SIXTEENTH YEAR WEDNESDAY MORNING MAY 29 1895. ONE CENT.

Clerk of Senate 1jan96
SENATE P.O.

LAST DAY OF BUDGET DEBATE

A DIVISION IS LOOKED FOR LATE TO-NIGHT.

Dr. Montague and Mr. Laurier Among To-Day's Speakers—Dr. Landerkin Seeks Information Re Knighthoods—Sir C. H. Tupper Again in Harness—The Case Against Contractor St. Louis.

Ottawa, May 28.—The division on Sir Richard Cartwright's amendment will take place late to-morrow night. It is expected that the speeches to-morrow will be important. Hon. Dr. Montague is to be the first speaker of the day, and it is likely that Mr. Laurier will follow him. To-day the discussion dragged very much. Frequenters of the House are heartily sick of the length to which the debate has been dragged out and welcome the prospect of its speedy termination.

Landerkin and the Knighthoods.

Dr. Landerkin is greatly worried over the recent knighthoods. Whether it be mere curiosity or chagrin that some particular friend of his had been overlooked, the doctor himself only knows, but on the reassembling of the House this afternoon he lost no time in bringing the matter up. He wanted to know, he said, how these knighthoods came to be conferred, whether upon the "recommend of the Governor-General-in Council," or by Her Majesty's unsolicited favor. It was a question which the whole countr was concerned about, and he would like to know for his own information, any how. Somehow the doctor was not taken seriously, and he seldom is.

Mr. Haggart, heedless of Liberal cries of order, proceeded to lay some returns upon the table.

One member called out, "Oh, you're all right, Doctor, you've escaped!" Said another, "You should have made your application to the Secretary of State."

When the fun had subsided Mr. Foster replied. He said there was no precedent for such a question.

Dr. Landerkin: Well, make one. It had better be put on the order paper.

Then the member for South Grey dipped his pen in ink, and proceeded to write out notice of his question. It will come up in a couple of days. The order paper was cleared of a large number of questions, mostly of a local character.

The Case Against Mr. St. Louis.

Sir Charles H. Tupper, who was in his seat for the first time since his recent illness, gave some particulars of the St. Louis case, in reply to a question put by Mr. Casey. The Minister of Justice said: "An information was laid in the Exchequer Court on the 10th of October, 1894, claiming the sum of $143.88. This suit is ready for trial. An application was made on the 7th of January, 1895, returnable on the 14th of January, asking the judge to fix the 29th of January for the trial. The motion was enlarged, by consent, until the 12th of aJnuary, and was enlarged by the Judge of the Exchequer Court until the 18th, on the ground that the criminal proceedings against St. Louis were then going on, and that by that date the criminal case would probably be over. On the date, the criminal case not being concluded, it being impossible to say when it would be, the application to fix the date of the trial was dropped. On the 13th of May Judge Desnoyers gave his decision in the criminal case, and instructions were at once given to counsel for the Crown to apply to the court for the fixing of the day of trial. This application comes up for hearing on the 30th inst. The Crown has asked that the 20th of June be the date fixed for trial. The short delay which occurred before applying anew to the judge to fix the date of trial was due to the necessity of communicating with Mr. Osler, counsel for the Crown, who is in Toronto.

Questions and Answers.

Hon. Mr. Wallace, replying to Mr. Davis, said that during the nine months ended 31st March, 6,068,729 pounds of cleaned rice, and 4,834,786 pounds of uncleaned rice, or paddy, had been imported into Canada.

Hon. Mr. Wood told Mr. Girouard that during 1894 $19,547 had been collected in revenue on 390,146 pounds of Canadian tobacco.

Mr. Dickey, in reply to a question asked by Mr. Mulock, said that the question of giving to graduates of the Royal Military College representation on the Board of Visitors of the College was now upnder consideration by the department.

The Budget discussion was resumed by Mr. Rider, who was followed by Messrs. Ryckman, Gibson and Rosamond.

After dinner Messrs. Davies and Davin spoke, when the debate was again adjourned. The House rose at 12.30 a.m.

Little Lumpy Jaw in Canada

Prof. McEachren, Chief Veterinary Inspector, was in town and characterizes as absolutely false the sensational report cabled to England that a dangerous disease had been discovered at Montreal among cattle intended for shipment to England. A few cases of "lumpy jaw" had been found at Montreal, and permission to ship or slaughter them in the abattoirs at Montreal was refused. Slaughter of animals affected with "lumpy jaw" has long been prohibited in Toronto and elsewhere at abattoirs. The disease occurs in Canada, as in every other country in which cattle are found, but is not common in the Dominion, and while it is communicable it is not contagious in the ordinary sense of that term. The Veterinary inspectors at Montreal rejected 23 animals out of 107, 225 inspected for shipment in 1893, and 59 out of 90,000 inspected in 1894.

