GODERICH, DEC. 31st, 1879.

A HAPPY NEW YEAR.

To all we wish a "happy new year". So far as we can judge the present holiday season has been peculiarly pleasant. A bountiful providence has vouchsafed one of the best crops ever known. Nine tenths of our people being directly or indirectly dependant upon the outcome of the soil for the wherewith to purchase their plum-puddings, and for gratifying sentiments peculiar to Christmas-tide and New Year, business has been very good. We hope the annually recurrent feeling of amiable sentiment will long continue. Friendly interchanges of good will, and family re-unions have for centuries hallowed this gracious time. Christmas may not be, Biblically speaking, a day set apart, and many hold that it is a traditional day for merry making, derived from heathen reminiscences and observances. However this may be, the characteristic feeling at Christmas and New Years is Christian in the truest and best sense, while at the same time it is intensely human. Again, a Happy New Year.

THE PROPOSED NEW RAILWAY.

The following letter from one of the promoters will be of interest to our readers. We may remark that some of our people seem to be under the impression that Goderich is named as the western terminus of the road, simply that we may be used as a lever to raise more money from some other point that the promoters would prefer to Goderich. We must disabuse our minds of such impressions. In all that we have seen and heard, Goderich, Goderich only and no other place is named or thought of as a Lake terminus for this road. It may not be that Goderich is so named from any enviable reputation our people enjoy for enterprise or go-aheadativeness; but solely on account of the eligibility of our situation for commanding a very large share of the through traffic of our own and the American Great North West trade. If from the latter reason or both combined with the prospective local and way traffic, we must say the originators of the Grand Ontario Central Railway have shown a commendable amount of topographical knowledge as well as shrewd business ability in fixing upon Goderich. In this or next issue we shall show how the people of the Michigan peninsula are combining with those of Minneapolis and Minnesota to open up a direct rail and water route to carry the products and travel of the far west to the east by way of Goderich. This was one of the objects of the present Buffalo and Lake Huron road, but was interrupted by the deplorable American civil war, and the unfortunate accident of the road falling into the hands of the G. T. R. Company whose well known supineness in connection with, if not direct antagonism to this route is proverbial—as familiar as household words.

(To the Editor of The Globe.)

Sir,—I read with considerable interest your very able article of the 15th inst., headed "The Toronto and Ottawa Railway." Now as you mention that there was another scheme afoot that would run that line north of Toronto some distance will you allow me to state just what that scheme is.

It is to run a railway from Goderich east through the counties of Huron, Perth, Wellington, and Dufferin to Beeton, in the county of Simcoe, thence through York, Ontario, to Port Perry, there to connect with the Toronto and Ottawa, or continue on to Peterborough and Ottawa, providing the Toronto and Ottawa is not built as far as Port Perry when the above proposed line reaches that point. The proposed name for the new line is the Grand Ontario Central Railway. The above line will probably pass through or near the following places:—Commencing at Goderich, the western terminus, thence east to Blyth, Brussels, Listowell, Orangeville, Beeton, Newmarket, Uxbridge, Port Perry, or Peterborough. It passes through the centre of one of the richest farming sections of Ontario and one of the finest wheat growing districts, and there are over one hundred very valuable water-powers [illegible] in connection to the proposed line not now [illegible] that could and would soon be sought after for manufacturing purposes, thus bringing in capital and making a grand manufacturing centre through the heart of Ontario. That this line would distribute its benefits more evenly over the Province, and be more useful than any other scheme, no one could doubt.

It connects, crosses, or touches twelve railroads from Goderich to Port Perry, enabling the traveller to get to all points in Ontario with greater ease and less expense.

Thus all the section of country lying between the Grand Trunk Railway and the Grand Ontario Central and its connections to the seaboard will be very favourably situated, being able, as they will, to have the choice of the two great rival lines to the seaboard, and the advantages of the keen competition between them, thus reducing rates to a minimum while all the section lying north of the G. T. R. will have all the above advantages, saving all the [illegible] charges on the [illegible]

TOWN AND COUNTRY.

