ANOTHER WIN FOR WANDERERS

Rosedale Cricketers Beaten on the Result of the First Innings—It Was a Howlers' Day.

Chicago's touring cricketers played off their fixture with Rosedale, securing a 21-runs' victory in a small-scoring game. The wicket was a perfect one, and thus bowlers had all the best of batsmen on both sides. Henderson of the Wanderers had the best average with the ball, taking 7 wickets for 25 runs. Twelve men a side played. Score:

Cricket Slips.

The following team will represent the Toronto C.C. in its match against Chicago on the grounds in rear of the University, beginning at 10.30 a.m.: Laing, Wadsworth, Goldingham, W. H. Cooper, Dean Collins, Saunders, J. E. Hall, Green, W. E. Tucker, and Rykert. This should prove a splendid match, as Chicago has defeated already some of Ontario's strongest teams. The match against East Toronto will not be played, as East Toronto cannot get together a team.

The following eleven of the W. A. Murray & Co. C.C. play at North Toronto on Saturday afternoon against North Toronto: Sutherland, W. F. Lancaster, Oxley (captain), Baker, Featherstonhaugh, Harris, Peters, Bugg, Tisdell, Hill and Dunn, and the following go to Brampton for Civic Holiday: Oxley, W. F. Lancaster, Sutherland, Baker (captain), Harris, E. A. Lancaster, Graham, Peters, Bugg, Featherstonhaugh and Dunn.

The following team will represent the Parkdale Cricket Club in their match with Gordon, Mackay & Co. on the Parkdale grounds this afternoon: J. T. Clark (captain), E. J. Fawke, H. Lucas, C. Leigh, A. E. Black, D. J. LeRoy, F. J. Berry, H. J. Webster, H. S. Garrett, G. G. Mackenzie, W. Tillson and F. W. Monteith, spare.

Riverside Football Club.

The Riverside Football Club will practice on the grounds west of the Baseball grounds at 3 p.m. to-day. All members are requested to turn out. The Riversides go to Oshawa on Monday to play the Brooklin team for a cup. As each of these teams have won a game, this one should be exciting. The following players are specially requested to turn out: Small, Brooks, Millar, Brown, Robinson, Deanis, Gentle, Craymer, Secker, Savage, Logan, Barkey, Crosby, Bongard.

National Yacht and Skiff Club Regatta.

The regatta to be given on Civic Holiday under the auspices of the N.Y.S.C. promises to be a splendid success. A lengthy program of all kinds of sports has been carefully arranged by the Sailing Committee. Many entries have already been made for the archery, jumping, rowing and tub races. Valuable prizes will be presented on each occasion. The members and their lady friends are requested to be present at 2 o'clock for a pleasant sail for an hour or so. Sports commence at 3.30 o'clock. Tea will be served by the ladies in the evening, after which there will be a dance.

The Niagara Bowling Tournament.

The splendid lot of prizes which are offered for competition at the big program next week will be on exhibition to-day and until Tuesday night at Chapman, the jeweler's, 261 Yonge-street. The bowlers are again reminded that the rink entries close Monday, Aug. 19. The draws will be made Monday at 8 p.m. at the Granite Club. All entries on Monday should be etlephoned or sent to Prospect Park Club. It being Civic Holiday, the secretary will be absent from 72 Queen-street. Singles and doubles close on the grounds Thursday. Boat tickets can be procured from the secretary or any member of the committee. Returns will be published Tuesday. The Queen's Royal will arrange to give accommodation to all bowlers, either in the hotel or cottages.

THE MERCHANT STAKES.

CLIFFORD MET HIS WATERLOO AT SARATOGA.

Rey El Santa Anita Won the Big Stake Race Under a Pull—Kilrona Ran Third to Argentina and Au Revoir—Merry Prince Captured the Bitter Root Stud Stakes—Entries for To-Day.

