In the Special Selling of Women's Blouses

Charming Models in Cool Lingerie Materials Sale Priced at $1.19, $1.98 and $5.95

THEY are all imported blouses, some travelling all the way from France, while others owe their origin to American manufacturers. There are sheer lingerie models in voile and organdie, as well as jaunty sports styles in colored voiles. Particularly smart are the French designs at $5.95. To describe them:

At $1.19 are Imported Blouses in fancy voiles showing mercerized stripes in yellow, blue, rose, green or helio. They have large white sailor collar, long sleeves and fasten down the front. Sizes 34 to 46 inches. Sale price, $1.19.

At $1.98 may be had blouses in fine voiles and sheer organdies. These are a New York manufacturer's odd lines from the season's immense selling. One pretty model has large lace and embroidery design in popular crosswise effect. Others have guipure insets and are lavishly trimmed with lace. Sizes 34 to 46 inches. Sale price, $1.98.

At $5.95 are blouses offered at a fraction of their usual value, for they are French and American models. The former are exquisitely made, being fashioned entirely by hand, and many are in Russian blouse style with colored embroidery. The American makes are hand-embroidered and ornamented with tiny tucking and fine laces. (For this item we cannot take phone or mail orders, the quantity being limited.) Monday, Sale price, $5.95.

A "Level" is Invaluable to the Farmer

UP-TO-DATE FARMING demands one of these Levels. It saves time and makes for efficiency and accuracy in many phases of farm work—such, for instance, as lining up fences, grading the fall for ditches, setting out young trees in the orchard, ascertaining the height of springs, and locating the position of drains. Moreover, the Level can be used without previous experience.

The Level proper is of black nickel. It is put up in a mahogany box with carrying strap, and is accompanied by trivet plate, which enables instrument to be set on the wall of a building where it is impossible to use the tripod. The latter is made of hardwood and bell metal.

Price of Farm Level, complete as described, is $27.50.

Uniforms for the Graduate Nurse

In Pique, Cotton, Gabardine, Jean or Chambray and in Regulation Style or With Low Collars.

THE needs of that serene, dependable person, the trained nurse, are well looked after in the Women's Dress Department. There you will find a quiet corner devoted to the display of correct uniforms.

For the warm Summer days when one is on duty there are cool models, fashioned with low, turned-down collar, while, if the occasion demands it, there are others in regulation high-necked style.

In regulation style is a dress of white cotton gabardine made with collar band, long sleeves with single two-button cuffs and patch pockets on both waist and skirt. Sizes 34 to 44 inches. Price, $3.75.

A trim model in white pique has a low collar, long sleeves, side front fastening, Gibson pleat over the shoulder and a patch pocket. Sizes 34 to 44 inches. Price, $2.95.

Made of white pique is a uniform in regulation style with collar band, five-button cuff, invisible front fastening and patch pockets on skirt and blouse. It may be had with either plain tailored or Gibson pleated shoulder. Sizes 34 to 44 inches. Price, $2.59.

A similar style in white jean is priced at $1.95.

In blue or pink chambray are dresses similar in style to the pique model and available in the same sizes. Price, $2.25.

In the same style is the St. John's Ambulance Corps uniform, which is fashioned from grey chambray. Sizes 34 to 44 inches. Price, $2.25.

Procurable only in pink chambray is another smart model made in regulation style and in sizes 34 to 44 inches. Price, $1.69.

Women's Summer Dresses Specially Priced, $2.95

Charming in Design, and Offering Variety in Plain, Flowered and Figured Voiles.

ANY ONE of these dresses would be a desirable addition to the wardrobe of the woman who wishes to keep cool and appear well. There is ample selection in the array of frocks offered Monday, and which we describe herewith:

One pretty white voile has large collar edged with lace, new square-shaped neck, sleeves finished with lace and insertion; full skirt with lace inset and finished at waist with satin girdle. The dresses of flowered and figured voile are made in becoming styles. Many have white collars and cuffs, edged with lace, and new square neck, while others have "V" shaped neck; full skirt, having two imitation sport pockets and finished with belt of self. Special Monday, $2.95. —Third Floor, James St.

Untrimmed Hats of White Patent Milan

Showing Diversity of Shape and Moderately Priced at $1.50. Also Panamas at $1.50 to $3.25.

THE clever fingers of the home milliner need only just such attractive shapes as these to evolve a smart hat.

Here are distinctive shapes in both Milans and Panamas:

In white patent Milan are modish shapes comprising sailors in large, small or medium styles, with wide or narrow brims; also jaunty close fitting effects. Each, $1.50.

The fashionable Panama is shown in divers modes, from the sailors with straight or drooping brims and telescoped domed or squared crowns, to the chic little boater shapes with pencil edge brims. Prices, $1.50 to $3.25.

You Were Inquiring?

Mrs. W. G.—How unfortunate you did not send your name and address so that samples of the materials available might have been sent you! There is a lovely old rose Georgette, 38 inches wide, and priced at $1.50, which is very like your sample—just a tone lighter, which is as it should be, do you not think so? In regard to making, if you have a skirt of the silk, by all means make a jumper, but if not, I should advise using the Georgette combined with the silk to make a really pretty blouse. It should make a charming combination.

X. Y. Z.—"Physical Culture," by Dr. Barton, of the University of Toronto is priced at 75c, and is considered a standard work. "My System for Ladies," by Muller, a Danish professor, is another excellent book, and will cost you only 65c. Both of these are so profusely illustrated you should have no difficulty in learning any of the exercises. Anyone using these for definite corrective purposes naturally would choose only those which tend to exercise the part of the body affected. I can assure you either book would be helpful in your difficulty.