For Everybody.—R. R. Thompson wishes his numerous patrons and others a very Happy New Year.

Remember the auction sale of household furniture at the residence of Mrs. Weatherald, Sr., on Tuesday, the Sixth of January, 1880.

Look out for the Signal Carrier Boys' Address for 1880! Our "poet laureate" has been at work. Don't leave $100 clients to give the boys a "piece."

Organs and Sewing Machines, good and cheap, at J. W. Weatherald's, (in Sheppard's Book store.) *Try Kooka*, Weatherald's 15 ct.

Prize.—Mr. Ezra Krupp, of Goderich, was the recipient of a prize for penmanship at the close of the Christmas term of the Canada Business College, Hamilton.

W. H. T. A.—The West Huron Teachers Association will hold their semi-annual meeting in the Public School, Exeter, on the 16th and 17th Jany, 1880

Not Present.—No reporters were present at last meeting of town Council. Were they afraid of interfering with the, in many towns, customary voting of an indemnity to the fourth estate?

About so.—An exchange says there is no use of people in this section "frittering away their energies and chances in dabbling with that vapory vision —the G. T. R. at Goderich."

Watch Night Service.—The Rev. Dr. Williams will conduct a watch night service in the Methodist church, North Street, this, Wednesday, evening. Service will commence at half past nine o'clock.

Couldn't Help It.—A way-farer of the Uriah Heep mould went for and through one of the large glass squares in Butler's shop front, Mr. Butler nabbed and held him until a constable took him in charge. The delinquent penitently and resignedly said he "couldn't help it." Mr. Butler avers he several times purposely pounded the glass.

St. Georges Church S. S.—The entertainment in behalf of this school came off on Monday evening in Crabb's Hall. About 700, in all, were present. The hall was beautifully decorated, the spread of good things was simply "immense," about 60 views were exhibited, all present seemed highly delighted. A few dollars were netted.

Change.—Mr. George Munro of "Piper's Mill," will shortly remove east. He has sold his mill to two wealthy gentlemen from eastern Ontario. They will probably carry on the business with the vigor which an unfortunate accident to Mr. Munro prevented the latter gentleman from infusing into it.—We shall regret the departure of Mr. Munro and family.

Bible Society.—The Rev. J. Manly, the agent of the U. C. Bible Society, will preach in the North Street Methodist church next Sunday morning at 11 o'clock, and in the evening in Knox church at 6·30. The annual meeting of the Society will be held in Knox church on Monday evening, the 4th Jan., at 7:30. Addresses by the agent and ministers of the town.

Handsome Present.—Judge Squier has just been made the recipient of an extremely handsome new year's gift. The article in question is the handiwork of the Sisters of St. Joseph, and certainly speaks highly of their taste and skill. The gift is a richly worked, velvet smoking cap. The Judge is to be congratulated.

Greet the New Year—Those who can attend the social tea-meeting to be given by the Presbyterian folk, in Dungannon, on the afternoon of January 1st 1880, will do well to avail themselves of the opportunity. It will be a fine drive from town, out there and back. Tea will be served in the Cheese Factory and addresses given in the church. The public are invited.

Libel-us.—The *Expositor* says: Both the *Star* and *Signal* are threatened with libel suits". The Signal has no intimation of this nature pending over us. If Lord Mansfield's position that: "The greater the truth, the greater the libel" is a correct one, then we are fearfully guilty. The poet Burns at one time wrote some verses reflecting unfavorably upon the reigning dynasty as compared with the unfortunate Stuarts. He made amends by writing:

"Rash mortal and slanderous poet, thy name
Shall no longer appear in the records of fame;
Dost not know that old Mansfield, who
wrotes like the Bible,
Says, the more 'tis a truth, Sir, the more 'tis
a libel,"

Masonic.—The installation of officers in Goderich Lodge, No. 33, A. F. and A. M., took place on Saturday evening last, being the anniversary of St. John the Evangelist, the following comprises the officers for this year:—

Bro. Harry Bolton, W. M.
" E. Downing, S. W.
" John Craigie, J. W.
" A. McD. Allan, S. D.
" A. Kirkbride, J. D.
" C. G. Dyett, I. G.
" S. Sloane, Treasurer.
" H. Cooke, M. C.
" S. Yates, C.
" John Black, } Stewards.
" Jas. Inkster, }
" M. McPhail, T.