Senate Sat for an Hour.

The Senate sat for an hour and advanced several measures a stage. The Minister of Agriculture in explaining the bill to amend the Copyright Act said its object was to increase the number of copies deposited with the department of all works, for which a Canadian copyright was applied, from two to three. The reason of this was that Lord Rippon, the Secretary of State for the Colonies, had asked that Canada conform with the custom universal throughout the Empire of forwarding a copy of all works for which an application for copyright is made to the British Museum. The extra copy provided for in the bill was for the British Museum.

Dr. Bourniot, Secretary of Royal Society, to-day received from His Excellency's secretary the following message received in answer to the message of congratulation to Her Majesty on her birthday: "The Queen sincerely thanks the Royal Society of Canada for kind message."

Hon. Dr. Montague has accepted an invitation to attend and address the Pan-American Congress of Religions which is to be held in Toronto in July.

The Secretary of State will probably deliver the Dominion Day address for the Canadian Club at Hamilton.

Superintendent of the Soo Canal.

The position of superintendent of the new Canadian canal at Sault Ste. Marie has been filled by the appointment of Mr. J. C. Boyd of Simcoe. Mr. Boyd is well known throughout Western Ontario as a man of tireless energy, and in his new sphere of labor will doubtless discharge the duties satisfactorily.

Toronto the Postal Centre.

In the report of the Postoffice Department some interesting figures are given of the manner in which Toronto has forged to the front as the great distributing point for Canada. During the past year there were delivered in the Queen City 19,904,469 letters, post cards and newspapers, as against 11,572,224 in Montreal. The total number of drop or city letters mailed in Toronto was 3,999,810, as against 3,074,919 in Montreal. Of ordinary letters delivered in Toronto, the number was 8,961,453, and in Montreal 4,059,595. The total expenditure for the Postoffice Department for the past year was $3,517,261, and the revenue $2,809,341, leaving a deficit of $706,920.

On July 1st last there were in existence 8664 postoffices in Canada, an increase of 187. The mail routes were increased by 2240 miles and the annual mail travel by 355,456 miles, the total amount of mail travel being 30,851,179 miles.

Notes.

Mr. Provand, M.P., Glasgow, who is here on Chignecto Marine Railway affairs, occupied a seat on the floor of the House.

H. P. Brumell, Assistant Statistician of the Geological Survey, has resigned to take a position with a mining company.

The conduct of two officers of the Customs Department, Messrs. Farrow and Blakney, is to be investigated to-morrow on account of certain charges having been made against them.

Donald Grant of St. Paul, one of the contractors of the Hudson Bay Railway, is here. It is said the contractors will not commence active operations until the order-in-council rearranging the financial aid has been approved by Parliament.

The summary of the mineral production of Canada for 1894 places the total value at $20,900,000, the largest in the history of the country, and an increase of one million and three-quarters. The coal output was 3,853,235 tons, of a value of 8$,500,000; nickel, nearly 5,000,000 pounds, of a value of $2,061,120.

The Independent Order of Foresters this evening tendered a reception to Mr. Harry Collins of Toronto, the High Chief Ranger for Ontario. The gathering was held in the Opera House.

A deputation waited on Hon. Mr. Dickey to-day in regard to having the proposed new range at Rockliffe ready for the D.R.A. matches in September. Mr. Dickey promised that the work of preparing the ranges would be hustled with all possible speed.

The congregation of the Dominion Methodist Church are greatly put out because they have not had assigned to them the minister whom they had invited. Rev. Mr. Sparling has been asked to take the pulpit in succession to Rev. Mr. Benson, but the Stationing Committee has assigned Rev. Thomas Griffiths of Brockville to the Dominion church.

The papers in connection with the Fredericton and St. Mary's bridge matter were presented to the House. The Dominion Government, on its loan of $300,000 to the company, has received all the interest due to the 30th June 1889, amounting to $15,152. The arrears of interest due by the company to June 30th, 1894, amounted to $60,000, nothing having been received since that date.

S.S. SIBERIAN AGROUND.

An Allan Liner Fast on a Mud Bank in Lake St Peter.

Montreal, Que., May 28.—The Allan s.s. Siberian is aground in Lake St. Peter. She has nine cabin and 40 second cabin passengers. The steerage passengers were landed at Quebec. The steamship ran out of her course into a mud bank. It is not thought she has sustained any damage. Tugs and lighters have been sent down to her assistance.

The Siberian is expected to be got off at any hour.