Saratoga, Aug. 16.—The attendance to-day was large, weather warm and the track fast. In the star event of the program—the Merchant Stakes, one mile and a furlong, purse $2500—Clifford met his Waterloo. Rey El Santa Anita not only beat him, but at the end was under a pull, while Griffin was whipping and spurring Clifford with his utmost energy. Rey El Santa Anita got away first, only to be passed at the stand by Clifford. At the quarter post, however, Clifford's opponent drew up abreast of him, and until the lower turn was reached the two ran neck and neck. Clifford was then let out, and ran a half length in advance of Rey El Santa Anita to the seven-eighth post, but here Perkins began to ride, and, despite severe punishment, Clifford could not maintain his lead. He was driven all through the last quarter, while Perkins did not hurry his mount a bit. Rey El Santa Anita won by half a length. The race was the prettiest one of the season. Summaries:

First race, 3-4 mile—Lady Desmond, 102, Perkins, 4 to 5, 1; Manchester, 105, Griffin, 4 to 5, 2; Fair Flora, 102 1-2, A. Clayton, 50 to 1, 3. Time 1.15 1-2. Runaway and Double Cross also ran.

Second race, 5 1-2 furlongs—Requital, 118, Griffin, 1 to 2, 1; Crescendo, 118, A. Clayton, 8 to 5, 2; Beau Ideal, 95, Hewitt, 40 to 1, 3. Time 1.08 1-4. Nimrod also ran.

Third race, Merchants' Stake, 1 1-8 miles—Rey El Santa Anita, 120, Perkins, 9 to 5, 1; Clifford, 126, Griffin, 2 to 5, 2. Time 1.55 1-2.

Fourth race, 5-8 mile—Argentina, 101, Griffin, 5 to 2, 1; Au Revoir, 101, Perkins, 7 to 5, 2; Kilrona, 95, Lamley, 10 to 1, 3. Time 1.02 1-4. Bernardine and Florey also ran.

Fifth race, mile—Lake Shore, 110, Martin, 3 to 1, 1; Saint Ilario, 99, Chown, 7 to 2, 2; Brandywine, 111, Griffin, 1 to 2, 3. Time 1.42 3-4. Laurel, Aimee Goodwin and Navahoe also ran.

Entries at the Spa To-Day

First race, 5-8 mile—Prince Lief, Damien, King of Bohemia, Master James, Ogdensburg, Rhododendron, 111 each, Mazarine, Tanis, Trident, Annie Barren, Sharrick and Elsmere, 108 each.

Third race, Bitter Root Stud Stakes, 3-4 mile—Merry Prince, Roundsman, Ramiro, 107 each; Refugee 104, Barrytone II. 100; Elusive, Sinloa III., 96 each; Sweet Favordale, Cadenza, 95 each.

Fourth race, mile—Ajax 107; Tom Skidmore, Candelabra, Dungarven, 104 each; Carraccias, Enthusiast, 102 each, Langdon 100.

Fifth race, steeplechase, short course—Young Orion 169, Cicero 162, Lionheart 147, May Blossom 145, Hellas 137.

On the Newmarket Track.

Next Monday, Aug. 19, being Civic Holiday, the citizens of East Toronto and Little York will celebrate the day in horse races, bicycle races, sports and amusements on the Newmarket track at Bayview Hotel (Shaw's), on the Danforth-road. There will be a half-mile local trot for a purse of $14 and a half-mile local running race for a purse of like amount. A grand football match for a silver cup valued at $15 will be played, and for bicycle races several interesting prizes have been donated. Foot races for railway men and others will also be run. C. Blaylock, the energetic secretary, and T. G. Paterson are doing their utmost to make the affair a grand success. The judges upon this occasion will be Reeve Richardson, George Empringham and J. Warren.

Fall Races of the Hunt.

The Country and Hunt Club's fall races take place at Woodbine Park Sept. 21 and 28, with this program:

First day, Sept. 21; entries close Saturday, Sept. 14.

Two Races at Buffalo.

Buffalo, Aug. 16.—The statement is printed here to-day that if the Hamlins decide not to hold a meeting here next summer that Palmer L. Clark of Red Oak, Iowa, founder of Clarks' Horse Review of Chicago, stands ready to lease the track.

Only two races were on the card to-day. Jo-He was a 7 to 5 favorite in the 2.13 class pacing, and after the first heat the bookmakers would have none of him. George St. Clair won with like ease in the 2.21 class pacing. Summaries:

A MILE AT THE ISLAND IN 1.57.

Fast Tandem Trial by O'Connor and Seavey—Entries for To-Night.