Goderich High School.—The following is the result of the written examination at the close of the term—the figures showing the percentage of marks obtained by each pupil. Only the lower school was subjected to examination:—

Week of Prayer.

The following arrangement has been made for religious services during the week commencing on Monday the 5th January:—

Monday, in Knox church.
Tuesday, M. E church, Victoria at
Wednesday, M. church, North st.
Thursday, Knox church.
Friday, Knox church.

Service will commence at 7.30.

Skates.—Acme Club, and Barney and Berry's, at R. W. McKenzie's cheap Hardware store.

Postponed.—The sale of the W. ½ lot 5 Con. 5 E. D. Colborne, will take place at Currie's Auction mart Monday January 5th 1880.

Medal.—We have been shown a finely executed medal which has been ordered by and forwarded to Sheriff Gibbons It is of solid 18 carat gold, and about 2¼ inches in diameter. On the face side is represented a curling scene, out of doors, in very fine line engraving. The outer rim is guarded with wreaths of thistle in fine colored gold. These wreaths are intertwined and held together at the base by a miniature pair of curler's ice shoes. On the reverse is incribed: "Presented by Sheriff Gibbons for competition by the Curling Clubs of the County of Huron." The whole is surmounted with two brooms crossed near the brush end; the small end of handles supporting the clasps to which is fastened the ribbon which allows the whole medal to swing pendant. Resting on upper rim and guarded by the brooms is a model "stone." The value of the medal is $60. It will be open for competition in accordance with certain conditions not yet agreed upon; so soon as arranged, copies of regulations will be forwarded to all clubs in the county. The Sheriff, although shelved, has not forgotten the liberal instincts of his earlier, active years, but still keeps foremost in the van of progress and public spiritedness.

[illegible] good [illegible] another [illegible] married [illegible] as he did [illegible] would injure [illegible] case material [illegible] granting of [illegible] before the council, [illegible] before the ratepayers [illegible] strongly in favor of [illegible] agreement to manufacture [illegible] prices as well as another [illegible] was better to give a [illegible] our means to make our [illegible] valuable than to allow the [illegible] of it to remain of more [illegible] value, unrecoverable at that.

Mr. F. W. Johnston thanked the electors for the honor done him of returning him for the fourth time, this time by acclamation. A local paper had charged him with youthfulness when he first had the temerity to seek the suffrage of his fellow citizens; well, he had got rid of some of that. Thought he had worked well in the County Council, the other town reeves had done their duty also. They were chairmen of three important committees—Equalization, Court House and Gaol, and School and Printing. In Town council as chairman of Market committee, he had done good work. The by-law now in force had added to our finances $1,000 a year and created such competition that unusually distant sellers were attracted here by the high prices paid for wheat on Goderich market. As Mr. Garrow gave early notice of retirement, he (Mr. J.) would thus early give notice that he would, next year, be a candidate for the Reeveship.

Mr. Detlor returned thanks. Was really grateful for the honor of being returned by acclamation. He felt the force of Mr. Garrow's remarks about beautifying the town; it was a matter of great importance. In the matter of railways he felt there was a heavy responsibility resting on the council. The people should stimulate and supplement the efforts of the council in this matter. It is a matter every one has an interest in. Public meetings should be called and every phase of the question discussed. We could not attract capital without better railway facilities; with better railway accommodation we might expect to see our commerce increase and our industries multiply.

Ward Nominations,

St. David's—H. Cluncs, T. N. Dancy, John Hyalop, L. Elliott.

St. Patrick's—S Sloane, John Acheson, W Mitchell.

St. Andrew's—Jas. Gordon, E Bingham, Alex. Watson, W. Seymour, E. Campion.