WANTED A GOVERNOR!

New South Wales Sends a Pertinent Cablegram to Lord Ripon.

London, May 28.—Premier Reid of New South Wales has sent to Mr. Samuel, the colonial agent here, the following cable despatch: The Governorship of New South Wales is too important a post to justify protracted delay in filling it. Acquaint Lord Ripon, the Colonial Secretary, that if nobody in the Mother Country is eligible or willing to accept the position, we are quite prepared to suggest a suitable appointment amongst our own people.

Bicycles Pay Duty Both Ways

Buffalo, N.Y., May 28.—Several of the Canadian cyclists who are entering in the Martin road race arrived in this city this morning. They had a sad tale of woe to tell. It seems that only yesterday a new provision of the tariff law applying to bicycles went into effect. By its terms a duty of 35 per cent of the listed price of the machine must be paid at the Customs House. Worse still, a duty equally large must be paid on the other side when the wheel is re-imported. Most of the Canadians, rather than submit to any such tax, will endeavor to obtain machines in this country.

Ask for delicious "Salada" tea.

Fashion's Fads.

Midsummer weather demands the lightest kinds of fabrics for street and house wear. No nobbier range of lovely light wash muslins can be seen in Canada than is now displayed by McKendry & Co. Prices, too, are so reasonable that no woman need be without the best there is.

MANY SECTS PRAISE THE SEX

CLERGYMEN SPEAK TO THE WOMEN OF THE NATIONAL COUNCIL.

The First Day's Session of the Annual Convention—A Great Meeting in the Pavilion Last Night—Hon. G. W. Ross Cries for More Beauty—Women Condemn Fairy Tales.

The Pavilion was crowded to the doors last night at the public meeting held in connection with the National Council of Women. Lady Aberdeen occupied the chair, and on her right sat the Governor-General, on her left the Lieutenant-Governor, Mrs. Kirkpatrick, Mrs. Drummond, president of the Montreal Council; Hon. G. W. Ross, Rev. Dr. Potts, Rev. Father Ryan, Rev. D. J. Macdonnell, Rev. Prof Clark, Miss Ella Wellman of the National Council of Sweden; Mrs. Gordon Duff, Hatton Castle, Aberdeenshire, representing the National Union of Women Workers, Great Britain; Lady Caron, Madame Laurier, Mrs. Kate Brownlee Sherwood, Canton, Ohio; Mrs. Rachel Foster Avery of Philadelphia, and a large number of other ladies.

The Countess' Address.

Her Excellency read the annual report of the organization, outlining its objects, which were to minister to the chief need of Canada at the present day, an increase of real unity. The evidence of this was in the assembly on the platform around her, representing all creeds. Her only regret was that the Jewish sect was not represented, owing to the fact that the Feast of Tabernacles fell on the same date. The council formed for the first time in this same hall, some eighteen months ago, had achieved results that could not be dismissed as mere nothings. The organization had spread to every province of the land, and had quickened women to an intelligent interest in the country and its laws. To-morrow night they would deal with the international relations of the organization.

Already the labors of the women had been blessed with tangible results. In Ontario they had secured the passage of legislation for the appointment of female factory inspectors and the addition of manual training to the Public school curriculum. In other provinces they had also met with a measure of success. Enquiry had shown that Canada was richer than her people realized in women of ability in all the professions and in business. Their main object, however, was to apply the lessons of the Golden Rule and to establish the golden bond of consecrated sisterhood throughout the land.

Mrs. Drummond, seconded by Mrs. Cummings, then moved the acceptance of the annual report.

A Resolution of Congratulation.

The Governor-General, in a brief speech, then moved the following resolution:

"That this meeting congratulates the National Council of Women of Canada on the progress of its work throughout the year, and on its success in uniting, within the scope of its aims, workers of all sections, creeds and politics in all parts of the Dominion, pledged to further the application of the Golden Rule to society, custom and law."

Speaking to it he alluded to the absolute unity which had characterized the proceedings of the National Council. Its constitution was devised with this end in view and its methods were on this design. The custom of opening with silent instead of audible prayer was one of those provisions to which he would call the attention of the meeting; it provided for the utmost latitude of creed and belief. As one who had been in a measure behind the scenes in the formation of the order he could say that, although its success had been great, it had cost much midnight oil.

The Lieutenant-Governor seconded this resolution, and said that he could make a very lengthy speech on what he did not know about women. The success of the National Council had taught him much; it showed him that women had greater powers of concentration, application and organization than he had imagined.

A Roman Catholic Speaks.

