LOCAL MARKET.

London, Tuesday, Oct. 30.

The market today was not very well attended by the farmers. The wintry weather no doubt kept many prospective buyers from putting in an appearance on the square; consequently the market was a dull and uninteresting one. There was not much change in prices, except for dressed hogs, which dropped 25c to 50c per cwt

Grain—Half a dozen loads of oats were offered; sales were brisk at $1 12 to $1 18 per cwt, according to quality.

Hay and Straw—There were only four loads of hay offered, which sold quickly at $13 to $14 per ton. Straw continues to be scarce, and the buyers would pay $6 per dozen for about a dozen loads.

Butter and Eggs—Butter was scarce and sales brisk, at 23c to 24c for crocks and 24c to 25c for pound rolls. Eggs are firmer, at 23c for crates and 24c to 25c per dozen for smaller lots.

Vegetables and Roots—There were not many potatoes offered today; sales were a trifle slow, at 85c and occasionally 90c per bag; cabbages, 25c to 50c per dozen; celery, 35c to 40c per dozen; other vegetables in fair supply at Saturday's prices.

Fruits—Not a very big supply in this line; apples sold at 40c to 50c per bu, and 50c to 75c per bag; pears were dull at 75c to 90c per bu.

Poultry—Saturday's prices were repeated today for the very small supply on the market.

Butchers' Meats—Prices were unchanged and the supply was small.

Dressed Hogs—Prices were lower, at $8 to $8 75 per cwt, mostly all selling at $8 50.

DAIRY MARKETS.

LIVERPOOL DAIRY REPORT, WEEK ENDING OCT. 19.

[Hodgson Bros.' Letter.]

Cheese—There has been a little expansion of demand, but great caution has been shown, and prices on the week are about unchanged, with probably a bit stronger undertone. Medium grades are in small supply, and meet a ready sale as landed. We quote today: Finest Canadian, colored, late arrivals, 63s 6d to 64s 6d per cwt; do, white, late arrivals, 62s 6d to 63s 6d; finest States, white and colored, 62s to 63s; earlier makes, riper goods, States and Canadians, according to quality, 60s to 62s; lower grades, nominally 50s to 52s.

Butter—There has been a better feeling with regard to strictly choicest continental, and this week's arrivals have been cleared. Irish butter is about unchanged in value, but supplies are now diminishing. Canadian is unaltered in value, and demand is limited. The Copenhagen quotations is cabled unchanged for next week. We report today's values as follows: Choicest Canadian creamery, in 56-lb boxes, 112s to 114s per cwt; choicest continental butter, in Kiel casks, 116s to 126s; choicest Russian and Siberian do, 98s to 104s; secondary grades, do, 88s to 96s; choicest Australian, 108s to 115s; choicest Argentine, none offering; choicest Irish creamery, 111s to 114s; choicest States creamery, 94s to 98s; choicest States process creamery, 92s to 96s; States ladies, imitation creameries and Canadian dairies, from 90s to 94s.

VENEZUELA FACES FRESH CRISIS

Castro a Paralytic and Signs of an Early Revolutionary Movement.

New York, Oct. 29.—A Philadelphia dispatch to the Tribune says that cable advices from Caracas report a situation amounting to a grave crisis affecting vast American interests in Venezuela. President Castro, in spite of recent denials, is said to be paralyzed and unable either to walk or to speak. He communicates his desires by feeble writings, and his true condition is held a state secret.

Spies and paid agents representing other countries and foreign corporate interests haunt the palace, and are most persistent in their hunt for news.

At the suggestion of Castro himself, Gen. Alcantara is camping just outside the city of Caracas with several hundred troops and his present activities promise a coup d'etat similar to that which made Castro president. Alcantara is Castro's choice for dictator, and the troops controlled by him will decide the issue unless Gen. Juan Vicene Gomez consents to enlist the people in a civil war.

Gen. Gomez is the constitutional vice-president of Venezuela.

At the moment Castro and his intimate advisers are debating the question of having Castro surrender his office to Alcantara now, just as he retired several months ago in favor of Gomez, who developed unexpected administrative qualifications. By installing Alcantara as president now it is thought that the threatening civil war can be averted. The present grave situation is no part of the long continued revolution directed against Castro as a man and as an official. This uprising, it is declared, has back of it a determination to install representative government.

TREASURER RESIGNS

Mr. Alex. Warden, Recently Appointed by Presbyterians, About to Step Out.

Toronto, Oct. 29.—Mr. Alexander Warden has tendered his resignation of the treasurership of the Presbyterian Church in Canada (western section), to which he was elected by the general assembly in June last.

He sent his resignation to the committee on emergencies today.

Mr. Warden was appointed in succession to his father, the late Rev. Dr. Warden.

The office held by Dr. Warden was sub-divided and part of its duties given to Rev. John Somerville, who was also made clerk of the general assembly. Mr. Alexander Warden was made treasurer, at a salary of $2,500.

It is understood that Mr. Warden intends to enter into financial business in Toronto.