The fastest mile ever ridden in Canada was done at the Island track yesterday morning. It was wheeled by Pat O'Connor and Seavey, on a tandem, paced by Weinig and Stevenson, the first half on another tandem. The time was 1.57, the first quarter in .27, half .58, three-quarters 1.27. It was a great practice spin, and shows the quality of Tom Eck's string of flyers. Fred Young and John S. Johnson both reached the city last night, the former from New York, and the champion from Minneapolis, where he was fairly successful in disposing of a barnfull of pianos, silver plate, etc. Johnson has not raced since July 4, and is a trifle heavy, while Young is in prime form, and there are many who think the little flyer will at least do the trick in one of the three mile heats to-night, as John S. is unused to racing by electric light. Only four entries were received in the professional novice, and it has therefore been declared off. But, with the match race, professional handicaps, open professional half-mile and the class A handicaps, a splendid program is made up. Besides, the great Japanese troupe will give their exhibition.

Bicycle Briefs.

At Peterboro', A. McLeod won the 10-mile championship race. The fastest exhibition was that given by T. E. McCarthy, who rode against the 1.02 half-mile record, and succeeded in breaking it, finishing in 59 3-5 sec. The other winners were: Half-mile, open, class B, McLeod; two-mile handicap, Grant; one-mile open, class A, Blayney; one-mile open, class B, McIntosh; two-mile open handicap, King, Peterboro'; mile tandem, McCarthy and McIntosh; two-mile handicap, Class A, Gordon; five-mile open, class A, Elliott.

SHAMROCKS OR CAPITALS?

Lacrosse Match for the World's Championship at Hanlan's Point.

Civic Holiday will be a great day for sporting men at Hanlan's Point. The lacrosse match between the Shamrocks and Capitals for the world's championship will attract lovers of the national game from all parts of the province, and the Gaudaur-Durnan boatrace will be witnessed by all the old-time enthusiasts who backed Hanlan in the palmy days.

All railway and steamboat lines are issuing extraordinary cheap rates, and lacrosse men from all the C.L.A. districts will be on hand.

If the Shamrocks lose it will mean a big depreciation in their gate receipts when they play in Montreal on July 7, and if the Capitals are trounced they will also fall into disrepute with their backers in Ottawa. Knowing this, both clubs are sending up their best teams, and, as it is the first time that they have met on neutral grounds the match will surely be the keenest of the past five years.

Gaudaur takes daily spins and never looked better in his life, while Durnan has completely recovered from his recent illness. The boatrace takes place immediately after the lacrosse match.

Lacrosse Points

The second twelve of the Elms, Senior champions of the City League, will send the following team to Peterboro' on Civic Holiday, train leaving at 7.30 a.m.: Harvey, Shoemaker, Soules, Creelman, Wardrobe, Wagborne, Lennox, Kyle, White, Hallet, Smith, Poole, J. Lee (captain).

Dr. Roberts of Brampton will referee the game between the Elms and Junction Lacrosse teams to-day at the Junction.

The following will represent the Independents on the Toronto grounds at 4 p.m. to-day: J. Grogan, Sullivan, Leason, O'Neill, Sullivan, Proctor, Milner, Whalen, O'Connor, Staples, Walker, Ginn, Robins, Upton, E. O'Neill (field captain).

Royal Toronto Out for a Sail.

The Royal Toronto Sailing Skiff Club were the guests of Commodore Pellatt on the steam yacht Cruiser last night. A pleasant sail around the Island and down to Victoria Park was much enjoyed by 75 persons present. A good program was rendered by some of the members, and Bugle-Major Davies' band enlivened the affair to a great extent.

Athletic and General Notes

Jake Gaudaur, the champion oarsman, arrived in the city yesterday, and is training for his Civic Holiday race with Durnan.

For Henry of Navarre, Mr. Belmont paid $35,000, for Dorian $17,000.

Entries for the Ontario bowling championships, which begin next week at Niagara-on-the-Lake, are coming in quickly to the secretary, Mr. Q. D. McCulloch, 72 Queen-street east, Toronto. The bowlers of Ontario have come to look upon this association tournament as the most enjoyable outing of the season, and not the play alone, but the pleasant associations and friendships after the day's sport is over, that make a charm of a tournament at Niagara. Entries close on Monday next at noon.

Civic Holiday bluerock shoot at the Woodbine will commence at 1 o'clock, and the program consists of six events for cash and merchandise prizes. There will be a team match, and two prizes will be given for highest averages. Several teams are expected from a distance.