St. George's—M. Hutchinson, F. Jordan, M. Nicholson, D. C. McKay, W. M. Savage.

[illegible] Mr. D. Watson has been elected President of the Brussels Gospel Temperance Union.

Burning Out.—A Goderich firm will shortly open up a lumber yard in Brussels.

In Port.—Schooners Erie Belle; Heather Belle; J. C. Kolfage; Ontario; H. N. Tuttson; Evening Star; Caledonia; Nor' West; tug Mayflower and tug Dispatch. The Todmen will receive extensive repairs, during the winter, under the supervisionship of Mr. Henry Martin.

Narrow Escape.—Mr. H. Howard from Goderich with a car of apples nearly met his death early on the morning of the 26th in Toronto. To prevent the apples freezing he lighted a charcoal fire in the car and then fastened himself in. About four o'clock a policeman hearing a noise went into the car and found the man insensible. The inhalation by the man and the combustion of the charcoal fire consumed all the oxygen in the atmosphere of the closed compartment. He was restored to consciousness with great difficulty.

Queen's College.—Prof Grant when here lately obtained another $100 towards the endowment fund of Queen's College, Kingston. This, with former sums from Goderich and immediate vicinity, will swell the amount from this locality to $2,000. Now buildings are in course of erection for this college and will cost about $60,000 which is contributed by the people of Kingston of all denominations — Protestant and Catholic. In all nearly $150,000 has been subscribed within a year towards this College, and no doubts are now entertained that the whole fund will before the end of next year amount to $200,000. Dr Ure will give a course of lectures, this winter, in this institution, on Homiletics and Pastoral Theology.

Pluck.—Pluck and ingenuity are about to be rewarded in the case of Mr. James Strachan of this place. It will be remembered that Mr. Strachan is the inventor of a Life Boat Launching Apparatus. He spent years perfecting it and has lately been bringing it before the notice of the Canadian and American Governments. As usual "the prophet is not acceptable in his own country." This ingenious young Canadian has, however, received recognition of the merits of his invention from the U.S. Government, and endorsations of its practical usefulness from the highest authorities in the U. S. Navy and those of the merchant service. Mr. Strachan's descriptive circular says:—"The boat is lowered in horizontal position by the simultaneous paying out of supporting lines from drums, and launched in a perfectly safe and reliable manner by one man in six seconds." This apparatus is certainly deserving of more consideration from our government than it has yet received. The first duty of a Government is the protection of life. No one that has seen this invention can fail being forcibly struck with the immense life saving aid which can be effectually given in times of disaster and confusion on board ships, by the introduction of "Strachan's Life Boat Launching Apparatus."

Blyth keeps talking new Rail road.

Seaforth will be entitled to a deputy-reeve next year.

One of Mr. Geo. Weston's horses, Goderich T'p, dropped dead on the road. It was valued at $150.

Sir R. J. Cartwright has lately made a donation of valuable books to the Seaforth Mechanics Institute.

Mr. Hugh Love, of Hills Green, has sold to an American buyer in Seaforth two horses for the handsome sum of $350. There is no doubt but it pays to raise good horses.

The last number of the *Era* contains the official list of convictions made by the magistrates of the county for the quarter ending 9th inst. The total number is 153 as against 129 for the previous term, which indicates as strong a desire to "go to law" as ever. Out of the number, 33 were made by Brussels magistrates, 25 by Goderich, 22 by Seaforth, 20 by Clinton, 16 by Exeter, 8 by Dungannon, 6 by Wingham, 5 by Blyth; the others being mostly by individual magistrates. Among the causes of conviction are 37 assaults, 16 drunks 20 non-payment of wages, 8 illegally selling liquor, and 2 cases of arson. The Total amount of the fines inflicted was $1104.42; in this sum is included a fine of $500 for illicit distillation, which was discharged on making an investigation.

HUM ITEMS.

"Another advance of one cent per lb, is reported in sole leather."

"The shipment of iron ore from Ottawa to Niles, Ohio, was begun yesterday."

