THE TIELOCKEN.

Complete Kits in 2 to 4 Days or Ready for Use.

Illustrated Military Catalogue Post Free.

COMBINED with the distinctive design of THE TIELOCKEN is efficient weatherproofness—protection of the "dreadnought" order.

This quality is embedded in every thread of the coat. Put there by an exclusive process that needs no rubber or oiled-silk to make it effective, it turns rain or snow, yet is free from the unhealthy heat set up by airtight agents.

Apart from proofness, the material is so dense that wind cannot find a way through it. This, in conjunction with linings of Wool or Fleece, makes THE TIELOCKEN the ideal safeguard for wintry weather.

Its design ensures that every vulnerable part of the body is doubly covered. From chin to knees, there's no chance for wet or cold to penetrate.

Another advantage of THE TIELOCKEN is its quick adjustment. A belt holds it securely—no buttons to fasten or lose.

N.B.—Many 1916 Civilian Topcoats and Suits, as well as Ladies' Coats and Gowns, are being sold during January at about HALF USUAL PRICES.