The Stanley Gun Club will hold an open shoot at the Woodbine to-morrow (Saturday), commencing at 2.30.

The annual regatta at Lorne Park is to be held on Monday (Civic Holiday). A lengthy program has been prepared, consisting of boat, bicycle, swimming and foot races.

Toronto Opera House.

As "Percy and Harold," Ward and Vokes are probably known to thirty of the sixty millions of people in the United States, and it is safe to figure that 98 per cent. of these thirty millions of people have at one time or another given themselves entirely over to the side-splitting antics of the bogus Lord and the humbug Baron. Ward and Vokes retain the "Percy and Harold" trademark in their successful play, "A Run on the Bank." They are surrounded by an unusually large and talented company, and the opening at the Toronto Opera House promises to be a merry one. The engagement opens with a special matinee on Monday.

Franklin Wants to Unload Toronto

Buffalo, Aug. 15.—It is possible that the Buffalo Baseball Club may change owners before the season closes, or, if not, then at least before another opens.

A most flattering offer has been made to Ald. Franklin, and he now has it under consideration. The sum offered was certainly a liberal one, and the probabilities are that he will accept it, especially as those nearest to him claim that he has carried the enterprise at a loss, except in 1893 and 1894. When the offer was made Mr. Franklin suggested that the other party take the Toronto franchise instead. From this it might be deduced that he is interested in the Canadian Club, and would like to unload if possible. However, Mr. Franklin and Manager Chapman have both frequently asserted that no one but the latter had any interest in the Toronto club.

The gentleman who made the offer to Mr. Franklin is a contractor with a large business, and is a great baseball enthusiast. This gentleman said if he could secure the present franchise he would at once lay wires for the franchise in the National League.

Great Game of Ball.

The Armouries and the Derbys of York-avenue played yesterday on the Esplanade diamond at the foot of Bay-street. Gourley and Wicks were in the points for the Armouries, and Smith and Kerns for the Derbys. The feature of the match was Jeff Whalen's home run when the bases were full. This victory gives the Armouries the championship of the Royal League. They are now looking for a game with the Torontos, since they have struck a winning gait. The score was: Armouries 17, Derbys 12, Armouries 22 hits and Derbys 12. The winners played an erroless game, while the fielding of the Derbys was ragged. Umpire, Mr. Clarke of Hamilton.

Galt and Guelph on Equal Footing.

Hamilton, Aug. 16.—The Galt Baseball Club has entered a protest against the game played here on Wednesday, on the ground that John Player was not eligible to play with the Hamilton club, 30 days having not elapsed since he played with London. The protest will probably be sustained, as only 25 days have expired since he played with London, and this will put Guelph and Galt on an equal footing.

Galt and Guelph play at Guelph to-day. Reid of London and Lyndon of Toronto umpire.

The Hamilton Nine Here To-Day.

The Hamilton Baseball Club play on the oval at Hanlan's Point to-day at 3.30 p.m. with the Crescent Athletic Club. Moore and Baker will be in the points for the visitors, and F. T. Thompson and Reid for the home team. Galt plays two games on the old Upper Canada College Grounds, King and John-streets, with the Crescents Civic Holiday. Morning game at 10, afternoon at 3. Burnett and Handley will do the twirling for the visitors, and F. T. Thompson and Wilson for the home team.

Syracuse and Toronto.

On Civic Holiday the Torontos will be home for two games, playing Syracuse morning and afternoon. The Torontos have been playing in great form the last two series, winning five out of nine games, losing three by the small margin of one run. A first-class pitcher and outfielder have been secured.

Baseball Brevities.

The Kemp Manufacturing team play in Guelph with the Maple Leafs on Civic Holiday.

The Grand Opera House club played at Island Park yesterday with the Windsor Hotel, resulting in favor of the former by 9 to 0.

The following will represent Fiddes & Hogarth in their game with Purdy, Mansell & Mashinter on the grounds at the corner of Woodbine-avenue and Queen-street: J. Fiddes, E. Rowlett, R. Brown, E. Brown, P. Cosgriffe, F. Lawlor, J. Stockwell, A. Newton and A. Nicholson.

The old Hustlers have formed again, and would like to hear from some city team for a game on Civic Holiday, average age 18. Address Geo. Hussey, 324 Richmond-street west.