Owing to the indisposition of Archbishop Walsh, Rev. Father Ryan spoke in his place, saying that, on behalf of His Grace, he desired to express his entire sympathy with the movement. It was one which met with the cordial blessing of His Grace, for these were the days of peace; Pope Leo had sent forth the message of peace, and the days of anathema, if they ever existed, were gone forever. There were tims of tian conciliation, and any movement which spread the message of love was a blessed one.

On Behalf of the Methodists.

Rev. John Potts, D.D., followed in the same strain, ending with the statement that if the success of the council should come to the ears of Queen Victoria we might find a warrant coming over the ocean to ask Her Excellency to represent the Throne instead of His Excellency.

The Minister of Education.

Hon. G. W. Ross moved the next resolution:

Speaking to it the Minister of Education said that, as he understood it, the council was the mobilization of all existing women's societies, with no classification; the spinster was not called on to forsake her distaff, not the wife to leave the loom with which was woven the most beautiful part of our civilization. The call was simply to women to drive away wretchedness and shame, wherever they might find it. He would ask for the assistance and cooperation of the Council in improving the sanitation of our schools throughout the country; in modifying the ugliness of our schools; in spreading the teaching of music in our schools; in arousing the instinct of beauty in the young. We were behind Scotland and England, immeasurably behind Germany in this. Would the ladies help him to have more kindergartens in the schools? At San Francisco, where the system had been established many years, it was shown that out of 15,000 pupils who have received instruction only one had ever been convicted of a crime in after years. He hoped that the council would stimulate the desire for good art and good reading.

Anglican and Presbyterian.

Prof. Clark, the next speaker, told of how he once addressed a meeting of advanced women, and had been met with silent contempt when he said after the shout consider our duties before our rights. There were no privileges that did not involve duties, and this organization was intended to deal with duties as well as rights. Women had always been our rulers, but as a celebrated man had said after the English educational movement had succeeded, "Now we must educate our masters." It was better to be ruled by reason. As an Aberdeenshire man he thought of the old days when the ancestors of His Excellency had sent forth the fiery cross to summon the clans to the fray, and now the Countess of Aberdeen had sent forth as it were a fiery cross to unite the women of Canada in good works.

Rev D. J. Macdonnell followed in a congratulatory speech. A resolution of thanks to the speaker was moved by Mrs. English, London, seconded by Mrs. Gibbs, Port Arthur, and thanks to Hon. G. W. Ross for the use of the Normal School building by Mrs. McIntosh of Halifax, seconded by Miss Rowan, Quebec.

WOMEN READ MANY PAPERS.

Number of Interesting Papers Read by Delegates—Congratulations From the U.S.

The second annual convention of the National Council of the Women of Canada opened yesterday in the theatre of the Normal School. The President, Lady Aberdeen, presided, and on the platform were Lady Thompson, Madame Laurier, Mrs. English, London; Mrs. Hoodless, Hamilton; Mrs. Lyle, Hamilton; Mrs. Fraser, Kingston; Mrs. Grant Macdonald, Toronto; Mrs. Rowand, Quebec; Mrs. Drummond, Montreal; Lady Caron, Mrs. Dignum, Mrs. Wood, Mrs. Macdonald, Mrs. O'Connor, Toronto; Miss Culver, Winnipeg; Mrs. Mackintosh, Halifax; Mrs. Gibbs, Port Arthur; Mrs. Murray, St. John, N.B.; Mrs. Tilley, representing the King's Daughters; Mrs. McLagan, Vancouver; Mrs. R. W. Scott, Ottawa; Mrs. Wilson, Victoria, B.C.; Mrs. Forsythe Grant, Toronto.

The proceedings opened with silent prayer. Fraternal greetings were presented by Miss Tilley, from the W.C.T.U., and by Miss Wright from the Y.W.C.A. Mrs. Grant Macdonald welcomed the delegates on behalf of the Toronto local council, and Lady Aberdeen, replying, congratulated this fair city on its being the birth place of the order. The diffidence with which it had first been greeted had passed away, and every progress was being made.

Mrs. Willoughby Cummings presented the secretary-treasurer's report, showing receipts of $464.60 and expenses of $309.20, leaving a balance of $155.40.

Madame Laurier moved a resolution of sympathy for Lady Thompson in her recent bereavement.

The afternoon was devoted to discussion of important subjects, relative to women's work in bringing up children.

Manual Education.

Under the head of manual and technical education, which is one of the pet ideas of the council. Mrs. S. G. Wood of Toronto read a paper on the movement in Europe. Mrs. McNaughton of Montreal told of its progress in Eastern Canada. In discussion Mrs. Hoodless of Hamilton stated that Canada was 25 years behind other civilized countries in this regard. Under the same head Mrs. Stevenson read a breezy paper, entitled "Shall the Knowledge of Household Arts Form Part of the Public School Curriculum for Girls?" The gist of her address was that women's brains were being educated at the expense of men's stomachs. She thought that cooking was as valuable an acquirement as euclid for a young woman.

