SUCH IS LIFE

F. Such Having Lots of Trouble With Motor Car—Appears In Court.

F. Such is having such a lot of trouble with his motor car. Only a few days ago it took up a position across the sidewalk, and Police Constable L. Chamberlain took his name for blocking the traffic. A little while later he did not heed the warning of P. C Sidney Scagell to get a mirror, and was forced to come to court this morning on that account. After making explanations, he was fined $2 and witness fees for stalling on the walk and was assessed the costs of the case for failing to have a mirror.

$8 Down Lets You Sew By Hydro!

Housewives! Featuring the Big Spring Electrical Exhibition now in full swing at the Hydro Shop is a remarkable demonstration and special sale of the

Famous Rotary Shuttle **White**

The machine that sews by hydro and enables any woman to perform the most difficult sewing operation beautifully. No strain; no noise; no wearying old treadle. Just apply a little pressure to the comfortable foot rest and the motor does the rest, responding instantly with any speed you desire.

The Hamilton Beach Home Motor that furnishes the power is a wonder—the best small motor the world produces. It's the general utility servant that, besides running the sewing machine, serves, with small attachments, as a high-speed ELECTRIC FAN FOR SUMMER USE. Or it will grind the knives, polish the silver, whip cream, mix mayonnaise.

The cost of operation will be about five cents a year of average service.

Electric Sewing Machines used to be a luxury. Now they are going into scores of homes in London to be used and enjoyed by women just like you. Don't miss this chance of a lifetime to secure one of the strictly limited number of standard $100 machines at the exhibition price of $68.00—payable, if you like, at $8.00 down and the balance on **SMALL MONTHLY PAYMENTS**.

FREE DEMONSTRATION

Mlle. Cox of the expert instruction staff of the White Sewing Machine Company of Canada, will be at the Hydro Shop every day during the free exhibition. Come in and see the machine at work. If you prefer, telephone 7000 and ask to have a machine sent to your home on a free trial. You can arrange for a demonstration in your own home or try it yourself.

SALVATION ARMY CLOSES CONFERENCE

Col. McMillan, Toronto, Chief Speaker at District Gathering Closed to Press.

At the Salvation Army conference held yesterday in the Salvation Army Citadel, Clarence street, spiritual and financial matters were discussed. Col. McMillan of Toronto was the chief speaker at the conference. He outlined the work of the Salvation Army fully to the large attendance of officers present from the city and outside points.

Afternoon and evening sessions were held, after which the officers left for their homes, more enlightened on the work which they will continue to do in their respective districts.

Owing to the private nature of the business under discussion the press was barred from all meetings.

"FATHER AND SON" WEEK TO START ON APRIL 5

Advisory Committee Meets at "Y" to Arrange Plans for Season.

The London advisory committee, which met last night at the Y. M. C. A., have passed a number of motions which will affect the work of the boys' department to a large extent. The "father and son" week, which was to have been held in February, has been changed to the week of April 5. A relay race is to be held Saturday afternoon of that week for all groups of the boys.

A motion was made by Messrs. Shaw and Hallawell, that the boys have a basketball league, which will be run along the same lines as that of the hockey league. The swimming question was brought up, concerning all the C. S. E. T. groups in the city. Messrs. Houlding and Wilcox moved that the groups be allowed to hold their swimming contests in the Y. M. C. A., the contest to be composed of three events, the winners to compete for medals.

A boys' council for the city was approved of. This council will work in conjunction with the committee in putting through the C. S. E. T. program. Each church in the city will be asked to send a representative to the Y M. C. A. next Monday night, so that a mayor, a board of control and aldermen may be elected

The boys will observe "go to church" Sunday, April 11, and a 3 c's (clean living, clean speech and clean sports) week will be held from March 19 to 25.

The question of mentors competing in the tests for the boys was brought up, and the secretary agreed to find ways and means of making the scheme possible.

A Tuxis conclave is to be held in the Y. M. C. A. on Tuesday, March 9, the supper to begin at 7 o'clock. The president and secretary will form the program for the evening.

The meeting was opened with prayer. Rev. H. T. Ferguson occupied the chair.

DIDN'T EXPECT JUSTICE AT CITY POLICE COURT

John Wener Retracts Statement—Bound Over to Keep Peace.

John Wener was bound over in the sum of $100 to keep the peace with his wife, Alice Wener, and all other persons, in police court this morning.

