SPRING SHALL REIGN, A QUEEN.

BY PETER PAUL PALETTE.

A few dead leaves go rustling by,
Before the cold March breeze;

With white and dazzling brilliancy;
And birds are shouting, far and nigh;
And buds are on the trees.—
Sweet Spring is near at hand.—

The celandine, on banks, is seen,
Proud of its stars of gold;
While hawthorn-leaves, so freshly green,
Are thick'ning o'er the hedge-row screen,
So close, we scarce shall peep between
When April's two weeks old—
Sweet Spring steal's o'er the land.—

Though hail fall pattering on the ground,
And heaven be cloud and dim;
We shrink not at the doleful sound,
For soon the sun's again enthron'd,
And smiles triumphantly around,
While earth smiles back at him.—
Spring, coming fast, is seen.

Crisp and fresh the grass is getting;
And daisies, white and gold,
Soon shall croud beneath the wetting
Of April's tears, and tender petting;
Soon we all shall be forgetting
Winter's damp and cold.—
Sweet Spring shall reign, a Queen!

AN ILLINOIS MARRIAGE CERTIFICATE.—A correspondent of the New York "Spirit of the Times," writing from "Copperas Precinct," Illinois, gives the following as among the "rich ones" which his researches among the legal records have brought to light. We give his own language:

"Examining a land title the other day which involved a question of legitimacy I stumbled upon the following marriage certificate, which is decidedly too good to be lost, and is literally *bona fide*. The marriage of which this is the only legal evidence, took place in Copperas Precinct, in this county, in the infancy of *this country*, or rather in primitive times, and the magistrate ought to be immortalized, whether he ever gets his commission or not. The certificate is in these words:—

State of Illinois, Peoria County, ss.

To all the world Greeting. Know ye that John Smith and Peggy Myers is hereby certified to go together and do as old folks does, any where inside Copperas Precinct, and when my commission comes I am to marry em good, and date em back *to kiver accidents*.

O—M—R—,
[ss]. Justice Peace.

I put the initials only, of the Magis rate, for the reason that this legal luminary is still living, and probably too modest to covet the fame to which he is justly entitled. Don't he deserve a pension, and the unanimous thanks of those interested in the rapid peopling of the State, as well as those who can't pay for commissions?"

CAUTION.

THE great popularity the *COMPOUND SOWERS' CANDY* has obtained since its introduction to the Public about two years ago, has induced several persons (three of whom are known to the Proprietors) to issue a Candy made to look like and called by the same name as the true article, but in quality and composition differing from it in both.

The Subscribers would caution the public against such fraud as no person makes, or can make, the genuine except them, and further, the compositions which they give this Confectionery form, this Candy is so prepared as to defy any attempt of Chemical analysis.

In future, as heretofore, each package of the Original will be accompanied by a circular with the signature of the Proprietors, FELLOWS & CO. without which none can be genuine.

WM. THOS. ROBINSON,
Actuary and Secretary

The principles on which this Company is founded were adopted after mature consideration, and to be Assured it offers the combined advantages of the most successful establishments of its kind that have been formed of late years—moderate rates of premium and a large proportion of profits. The soundness of its principles, and the extensive influence exercised by the Directors have placed the Company on a safe basis; and the accumulations have been so considerable as materially to benefit the Policy holders.

Tables are prepared, enabling persons to insure, either participating in profits, or at the least possible cost. By the former method they realise all the objects of Life Assurance, and benefit by their own longevity, without the speculative risk of Mutual Assurance Societies.

Four fifths of the profits given every *five years* to the Assured by the participation scale.

AT the FIRST division of Profits for the five years ending 31st December, 1841, the Reversionary Bonus averaged 31 PER CENT. *on the Premium paid during the preceding five years!* The equivalent reduction of Premium averaged nearly 17 PER CENT. *on the Annual Premiums payable during the succeeding Five Years.*

The SECOND division of Profits, was made on 23d June, 1847, for the five years ending 31st December, 1846. The clear divisible surplus was then £30,269 7s. 9d, four-fifths of which, have been distributed according to the provisions of the Deed of settlement, among the Policy holders at an average REDUCTION ON THE PREMIUMS PAYABLE until the next division in 1852, of 31½ per cent.; or gave an equivalent REVERSIONARY BONUS, averaging £3 13s. 5d. per cent. on the sums assured, or 53¼ per cent. on the *Premiums received thereon, during the last five years.*

The THIRD Division of Profits will take place in June 1852 and all Policies effected by the Participation scale during 1849 will Receive Two YEAR'S BONUS at such Division if then in force.

Persons assured with this Company are allowed to reside in the colonies of *British North America, New South Wales, and Cape of Good Hope*, without extra charge upon payment of sea risk only for the two latter.

No appearance before the Court of Directors required.

Loans are granted on deposit of Policies for five years standing, to the extent of their value.

In addition to the utmost liberality exercised by the Directors in the settlement of claims, the Company will be liable, should a person assured die within one month after a renewable Premium becomes due, provided the Premium be paid within the stipulated period.

No entrance money or fees of any kind are exacted, nor any charge made for Policies beyond the cost of the stamps.

Premiums may be paid, either by even annual or half yearly payments, by a single payment, by payments for a limited number of years, and also by an ascending scale.

