MAIL ORDERS PROMPTLY ATTENDED TO

THE LADIES' STORE
Promis Block, Government Street, Victoria

Sole Agents for La Veda Corsets

To Motorists And Others

WE HAVE MADE special arrangements for the sale of the celebrated "BURBERRY'S" self-ventilating "SLIP-ON" Raincoats. These famous Coats are universally adopted and recommended by the motorists of Europe and very extensively in the States as being ideal for use in summer. They are manufactured from pure wool gabardene, waterproofed in the spinning process; in addition they are lined with a light "Rain but not Air-proof" material. The cuffs are wide, giving ample room for using the wrists, but fitted with dust strap and dome fasteners. The collars can be either worn open or closed with the collar strap. As the name indicates, these garments slip-on and fit perfectly, but are smart and dressy withal.

We have received a small consignment by mail which we should like you to inspect, as we are certain every motorist in Victoria will desire to possess one of these most handy and useful coats. A larger shipment follows by freight.

WAGING WAR AGAINST THE WHITE PLAGUE

British Columbia Anti-Tuberculosis Society Organized Last Evening

At a meeting held in the city hall last evening the British Columbia Anti-Tuberculosis Society was launched under the act of incorporation secured from the legislature at its recent session. By-laws were adopted and other arrangements made for getting the project for a provincial sanitarium under way. The officers elected at the annual meeting of the original society, held on April 3 last, were entrusted with the task of setting the machinery in motion and getting the proposed sanitarium in operation pending the regular election of officers and directors in January next, the machinery for which is not yet in shape. The meeting was representative of Vancouver and Victoria, the Trades and Labor Council of the former city having two delegates in attendance.

In the absence of the president, R. Marpole, Mayor Morley occupied the chair; while Dr. C. J. Fagan, provincial health officer, acted as secretary. The minutes of the last annual meeting previous to incorporation were read and adopted.

Dr. Fagan reported that the executive committee had adopted a set of by-laws, which were submitted to the meeting for ratification. The by-laws had been drawn under the provisions of the act of incorporation passed at the recent session of the legislature. These by-laws provided for the establishment of a sanitarium and for its management, government, etc. They were then taken up, clause by clause, and passed, some slight amendments being made to the original draft.

Difficulty was found in regard to starting the machinery of the organization in motion, and it was eventually decided that the officers elected in April last and the executive then appointed, and since added to, as provided for at that meeting, should be entrusted with the work of completing the organization, the selection of a site for a sanitarium and the erection of a building. The committee is as follows: Rev. W. Leslie Clay, Mrs. Jenkins, A. S. Barton, A. J. Dallain, A. J. C. Galletly, A. Johnson, Dr. Walker, A. G. Perry, R. P. Rettiplece, P. Donnelly, Dr. Underhill, Dr. Proctor, Dr. Stephens, Mayor Gordon of Kamloops, Mayor Megaw of Vernon, J. S. C. Fraser of Rossland and Dr. Arthur of Nelson, with the president, secretary and treasurer of the old society.

The following resolution, moved by Dr. Fagan, was unanimously adopted:

"Whereas tuberculosis is the cause of 1 death in every 7 recorded, and 1 in every 3.5 deaths occurring between the ages of 15 and 45;

"Whereas the death rate from tuberculosis in British Columbia is about 200 every year, and the invalidism is largely in excess of this;

"Whereas, the affected persons are invalided at a time in life when they are most useful to their families and to the state;

"Whereas tuberculosis is an infectious disease;

"Whereas it is a disease that may be cured and can be prevented;

"Whereas there is at present no institution for the treatment of consumption, and our public hospitals refuse to admit persons suffering from this disease.

"It is therefore resolved that the public generally be asked to endorse and assist in attaining the aims and objects of the British Columbia Anti-Tuberculosis Society.

"Resolved that the attention of the federal and local authorities be called to the fact that citizens are invalided and dying from a curable and preventable disease, against which so far no action has been taken.

"Resolved that municipal authorities be reminded that the health and lives of inhabitants of their districts are in the care of the municipal authorities.