On Friday morning, during an altercation, the husband dared his wife to come out into the kitchen, saying, "I'll have your blood!" Mrs. Wener screamed and ran into the bedroom. He called her a vile name, and she threw a monkey wrench at him. As a result of the threat made against her, Mrs. Wener had the defendant arraigned in court on a charge of using threatening language.

One of Wener's daughters had left home because he has threatened to take her life. He claimed that the reason she left was that he objected to her coming home at 3 and 4 o'clock in the morning.

Every morning, the defendant said, he was forced to get his own breakfast. His wife would not do any of the household duties for him. She claimed that he did not pay her, and so she did not help him.

Wener wanted a separation, but was unwilling to pay his wife anything. W. R. Meredith, solicitor for the plaintiff, advised a charge of non-support being laid, and the matter cleared up in that manner.

During the case the accused wished to ask a number of questions to which Magistrate Graydon objected, because they did not pertain to the case.

"I didn't expect to get justice here," commented Wener.

"Do you want me to convict you for contempt of court?" asked the magistrate.

Wener said that he only meant that he could not ask questions to get certain information that he wanted.

"This woman is tortured to death by you," was the court's comment on the case.

NO ARRESTS YET.—No trace of the alleged chicken thieves who brutally beat into unconsciousness Robert Armour, a farmer of London Township, a few weeks ago, has been discovered by the county police as yet, although the constables are working on various clues.

125 THRESHERMEN HERE FOR SIXTH CONVENTION

Over 400 Expected for Tomorrow's Meetings in Knights of Pythias Hall—Every Section in Province To Be Represented.

One hundred and wtnety-five delegates to the Ontario Brotherhood of Threshermen's sixth annual convention, which is being held in the Knights of Pythias Hall of this city today and tomorrow, had registered at noon today. It is expected by the executive of the brotherhood that between 400 and 500 members will attend the convention, representing every part of the province.

An executive meeting was held this afternoon when many questions relating to the convention were discussed. The work of the committee for the past year was gone over. This evening's session will be addressed, it is expected, by Mayor E. S. Little, who will welcome the delegates; E. S. Downs, S. Oakes and George Wipers. Several committee reports will be given, and a general discussion held.

AMERICAN FIRMS OPEN ACCOUNTS IN CANADIAN BANKS

Local Man Refuses To Pay Exchange, But Gets Goods.

RECEIVES LETTER

Stating It Will Be Satisfactory To Pay in Good Canadian Money.

Refusal by George Wenige of the Bicycle and Motor Sales Company to pay exchange on goods purchased in the United States has led not only to permission to pay in Canadian money, but to the possibility of large sums of American funds being invested in Canadian securities.

Mr. Wenige absolutely refused to pay the high rate of exchange on American goods. Accordingly the companies with whom he was dealing opened accounts in Canadian banks. His payments were made in Canadian funds and deposited in Canadian banks. Now the American companies find it impossible to move these large amounts against the prevailing exchange rate. Accordingly they are considering investing them in Canadian funds.

Stevens & Co., New York, manufacturers of automobile and cycle accessories, in a letter to Mr. Wenige today say:

"Please be advised that until further notice we will accept Canadian checks in settlement of our account with regular terms plus two per cent. We shall continue to invoice, making a two per cent cash discount deduction for tenth proximate payment. In making remittance, however, instead of making this deduction you remit the face of the invoice; the two per cent representing an exchange adjustment.

"There is no need for us going fully into our feelings for taking this step, but we wish to advise that we do not intend to transfer these funds into American currency, as this would result in too serious a loss. We are arranging to maintain an account in Montreal, and are prepared, if exchange conditions prevail for a long period, to employ this fund by investment in Canadian securities. In view of the amount involved we cannot do this for an indefinite period, but shall attempt to maintain it for at least six months."

"It seems to have solved the exchange situation for me, all right," said Mr. Wenige today.

"We are getting the goods right along and are not paying exchange on them. I do not see why this condition could not be brought about generally, but other local businessmen do not seem anxious to take it up.

"The Hendee Company of Springfield have taken the same step. They opened a bank account at Toronto. About $175,000 has accumulated there from Canadian payments, and they are considering investing it in Canada."

LARGE ATTENDANCE AT DAIRY SHORT COURSE

R. A. Finn and J. L. Foote Are Opening Speakers.

The agricultural dairy short course opened today in the agricultural offices at the corner of Dundas and Talbot streets, with a good attendance. R. A. Finn, B.S.A., gave the opening address. He outlined the subject which the dairy course would cover, and the conditions of farming around London in regard to this line of business. He said that it would be wise for the farmers to grow all the food that was necessary for the cattle, owing to the high prices prevailing. When the cattleman is buying food for his stock he should know the analysis of the grain. This is important because it insures the health of the cattle, concluded Mr. Finn.