PROSPECTUS
OF THE
British American Review

A Monthly Magazine, devoted to the interests of the British North American Colonies.

THE "British American Review" will be published at Boston, U. S., early the ensuing summer, (provided a sufficient number of names can be obtained.) It will be issued monthly, each number containing ninety-six pages royal octavo, making a volume of 1152 pages per annum. The subscription price will be one pound per annum (free of postage) to be paid on receiving the sixth number.

The project of this work has long been impressed with the necessity for Colonial Union—the necessity of Colonists to look forward and prepare themselves for NATIONALITY, in order to prevent their fine country from being subjected to the *Stripes and Stars*. The mother Country has, in a very great degree, withdrawn her protecting hand from them, and, left as they are, to their own prudence, it behoves them to be united, not only for mutual protection and defence, but for the purposes of trade. To advocate a Federal Union, the construction of Colonial Railways, and the extention of every profitable branch of trade and commerce, will be the first objects of this work.

In political economy, we must in some degree be governed by circumstances; the Publisher holds the opinion, however, that were the Colonies United, they could not fail to flourish under the protective system.

A portion of the work will be devoted to trade statistics, and such notices of the various resources of the Colonies as will tend to their developement.

The remainder of the works will be devoted to History, Personal adventures, Reviews of New Works, and General Literature. The articles will be all original.

The subscriber believes a work, such as he has here described, is much required, and hopes to meet with general patronage. He has had several years experience in conducting Colonial Periodicals, and, with such assistance as he expects believes he can issue an interesting Journal. The reasons why Boston is selected as the place of publication, are, that that city offers great facilities for collecting materials; it is situate within thirty hours travel of Montral, St. John, and Halifax; and the Review being published out of the Province, will be divested of a local character. Contributions will be thankfully received.

N. B. Newspapers copying this Prospectus, shall be entitled to exchange.

WOOLLEN HALL,
JUST OPENED BY
JAMES GARRETT & CO.

In Wiggins's new Brick Building, corner of Prince William and Princess Streets; opposite the Book Store of Messrs. H. Chubb & Co.; and on the corner North of the "Commercial Bank Building;"

Which the Citizens of SAINT JOHN and the Public generally, are respectfully invited to visit and walk through, irrespective of purchasing.

For many years past it has been increasingly our conviction:—FIRSTLY, that private enterprise is one of the most powerful means of forwarding the prosperity of a country;—SECONDLY, that the public are benefitted by being supplied with good and cheap articles for cash, instead of inferior and dear ones on credit.

In the carrying out of the first of these objects, we have repeatedly—in order to the extension of our business—laid out considerable portions of our acquired capital in providing increased accommodation, always with entire success; our last effort in this way being the leasing of that magnificent Shop, recently fitted up and decorated, expressly for us, by our enterprising townsman, Mr. F. B. WIGGINS; and we no more lacking a commensurate increase of our business than we doubt the discriminating powers of the New-Brunswickers.

In the carrying out of our second proposition we commenced the Tailoring Trade, and introduced the system of supplying good and cheap Clothing at moderate prices for Cash, the proof of our success will be found in the extensions we have alluded to, our confidence in the principles we have acted on is evidenced in the large shop we have just taken.

In launching forth our new enterprise on the public sea we do so with the conviction that our success must mainly depend upon ourselves, that there are thousands who want Clothes daily is an unmistakable fact; that many will come to us if they feel we offer inducements is equally true, we avow ourselves in every sense of the word, Progressionists—always aiming at improvement, every year adds to our capability of doing business well; we know more this year than last, one coviction has strong hold of us, viz., that honesty is the best policy, we have tested it; and if we know anything, it is, that if the public are fairly treated, they will abundantly appreciate it, we know also that from the pressure of the times, the obtaining good value is increasingly a desideratum; it is then with the determination to continue to carry out these objects to the widest possible extent that we feel confident of obtaining increased patronage.

With these views we have devoted much attention latterly to improvements which are making in the manufacture of Woollens; and we think, nay we are satisfied we have succeeded in adopting the most important of them, we may here state that in our frequent use below of the words "Low Quality" it is for articles which we can warrant as really good value.

With this preamble, we beg briefly to direct attention to the several departments promising that in every instance where we can procuoe the best Fabrics, well made and good value; we give them a decided preference.

Department No. 1,	Black Cloths.
Department No. 2,	Medley Cloths.
Department No. 3,	Vestings.
Department No. 4,	Trowserings.
Department No. 5,	Clothes for Over Coats.
Department No. 6,	Waterproof Fabrics &c
Department No. 7,	Gentlemen's Mercery.
Departments Nos. 8 9,	Tailoring.

WE NOW PROCEED TO
The Back Warerooms,
THE ENTIRE OF WHICH ARE DEVOTED TO
The Ready--Made BRANCH,

which is unquestionably the most extensive and perfectly arranged of its class in America. To this branch we bestow increased attention; we know it is the advantage of the public to patronise it largely; let all remember that our stock is not gathered up here and there, made in factories, nor purchased from the wholesale Slop Houses in London; but that every article is carefully cut by our experienced Foremen—made up under their inspection; in fact that purchasers may as fully depend on procuring a ready-made Garment as if it were expressly made for them.