Miss Hendrie of Hamilton read a paper on "Co-operation Between Parents and Teachers," and Mrs. Titton of Ottawa one on amusements. A paper by Lady Schultz of Winnipeg (who was not present) was read on good reading for children. She said she altogether condemned fairy tales and fictitious literature of any kind for young children; the little one never could recover from the rude shock its budding mind received on learning that the tales were not true. For older children she recommended A.L.O.E. and other Sunday school writers, and also included Sir Walter Scott on her list.

Fairy Tales Defended.

Fairy tales had their defender in the celebrated Canadian writer, Agnes Maule Machair of Kingston, who said that she would stand up for Hans Christian Andersen and Jack the Giant Killer any day.

Mrs. Kate Brownlee Sherwood of Canton, Ohio, spoke as an American visitor, congratulating the Canadians for two pieces of good fortune. First, that they had a Christian woman, Victoria, on the throne; second, that for the wife of the Governor-General they had a noted leader of women and a Christian worker, Lady Aberdeen. She hoped that the women of Canada would co-operate with the National Council of the United States in their warfare for good.

Lady Aberdeen took a vote on the proposal to co-operate, and it was carried unanimously.

Excellent arrangements for the convenience of delegates have been made, and the hall itself is odorous and lovely with lilies and palms and roses. There are some 200 ladies in attendance, and visitors drop in from time to time throughout the day. The convention will continue until Friday. This morning will be devoted to routine business, this afternoon to discussion on art, education and social reform.

THE KIDNAPPED BOY SENT HOME.

Young Charles Glover Almost Recovered From His Terrible Injuries.

Charles Glover, the young man who was taken from a dive in the East End to St. Michael's Hospital some months ago with a badly diseased leg and hip, and who when he thought himself dying told a story of having been kidnapped by thieves, was sent to his home in St. John, N.B., last evening. The young man's aunt, who has been in constant attendance at his bedside since she learned of his whereabouts, accompanied him. For many weeks it was not thought possible to save Glover's life, but since an operation had been performed, removing a portion of the bone from his leg, he has slowly gained in strength, and was last evening thought to be strong enough to commence the homeward journey. He was removed from the hospital to the train in the police ambulance.

CARELESSNESS MAY COST A LEG.

Laid His Gun in a Boat at Full Cock and It Discharged.

Fred Coleman, 19 years of age, was out shooting off the sandbar yesterday afternoon, and laid his gun at full cock in the bottom of the boat. The boat rolling caused the gun to discharge, and Coleman received the bullet in his leg, just behind the knee. He was brought ashore and attended to by Drs. Cleland and Rowan, who had him removed to the Toronto General Hospital, where it may be necessary to amputate his leg. The unfortunate young man is a son of Mr. Charles Coleman of the Inland Revenue Department.

LADIES AT PUBLIC MEETINGS

The National Council of Women and Parliamentary Procedure.

At the first meeting of the National Council of Women, held in the City of Ottawa, April 1894, Her Excellency the Countess of Aberdeen recommended the use of Dr. Bourinot's Manual of Procedure at Public Meetings by all those connected with the council; and the book was then formally accepted as the authority in cases of procedure. John P. McKenna, Bookseller, 80 Yonge-street, Toronto, is now offering a cheap paper edition of this valuable book for the use of those attending the Council in Toronto this week. Fifty cents, by post fifty-five.

Arlington Hotel.

The cool piazzas and central location of this comfortable hotel make it most desirable for summer tourists.

THE SINGLE GOLD STANDARD

ESSENTIAL TO BRITAIN'S COMMERCIAL WELL-BEING.

The Present System of Currency Is Suited to the Wants of a Great Commercial Country, and to Depart From It Would Ruin the Trade Credit of the United Kingdom.

London, May 28.—At a meeting today of bankers, financiers and other prominent business men who favor the maintenance of the gold standard, Bertram W. Currie, the banker, who presided, read the reply of Sir William Vernon Harcourt, Chancellor of the Exchequer, to the memorial recently sent to him by friends of mono-metallism.

After acknowledging the receipt of the memorial, Sir William says: "I have no hesitation in giving on behalf of the Government the reply which you have the right to expect."

