DR. S. P. TOWNSEND'S

COMPOUND EXTRACT OF

SARSAPARILLA

61, HOLLIS STREET

GENERAL AGENT—Halifax, N. S.

Blackwell's Island, Sept. 14, 1847.

Dr. S. P. Townsend—Dear Sir: I have suffered terribly for nine years with the Rheumatism; considerable of the time I could not eat, sleep or walk. I had the utmost distressing pains, and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good. I am so much better—indeed I am entirely relieved. You are at liberty to use this for the benefit of the afflicted.

Yours respectfully, JAMES CUMMINGS

The Rev. John Sager,

Of Jersey City, an old and highly respectable clergyman of the Baptist Denomination, handed in the following certificate at Dr. S. P. Townsend's office. It speaks for itself.

Dr. S. P. Townsend—Dear Sir: I am constrained to give you a statement of the benefit I derived from using your Sarsaparilla, believing, by so doing, I shall render a benefit to those who are suffering as I have been. I was reduced for many months by the Dyspepsia, so much that it was with much difficulty for me to walk or keep about. I had also a tetter, which covered the most part of my head—which was extremely troublesome and sore; it got to be almost a scab. I used quite a number of remedies for both the complaints, but received little or no benefit, until I took your Sarsaparilla, which, through the kindness of Providence, has restored me to more than my usual health, as I am now enjoying better than I have for a number of years. I am now 60 years of age. I believe it to be an invaluable medicine, and recommend it to my numerous acquaintances, which is very large, as I have been a minister a great many years. I hope this hasty sketch may be as much benefit to you as your medicine has to me.

July 11, 1847. JOHN SAGER, Jersey City.

Methodist Clergyman.

The following was sent to our Agent in Rahway, by the Rev J. O. TUNISON, of the Methodist Episcopal Church—one of the most learned and respected in the connection—and is another evidence of the wonderful effects of Dr. S. P. Townsend's Sarsaparilla on the system.

Farmer Pearson—Having for some time past, as you are aware experienced great general debility of my system, attended with nervous and alarming irritation of my throat and lungs, I was, at your instance, and in consequence of having read Captain McLean's decided testimony in his behalf, induced to try Dr. S. P Townsend's far-famed Sarsaparilla. I tried it, I confess, more in the hope than in the confidence of its proving efficacious; but I am bound in candor now to acknowledge, that I had not tried it long before I began to experience its salutary effects; and I may now say, with Captain McLean, "that I would not be without it on any consideration." It has done me more good than any previous remedy I have tried, and if this statement is deemed by you of any importance, you have my full consent to make it public.

Rahway, August 3d, 1847. J. O. TUNISON.

SCROFULA CURED.

This certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

Three Children.

Dr. S. P. Townsend—Dear Sir, I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine. They were afflicted very severely with bad Sores; have taken only four bottles; it took them away, for which I feel myself under great obligat on.

Very respectfully,
ISAAC W. CRAIN, 166 Wooster-st.

OPINIONS OF PHYSICIANS.

Dr. S. P. Townsend is almost daily receiving orders from Physicians in different parts of the Union.

This is to Certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. S. P Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations in the market.

CANADA.

The St. Lawrence Route.—We have heard of a transaction which affords most satisfactory proof that the St. Lawrence route will prove much cheaper than the Erie Canal. One of our finest propellers, the Western Metropolis, has been chartered to take a cargo of flour to Halifax at 6s. sterling per barrel, and bring a West India cargo back to Toronto at a price we do not know. It is confidently expected that the respective cargoes will be the best at the season at the respective ports. We have reason to know that freights can be engaged on much lower terms by sailing crafts than those which we have stated above. We need not add another word to convince those who have been sceptical as to the superiority of the St. Lawrence route, that goods can be carried cheaper by it than by the Erie Canal. When the route becomes known there is no doubt that the great bulk of the Western produce must come by it, and that we shall be perfectly independent of the United States. We shall watch with much interest future transactions with regard to freights to and from the ports of the Sister Colonies.—*Toronto Globe.*

New Invention.—Mr. Penny, of Kingston, has invented and patented a machine for tanning leather, which bids fair to supersede the present tedious process of manufacture. The conversion of hides into leather will with the use of this machine, occupy but one third of the time hitherto necessary for that purpose. The machine itself is of very simple construction.—*Quebec Gazette.*

UNITED STATES.