"Resolved, that members of religious, friendly, benevolent, trades and other societies be requested to assist in the movement to combat man's greatest scourge.

"Resolved that an effort be made to collect a sum of one hundred thousand dollars to erect and equip suitable buildings to handle our consumptives, both incipient and advanced."

In moving this, Dr. Fagan said that the provincial government had recently offered the association $10,000 in addition to their first grant of that amount, on condition that the sanitarium handle advanced cases, as well as incipient ones. He drew attention to the ravages of this disease and its contagiousness. It was one disease to fight which no steps have been taken. As civilized men, action was called for.

A. G. Perry, one of the representatives of the Vancouver Trades and Labor Council, in seconding the resolution said this was a work that should be taken up by the state, but as the state did not see its way clear to do so, it devolved upon the public to take action, and perhaps the state would later step in and do its duty.

The following motion, moved by Dr. Stephens of Vancouver and seconded by Rev. T. W. Gladstone, was also unanimously passed:

"That this meeting ask the provisional directors (a) to proceed at once to form a constitution and by-laws for branch societies; (b) to proceed at once to make a thorough canvass of British Columbia for funds, establishing branch societies in all districts where suitable; (c) to print a membership card; (d) to proceed to take all necessary steps toward getting a site, and proceed toward the erection of a building as soon as finances justify such a procedure; (e) to procure and secure a medical superintendent at such time as is thought advisable."

Dr. Fagan then reported that out of the $100,000 aimed at, $60,000 had already been secured. This included $10,000 from Lieutenant-Governor Dunsmuir, $20,000 from the provincial government, $5,000 from Vancouver, $5,000 from the C. P. R. and $10,000 from private subscriptions in Vancouver and $11,000 from a similar source in Victoria. The city council of Victoria had not yet seen its way clear to make a grant, but when it did so, it was hoped it would be a liberal one, for other cities and municipalities were watching the capital.

After the general meeting adjourned, a meeting of the directors was held, at which Rev. W. Leslie Clay was elected chairman and the following executive committee appointed, with power to act in the matter of organization: Rev. W. Leslie Clay, Dr. C. J. Fagan, A. J. C. Galletly, A. Johnson, Mrs. Jenkins, A. S. Barton and A. J. Dallain.

How Champagne Is Made

Chapter I.

The grapes used in the best imported Champagnes are gathered from the slopes of the Marne in the Province of Champagne, France. G. H. Mumm's Champagnes are made from grapes selected each year from the choicest vineyards, buying immense quantities of grapes in vintage years such as 1898, 1899, 1900 and 1904 in order to tide over the poorer years when the perfect fruit is scarce, such as in 1896, 1897, 1901, 1902, 1903.

French Champagnes are made of black and white grapes, which are gathered in baskets by men, women and girls after the dew has dried off, so that no water is added to the juice of the grapes. After the grapes are taken to the Mumm "Pressoirs," or pressing rooms, all spoiled and bruised fruit is picked from each bunch. There they are subjected to one pressing so that only the best and richest juice is drawn off without extracting color from the skins. Wines produced from the second and third pressure are not used by G. H. Mumm & Co.

(To be Continued.)

METHODISTS PREPARE FOR THE CONFERENCE

Annual Session Will be Held in Vernon the Coming Week

The annual session of the British Columbia conference of the Methodist church which convenes in Vernon on May 17th, promises to be of special interest. This is the second time in the history of the Conference that its meeting has been held in the Upper Country, the conference having been held at Nelson in 1904. The people of Vernon are making every effort to give the delegates and visitors a royal welcome and many plans for their entertainment are being made. It is suggested that a goodly number will go from the coast to take part in the sessions of the conference.

Much interest is evinced in the visit of the Rev. James Allen, M.A., one of the secretaries of Missionary Society of the Methodist church, this being his first visit to the British Columbia conference. It was expected that the Rev. T. E. E. Shore would also be present, but at the last moment he sends word that it will be impossible for him to attend. There will be another visitor, however, from Toronto, in the person of Rev. W. B. Creighton, editor of the "Canadian Guardian," the official organ of the Methodist conference.

Conference Programme.