C. S. Tamlin, V. S., addressed the gathering on diseases of dairy cattle, prevention and treatment. He said that it was very important to know the system of the disease. When an animal refused to eat the temperature was not right, or the animal acted in an unnatural manner, it should be looked after. These troubles were the root of larger troubles in the future, he said.

J. L. Foote spoke on the principles of milk and cream testing at the afternoon session. He pointed out in the course of his lecture, that the chief thing in milk testing was the basis of payment. A farmer is paid for his milk according to the percentage of fat which it contains. For this reason he should be careful when building up his stock to see that the cattle are graded according to their value, both in milk producing and for butter fat.

Tuesday J. L. Foote will address those attending the course assisted by C. S. Tamlin, Dr. W. S. Downham and W. Porter, B. B. A. Wednesday R. A. Finn, J. Coke, B. S. A., and W. H. Porter will lecture. Thursday R. A. Finn, A. J. Slack, Ph. C., J. B. Whale, B. S. A., and Dr. H. A. Stevenson, M. L. A., will speak. Thursday will conclude the dairy short course.

HE SAYS THEY ARE SURELY THE BEST

Frank Hannon Swears By Dodd's Kidney Pills.

States That They Cured His Backache After Other Medicines Had Failed and That He Would Not Be Without Them.

Corcoran, Joliette Co., Que., March 1.—(Special).—Claiming that he is completely cured of backache from which he was a severe sufferer, Mr. Frank Hannon, a well-known resident here, is shouting the praises of Dodd's Kidney Pills.

"After trying various medicines for my backache," Mr. Hannon states, "I finally bought a supply of Dodd's Kidney Pills. From the start of the treatment I felt benefited and now I am completely cured.

"I therefore proclaim Dodd's Kidney Pills the finest on the market. I would not be without them."

Dodd's Kidney Pills strike right at the seat of the trouble, the kidneys. They are no cure-all. They are simply and purely a kidney remedy. But as cured kidneys strain all the impurities, all the seeds of disease, out of the blood, Dodd's Kidney Pills naturally get credit for curing a number of different diseases.

Ask your neighbors about Dodd's Kidney Pills.

ENCOURAGE WAR-TIME PRODUCTION, ADVISES EAST MIDDLESEX M. P.

S. F. Glass Introducing Resolution in House On Wednesday.

FIBRES ARE NEEDED

To Show Suitability of Certain Sections To Special Kinds of Products.

Ottawa, March 2.—By Canadian Press—"That national economics demand the broadest consideration be given to such means as may be necessary to encourage the fullest development of the natural resources of the Dominion," is the text of a resolution to be introduced in the Commons tomorrow by S. F. Glass, member for East Middlesex. Mr. Glass contends that the propaganda for increased production during the war warrants continuation of similar efforts. He urges particular attention to the production of flax, hemp and other fibres for which the soil and climate conditions in different parts of the Dominion have proven their suitability. Demonstration farms, help for the perfecting of machinery to harvest the crops, standardization of seed, propaganda designed to extend the cultivation of these fibres, and help toward developing the spinning industry in Canada, are all strongly advocated by Mr. Glass.

Insurance for Soldiers.

The provision of adequate insurance for the benefit of soldiers wounded in the war is urged in a resolution to be introduced tomorrow by A. E. Fripp, Ottawa. Mr. Fripp is also asking for a copy of all representations, complaints and other correspondence filed with the civil service commission regarding classification.

In addition to asking what has become of aliens interned during the war and the measures adopted by the Government to deal with them now that the war is over, P. E. Casgrain, member for Charlevoix, Montmorency, will ask tomorrow whether it is the Government's intention to issue bilingual stamps, coins, and paper money in the future. He will also ask the object of the visit of three cabinet ministers to Carleton-Victoria County within the past week. A further question by Mr. Casgrain asks if the excess business profit war tax is to be re-enacted for the ensuing year.

BUSINESS AGENT TO BE APPOINTED BY LONDON LABOR MEN

Action On Matter Wil Likely Be Taken At Next Meeting of T. and L.

Labor will appoint a business agent to attend to its affairs in the city in the very near future. Members of the Trades and Labor council claim that this is the only solution to the organization and upkeep of the Labor forces here.