GOT OFF EASY

Standard Oil Fined $5,000, Though Liable for $6,000,000.

Findlay, O., Oct. 29.—The Standard Oil Company this afternoon was fined $5,000 and costs of prosecution for operating in restraint of trade in Ohio.

The defense was allowed 40 days to file a bill of exceptions and sentence was suspended for 60 days to give defense time to file petition in error.

It was also ordered that the criminal informations pending against J. D. Rockefeller, the Buckeye Pipe Line Company and the Manhattan Oil Company be continued until the next term of court. The fine imposed by Judge Banker was the limit for one offense, though the law stipulates that each day that the illegal combination business is carried on constitutes a separate offense.

Taking this view of the statutes it was possible for the court to impose an aggregate of fines amounting to over $6,000,000.

QUEBEC'S SENSATION

Believed That Wife-Slayer Lecouteur Is Mentally Unbalanced.

Quebec, Oct. 29. — Hundreds of people have visited the scene of Saturday's tragedy on the Esplanade, the horrible affair being the chief topic in the city since the crime was committed.

George Lecouteur, the prisoner, is said to be acting rather strangely at the Quebec jail, and does not seem yet to understand that he killed his wife. The man's mind appears to be affected, some people think, who have known him for some time. It is known he had been drinking, and he said himself shortly after the shooting that he had not slept for a month.

The revolver and cartridge which he used were purchased at a hardware store on John street Saturday morning shortly before the murder.

The coroner this morning opened the inquest on the remains, A jury was selected, after which they elected a foreman, and the remains were then viewed. The coroner then adjourned the inquest until tomorrow morning at 9:30 o'clock, when it will convene at the courthouse.

AN END TO BILIOUS HEADACHE.—Biliousness, which is caused by excessive bile in the stomach, has a marked effect upon the nerves, and often manifests itself by severe headache. This is the most distressing headache one can have. There are headaches from cold, from fever, and from other causes, but the most excruciating of all is the bilious headache. Parmelee's Vegetable Pills will cure it—cure it almost immediately. It will disappear as soon as the Pills operate. There is nothing surer in the treatment of bilious headache.

WORMS CAUSE feverishness, moaning and restlessness during sleep. Mother Graves' Worm Exterminator is pleasant, sure and effectual. If your druggist has none in stock, get him to procure it for you.

NEWFOUNDLAND KEPT INFORMED

The Imperial Government Says Colony Knew of Each Step in Modus Vivendi.

London, Oct. 29.—Answering a question in the House of Commons today, Winston Spencer Churchill, under secretary for the colonial office, gave precise details of the steps taken fully to inform the Government of Newfoundland of the course of the negotiations for a modus vivendi on the fisheries question. He said:

"The decision of his Majesty's Government that a modus vivendi was necessary, and their intention to make proposals to the United States Government for such an arrangement, was communicated to the colonial Government telegraphically some days before the United States was informed.

"In the same telegram Newfoundland was asked to give her views of what form the modus vivendi should take, and no proposals were actually made to the United States Government until the reply of Newfoundland was received.

"Throughout Newfoundland was kept fully and promptly advised by telegraph. His Majesty's Government answered no communications of the United States without first consulting Newfoundland and endeavoring to obtain her concurrence.

"The note from the United States ambassador ratifying the arrangement was telegraphed verbatim to the colonial Government the same day as it was written and received."

Under the heading, "Necessary Imperialism," the Globe says: "It is absurd to trust to sentiment alone when with a little forethought and a little sacrifice of self-interest we can buttress the great structure our fathers built with indestructible securities. The complaint made by the colonies is founded upon justice, and it is only by yielding to demands which are really just, no less than by refusing firmly those which are not, that the empire can be maintained. The case of Newfoundland, driven to accept, or at least submit, to an agreement with a foreign power, by a minister over whom neither that colony nor any other has control, has, we hope, roused public attention to the importance of the question."

The St. James Gazette says it is not easy to determine whether Newfoundland's claims were set aside on sufficient or insufficient grounds. Obviously British policy must take account of a great whole, and the interests of the part, however reluctantly, be sacrificed for the good of the whole when occasion demands the sacrifice.

FEVER AT BLENHEIM

Another Case of Typhoid Develops—Sudden Death of a Citizen.

Blenheim, Oct. 29.—James Sellers, an Englishman, 40 years of age, who has been out here three years, died suddenly Saturday night at the home of Harwich Councilor J. B. Clark.

He had been slightly ailing for a few days, but not seriously ill. Saturday after supper he dropped dead while crossing the floor in the summer kitchen. A little daughter, 14 years of age, who recently arrived here, survives.

Another case of typhoid fever has developed here, making three in the past month. This time little Alice Burk, daughter of Ira Burk, is the victim. How serious her attack will be it is not yet known.

Hon. A. C. Rutherford, premier of Alberta, was here over Sunday visiting his brother, James Rutherford, of the Canada Flour Mills Company, Limited. He left today for the west.

LARGE FLEET RELEASED

Some 22 Vessels Start Out of St. Clair River—A Sheep Chase.

