Demon Dyspepsia—In olden times it was a popular belief that demons moved about through the ambient air seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at it in the same way, seeking habitation in those who by carelessness of unwise living invite him. And once he enters man it is difficult to dislodge him. He that finds himself so possessed should know that a true friend to do battle for him with the foe is Parmalee's Vegetable Pills. They are ever ready for the trial. ed

ILOILO IS CAPTURED.

Gen. Miller Took the Town on Saturday Last.

REBELS FIRED THE PLACE

But the United States Troops Quenched the Flames.

Aguinaldo Claims a Victory and Tells His Followers That 2300 Americans Were Slaughtered — The News of the Capture of Iloilo Received at Washington — No Losses to the American Troops—General Miller's Report to General Otis.

Manila, Feb. 14.—(9.35 a.m.)—The United States forces, under Brigadier-General Miller, captured Iloilo, capital of the Island of Panay and seat of the so-called Government of the Visayan Federal Convention, on Saturday last, after a bombardment.

The rebels set the town on fire before evacuation, but the American troops extinguished the flames. There were no casualties on the American side.

Aguinaldo Claims a Victory.

London, Feb. 13.—Reuter's Telegram Company has received the following despatch from Manila, dated Feb. 13, 3.45 p.m.:

"After the capture of Caloocan a Spaniard, who had been a prisoner there, came to the Americans, holding up his hands, and said that the Filipinos had offered to release the Spaniards, especially the artillerymen, if they would undertake to fight against the Americans at $4 a day. Most of the Spaniards refused, and even those who accepted the offer did so in the hope of effecting an escape.

"The rebels, according to this informant, are discontented, unpaid, unfed and thoroughly disillusioned, the talismanic wafers being of no avail against wounds, hunger and fatigue.

"On Friday Aguinaldo visited Polo, a few miles northwest of Caloocan, and addressed the Filipino troops there, claiming that he had won a victory, and asserting that 2300 Americans had been killed."

The Official Report.

Washington, Feb. 13.—Shortly before midnight Adjutant-General Corbin made public the following despatch from Major-General Otis, reporting the capture of the town of Iloilo by the American forces under Gen. Miller on the 11th inst.:

Manila, Feb. 13.—General Miller reports from Iloilo that town taken 11th inst. and held by troops. Insurgents given until evening of 11th to surrender, but their hostile action brought on an engagement during the morning. Insurgents fired native portion of town, but little loss to property of foreign inhabitants. No casualties among the United States troops reported.

"(Signed) Otis."

Despatches From Miller.

Manila, Feb. 14.—(9.45 a.m.)—The United States gunboat Petrel arrived late last evening with despatches from Brigadier-General Marcus P. Miller to Major-General Otis, announcing that Iloilo had been taken by the combined military and naval forces on Saturday morning.

General Miller, on receipt of his instructions from Manila, sent native commissioners ashore from the U.S. transport St. Paul with a communication for the rebel Governor of Iloilo, calling upon him to surrender within a time stated, and warning him not to make a demonstration in the interval. The rebels immediately moved their guns and prepared to defend their position. Thereupon the Petrel fired two warning guns, the rebels immediately opening fire upon her.

The Petrel and the Baltimore then bombarded the town, which the rebels, having set on fire, immediately evacuated.

American troops were promptly landed and extinguished the fires in all cases of foreign property, but not before considerable damage had been done. It is believed the enemy's loss during the bombardment was heavy, but no American casualities were reported.

A Little Skirmish.

Manila, Feb. 13.—(10.35 a.m.)—Pursuing their customary tactics, the rebels on the extreme left of the line opened fire at long range on the American troops last night, maintaining their fire for a few minutes before settling down. None of their shots took effect, however, and the Americans did not reply. All was quiet along the rest of the line.

The Concord is now lying off Paranaque. The weather at night now is cooler and showers are frequent.

Pte. Meisick of the Montana Regiment, who was shot in the lungs in the fighting Feb. 4 and 5, died in the hospital yesterday.

Cordon About Caloocan.