The twenty-first annual session of the British Columbia conference will assemble in the Methodist church at Vernon, B.C., on Friday, May 17th, at 9 a.m.

The stationing committee will meet on Wednesday, May 15th, at 10 a.m.

The statistical, Nominating, Sunday School, Epworth League and State of the Work Committee will met on Wednesday, May 15 at 2 p.m.

The Ministerial session will convene on Thursday May 16th, at 9.30 a.m.

Methodist Church, 9.30 to 10.45 a.m. Conference Love Feast, led by Rev. J. F. Betts; 1 a.m., Conference sermon by Rev. James Alen, M.A., General secretary of missions; followed by the ordination service, conducted by the President of the conference; 3 p.m., Sunday school address by Rev. John Robson, B.A.; 7.30 p.m., sermon, followed by conference sacramental service.

Coldstream—Rev. W. C. Schlichter.
Oyama—Rev. S. J. Green.
Commonage—Rev. James Hicks.
Car's Landing—Rev. F. J. Rutherford, B.A., B.D.
Okanagan Landing—Rev. J. D. P. Knox.
Enderby—Rev. R. N. Powel.
Armstrong—Rev. R. J. Meintyre.

Presbyterian church, Vernon—11 a.m., Rev. G. K. B. Adams; 3 p.m., Sunday school addresses by Rev. W. H. Barraclough, B.A., and Rev. T. H. Wright; 7.30 p.m., Rev. S. S. Osterhout, Ph.D.

Thursday, May 16th 8 p.m.—Missionary Addresses by Rev. W. E. Prescott, B.A., Rev. James Allen, M.A., Rev. T. E. E. Shore, B.D.

Friday, May 17th.—Reception service. Resolution moved by Rev. A. M. Sanford, B.D., seconded by Rev A. E. Hetherington, B.D.

Saturday, May, 18th.—Theological Union Lecture by Rev. W. L. Hall. B.D.

Monday, May 20th.—Temperance and Moral Reform. Addresses by Rev. J. P. Hicks, Rev. J. H. White, D.D., and Mr. George Bel.

Tuesday, May 21st.—Educational. Addresses by Rev. Principal Sipprell and Mr. D. S. Curtis.

The Rev. S. W. Gamble, D.D., will deliver a course of five lectures on "Sunday the True Sabbath of God," commencing Thursday, May 16th, at 9 a.m.

LIVE STOCK DYING

Maple Creek, May 11.—Very cold weather has prevailed the past month with heavy frosts at night and cold winds during the day. It is hard for the weak stock, which have just come through the hard winter. Much stock is dying off from the effects of the cold spring owing to there being no grass. The sheep are weak and the young lambs are dying.

NANAIMO SHARES IN INCREASED PROSPERITY

Business Active—Tobacco Growing on Vancouver Island Contemplated

Nanaimo, May 11.—As an indication of the increase of business in this city the Nanaimo Free Press four page daily today issued twelve pages for the accommodation of its advertisers. Today's issue of the Free Press was the largest ever turned out in Nanaimo.

Another sign of the present prosperous condition of the city is the large number of telephones being installed by the local company. So great has been the demand for telephones of late that the reserve supply was exhausted and a large supply of new instruments was ordered from the east. These have been delayed owing to the blockade, but arrived last night. The local manager has applications at the present time from seventeen new subscribers.

A couple of eastern tobacco men who are in the city have become so impressed with climatic and other conditions in this vicinity that they are looking for a suitable sight with the object of starting a tobacco plantation. The gentlemen are thoroughly conversant with the tobacco industry, and declare that the climate of Vancouver Island is unexcelled for the growing of the weed. If a suitable site can be secured they will commence operations in a few weeks.

Coal boring operations, which have been carried on in Cedar district, have come to a sudden termination. Work was stopped yesterday and the bore abandoned for the present time. Just why the work has been stopped has not been given out. It is said that the bore reached a depth of 1,900 feet, when only a thin seam of coal was struck. Owing to the great depth it is believed that it would be too expensive to sink a shaft with the present indications. However, several members of the company are confident that an excellent seam of coal lies beyond this point, and that when the bore was stopped indications were exceedingly bright. There are various rumors connected with the stoppage of work, one being to the effect that the death of Mr. Russell, in charge of G. T. P. affairs on the coast, brought about the determination to cease operations on the part of those interested. It is also stated that the company wish an extension of time. At any rate, it is believed that the boring will be continued at an early date. The plant in the meantime will be removed to another point at which the company has interests.