For two years the matter has been under discussion but the time has come when delay is no longer good policy. The matter was discussed at the building trades council Monday night, but no action was taken. At the next meeting of the Trades and Labor Council this subject will receive considerable attention, is the prediction made.

By assessing each trade unionist in the city five cents per month the appointee could be given a good salary. He would be required to spend all his time fulfilling the duties of his office.

Weld Unions Together.

The appointment of a business agent would tend to weld all the labor organizations more strongly together, and would facilitate the work of organization. When an organizer came to the city, the agent would have the ground work laid for him, and being a resident here, would have a wealth of personal knowledge to give the international official regarding the conditions under which the members of the trade which was to be organized labored. One official in the ranks of labor stated today that the work in this city has become so great that it will require at least one full-time man to do it. Among the organizations with which he would come into contact are 65 locals, the metal trades council, the building trades council, the trades and labor council and the labor representation committee.

LONDON MAY RECEIVE WATERWAYS CONVENTION

Mayor E. S. Little and Ald. John Bridge Return From Buffalo Session of Commission.

A sitting of the deep waterways commission may be held in London some time after April 15. One is certain to be held somewhere in Western Ontario.

This was the statement made by Mayor E. S. Little and Ald. John Bridge on returning from the deep waterways convention at Buffalo Monday. They learned that a commission intends investigating the proposition for deepening the St. Lawrence by visiting cities from New York to St. Louis as well as Canadian cities along the proposed route.

The London delegates pointed out that Western Ontario was deeply interested in the proposition and should receive consideration. London's position of proximity to the lake was also pointed out. This resulted in a promise being secured to visit this section of the country and in all probability, London, as the centre of the district, will be chosen for the sitting of the commission.

ON MASONIC EXECUTIVE

Edwin Smith and Charles Gilbert Recently Appointed.

Right Excellent Companion Edwin Smith has been appointed to the grand executive of the Masonic Order of Canada and Very Excellent Companion Charles Gilbert has been appointed grand steward by Most Excellent Grand First Principal Col. Ponton of Belleville.

These appointments give London four representatives on the grand executive. Right Excellent Companions Oliver Ellwood and J. S. Barnard were elected to that body at the recent meeting of the Royal Arch Grand Chapter in Toronto.

PIONEER CONTRACTOR OF THIS CITY DIES HERE THIS MORNING

George Tambling Succumbs to Pneumonia Attack of Short Duration.

George Tambling, one of London's best-known citizens, died this morning at his home on King street, after an illness of two weeks from pneumonia.

George Tambling, who was 78 years old, was born in England, and came from that place to this city when a very young man and started in the contracting business, being identified with Tambling & Jones, contractors, for the past 48 years. The firm dissolved partnership two years ago.

Mr. Tambling is survived by three daughters—Mrs. E. R. Atkins, Mrs. T. A. McMahen and Mrs. O. H. Gidley, all of this city, and seven sons—John G., George R. and Fred of this city, W. E. Tambling of Vancouver, Frank S of Kansas City, Arthur of Detroit and Charles H. in Boston.

The funeral will be held from the family residence on King street on Friday at 3:20 o'clock. Interment will be made in Mount Pleasant Cemetery. Rev. R. G. Peever will conduct the services. Mr. Tambling was a member of the First Methodist Church.

SUSPENDED SENTENCE ALLOWED LOCAL AUTO MAN BY MAGISTRATE

Milton J. Smith Freed On the Charge of Receiving Stolen Goods.

Milton J. Smith, 346 Dundas street, was allowed to go on suspended sentence this morning after pleading guilty to receiving stolen goods. He is a garage owner, and had purchased two Hudson supersix cars which had been stolen in Detroit. He claimed that he did not know that they had been stolen at the time that he bought them. Later when the police inquired about them he denied knowing anything about them.

It was only because a number of citizens had spoke to Magistrate A. H. M. Graydon and Crown Attorney J. B. McKillop telling of his previous good character, that such leniency was shown him. These persons thought that on December 19 he intended to come to court and confess that he had hidden the cars, but later, in the hope of recovering the $1,800 which he had paid for them, he withheld the information.

The magistrate stated that it was because men purchased stolen cars that so many were stolen.

Y. W. C. A. BUILDING NEEDED IN LONDON

New Edifice for City Wanted —C. of C. Will Conduct Campaign.

"London has come to the point when she wants a new Y. W. C. A. building," declared one of the officials to The Advertiser this morning. "And so the only thing to do is to face the expense and erect a building which shall be a credit to the city and which shall widen the scope of protective work among girls."