Manila, Feb. 13.—(4 p.m.)—The 20th Kansas and the 1st Idaho Volunteers have been recalled from the marshlands north of Malabon, and the former regiment is now entrenched in front of Caloocan. The American line forms a complete cordon, 22 miles in length, from the coast on the north almost to Paranaque, south of Manila.

There has been no change in the disposition of the troops except that the Fourth United States Cavalry has relieved the First Idaho Volunteers and a battalion of the 23rd Infantry has been stationed on the left flank to prevent the rebels sneaking along the beach. The enemy are busily throwing up entrenchments on their left, sharpshooters in the jungle covering their operations.

Several Americans were wounded in the trenches to-day. Second Lieutenant George Ashman of Battery B, Utah Artillery, was shot in the leg while standing near his gun. Four men of the 20th Kansas Volunteers were wounded slightly. Last night Private Brinton, Company B, and Private Stevens, Company G, of the Kansas Regiment, were wounded.

All the enemy's dead at Caloocan have been buried—one hundred and twenty-seven last Sunday and three hundred yesterday. The United States cruiser Charleston has moved up the coast and is now off Malolos, the seat of the so-called Filipino Government, at a distance estimated at about eight miles.

People Went ... arried Out Into ... igan.

Chicago, Feb. 13.—On Saturday afternoon sixteen persons went skating on Lake Michigan and were carried on an ice cake out on the lake. Ten were found and brought back, the others being still out. This morning it is found that Sydney Morris, Charley Mobey and a policeman are also among the missing. They started out together at 9 o'clock to aid in the rescue of the missing students. Nothing has been heard from them since, and they are supposed to be adrift on the lake. The weather remains cold, with a piercing wind blowing, and it is feared that none of the missing can survive. Prof. Ross and a number of other officials of Lake Forest Academy went to Waukegan, Ill., last night to secure a tug. An attempt was to be made to force their way out into the open water and search for the missing boys who were carried out into Lake Michigan by an ice floe yesterday.

Five of the six persons who were thought to have been lost on the ice last night were rescued this morning. They were Elmer D. Brothers, Orel Manney, Chauncey Manney, George Malor, J. W. Carous, all of Chicago. Arthur Sieder of Rogers' Park is still missing.

ALD. MORRIS AFTER MR. CLEMOW

The Senator is Alleged to Owe the City $1300 and the Alderman Proposes to Make Him Pay.

Ottawa, Feb. 13.—Ald. Morris, in an interview to-day, said: "I am tired seeing the poor workingmen and widows having their few little possessions seized and sold and the life worried out of them for a few paltry dollars of arrears, while men who roll in riches are allowed to owe large sums for years. I intend making a test case of Senator Clemow. He owes the city over $1300 on sprinkling and water rates on one property alone, and has owed considerable of the amount for years. His indebtedness on the property I refer to runs as far back as 1885. Mind, when I say he owes $1300 on that property, I do not include the regular taxes. I have not found out what they amount to, probably a much larger figure. Why should he, a rich man, be allowed to get so far behind, when hundreds of poor laborers are dogged for a paltry $8 or $10 per year? I say the thing must stop. One man is as good as another, and every man, every citizen, should be treated alike."

Ald. Morris will move at Council to have arrears collected.

A Dead Lumberman.

The Gatineau train this morning brought down to the Peche the remains of Alfred Gauvreau of Masham, who was instantly killed in one of the Edwards limits last Friday by the fall of a tree. Deceased was 55 years old, and leaves a wife and seven children.

PLACER MINING

Mr. Lambert Tells of Some of the Troubles Encountered in the Atlin District.

Vancouver, Feb. 13.—James Lambert, who has returned from Atlin, intends to suggest to the Government some further alterations in the Placer Mining Act. He states that speculators, principally Americans, have staked out many placer claims in the Atlin district, but have not recorded them. A newcomer does not know this when he arrives in the district. He sees the stakes and is about to pass on, when he is accosted by a man, who says that for $50 he can get the newcomer one of the staked-out claims. The new arrival may not have the $50 to spare, and has to go further afield. He cannot waste time to make a few days' journey to see if the claims are recorded. The present Placer Mining Act, Mr. Lambert says, should be amended so that all locators be obliged to place their names and the number of their miner's license on the stake, just in the way as is provided by the Quartz Mining Act. If this was done Americans and others would not, Mr. Lambert thinks, be so easily able to speculate at the expense of legitimate miners.

