SHARP'S COMPOUND
Concentrated Alkaline
Infusion of Sarsaparilla.

SARSAPARILLA Has of late years been more used, and with great success in cases of Chronic Rheumatism, as an alterative in Scrofulous affections, Scurvy, Obstinate Cutaneous Eruptions, Indolent Ulcers, diseases of the Periostum and bone, attended with obscure pains, wasting of the flesh, tenderness of the parts, tumours and nodes unconnected with Syphilis, and in that state of the habit known among medical men under the term *Cachexia*, but which it is not easy to define; in such cases Sarsaparilla proves a most valuable remedy, and often effects a cure when all other remedies have long been administered in vain, and when the diseased state of the system has been of many years duration.

It is also considered by the most eminent surgeons of the present day, to be the best medicine for ... establishing the constitution after it has undergone the effects of mercury.

The infusion contains all the properties of the Sarsaparilla, in a highly concentrated state, together with the addition of an alkali, which is strongly recommended by the late Abernethy, also by professor Brande, who in ... late edition of his valuable work on Pharmacy says, "the addition of an alkali in the preparation of Sarsaparilla ... facilitate the extraction of the soluble matter, and may be used with great advantage."

Amongst the advocates for this medicine, may be mentioned the names of sir B. C. Brodie, Bart., ... James Clarke, the late sir A. Cooper, Bart., Drs. ... Paris, M. Kye Grahame, Marshall Hall, M. D. R. S. &c. &c. Prepared and sold in bottles, ... 3s. 9d.