Realizing this, the Y. W. C. A. board has placed its budget for $33,000 in the hands of the Chamber of Commerce to be included in the big general campaign for funds to be undertaken in the city this year. Fifteen thousand dollars of this amount will form a sinking fund towards a new building and $18,000 will be devoted to the carrying on of the work of the association, which is increasing with tremendous rapidity every year.

The Y. W. C. A. is doing a splendid protective work among women all over the world, and London is going to bear her share so that there will be no break in the chain of endeavor. The Y. W. C. A. is not an institution whose chief aim is rescue work, although often rescue cases come under their notice. Their aim is to make rescue work unnecessary by using preventive measures, and so they have their residences, their transient hotels, their travelers' aids, their clubs and amusements. Their aim is to become a social centre, and they are reaching out towards this aim splendidly in the city of London, although terribly handicapped by the lack of a large administrative building.

Better Than Girls.

"I sometimes think that the young men of this generation are better than the young girls," said a Y. W. C. A. representative to The Advertiser this morning. "On several occasions we have had young men bring young girls to our residence here and ask us to take care of them. In one instance a young man had found a young girl wandering alone on the streets at night, and thinking it too late to get into the Y. W. C. A. had taken her home to his mother for the night, coming to the Y. W. C. A. next morning. It really is a blessing to the community that there is such a place as the Y. W. C. A., where all girls may find a home, and where they may come when in difficulty."

IS INFLUENZA A GERM DISEASE?

Neglect of Common Colds the Most Frequent Cause of the Complaint.

Whether influenza is a germ disease is an open question on which medical authorities differ. It is certain, however, that in nine cases out of ten the disease reaches an acute form as the result of neglecting an ordinary cold. Every reader should take this statement to heart, especially in view of medical opinions which declare, "If colds are treated promptly we will hear far less about Grippe or Influenza."

The treatment for colds in the head is simple and may be handled at home. Grip-Fix, which may be secured at any druggists affords a means whereby relief will be given in a night and even an attack of grippe overcome in 48 hours. The preparation is one which will be approved by any physician, as it provides, in capsule form, just the drugs he would prescribe. A full list of these is printed on each box.

The action of Grip-Fix is to keep the system open, to quickly relieve the clogged-up condition of the head, reduce the feverish condition and allay the muscular soreness usually present. There is nothing in it which will lead to after effects; in fact, it tones up the entire system.

Have Grip-Fix always in the house. It is offered at 35 cents per box, and is on sale at all druggists.

DEMAND IS HEAVY FOR LABOR WORKERS

Government Bureau Reports That All Classes of Help Needed.

The representative at the Government Employment Bureau reported to The Advertiser that today there is a good demand for unskilled labor. The labor situation rises and falls. Some days there is a large demand for unskilled labor, while on other days there is a demand for skilled help.

At the present time, the books of the employment agency shows a demand for woodworkers, molders, electric welders and boilermakers and machinists with railway experience.

The demand for unskilled labor in other Western Ontario cities is heavy. At present the demand exceeds the supply.

Women's Department.

The women's department also sends out a call for help. There is a good demand, especially for factory help. The demand exceeds the supply, the same as in the male department. The women are not taking the same class of work as they have done in the past. People advertising for household help are experiencing great difficulty in finding any. The women are going to work in the factories, where higher wages are being paid.

CANAL STRIKE ENDS.

Panama, March 2.—The strike of the colored members of the Maintenance of Way Union in the canal zone, which at its height was estimated to involve some 15,000 men, was called off last night.

CLERGY THREATEN STRIKE.

Madrid, March 2.—It is reported that if the Government does not meet the demands of the clergy for higher stipends the parish priests will go out on strike

CRUDE OIL $6.10 PER BARREL.

Pittsburg, Pa., March 2.—Pennsylvania crude oil passed the six-dollar mark here today, the Seep Purchasing Company advancing the price to $6.10 per barrel, a new increase of fifteen cents.

ARE YOU FAT? JUST TRY THIS

Thousands of overfat people have become slim by following the advice of doctors who recommended Marmola Prescription Tablets, those harmless little fat reducers that simplify the dose of the famous Marmola Prescription.

If too fat, don't wait for the doctor's advice. Go now to your druggist or write to the Marmola Company, 864 Woodward avenue, Detroit, Mich., and for $1 procure a large case of these tablets.

They reduce two, three or four pounds a week without exercise, dieting or any unpleasant effect whatever. If too fat, try this today.

You will be successful if you maintain your good health.