WHO OWNS THE MONEY?

Two Young Men Had $2200 in Crisp Bank Notes Which They Did Not Earn.

Quebec, Feb. 13.—Two young men, between 17 and 18 years old, named Frank O'Brien and John Dixon, charged before the Police Court to-day with shooting, were found in possession of over $2200 in crisp bank notes, the former $246, and the latter $1976. Several different stories as to where they got the money are in circulation. The most probable theory or conjecture is very compromising for one of our best known citizens. The party who has been wounded by Frank Dixon, a young man named Peppin, is expected to recover. He underwent an operation this afternoon to extract the ball, but it was not successful.

HALIBUT ARE PLENTIFUL.

Boston Merchants Have Made a Big Haul in British Columbia Waters.

Vancouver, B.C., Feb. 13.—Since Boston merchants first took to exploiting the halibut fishery grounds off British Columbia coast they must have received a million pounds of fish. To-day the steamer New England arrived from the banks after the roughest trip on record. The fishermen were only able to cast nets for one good day's fishing. In that short time they got 90,000 pounds of fish, which went east to-day. For several days the ice was a couple of feet thick on the decks, which gives some idea of the unpleasantness of procuring halibut in winter. The crew also report that they had an exciting time with a swordfish, which was captured, and will be sent to Boston.

RAMSAY BURNED TO DEATH.

Lamentable Result of a Fire Which Took Place in Gananoque Last Evening.

Gananoque, Ont., Feb. 13.—Part of the George Gillies bolt factory was destroyed and part of the main bolt shop damaged by fire this evening, at 6.30. It is impossible to estimate the damage at present, though it will posibly exceed $15,000. The damage to stock, machinery, etc., included. W. Ramsay, a machinist, employed in the factory, entered the shop to secure his tools, and was suffocated by the smoke. Inquiries after him showed he had not been seen since leaving the shop, and one of the firemen, W. Potter, entered in search for him. The smoke was so dense that Potter was driven back. On the stairs he stumbled over the body of Ramsay. Potter carried Ramsay out with difficulty, being nearly suffocated himself. Three doctors worked over Ramsay without success, life already extinct. His family are heartbroken with grief, he being the only son and eldest child.

NEWS FROM OTTAWA.

Ontario Government Blamed by The Smith's Falls Review—Photography in Police Station.

Ottawa, Ont., Feb. 13.—The people of Vankleek Hill, who have been fighting an outbreak of smallpox in a family in that town, are sore on the Provincial Board of Health. The feeling is given expression to by The Review of that town, which says: "The Provincial Board of Health is an imposition of the Ontario Government upon the municipalities. Too strong language cannot be used in condemnation of the manner in which the health system of Ontario is managed at the present time. We are going to speak just what experience has taught us in the past few days."

Chief Powell intends introducing a system of photography in connection with the police station at an early date. The chief states that the matter of constructing a dark room is all the expense which the department will be put to, as P. C. Culver is a first-class photographer and can do the work which will be required in this line.

P. F. Rawlinson, the agent of the London Life Assurance Company, held on a charge of alleged forgery, was arraigned before Judge Mosgrave this morning, and elected to be tried summarily. The date of trial was fixed for Feb. 24.

Mrs. S. M. Davies of Ottawa sustained injuries while crossing Sappears bridge over the Rideau Canal, which is looked after by the Government. She has taken out a petition of right in the Exchequer Court, claiming $3000 damages.

John F. Faulds presided at the meeting of the Young Conservative Club last night. The only communication received was a letter from Master William Wright, who is one of the boys of the cadet corps at Trempa. The boy says they are having no easy time of it down there. On the trip down they were met at Hamilton by prominent men, who made long and tiresome speeches.

