence these three nights, so this morning I seized him for rent.

☞ An honest German in Philadelphia, listening to an account of a married woman's elopement with "another man," the other day, got greatly excited over it, and spluttered forth with the greatest vehemence: "If my vife run away mit anoder man's vife, I vill shake him out of her preeches, if she be mine own fader, mine Got!"

The Barrie *Examiner* says:—About ten months ago, an amiable and loving couple, residing at Lefroy, became the happy parents of three additional "responsibilities" at a birth; and a week ago the same affectionate pair were further blessed by the addition to their family of twins; making five pledges of love within the lapse of eleven months!!

Miserable People.—Young ladies with new bonnets on rainy Sundays, and dresses playing dip, dip, at every step. A witness in a bribery case. A smoking nephew on a visit to an aunt. A young doctor who has just cured his first patient, and has no prospect of another.

All the Same Price.—An Irish weaver took to his employer a piece of cloth which he had just finished. Upon examination two holes but half an inch apart were found, for which a fine of two shillings was demanded.

"A shilling is a great deal to charge for such small holes," said the workman.

"Oh," replied the master, "it's a shilling for every hole, big or little," whereupon the work man immediately tore the two holes into one, exclaiming:

"By the piper that played before Moses, that saves a shilling, anyway."

A Candid Opinion.—A certain green customer, who was a stranger to mirrors, and who stepped into the cabin of one of our ocean steamers, stopping in front of a large pier glass which he took for a door, said:

"I say, mister, when does this here boat start?"

Getting no reply from the dumb reflection before him, he again repeated

"I say, Mister, when does this here boat start?"

Incensed at the still silent figure he broke out:

"Go to thunder! you darned sassafras coloured block-headed bull-calf; you don't look as though you knew much anyhow."

A Cute Thief.—A thief on the watch for an opportunity to steal, went to a set of chambers kept by a widow at Lyons, entered boldly into the room upstairs, and seeing two great coats there, made free with them. Coming down stairs he met an attorney who lived in the house, and who had a handsome greatcoat on. He asked the thief where he was going with the great coats he had over his arm, when the latter answered rapidly that he was going out to beat and brush them. "Then," said the attorney, taking off his great coat, "you shall take mine for the same purpose; but remember you bring it back at 3 o'clock." The thief faithfully promised, and thus made a clear escape with his booty.

A Warning to Ladies.—The *Publicite* of Marseilles announces a new kind of strike—that of bachelors. Not fewer than 6000 young men, it states, of that place, between the ages of twenty and thirty, held a meeting in the open air a little way out of the town, and entered into an agreement not to ask any young woman in marriage until a complete change shall have been made in the manner of living, and particularly in the dress, of the fairer sex. The young men insist on greater simplicity in every respect; and a return to the more modest habits of a century or two ago.

Facts Worth Remembering.—A bit of glue dissolved in skim milk and water, will restore old crape. Half a cranberry bound on a corn, soon kills it. An ink stand was turned over on a white tablecloth, a servant threw over it a mixture of pepper and salt plentifully, and all traces of it disappeared. Picture frames and glasses are preserved from flies by painting them with a brush dipped into a mixture made of boiling three or four onions in a pint of water. Bed bugs are kept away by washing the crevices with strong salt water, put on with a brush. Soft soap should be kept in a dry place in the cellar, and not used until three months old.

"The Cratur" as a Rat Catcher.—A correspondent of the Haldimand *Tribune* proposes a new way to kill rats. His own house being overrun with the vermin, a servant girl who had seen the effect of "Old Bourbon whiskey" on bipeds, thought she would try an experiment on the rats. Accordingly she took a small quantity, made it very sweet with sugar, crumbled in bread enough for the crowd, and set the dish in the cellar. A few hours after she went down and found several rats gloriously "fuddled," engaged in throwing potato parings, and hauling one another up to drink. These were easily disposed of; those not killed left the premises immediately, suffering with a severe headache.

Picture of the Red Sea.—Hogarth was once applied to by a certain nobleman to paint on his staircase a representation of the destruction of Pharoah's host in the Red Sea. In attempting to fix upon the price, Hogarth became disgusted with the miserly conduct of his patron, who was unwilling to give more than half the real value of the picture. At last, out of all patience, he agreed to his terms. In two or three days the picture was ready. The nobleman, surprised at such expedition, immediately called to examine it, and found the space painted all over red. "Zounds," said the purchaser, "what have you here?" I ordered a scene of the Red Sea." "The Red Sea you have," said the painter. "Where are all the Israelites?" "They have all gone over." "And where are all the Egyptians?" "They are all drowned." The miser's confusion could only be equalled by the chagrin which he paid the bill. The later was bitten.

"Brandy" Intoxication.—The most remarkable case of intoxication we ever heard of, is related by the Troy *Times*. About a month ago an illicit whiskey distillery was in full blast on Green Island, near Troy. One night—it was a "still" night—the man running the machine had made eighteen gallons of whiskey, and put it out in the open air to cool. Along came a cow. She was thirsty, and the beverage looked inviting. She swallowed every drop—eighteen gallons of unrectified whiskey, warranted to kill at forty rods. The cow has been drunk ever since. She staggered home, and is now in the fourth week of a grand old bender. The cow eats nothing; falls down whenever they try to raise her up; and has become as lean as a crow, instead of a cow. Whether the cow will ever get sober, or end her life in a fit of delirium tremens, is a question that we shall look anxiously to see the solution of.