The manager of the Ivy Leafs says he is willing to put up from $1 to $5 on his club to play the Regents on any date, any grounds, except the Don Flats or the foot of Yonge-street.

The Copeland and O'Keefe Breweries play the first of their baseball series on the Toronto grounds to-day, starting at 3.30 p.m.

An exciting game of baseball is looked for to-day, when Heintzman's and the American Watch Case Company meet at old Upper Canada College grounds, corner King and John-streets, at 3 p.m.

The employes of John Ritchie will play Fred Armstrong's club at Simpson-avenue, near Broadview, this afternoon, game called at 3 o'clock.

The manager of the Wilmots writes: I notice in your issue of the 16th inst. a challenge from the manager of the Star B.B. Club, styling themselves champions of Toronto. As the Wilmots hold the championship, they are open to defend it, and receive all challenges.

The Danglers II. would like to arrange a game with the Royal Oaks for Aug. 24. State age. Address F. Howell, 9 Major-street.

The Dauntless would like to hear from some city team for a game Civic Holiday morning on their diamond, beside the Toronto grounds, Wellingtons and Standards preferred. H. Smith, 93 McGee-street.

The Dovercourts would like to receive challenges from any club, average age 16, the west end preferred, or any junior team. Address Bert Creller, 138 Dovercourt-road, city.

ISLAND AND WHARVES.

Another Batch of United States Pleasure Seekers Visit the City.

Almost every day now Toronto is visited by large parties of American excursionists, who have been at the Falls and come across the lake to see Toronto before returning to their homes. Yesterday the pleasure-seekers were from Toledo and Hartford, and they came here on the Empres of India, Chicora and Chippewa, returning to the Falls in the evening.

Employes of Barber & Ellis Co. spent the day at the Falls, going by the boats of the Niagara Navigation Co.

There are a lot of entries for the Island Amateur Aquatic Association sports at Hanlan's to-day, and some good sport is promised.

AN ANTI-FRICTION METAL.

Aluminium Was Discovered to Have the Right Properties.

When it became apparent that aluminium would be produced in sufficient quantities, and at a price permitting its liberal use in mechanical arts, metal workers of progressive ideas immediately began experiments to determine in what way it could be made useful in their particular line of manufacture.

It was successfully alloyed with cast iron to insure cleaner and softer castings; with wrought iron to make "Mitis" castings; with copper to produce a tough and strong bronze, and with copper, silver, nickel and zinc to obtain aluminium alloys of various degrees of hardness and strength.

Makers of anti-friction metals, with their usual enterprise, took up the subject, but soon found that aluminium was a difficult element to deal with in connection with the softer metals. Aluminium itself does not possess anti-frictional qualities to any great degree by reason of its dry nature; and even if it had those qualities it would not be suitable for filling bearings on account of its high melting temperature.

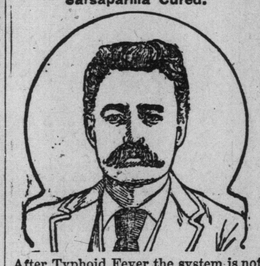
Some Babbitt metals alloyed with aluminium promised for a while to be successful, but after a fair trial they were found to be too difficult to manage for general use. Other alleged aluminium Babbitt metals appeared on the market, but they soon proved to be not as represented. Early in the spring of 1891, the A. W. Cadman Manufacturing Company of Pittsburg, who were using aluminium extensively in their brass foundry, had occasion to make some Babbitt metal for exceptionally hard service in a place where it was doubted that Babbitt metal would answer at all. Like a drowning man catching at straws they concluded to try an alloy of aluminium; and by one of these strange freaks of fortune, struck the correct method at the first trial, producing an alloy containing aluminium, which not only answered the purpose for which it was intended, but is a surprise to every one who has used it. The first lot made was put at work generally considered too severe for Babbitt metal. It is still in use after four years' hard work, and appears good for several years longer.—Aluminium World.

Left and Right Limbs.