It was decided to send a resolution of condolence to the family of the late Thomas Christian.

Little Fellow Kicked to Death.

Leduc, N.W.T., Feb. 13.—Claude, the 10-year-old son of Mr. Featherston, has just met a horrible death. He was watering the horses a mile from his father's house, and, as the weather was cold, he tied the rope attached to the halters around his waist. The horses were chased by a dog, and the little fellow was dragged to the ground and kicked to death.

BOOMING FRENCH-CANADIANS

Mr. Tarte's Paper Says They Are the Best People to Clear the Land.

THEIR EMIGRATION TO ONTARIO.

Richelieu & Ontario Navigation Company Will Show a Good Statement for the Year.

Montreal, Feb. 13. — (Special.) —"The French-Canadians are the best people to clear the land, and the Hardy Government is liberal enough to welcome them to Ontario."

This is from La Patrie, which treats of French-Canadian settlement in Ontario. "We are convinced," Mr. Tarte's paper says, "that by hard work the French population in the Nipissing district will double within the next ten years."

The above opinion is founded on the fact of a French-Canadian society being formed for the purpose of promoting French Canadian emigration to the Province of Ontario.

The R. & O. Company.

To-morrow the annual meeting of the Richelieu and Ontario Navigation Company will take place here. In the meantime the annual statement was put in the hands of the shareholders this morning. It is given as follows: Your directors submit herewith a statement of the company's business for the year 1898:

Gross receipts were $728,943; for 1897, $688,026.

Operating expenses, for 1898, $590,936.53; 1897, $522,950.94.

Fixed charges, for 1898, $25,979.80; 1897, $26,945.09.

Net profits, for 1898, $112,027.55; 1897, $108,130.06.

Two semi-annual dividends of 3 per cent. each amounting together to $104,400, were paid, leaving the amount of $7627.55 to be carried to surplus.

A Bright Boy Gone.

The many young friends of Herbert Ross Gooderham will be grieved to hear of his death, which occurred yesterday morning, at his home, at 72 Trinity-street. He had been suffering for only three weeks with an affection of the heart, and his demise was unexpected. Deceased was 10 years of age, and was the second son of Albert and Marietta Gooderham. He attended the Model School, and was an excellent pupil, and also a bright boy in athletics. The funeral will be private.

Coldest Ever Known.

Louisville, Ky., Feb. 13.—The coldest weather ever known in Kentucky was recorded to-day. At Louisville the thermometer only reached 10 below, but the State suffered much more. Lebanon showed a temperature of 30 below, Carlisle 30, Princeton 30 and the highest recorded in reports from 25 station was 12 below. At Paducah a negro woman and her child were frozen to death in a field. In many towns business has been suspended, and coal shortage is reported from all parts of the State. COAL FAMINE THREATENED.

The Cold Snap Has Caused a Serious Situation in Dusky Diamond Regions.

THE RAILROADS ARE ALL TIED UP

And Wagons Are Waiting for Orders That Cannot Be Filled—Critical Situation.

Pittsburg, Pa., Feb. 13.—A coal famine is threatened here. The total coal supply now in the Alleghany and Monongahela Rivers at Pittsburg does not exceed 1,000,000 bushels. The daily consumption is 200,000 bushels, and there are orders for instant delivery of at least 400,000 bushels. The rivers are frozen up tight and the railroad freights are not moving. Coal has advanced from 5½c to 10c a bushel, and in some cases is selling as high as 25c. Hundreds of wagons are waiting on the wharves to load and thousands of orders for fuel are being received that cannot be filled. The situation is the most critical in years. There are millions of bushels of coal in barges up the river, but there is no way to get it here. The situation has become so desperate that an effort is being made to break the ice on the Monongahela as far as locks Nos. 2 and 3, above which it is said there is coal enough to supply Pittsburg and Alleghany for a month, if all other sources of supply are cut off.

Another Fire in Montreal.