Yankee Calculation.—On the morning of my concert, a gentleman was announced who wished to see me. I desired him to be shown in, when a stall, stout person, with a long, serious visage, saluted me with, "I guess you'll have a full room to-night." "So I hear, sir," I replied. "Yes," he continued, "there's no mistake about that; I want a ticket—one dollar, I calculate." "Exactly" I said. "Well before I take it," said the stranger, "just measure me across the shoulders." "Not I, indeed; what for?" "Never min I," said he, "measure me." "Certainly not," I said, "what for?" "Why, look you here, stranger; I am pretty broad; I've two gals at home tarnation food of music, and as thin as laths; you'll want all the room you can get, so let them two in instead of me, and you'll have room to squeeze in a third." It was assuredly a very nice and close calculation, but I respectfully declined; upon which he took the ticket remarking, "How blind you Britishers are to your own interests."

Ingersoll, April 12, 1861.

Oxford Oil Company.

PERSONS owning land in convenient situations near Tillsonburg, and desirous of getting Wells opened on their property, and willing to Lease for that purpose, will oblige by sending me particulars of the same, stating Township and Lot and quantity of land to lease, care of "Tillsonburg Observer."

W. H. SMITH.

Tillsonburg, June 16, 1865. 618

Oxford Oil Company.

CAPITAL $20,000,

In 2,000 Shares of $10 each, with power to increase if necessary.

TEN per cent. to be paid at the time of subscribing, and the balance to be called in as the money is wanted to prosecute the work. Stockholders who pay up additional instalments in advance, to be allowed ten per cent discount on the amount paid.

To be incorporated under the General Act. Liability of Stockholders limited to the amount of their Stock.

The Oil-bearing rock of this continent, after entering the Province from Pennsylvania, extends across the Western peninsula and crops out at Lake Huron. The depth of soil on the rock appears to vary greatly in different localities—at the "Johnstown Well," as it is called, in the Township of Yarmouth, the rock was only reached at a depth of 190 feet, while at Tillsonburg, a few miles farther back from the Lake, the rock was found at 35 feet from the surface, and at 140 feet from the surface, or 65 feet in the rock a deposit of Oil was struck.

From the great and increasing demand for "Coal Oil" it is evident that the occupation of sinking wells, where the oil-bearing rock is known to exist, must if followed steadily as a regular business operation, and not as a gambling speculation, be highly remunerative, but from the uncertainty as to any particular well happening to strike a cavity containing Oil, these operations cannot be safely carried on except by Companies with sufficient Capital to open several wells. In some instances a few individuals have raised a subscription (usually about a thousand dollars) to sink a well, and when that has been expended the work has come to a stand still for want of means to proceed.

Wells will be sunk in such Townships in the County as may show sufficient indications to warrant the expenditure of money, so as to test the capabilities of different sections, and the further operations of the Company guided by the results of the work. Work to be commenced as soon as one-half the stock is subscribed.

To show the profitable nature of Oil Wells as an investment: while many wells in the Province are pumping from Twenty to One Hundred Barrels per day, a well yielding Ten Barrels per day will give a yearly revenue (at present prices) of Twelve Thousand Dollars per annum.

As soon as one-half the Stock is taken up, the Stockholders will be called together to elect Directors, and the Charter will be obtained from the Government.

Persons wishing to take Stock in the Company may send in their names to the proprietor of the Ingersoll *Chronicle.*

W. H. SMITH.

The Science of Health

Every Man his own Physician

HOLLOWAY'S PILLS,

AND

Holloway's Ointment.

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, as the bile, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the Stomach, and the Liver, Lungs, Bowels and Kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent upon this continent, to these the Ointment is especially antagonistic: its marvelous speedy effect is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful ongient.

Eruptions on the Skin,

Arising from a bad state of the blood or character, are eradicated and a clear, transparent skin is regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet preparations in its power to dispel rashes and other disfigurements of the face.

Female Complaints,

Whether in the young or old, married or single, at the dawn of Womanhood, or the turn of life, this celebrated medicine displays so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation they may be safely and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and texture of these prevalent and painful born disorders is eradicated locally and entirely by the use of this emolient, warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Pills and the Ointment should be used in the following cases:

Bunions,	Rheumatism,	Sore Throats,
Burns,	Ringworm,	Sores of all kinds
Chapped Hands,	Salt Rheum,	Sprains,
Chilblains,	Scalds,	Stiff Joints,
Fistula,	Skin Diseases,	Tetter,
Gout,	Swelled Glands,	Ulcers,
Lumbago,	Sore Legs,	Venereal Sores,
Mercurial Eruptions	Sore Breasts,	Wounds of all kinds
Piles,	Sore Heads	

CAUTION!—None are genuine unless the work "Holloway, New York and London," are discernible as a Water Mark in every leaf of the book of directions around each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

* * Sold at the manufactory of Professor Holloway 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the civilized world, in pots and boxes at 25 cents, 62 cents, and $1 each.

☞ There is considerable saving by taking the larger sizes.

N.B. Directions for the guidance of patients in every disorder are affixed to each pot and box.

☞ Dealers will find it to their advantage to keep these Cards Circulars, &c., sent FREE OF EXPENSE by addressing as above.
