(Continued from page two.)

interest and the fair name of the Dominion. The Minister of Trade and Commerce impressed his hearers when he told how the Prime Minister had issued a letter to the members of the Cabinet urging that they should deal not with middlemen, but with the original sources of supply, and that when this was impossible they should first consult him. And now in his own case his first question to all order seekers was: "What mill do you represent? If they did not represent a mill," added the Minister, "I had no further dealings with them." For my own self—and I think I can speak for every member of the Government —I am jealous of any one ten cent piece which goes to any other objective than that which is authorized by this Parliament for the prosecution of this war." The veteran Parliamentarian's words, spoken with studied emphasis, drew sympathetic cheers from all sides of the House. Only a few minutes later, Sir George, who was leading the House in the absence of the Prime Minister, earned loud applause from the Ministerial benches, when he declared, in answer to Mr. Oliver, that "Canada is in this war to see it through. If we need more money or more men, the Government stands ready to fill that need, knowing that in doing so it would have the support of the people and Parliament of Canada." (General Cheers.)

Progress of the War.

London, March 14—The British Admiralty issued a statement saying that a British air raid had been successfully carried out today on German submarines at Hoboken, three miles outside of Antwerp. The text of the Admiral statement was as follows: "The following has been received from Wing Commander Longmore: "I have to report that a successful air attack was carried out this morning by five machines of the Dunkirk squadron on the German submarines being constructed at Hoboken, near Antwerp. "Two of the pilots had to return owing to thick weather, but Squadron Commander Ivor T. Courtney, and Flight Lt. H. Rosser reached their objective, and after planing down to 1,000 feet dropped four bombs each on the submarines. "It is believed that considerable damage has been done to both the works and the submarines. "The works were observed to be on fire. In all, five submarines were observed on the ship. Berlin, March 24, via London—Reports from the Carpathians indicate that some of the greatest and most sanguinary battles of the Campaign is now raging. A special correspondent of the Lokal Anzieger telegraphs: "The greatest bloody battle is now in full swing in the Carpathians. It has not yet reached a point where a definite judgment can be passed on the events at any point. The conflict is likely to be waged days yet with equal fierceness by both sides. "The next few days probably will see the released Przemysl investment army engaged in this struggle. Conditions on the Vistula river and along the Bug and Narew lines appear to have changed little or not at all recently.

Petrograd via London, March 25—The following offical communication was issued this evening: "On the front toward the west of the Middle Niemen we continue to make progress. "On the right bank of the Narew, and the left bank of the Vistula there has been no change of importance "In the Carpathians our offensive on the front, in the direction between Bartfield and Uzok is developing with complete success. Our troops, operating under extremly difficult conditions, gained a most decisive success in the region of the Lupkow Pass, where we carried by assault a very important Austrian position on the great crest of the Austrian position on the great crest of the Beskid mountains. "The Austrians made several furious counter-attacks in close rank formation but were dispersed and partly annihilated by our fire and bayonet charge. Towards the morning of the 24th the enemy began a retreat on certain positions. During the day we took as prisoners about one hundred officers and 5,600 men, and besides captured several dozen of machine guns." London, March 25—The British Admiralty stated this evening that they thought the German submarine U-29, which recently sank four British and one French steamer in the English Channel and damaged three other vessels, had been sunk with all hands The text of the official statement follows: "The Admiralty have good reasons to believe that the German submarine U-29 has been sunk with all hands."

London, March 26—The comparative inactivity along the whole of the western front, such as has not prevailed for weeks, leads to the belief in military quarters in London that both armies are awaiting the turn of events in the Carpathians before attempting to strike a hard blow.

London, March 27. "Owing to the damage caused by the shore torpedo tubes in the Dardanelles," says the Daily Mail's Athens correspondent, "the allied admirals, in a council of war, have decided to designate certain warships to fire at the forts at long range. "Officers of the allied fleet declare to the correspondents that the forcing of the Straits, at all costs, is certain.