He briefly outlines the proceedings of the Brussels Conference and the failure to re-summon it, and continues: "I concur entirely with the opinion expressed in your address, that the experience of well nigh a century has proved that our present system of currency is suited to the wants of this great commercial country, and that to depart from it would be disastrous to the trade credit of the United Kingdom. The continuity of the national policy is more necessary in this than in perhaps any other question. You may rely upon it that Her Majesty's Government will not depart from the course pursued by all the governments that have preceded it, and will not give countenance to any change in the fundamental principles of our monetary system, nor in any discussion in which they may be called upon to take part will they admit any doubt as to their intention firmly to adhere to the single gold standard which you justly regard as essential to our well-being as a commercial nation."

Want a Non-Committal Currency Policy

London, May 28.—The Conservatives and Unionists of the Gold Standard Committee have written letters to Lord Salisbury and Mr. Balfour, urging the pursuit of a non-committal currency policy in the coming election campaign. The signers declare that unless no conditions will they support a proposal to alter the standard upon a bi-metallic basis.

Commons Must Sit on Derby Day.

London, May 28.—In the House of Commons John William McClure (Conservative) moved at the close of to-day's sitting that the House adjourn until Thursday, in order to permit the members to attend the Derby. The motion was defeated, 221 to 174.

Dissolution Rumors Unfounded.

London, May 28.—The Daily News in an editorial to-morrow referring to the persistent reports of a forthcoming dissolution of Parliament will re-affirm that, as far as the intention and expectations of the Ministry are concerned, there is not the slightest foundation for the rumor.

Hard for Divorcees to Re-Marry.

London, May 28.—In the House of Lords to-day, Lord Halifax's bill to empower church officials to refuse to marry persons who have been divorced passed its second reading.

Inspection of Foreign Meat Wanted.

London, May 28.—The Associated Chambers of Agriculture met and adopted a resolution to the effect that foreign meat imported into Great Britain should be inspected as a safeguard against tuberculosis.

BAD ACCIDENT AT WINDSOR.

Mayor Mason and Two of His Workmen Seriously Injured.

Windsor, May 28.—A serious accident occurred in Mayor Mason's brickyard this forenoon. The main building of his new yard was completed, and the V roof which was being put together was being hauled aloft. David Hook and Henry Freeman were upon the timbers guiding the V. The Mayor climbed up to give directions, when the rope gave way, and the mass of timber came crashing down from a height of 20 feet. The two men were thrown violently to the ground, while the Mayor fell close to the building, almost smothered by the loose timbers. He had escaped broken limbs, but was bleeding from head to foot, having been struck in almost every part of the body. Hook and Freeman are paralyzed from the waist down, and in a dangerous condition.

Killed by a Plow Falling on Him.

Beachville, Ont., May 28.—Harry, the 3-year-old son of James Forden, was killed by a plow falling on him. It is supposed that while the little boy was playing the plow fell, the handle striking him on the chest.

DEPOSED FROM THE MINISTRY.

Rev. R. C. Horner Ruled Out for Infraction of Methodist Discipline.

Smith's Falls, Ont., May 28.—The Ministerial session of the Montreal Conference met to-day. The Conference has lost from the active work by transfer Rev. C. O. Johnston, and has gained Rev. J. E. Starr. Rev. T. S. Harirs has resigned, as he is no longer able to subscribe to the doctrinal standards of the Methodist Church. Last year Rev. R. C. Horner was appointe d to Combermere. He refused to go. After trial and conviction he was suspended till this Conference. It was unanimously resolved, that in view of Mr. Horner's violation of the discipline he be deposed from the ministry.

Billiards, Sutton's new tables, 130 King w

China Must Pacify Formosa.

Washington, May 28.—The Japanese Legation is still without information regarding the reported troubles in Formosa. The officials say that an uprising of any character can be speedily quelled whenever the Japanese Government chooses to act. One reason assigned for Japan's lack of action is that the island may not have been as yet formally ceded to Japan. It is thought probable that Japan will look to China to quell the rebellion on the ground that by the terms of the treaty of peace a cession of the island was to be made to Japan and that the cession cannot properly follow so long as Formosa's internal affairs are in an unsettled condition.

An absolute cure for sea sickness—Adams' Tutti Frutti. See that Tutti Frutti is on each wrapper. Refuse imitations.

THOSE PUPS AGAIN.

BIG FRASER: Nice to see the rain-water bar'l gettin' full agin', ain't it, Wilf?

WILF, in great disgust: Nice? Say, Fatty, d'you know that's where Miss Canada 's likely t' drownd them pups.

SUNDAY GOLF,

The Four Players Whose Sabbath Sport Was Interfered With Anxious to Have a Test Case.