The physiologists and scientists in general have been making some curious experiments in London, with a view to determine the relative length and strength in "right" and "left" limbs. Fifty and nine tenths per cent. of the men measured had the right arm stronger than the left; 16.4 per cent. had the two arms of equal length and strength, and 32.7 per cent. hal the left arm stronger than the right. Of women 46.9 per cent. had the right arm stronger than the left; 24.5 per cent. hal the left stronger than the right. In order to arrive at the average length of limbs, 50 skeletons were measured, 25 of each sex. Of these, 23 had the right arm and left leg longer, six the left arm and right leg, and four the right arm and right leg while in 17 cases all the members were more or less equal in length.—St. Louis Republic.

Blood Poisoned

In Dreadful Condition Till Hood's Sarsaparilla Cured.



After Typhoid Fever the system is not only left in a debilitated condition, but the blood is often poisoned by the germs of disease, as in the following case:

"My case has been such a severe one and I have suffered so much that I think I ought to tell how I have been cured by only two bottles of Hood's Sarsaparilla. Four years ago I had typhoid fever—was sick about forty days—and barely pulled through with health about ruined. The effects of poisoned blood manifested themselves in dreadful ulcers. They prevented my returning to work, and for three years I was able to labor only a few days at a time. The sores discharged continuously so that I had to keep them bandaged. I had six physicians at different times, and was given temporary relief. But as soon as I began to work hard the sores would break out again as bad as ever. For weeks at a time I could not get out of the house, and for over two years I could not bear my weight on my right leg and had to walk with a cane. I began taking Hood's Sarsaparilla in February, 1894, and in two weeks noticed an improvement.

The Terrible Itching and Burning

grew less venomous and fiery, and when I had taken only two bottles and used one box of Hood's Olive Ointment and two boxes of Hood's Pills, the sores had all healed, leaving only scars as a reminder of my dreadful sufferings. My general bodily health has also wonderfully improved. I had been reduced almost to a skeleton, from 160 to 130 pounds, which I have now regained. Hood's Sarsaparilla has restored my mental health also, and I can think, remember and act as promptly as ever. Typhoid fever ruined my health for four years, and cost me $3000. Two bottles of Hood's Sarsaparilla have given me health and new ambition." E. E. RAMSAY, Summerside, Prince Edward Id.

Artificial Whalebone.

We have referred several times to the reported invention of an artificial substitute for whalebone. The process of manufacture is now announced, and we quote from Industries and Iron the following description of it: "It consists in first treating a raw hide with sulfid of sodium and then removing the hair; following this, the hide is immersed for a period of 24 or 36 hours in a weak solution of double sulfate of potassa, and then stretched upon a frame or table, in order that it may not contract upon drying. The desiccation is allowed to proceed slowly in broad daylight, and the hide is then exposed to a temperature of 50 degrees to 60 degrees; the influence of the light, combined with the action of the double sulfate of potassa absorbed by the skin, renders the gelatine insoluble in water and prevents putrefaction, the moisture, moreover, being completely expelled. Thus prepared, the skin is submitted to a strong pressure, which gives to it almost the hardness and elasticity which characterize the genuine whalebone, with the advantage that before or after the process of desiccation any color desired can be imparted to it by means of a dye bath. The material can be rendered still further resistant to moisture by simply coating it with rubber, varnish, lac or other substance of the kind.—Literary Digest.

The Miner's Pick.

A peculiar fact was lately pointed out by the President of the Manchester, England, Geological Society, namely, that although much has been done to improve the operation of coal-cutting, the collier's pick remains exactly what it has been for the past century, and as to coal-cutting mechanisms, not a single machine of the kind is at work in the Manchester district to-day. As to motive power and the three methods of driving, viz., steam, compressed air and electricity, the President considered steam to be impracticable, but much was to be said in favor of compressed air as to being safe as well as helping to cool and ventilate the workings, but the loss in transmission is very great; on the other hand electrical transmission involves a loss of not more than five per cent., and now that the difficulty from sparking has been overcome, it must be regarded as the motive power of the future. A novel machine combining these two forces has been introduced; it has, in a word, the advantages of compressed air, while the actual motive power is electricity—the mechanism is, briefly stated, a cutter-bar drill and an electric motor connected by suitable gearing, and in doing its work only the minimum of dust is produced.—New York Sun.

Quite Incredible.

Gibbs—Did you know that the latest census returns in Chicago show that there are about 1,000 deaf mutes living in the city, industrious and uncomplaining?"

Nibbs—I don't believe it! A man can't live in Chicago uncomplainingly if he never has a chance to talk about what a great town it is."