Montreal, Feb. 13.—Fire broke out about 10 o'clock to-night in an unoccupied building on Victoria-square, owned by Thomas Leggett. The building adjoined the Greenshields' building, which was destroyed by fire several months ago, and was badly damaged at that time. It has since been untenanted. The fire started on some debris in the basement and it was feared would extend to the adjoining buildings, but streams were quickly laid, and the fire was soon got under control.

ULTIMATUM OF THE CANADIANS.

No More Fooling Will Be Tolerated and the Canadians Will Throw Up the Job.

Montreal, Feb. 13.—(Special.)—The following highly important despatch has been received from The Star's special correspondent at Washington, dated Feb. 13:

"There was to have been a meeting of the Joint High Commission to-day, but at noon a note was received from Senator Fairbanks, declaring that it was impossible to secure a quorum of the American Commission. The ultimatum, for which a formal demand was made by the Canadians on Friday last, Senator Fairbanks promised, would be submitted without fail at to-morrow's meeting.

"On the character of this ultimatum depends the success or failure of the negotiations.

"'It is break up or a speedy settlement,' one of the Canadian Commissioners said to-day. 'There is to be no more fencing. Whatever the ultimatum is, it will not be questioned, even though it mean the falling through of the negotiations. We could not but adopt this course. Our Parliament must meet, and we are in such a position that no more time can be spent with the Anglo-American Conference.'"

Other Radicals Joined in the Effort to Curtail the Lords' Power.

Sir Henry Campbell-Bannerman, the New Liberal Leader, Joined in the Proposition to Keep the Upper House in Subjection — The Commoners, After a Speech by Mr. Balfour, Rejected the Propositions With Emphasis.

London, Feb. 13.—In the House of Commons to-day Mr. Henry Labouchere, Liberal member for Northampton, has made his annual attack on the House of Lords, with a view of limiting its veto power, from which, he said, Liberal measures invariably suffered. He moved an amendment to the address to the throne providing that bills adopted by the Commons in one session and not adopted by the Peers should, if re-passed by the Commons at a subsequent session, become the law of the land.

After a discussion of Mr. Labouchere's amendment, Mr. John Lawson Walton, Liberal member for South Leeds, proposed an amendment to the adress, declaring that the powers now possessed by the House of Lords of overruling the decision of the House of Commons demanded urgent attention of Parliament.

Campbell-Bannerman's Speech.

Sir Henry Campbell-Bannerman, the newly-elected leader of the Liberals in the Commons, supported the Walton amendment. In the course of a vigorous speech he denied that the Liberals were actuated by partisan spirit in raising the question; but the House of Lords, he declared, had always formed a continuous and stereotyped anti-Liberal majority. "On patriotic and constitutional grounds," said Sir Henry, "the situation is full of danger; and no dispassionate man can deny the anomaly and absurdity of a House of Lords in the face of a representative system of Government. The Liberals desire to guard the rights of the representative chamber, while giving to the House of Peers a reasonable power of criticism and advice."

Mr. Balfour's Reply.

Mr. Arthur J. Balfour, Government leader, said there was no middle course between the policy expressed in Mr. Labouchere's amendment and the policy of leaving the House of Peers in its present position. He declared it to be his firm conviction that the Liberals, in proposing constitutional reform, were really moving in the interests of party.

The House then rejected both amendments—Mr. Walton's by 257 against 107, and Mr. Labouchere's by 233 against 105.

A BIG INDUSTRY

Will Be Inaugurated When the Ontario and Rainy River Railway is Running.

Rat Portage, Ont., Feb. 13.—The Rat Portage Lumber Company is this season getting out 60,000,000 feet of logs, and to do the work the company is employing 600 men and 160 teams. As the Ontario & Rainy River Railway will be completed from Winnipeg to Rainy River this fall, this information has induced the company to plan the construction of a large sawmill in Winnipeg, the logs supply to be shipped direct from the boom in Rainy River over the new railroad. The new mill will have a large capacity, and will supply all points on the Northern Pacific and Great Northern roads, which is a new field of operations for the company.