The four golf players whose game on the field just west of Morton's grove by Gerrard-street, on grounds of their own, was interfered with on Sunday afternoon, came before Mr. J. Richardson, J.P., last evening at East Toronto. The case was not then settled, but will be taken up again on Saturday evening next at 8 o'clock before the same Magistrate in one of the rooms of the Aberdeen Skating Rink in Main-street. The fine is at least $10 each, and this the defendants are eager to pay, in order to test the right of interference with their play. The regular golfing costume was worn, but no caddies were employed. The games in question have been going on for some time, and it was learned from one of the constables that the course now taken against them in done at the instance of one or two of the residents in the near neighborhood.

Canal Boats Rotting in Idleness.

Buffalo, May 28.—Three hundred canal boats are lying rotting in the water in Buffalo, freight rates having gone so low on grain that the canal boats are unable to make expenses, and most of them are lying idle. The shipments of grain from the West are as heavy as ever this year. The terminal elevator has already handled 3,500,000 bushels of grain this season, and out of this the canal has only three boat loads.

Smuggler Lyons' Bail Estreated.

New York, May 28.—The bond of John T. Lyons, the Montreal druggist, charged with smuggling phenacetine and sulphonal into this country from Canada, was forfeited this morning, as the defendant failed to put in an appearance before U.S. Commissioner Shields when his case was called. Lyons has been out on $2500 bail since his arrest on May 15, when he was arraigned on the charge. A telegram offered in evidence this morning stated that Lyons was seen on the street in Montreal yesterday. Lyons is said to be a wholesale druggist in Montreal who does an extensive business throughout the Dominion of Canada.

Burglars Terrorize an Old Man.

Erie, Pa., May 28.—Masked robbers forced an entrance to the house of Thomas Maguire last night. Maguire is over 70 years old, and his only companion is a half-witted brother. The old man was roughly handled and bound and then under blood-curdling threats he was forced to reveal the whereabouts of his cash. The burglars secured about $700.

For mental or bodily fatigue use Adams' Tutti Frutti It is nature's tonic. See that Tutti Frutti is on each Wrapper.

SOMETHING NEW UNDER THE SUN

And It Is an Importation From the World's Metropolis.

It is almost certain you have not noticed the latest novelty It was on exhibition yesterday for the first time. It consisted of a straw hat one inch higher in the crown than any of late years, and one and a half inches narrower in the rim. Bearing these pointers in mind, anyone can tell whether a last season's or new-this-week style of hat is being worn. Hundreds viewed the display in the ground floor showroom at King and Yonge-streets yesterday. Dineens had only straw hats on view. Some are very beautiful, in fancy and notched straws with vari-colored ribbons. The texture is the best on this continent, and at no place in Canada can newer London styles be had than at Dineens'. Men, women and children can be accommodated at prices for straw hats from 50 cents to $2.50, and for Dunlap's shapes the most fashionable in New York, from $1 up to $5.

THE HENDERSHOTT MURDERERS.

Application for a New Trial—The Prisoners Studying the Bible.

Mr. Norman McDonald, counsel for Duncan Hendershott and W. D. Welter, awaiting execution at St. Thomas on June 18 for the murder of the former's nephew, yesterday made application to Deputy Attorney-General Cartwright for a new trial of the accused.

In the event of a new trial being refused, which is almost certain from the fairness to the prisoners manifested by Chief Justice Meredith, counsel will petition the Minister of Justice for a commutation of the sentence. The condemned men are hopeful that they will receive a new trial, or that their sentence will be commuted to a term of imprisonment. During the past few days they have commenced to read the Bible, devoting a considerable portion of each day to its perusal. They receive a bouquet of flowers from the secretary of the Y.M.C.A. weekly.

The grounds upon which application is made for a new trial are that the evidence was insufficient to convict Hendershott, and that the testimony of Mrs. McConnell and Mrs. French as to statements made by Hendershott was inadmissible.

Shortis Wants Change of Venue

Montreal, May 28.—George S. Foster appeared before Judge Belanger at Beauharnois to-day and asked that Shortis, the Valleyfield assassin, be tried elsewhere than in Beauharnois. He submitted affidavits alleging that Shortis would be in danger of lynch law if the trial took place where the murder was committed. The Crown will oppose a change of venue.

HEAVY OCEAN TRAFFIC.

Atlantic Steamers Will Be Taxed to Their Utmost This Summer.

Montreal, May 28.—The Montreal agents of the Dominion Steamship Company have received advices from Liverpool, indicating heavy passenger traffic to America this summer. The Cunard and White Star liners have all their outward passenger accommodation fully taken for July, August and September. The Labrador, sailing from Liverpool June 15, has already 100 saloon passengers booked for St. Lawrence ports. The homeward list is also large, as the Labrador will take over 100 saloon passengers from this port on Thursday next.