Dr. Webster's Trial.

(Continued.)

Second Day.—The Court came in at half-past ten o'clock, the jury having previously visited the premises in North Grove street, where the murder was committed. *Francis Tukey*, City Marshal, then testified as to the efforts made by the police to discover the whereabouts of the missing man, his visit to the Medical College, and the finding of the parts of the body; and was followed by Calvin G. Moore, Mrs. Martha Moore, Dwight, Prouty, Jr., (the two latter school-boys) Elias Fuller, and Albert Fuller, who severally testified to seeing Dr. Parkman on the 23d of November, between 12 and 2 o'clock, in the vicinity of North Grove St, and the two latter to his passage towards the College. John Pratt, coroner was sworn and examined, who testified to the finding of the remains and to summoning a Jury of Inquest. Several medical gentlemen were summoned, and gave in an account of the *post mortem* examination, and agreed in testifying that there was nothing in the color of the remains, the size, or the hair, dissimilar to Dr. George Parkman.

Third Day.—*Dr. Matthew C. Keep*, Surgeon Dentist, recognised a set of mineral teeth that had been found in Professor Webster's apartments as a set made by him for Dr. Parkman in 1846; exhibited a plaster cast of the lower jaw of Dr. P. which had been made at the time for the purpose of fitting the teeth.

Dr. Lester Noble was a student with the last witness in '46; worked at the teeth made for Dr. P. and recognised those produced in the Court as the same. He stated several circumstances that enabled him to recognise them.

The Fourth Day was occupied in the examination of *Ephraim Littlefield*, Superintendent of the College Building.—He swore that Dr. Parkman called on Dr. Webster on the 19th Nov., that he was present at the interview. Dr. P. asked Dr. W. if he were ready for him. The reply was No! Dr. P. then said something which witness did not exactly comprehend, but he thought he accused him of doing him some injustice about some papers Dr. P. said something must be done to-morrow, and then left the room. Witness spoke of several conversations that he had with Dr. W. relative to Dr. P's disappearance; of a sledge that had disappeared from Dr. W's apartments about the time of the supposed murder; of W keeping his doors locked about this period, an unusual circumstance—of Dr. W. questioning him about the means of access to the vault where the remains from the dissecting room was put—the Doctor intimating that he wished to procure some gas from it by means of an apparatus he had for the purpose—of a fire having been made by the Dr. in a furnace which the witness had never known to have been used before—of Dr. W. asking him if he were a freemason—of his making him a present of a Turkey for Thanksgiving—of the several searches that had been made in the College—of his own proceedings between the time of the disappearance of Dr. P., and the arrest of Dr. W., embracing the finding of a bunch of skeleton keys which opened several of the doors of the College, including those of Dr. W's department, and his manner of effecting an entrance, with the concurrence of Mr. Bigelow and Jackson, through the walls of the privy vault, with which it was not in connection except through the lecture room, and the finding the remains beneath, with some chemicals, nearly new, marked "W." (The rest of the trial has been crowded out.)

The Navy.—It is thought that the Earl of Dundonald will pay an early visit to this portion of his extensive command. The Sappho 12, sloop, has arrived at Port Royal, Jamaica. she had been on shore down on the Spanish Main, thrown her guns overboard, and was much damaged.—*Chronicle.*

LETTERS RECEIVED.

Since our last, letters on business have been received from Rev. R. Knight, Rev. R. A. Chesley, (order from) Rev. J. Marshall (through Chairman)—Papers sent according to directions.

TO CORRESPONDENTS.

Lower Horton: J. F. 50.

Baltimore, U. S.: Information will be sought, and transmitted as soon as obtained. Shall be glad to hear often from our young friends. We will write soon.

To Agents.

In ordering papers for *new* Subscribers, Agents would greatly oblige by stating the *time* from which they are to be sent.

☞ Back numbers can be supplied.