These are the sort of items published by the London *Free Press* and other "protection" papers.—The necessaries of life are humming to the poor man, "give more for us," whilst the labor the working man was to get is still wanting and will be to the end of the chapter. Iron manufacturing was to be gone into; we pay more for all hardware for this purpose, but the raw iron as the above item mentions continues to be exported. The taxing of coal both for manufacturing and domestic purposes will in part account for the non-development of industries which, under the Mackenzie Government, were in a fair way of being successfully carried on.

There are now two temperance men in in the Dominion Cabinet—Sir Tilley and Sir John—that is it Sir John has taken the pledge as reported; So saith an exchange. The writer then goes on to charge Sir Tilley with inconsistency in reducing the tax on malt which will have the effect of cheapening beer. If the whole of T's fiscal policy were as sound as his views on the beer question, we should have little fault to find with it. And if Sir John will be even as sound a temperance man as the gentleman with whom his name is here coupled, we would say a better example in high places. We hope the rumor in reference to Sir John is correct. With reference to the beer question, the majority will agree that the cause of temperance is beneficially served by increasing the tax on strong drink and reducing it on beer. Already the hotel-keepers are discouraging the use of the strong drinks and encouraging the consumption of the cheaper and less harmful malt liquors. They too this to be the course most beneficial to their own pockets. And it must be acknowledged that with the decrease in the consumption of the higher priced drinks, there has been a decrease in that of the strong and a corresponding decrease in the amount of drunkenness.

Reformer says:—And if a striking example is wanted of comparative effects of the general use of the two classes of liquors, he only to turn to the County of Waterloo, where among the Germans and largely among other nationalities, lager beer has taken the place of whiskey. Here drunkenness is of a rare occurrence, and when it does occur it will be found whiskey is the cause of it in all but nine cases out of a hundred.

For old and obstinate cases use our "Catarrh Cure."

PILES, BLIND BLEEDING OR ITCHING. It is the greatest known remedy—rapidly curing when other medicines have failed. Pond's Extract Medicated Paper for closet use is a preventative against Chafing and Piles. Our Ointment is of great service where the removal of clothing is inconvenient.

FEMALE COMPLAINTS. No physician need be called in for the majority of female diseases, if the Extract be used. Full directions accompany each bottle.

PHYSICIANS of all Schools recommend and prescribe Pond's Extract. We have letters from hundreds who order it daily, in their practice, for Swellings of all kinds, Quinsy, Sore Throat, Inflamed Tonsils, simple and chronic Diarrhœa, Catarrh (for which it is a *specific*) Chilblains, Frosted Feet, Stings of Insects, Mosquitos, etc Chapped Hands, Face, and indeed all manner of Skin Diseases.

FARMERS, Stock Breeders and Livery Men should always have it. Leading livery and street-car stables in New York and elsewhere always use it. Sprains, Lameness and Saddle Chafings Cuts, Scratches, Wellings, Stiffness, Blemishes, etc., are all controlled by it. On account of the expense of the Extract as adapted for sale use in its delicate application to human ailments, we have prepared a preparation for veterinary purposes only, which contains the strength of the Extract, for application to animals, in a cheaper form. Price per pallon, VETERINARY EXTRACT, $2.50.

CAUTION.—Pond's Extract, is sold only in bottles, enclosed in buff wrappers, with the words, "POND'S EXTRACT," blown in the glass. It is never sold in bulk. No one can sell it except in our own bottles as above described.

Special Preparations of Pond's Extract combined with the purest and most delicate perfumes for ladies' boudoirs.

THE GENUINE

MURRAY & LANMAN'S

FLORIDA WATER

It is a little pamphlet which is wrapped around the neck of the bottle containing the genuine Florida Water, prepared by Lanman & Kemp, New York.

In water mark, so that when a leaf is held up to the light, it shows these words in faint semi-transparent letters.

All buyers who care to enjoy the true Florida Water, and who wish to avoid being imposed upon, can, by the aid of the above direction, detect and reject the worthless counterfeits with which the market is flooded.
