WHEAT TRADERS WATCH OTTAWA

Fear of Action by Borden Cabinet Dampens Bullish Enthusiasm.

CHICAGO, Sept. 11.—Assertions that tariff changes affecting grain importations from Canada need not wait for the assembling of parliament in January, but may be put in force at any meeting of the Dominion Cabinet had a bearish effect on the wheat market here today. The close was weak, ⅞c to 1c under last night. Corn suffered a net decline of 1⅛c to 1½c. Oats finished ⅞c to 1⅛c down, and provisions were off 7½c to 25c.

Advices regarding the outlook for early free entry of wheat from Canada were in flat contradiction of latest advices of the previous day, but were generally accepted as true and acted on accordingly. Absence of export call, aside from a little on weak spots, counted further against values, and so, too, did the slackness of merchandising demand.

Altho wheat rallied somewhat at times, the market failed to hold, and each time sagged lower than before. Bearish cables, big receipts from the spring crop, and rains that improved the prospect for fall plowing were among the factors responsible for the defeat of the bulls.

Corn could not stand up under aggressive selling by the leading shorts, especially as longs of various degrees were unloading to a considerable extent. Rain reviving pastures had a good deal to do with the weakness. The best recovery was due to predictions of frost for South Dakota and Minnesota, but advices came from those states that the crop was, for the most part, out of danger.

Reports were current that a large amount of oats would be shipped into the United States from Canada. As the actual difference between Winnipeg and Chicago prices amounts to about 10c a bushel, the effect on the market here was depressing.

Provisions went decidedly lower on account of continued weakness in the hog market. Pork fell sharply under the $20 level. There was a good deal of selling pressure from packers.

LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, Sept. 11.—The market opened steady ½d higher, being influenced by the firmness in America yesterday. Following the opening selling pressure developed and prices declined, with the principal weakness in the near month. General realizing was induced by the cheaper Canadian offers, fine weather in the United Kingdom, forecasts of larger Argentine shipments and more pressure to sell cargoes. Selling was also influenced by the weakness in corn.

Corn opened steady unchanged in sympathy with the steadiness in America. Later heavy realizing occurred and values declined with the principal weakness in the near month. Selling was induced by the forecast of large Argentine shipments and practically no enquiry for either cargoes or parcels. The market appears overbought. The more favorable weather conditions in the American Southwest also had their effect.

THE RECORD CROP IN WEST.

WINNIPEG, Sept. 11.—The Free Press crop report out today estimates the wheat crop of the three provinces at 193,878,000 bushels, or 12,000,000 more than last year's harvest. The oats estimate is 208,308,000 bushels, barley 35,432,000 bushels, and flax 17,500,000 bushels.

The bulk of the cattle was of the light weight class, made up of stockers and feeders generally.

The best heavy feeders were in demand, but light steers not heavy enough for the distillery byres were not so eagerly sought after, and prices for these did not advance in proportion to those bought for the distillery barns.

Market Notes.

Jos. Stephens, the dean of the Buffalo stock market, during his visit at this market this week stated to The World that he was very much pleased with the Union Stock Yards of Toronto. And furthermore he considered them the most up-to-date that he had ever seen on the continent.

During the Exhibition week there were many old time cattle men visiting the yards. Prominent amongst them were Messrs. John Rogers, who has lately returned from Liverpool to this city, and Isaac B. Groff, late of Waterloo, but now a leading cattleman of Stettler, Alberta. Both these gentlemen received a royal welcome from all the old-time dealers on this market. Mr. Groff informed The World that he had 150 choice steers, 1700 lbs. each, purchased for delivery in October, and that he again would be on hand at the coming Fat Stock Show at these yards.

Mr. Groff made things lively at last year's fat stock show, and it looks as tho our Ontario cattlemen would have to get busy if they intend to beat the old Waterloo veteran this year.

PREPARING FOR NEW ISSUES IN LONDON

Tacit Agreement Among Underwriters at an End—Money Now Available.

LONDON, Sept. 11.—The temporary cheapness of money, which is indicated by day-to-day loans at 2¼ to 2½ per cent., with discounts down to 3 9-16 per cent. for sixty-day bills, is causing a fair investment demand, particularly short dated securities.

The recent absence of new issues, which resulted from the tacit understanding among underwriters to await the digestion of securities they had been compelled to shoulder before offering new ones, has had its effect, and has permitted a fair accumulation of investment money. This should increase in volume as time progresses if trade continues to recover.

Meanwhile, new capital issues are being resumed. Among those in course of preparation is one of £3,000,000 3½ per cent. bonds for the Soudan, which will be guaranteed by the British Government. The London water works board will also soon announce an issue of stock on favorable terms.