Petrograd, March 28 — The chief official staff of the Russian army headquarters in the Caucasus today gave out the following statement: On March 26th the Turks attempted an offensive movement in the Black Sea coast region but they were thrown back to the left bank of the Arkhave. In Chorrokh Pass our units continue to drive the Turks towards Artven in the direction of Sanganluk Mountains and in the Vally of Alaskert there have been minor engagements. In the other direction there has been no modification in the situation. An official statement from general headquarters issued last night said that at West of Middle Niemen on the right bank of the Vistula there has been no essential change in the situation. In the Carpathians we have made considerable progress in the direction of Bartfield. The Austrians in fall-back set fire to the Village of Sebro. In the direction of Balligrod we have carried a fortified height East of Ravoljetz. Near Ruskedydinva and Koziouwko we successfully repelled important forces of the enemy. During the course of the day we made prisoners of about 2,500 Austrians, besides forty officers and we captured seven machine guns. In Eastern Galicia we drove back a battalion which crossed the Dniester near Jojava inflicting very heavy losses.

Petrograd, March 29—Pouring through Delia Pass three Russian Corps, of 120,000 men have captured five Hungarian towns in the district of Saros, according to advices received at the war office today from the Carpathian front, while the Allies are directed towards the Carpathian front and the invasion of Hungary. Two new Russian victories in Poland were officially reported, one on the Skwa River, another near Pilica. The Russian drive through Dukla Pass has resulted in the occupation by Russian troops of Buszow. At Polyanka, Shora, Komarnik and Osertesz, all to the North of Bartfield and Szvidnik, important towns against which the Czar's troops are marching. One advance Russian force entered the Northern outskirts of Szvidnik Sunday but met determined resistance and was compelled to retire to await the arrival of the main force. Bod-Bartfeld, a suburb of Bartfeld, was entered by Russians also and hard fighting is reported to be in progress there.

DIED.

ELLIS—At Charlottetown, March 24, 1915, of pneumonia, Bruce Ellis, aged 20 years.

LeBLANC—In this city on Mar. 23rd Capt. LeBlanc, aged 88 years. R. I. P.

Local And Other Items

The steamer Minto, after battling with the ice for a couple of days, docked at Georgetown about 1 o'clock yesterday morning.

The special war taxes not already in force will come into force on April 15. This includes the war stamps on letters.

A rigid censorship on publication of military news from March 31 to July 30 has been established in Rome by royal degree.

The Italian Government has ordered the seizure of 29 cars of graphite sulphur and other supplies said to have been destined for the Krupp gun works at Essen.

The meeting of the Liberal Conservative Association of Queen's County held in the Market Hall, on Friday last was largely attended and much business was done. A new constitution was adopted, convenor for the different districts of the County were appointed, and the work of organization well started. Alexander Martin Esq., Vice-President of the Association presided.

Sir Robert Borden left Ottawa Saturday morning last by special train for Grand Pre, N. S., to see his aged mother, probably for the last time. She is dying at the Premiers's boyhood home, after a long illness. The Premier left the capital and the many cares of state to a dearer and more heart-compelling call. He had the sympathy of every member in the House, and all party animosities are forgotten.

The solemn religious exercises peculiar to Holy Week will be duly carried out in St. Dunstan's Cathedral beginning today. This evening, tomorrow and Friday evenings the office of *Tenebrae* will be sung commencing at 7 o'clock. Holy Thursday and Good Friday the solemn morning service will begin at 8 o'clock, and on Holy Saturday at 7.30. The Way of the Cross will be performed at 4 o'clock Good Friday afternoon.

The Forty Hours Devotion closed in St. Dunstan's Cathedral, with the solemn Mass of Reposition on Thursday last. Very Rev J. C. McLean was celebrant, assisted by Rev. Pius McDonald and Frank McQuaid as deacon and subdeacon and Rev. Dr. McLellan as Master of ceremonies. His Lordship, the Bishop was present in the Sanctuary. After the procession and the prescribed exercises and the Benediction, the services concluded with a solemn *Te Deum*. There were 3,883 Communions.

Last Sunday being Palm Sunday, the solemn blessing of the palms took place at the 11 o'clock Mass, his Lordship, the Bishop officiating. Solemn high Mass was afterwards celebraded by Rev. Dr. Gauthier, assisted by Revs. Pius McDonald and Frank McQuaid as deacon and sub-deacon and Rev. Dr. McLellan as Master of ceremonies. His Lordship was assisted at the throne by Rev. Fathers Herrel and Kiggins. During the possession all the clergy named assisted. During the Mass his Lordship occupied his throne.

