A MODERN INSTANCE.

The Evolution of the Grocery Store—New a Big Establishment.

"Where will the process of evolution stop?" one is prone to ask, when reflecting upon the great strides that progress has made in recent years. New necessities have sprung up, calling into existence new sources of supply. And thus the modern grocery store has evolved from the "corner grocery" of our childhood days. Can any reader of epicurean taste imagine an enjoyable existence on this mundane sphere without the modern grocery? Surely not, for there his every want—in the matter of edibles—is unfailingly supplied.

Taking, for example, the well-known establishment of Robert Barron, at Yonge and Czar-streets, we find within the four walls of the big store everything necessary for the table. In addition to staple groceries, with all that comprehensive term implies, we find, to generalize: French and English table delicacies in endless variety; the fancy biscuits of many manufacturers, confectionery, dried fruits, nuts, oranges, etc., for dessert, and even cut flowers to ornament the board, not to mention the provision department, in which a perfect stock of hams and bacon, pressed and preserved beef and fowl, and tinned soups, etc., butter, eggs and cheese is always kept. In fact, there is nothing in all the requirements of the most fastidious that is not to be obtained at Barron's, and as he is a direct importer there is only one profit on everything.

Alterations at the Parliament Buildings.

Several alterations are to be made at the Parliament Buildings. The reception room will be converted into an annex to the library and the smoking room turned into a reception room. The old telephone room will hereafter be used as a smoking room. Messrs. J. B. Smith & Sons have been awarded the contract, which is about $600, and the work will be proceeded with immediately.

A single trial of Dr. Price's Baking Powder will show that in real merit it surpasses all others. For economic and hygienic reasons alike, inferior powders should be avoided.

Big Blaze in Colborne.

Colborne, Ont., Nov. 30.—At about 7 o'clock this morning fire was discovered in Elford's general store in King-street, which quickly spread east to Rieves' large brick and wood skating rink, Martin's butcher shop, dwelling and barn, Windover's bakery, dwelling and barn, west it spread to Huyck's drygoods house, Brown's barn, Peterson's barn, Yeoman's livery and Chase Bros.' block, which is badly damaged.

Thieves at Chester.

Thieves are operating extensively in the neighborhood of Chester. A sheep was stolen from the slaughter house of Thomas Bennett on the Don-road, and again on Thursday night a pail of oysters was stolen from Harry Love's store, Broadview-avenue and Danforth-road.

Henry A. King & Co.'s special wire from Ladenburg, Thalman & Co., New York: Practical confirmation of the reports that the Sugar Trust would shut down all its establishments indefinitely had a very depressing influence on the entire market to-day. It may be recognized that this move on the eve of the reassembling of Congress has a political basis, but it must be also taken into consideration that this action is likely to be followed by a reduction in the company's dividend. In spite, therefore, of the apparent support extended to sugar at 83 1-2 or over from pool brkers, the course of the stock has been influential in weakening the entire market. Chicago Gas was weak on bear attack and the prospect to reorganize. Distillers frightened people who have no faith in the management. Late in the day the Grangers developed weakness on the B.Q. October statement, which shows a decrease of $759,000 in gross and $227,000 in net, the percentage of operating expenses being too small to admit of any explanation other than that the road is being vigorously "skinned." There were no features in the latter trading, the market being simply steady and dull though the strength of exchange rates suggests the probability of gold shipments next week.

Henry A. King & Co.'s special wire from F. G. Logan & Co., Chicago: We have had a firm and active wheat market from opening. There is a disposition by our pit traders to fight any advance, owing to light clearances from the seaboard. The visible due on Monday should, and we think will, show no increase. We look for price to sell a good deal higher, owing to the scarcity of foreign and English wheat for immediate wants. A fair business in corn, but at low prices. Until receipts let up we do not look for higher prices. Mild and wet weather in the west, we think, will reduce the movement. Provisions opened strong and higher, with good local buying, advancing with grain. Packers became sellers at the advance, and eased the market to opening prices.

Schwartz, Dupee & Co., Chicago, wired Dixon: The wheat market to-day ruled firm. The sustaining influence was the firm tone of cables. News from the Argentine was as a rule bullish on their crop situation. There was considerable changing of December wheat to May, but it caused no particular comment. Receipts a trifle less than last year. In the Northwest there were 740 cars, against 801 last year; exports about 230,000 bushels. The wet weather, which in measure was the bear influence on wheat, was the bull influence on corn. Shorts were enough alarmed to advance the prices very quickly for all futures, almost a cent for May and over a cent for November. Receipts were liberal. The cash market was weak. The low grades made no gain at all, some of them lost. The immediate future will depend a good deal upon the weather. Provisions were extremely dull. The opening was firm at a small advance, which was all lost at the closing. Packers sold moderately, and near deliveries, especially of lard, were lower. We think the stocks on Monday will prove larger than estimates, and if hog receipts equal expectations, a lower market is probable.