Ramsden & Lloyd Serve the wedding breakfast right. Phone 657.

A Foolish Statement Denied.

Montreal, May 28.—L'Electeur, having stated that several Roman Catholic bishops from this province had solicited knighthood for Mr. Justice Routhier at the hands of the Federal Government, your correspondent is authorized to give a formal denial to the Quebec paper's absurd story. As a high church dignitary stated to-day, the Quebec bishops have something else to do.

Ask your shoe dealer for Cerol Russet Dressing. Price 15 cents.

Cottage, Cruise, Camp.

One of these words will be suggestive of almost any holiday trip you can take and the three together are suggestive of the supplies of all kinds of provisions, liquors and cigars which it is necessary to get from Michie & Co. before starting. ed

Personal.

Mr. Scott of the Evans Chemical Co., Cincinnati, is in town.

Mr. and Miss Moore, late matron of the Haven, have returned from Denver, Col., and are staying with H. W. Moore, Park View-avenue.

Beaver, "the gentleman's chew," can now be had in thin plugs. d

Turkish baths day and night, 204 King-st.

DEATHS.

KIELY—On Monday, May 27, 1895, at his late residence, Jarvis-street, Toronto, William Edward Kiely, aged 23 years. Funeral Wednesday at 3 p.m.

WOMAN MURDERED BY WOMAN

A POKER AND KNIFE THE MURDERESS' WEAPONS.

The Victim Had Slept Under Her Roof, Left the House Early for Her Own Home, But Was Killed on the Way—Jealousy the Cause of the Crime.

Gracefield, Que., May 28.—The whole of this section of the country is in a state of excitement over the finding on Friday last of the mutilated remains of Sarah Jones of Baskatong, a short distance from her own home. The scene of the murder is 36 miles distant from Maniwaki on the Desert.

The murdered girl, Miss Jones, kept house for her three brothers and a younger sister. Miss Jones was 24, quiet, respectable, and is described as short and stout, and somewhat deformed by a hump back. She and her brothers lived on one of the best farms in the settlement.

Stabbed After a Struggle.

On Friday all the household, save Miss Jones, were away from home, and Miss Jones, fearing to remain all night alone, went to the house of a neighbor named John Laframboise and remained there until morning. She left there next morning for home, and this was the last seen of her alive.

Her remains were found the same forenoon a short distance from her home. Her head was badly bruised, one arm broken, and a stab, as from a knife, was found below the right ear. Her clothing was torn and disarranged and the marks of blood in the vicinity showed that a desperate struggle had taken place. She had apparently not been dead many hours when the body was found.

Murdered by a Woman.

There is only one person suspected of the murder, and that person is a woman. This woman is the wife of Laframboise. She is the mother of several children, but for some time past has, it is alleged, been jealous of the murdered girl on account of an intimacy which she imagined had arisen between Miss Jones and her husband, by which she believed her husband's affections to have been alienated from her. This is said to be quick-tempered, and her outspoken language with regard to Miss Jones is now recalled. Mrs. Laframboise discovered the body near Jones' house. Not far from the mutilitated remains was discovered a poker covered with blood. The shape of a woman's hand was imprinted where it had clasped the boody weapon.

A Warrant Asked For.

The brother of the murdered girl has asked for the arrest of Mrs. John Laframboise on suspicion. She was seen with Miss Jones shortly before 6 o'clock the morning of the murder, and was the last one seen near the place, and also first to tell neighbors of the murder. Mrs. Laframboise is reticent in speaking of the affair.

Bailiff Desillet of Desert has gone up to place any suspicious parties under arrest.

A Mother's Double Crime.

Baltimore, May 28.—Lying in pools of blood in the second story front room of 1713 Aisquith-street, this afternoon were found the bodies of Mrs. Marion J. Curtain, aged 49, and her 16-year-old daughter Mamie. In the hands of the mother was a razor fresh with the life blood of both. The elder woman had killed her daughter and then committed suicide, with the same death-dealing instrument.

PUBLIC BUSINESS BLOCKED.

Newfoundland's Affairs at a Standstill—No Quorum in the House.

St. John's, Nfld., May 28.—The Legislature adjourned again to-day for want of a quorum. This confirms the popular belief that Secretary Bond's reported loan is a failure. It is reported that Secretary Bond has returned to Montreal, hoping finally to induce the Bank of Montreal to make further financial advances. The proposed retrenchment scheme has not yet been adopted. No public business has been presented in the Legislature as yet, although that body has been sitting spasmodically since January.

BOND'S EFFORTS FUTILE.