The funeral of the late Dr. McLellan took place from St. Paul's Church Summerside on Sunday afternoon, and is said to have been the largest funeral ever seen there. There were special trains from Charlottetown, Souris and Tignish. These brought large numbers of Knights of Columbus and others. The funeral oration was preached by Rev. J. J. McDonald of Kinkora. In the course of his sermon the Rev. preacher fittingly referred to the admirable qualities of deceased and the loss sustained by the community by his death. R. I. P.

LENTEN SERMON — The last of the special Lenten sermons was preached in St. Dunstan's Cathedral on Palm Sunday evening by Rev. Dr. Gauthier, His theme was "Confession" and his text was from the xx chapter of the Gospel of St. John verse 22 and 23: "Receive ye the Holy Ghost; whose sins you shall forgive, they are forgiven them; and whose sins you shall retain, they are retained." The Rev. preacher in an eloquent discourse showed that all men are sinners, consequently all stand in need of some means of reconciliation with God. This in the Christian dispensation, is found in the confessional. He next pointed out that this was of necessity the work of our dear Lord; no mere man could create this tribunal. Had such a thing happened there woul be some record of the time the place and the inventor. None such has everbeen attempted to to be foisted on the public. The Rev. preacher showed that the confessor, as well as the confessional were established by divine ordinance. The confessor must embrace all manner of penitents in his sympathy and love. In his capacity of confessor he must stand apart from all human considerations. This Salutary institution of regeneration and reconciliation has existed in the Catholic Church for nearly 1,900 years, and not one single instance exists of the revelation of what is confided to the priest in confession. Confessors have endured all manner of persecution and torture and even death rather than violate in the slightest degree the secrets of the confessional This establishes confidence in all sinners who approach this tribunal. The Greeks and others, who, from time to time, have severed connection with the church of Rome, still retain the confessional. In conclusion the Rev. preacher counselled all to approach frequently this tribunal of reconciliation and thus keep ourselves in the friendship of God.

TENDERS.

SusseX Mineral Springs Have Valuable Properties

SULPHUR BATHS MAY BE ENJOYED AT THE MAPLEHURST HOTEL

Because of the beneficial effects of their mineral waters to humanity many places have become famous. From time immemorial there have been waters to bathe in that have their special virtues and waters to drink that possess valuable health giving properties. To have mineral springs that will annually attract many thousands to partake of their benefits is naturally a great boon to the community, especially if that community be delightfully situated, and a place of natural beauty.

It is just beginning to be generally known that the town of Sussex, N. B., has mineral springs whose waters are just as desirable as those of many health resorts that have long established fame. The Sussex springs flow from an artesian well hundreds of feet deep. So copious is the flow that right in the heart of the town there is a bubbling fountain for public use, while the water is piped to a factory where aereated beverages are made from it, and the water also bottled in its natural state. It is also piped for some distance to the Maplehurst Hotel, where patrons may enjoy the rare luxury of hot and cold mineral, water baths, and undergo a treatment that physicians declare to be most beneficial in cases of rheumatism or kidney affections. Pro R. F. Ruttan, Director of Chemistry at McGill University, Montreal, who analyzed several samples of this water, declares it to be a pleasant alkaline chloride water which would become very popular. The actual alkalinity as determined corresponds to 35.75 grains of sodium carbonate per gallon. The residue did not change when ignited, showing an absence of more than a mere trace of organic water. The analysis proved it contained:—

Soda and Potassa	341
Lime	004
Magnesia	traces
Iron and Alumina	traces
Sulphuric Acid	009
Carbonic Acid	262
Silica	013
Chlorine	014
	543
Total Solids at 1100 9	452
Carbonic Acid	111

Sussex is most delightfully situated on the line of the Canadian Government Railway, 44 miles from St. John, the centre of the most picturesque Sussex Vale which is drained by the headwaters of the lovely Kennebecasis River. For the location of a large Sanatarium, or a first class hotel, no finer site could be secured as the surroundings are beautiful and the climate most agreeable. So conveniently situated in the midst of a fine agricultural and dairying country there is every facility for procuring the finest of fruits and garden produce and an abundance of fresh butter and eggs and cream. Its nearness to the St. John market which is so amply provided with the best of meats and fresh fish is also of great advantage. The town has a fine water supply sewerage and electric lighting