Samuel Thompson, of Nanaimo, has been appointed foreman of the Rosella mines, in which many Victorians are interested. Mr. Thompson leaves for the north with a number of Nanaimo men, who will spend the season on the Rosella mines, where extensive development work is to be prosecuted throughout the summer.

The baby boy of Mayor Planta met with a most unfortunate accident this morning. The infant was being held by his young brother near a stove when it wriggled out of his arms, falling on its head on the floor. The brother stooped to pick it up, and in doing so upturned a saucepan of boiling water, which ran all over its back and arms. The scald is a bad one, but the physician who is attending believes that the baby's life will be saved.

A DUBIOUS SPONSOR.

New York, May 11.—A resolution endorsing Governor Hughes for the Republican nomination for president, which was offered by Former Governor Odell at to-day's session of the Republican state committee, was laid on the table by a vote of 32 to 4. In moving that Ex-Governor Odell's motion urging the nomination of Mr. Hughes for president be tabled, Chairman T. L. Woodruff said: "I move that this resolution be tabled on account of the gentleman who introduced it by reason of his well known antipathy to the president of the United States."

PLANS FOR EXHIBIT ARE TAKING SHAPE

Committee Now at Work for Display at Northwest Fairs

It is understood that practically all those selected to act as members of the committee to take in hand the arrangement of an exhibit, representative of the southern portion of Vancouver Island, have consented to act. And, from what can be gathered, preparations will be commenced immediately so that the display may be made comprehensive, attractive and a thorough credit to this section of the West.

In order that the best class of fruit may be available at the time, it will be necessary to ship the goods to Winnipeg sometime early in the month of July, a competent man will be appointed among the representative fruit-growers, select first-class specimens and pay for them the highest market price. It is believed that only in such a way may the best possible results be obtained.

Much the same steps, it is understood, will be taken in respect to the floral part of the exhibit. No time will be lost in interviewing the nurserymen and the florists. Mr. Wallace, who is a member of the committee, is the proprietor of the celebrated bulb gardens which are located in the vicinity of Victoria. He advised immediate action towards obtaining specimens of coniferous plants. These could be utilized, if properly cared for, to great advantage, in his opinion, and, with the addition of a variety of cut flowers, would make a splendid showing. In respect to the flowers, Mr. Wallace says that great care must be exercised in securing and in shipping them, if it is the desire that they should reach their destination in the best of condition. "We must look to the gardens which surround some of our handsome residences for these flowers," Mr. Wallace asserts. But, he adds, they should not be cut in the heat of the day, placed in a box and sent, at leisure, to Manitoba. By such a procedure they would not be fit for exhibition purposes. On the other hand, if they are handled in a way that would be suggested by the professional florist, they would beautify the exhibit, and to make it such that it would attract widespread attention and induce large numbers of residents of the Middle West to make their homes on Vancouver Island.

HOUSEKEEPING FURNITURE

Everything for the Kitchen

Our aim is to carry everything you require for keeping house of the very best procurable. "Quality" is our standard.

SOMETHING NEW

We are showing two new exclusive lines of enamel-ware, quite different to that which we have shown before, and we feel quite sure it will meet with your approval.

STREET RAILWAY WAGES

Toronto, May 9.—A committee of Toronto Street Railway employees has been in session for several days at the Labor Temple drafting a new agreement which will, be submitted to the company. The committee has almost completed its work, and a midnight meeting of the union will be called within a week to which the new agreement will be submitted for ratification. It is understood the same committee will conduct negotiations with the company.

New York, May 9.—W. O. Douglas, the former loan clerk of the Trust Company of America, pleaded guilty today to the larceny from the company of stock certificates valued at $112,000. Douglas was remanded for sentence.