Sarnia, Oct. 29.—The fleet of 22 steamers and barges sheltered here and at Port Huron on Sunday departed up this morning.

Considerable excitement was caused in the Pere Marquete yards at Port Huron on Sunday morning by a number of sheep escaping from a stock car. It took the entire ward force over half an hour to capture the animals.

The Reid Wrecking Company have taken the contract to replace the big interstate bridge at Duluth on the piers. The price for the work to be paid by the Great Northern Railway Company is $60,000. After the work is completed Capt. Reid will take his wrecking outfit to the Canadian steamer Monkshaven, on Pie Island, wrecked in the big gales of last November. The Reids had the Monkshaven pumped, and were almost ready to take the vessel to Duluth, when the early September gale dashed her upon the rocks again.

TELEPHONE INSPECTION

Relations of Bell Company With Others Come Before Railway Commission.

Ottawa, Oct. 29. — The railway commission is beginning to hear from the telephone company, which the railway act of last session placed under its jurisdiction. So far eighteen agreements between the Bell Company and as many independent companies have been submitted for approval.

The points which come up for consideration are: 1. The Bell rates. 2. The local companies. 3. The clause which appears in all, restraining the local company from effecting connection with any other local company.

The express companies are working with Mr. Hardwell, the chief traffic officer, in submitting their tariffs to him, in anticipation of its asumption of jurisdiction over them at the beginning of the year. So far no complaints have been received as to express rates.

REDMOND WANTS THEM TO HURRY UP

Irish Leader Would Put Screws on Landlords Who Won't Reinstate.

London, Oct. 29.—John E. Redmond, the Irish leader, moved an adjournment of the House of Commons today in order to call attention to the lack of progress in the matter of reinstating evicted tenants in Ireland owing, as the speaker alleged, to the landlords hindering the operations of the land act by refusing to sell untenanted lands.

The land commissioners consequently were unable to provide for evicted tenants.

Mr. Redmond said it was obvious that the Government must resort to some system of compulsion. The patience of the Irish people was becoming exhausted, and although the Irish party desired to give opportunity for the greatest degree of fair play, pending a declaration of the Government's intention regarding Irish self-government, it thought that Chief Secretary for Ireland Bryce ought to grapple with the matter vigorously.

Replying to Mr. Redmond, Mr. Bryce, after some debate, said the Government had done its best to cope with the grave obstacles before it and had a certain measure of success. If the remedy is compulsion, the chief secretary said, the Government might have to come to that.

Walter Hume Long, Conservative, then declared that Mr. Bryce's statement involved a complete triumph for the Nationalists, and the subject was dropped.

INFORMAL DINNER

Members of "E" Company, Seventh Spent Pleasant Evening.

The weekly drill of the Seventh Regiment at the Armories last evening was marked by a large turnout.

E Company proceeded to a downtown cafe after the drill and there held a very enjoyable informal supper, over which Captain Campbell presided, while Lieutenant Hunt acted as vice-chairman. Speeches were made by Major Hayes, Captain McCrimmon, Lieutenants Hunt, Bentley Ware and Ingram and by Sergeant Jacobs and Private William Amos. During the evening songs were given by Lieutenants Hunt and Ware, and at a late hour the party dispersed.

The schedule for the indoor baseball and basketball leagues will be completed shortly, and the games will commence about the middle of November. The week following it is expected that the bowling alleys will be opened and that this winter a great deal of interest will be centered in this fascinating sport.

OCEAN STREAMS CHANGING

Fact Explains Presence of Southern Fish in Northern Waters.

Ottawa, Oct. 29.—The commissioner of fisheries, Prof. Prince, received a few days ago some scales and portions of a large fish captured in Harrigan Cove, N. S., by a Canadian fisherman, which has been determined to be a fine tarpon or giant herring. The tarpon ranks as the greatest of game fishes, and attracts large numbers of anglers to Florida and the Mexican coast, but its occurrence in northern waters has not previously been recorded. Prof. Prince attaches special importance to this capture as confirming a theory that the oceanic currents on the Atlantic coast of Canada are changing. The staff of the Canadian biological station have secured during the last four or five years quite a large number of fishes native to southern waters. The Spanish mackerel, the sword fish, the tunny and various tropical sharks have been captured more or less numerously, and the incursions of the dogfish point in the same direction, as the shark and dogfish tribe are the most abundant in wamer waters. The sealing industry in the Gulf of St. Lawrence has undergone considerable change in recent years, the movement of the ice being more irregular than in former years. Scientific authorities are looking for further evidence of this change in the gulf waters, pointing to alterations in the movements of the gulf stream and other minor currents from the southern seas.

HIGHER FIRE RATES.

Toronto, Oct. 29.—As a result of the recent fire losses in this city, the rate of insurance is to be increased on municipal buildings. The failure of the city to push the high pressure system to completion, and the complaint of the foreign companies carrying their insurance, have forced up the rate.

The city carries $117,000, and most of the recent losses have been borne by foreign companies.
