MELANCHOLY ACCIDENT.—The schr. A. Thorne, from Digby for Boston, was wrecked on the East end of Grand Manan, on Friday night, the 14th inst. The crew were so exhausted that but one was able to stand on reaching the shore. Mr. E. Sweet, a passenger, died on board the vessel from injuries and exposure. Mr. S. was much esteemed by all who knew him, and has left a large circle of relatives and friends in this and the adjoining Province to mourn his untimely fate.—*Newbrunswicker.*

The steamer *Portland*, Capt. Rogers, is to commence her trips between Boston and Eastport, on Monday the 7th of April.—The *Herald* will resume her trips to Eastport for the season, to meet the *Portland*, on the 1st of April.

LAUNCH.—On Tuesday last, was launched from the Ship Yard of the Messrs. Olive, in Carleton, a beautiful modeled brig of about 300 tons burthen, called the Hovey. She was rigged on the wharf, and is intended for the Mediterranean trade, being built for Messrs. Thomas Leavitt & Co. of this city, and is an excellent vessel in every respect.—*New Br.*

HALIFAX CITADEL.—The estimates of the charge of the Ordnance Department, for the years 1845–46, have been printed by order of the House of Commons. Among the items £10,000 is proposed to be taken for the works at the Citadel at Halifax and £2,704 will be required to be voted in future years for finishing the work, the original estimate for which was £175,863.—*Halifax Recorder.*

The following Address, from numerous inhabitants of this City, has been presented to His Excellency the Lieutenant Governor. A similar Address was also sent from the Parish of Portland, to which His Excellency returned a like Reply:—

To His Excellency SIR WILLIAM MCBEAN GEORGE COLEBROOKE, *K. H., Lieutenant Governor of the Province of New Brunswick, &c. &c. &c.*

The undersigned inhabitants of the city of Saint John, respectfully represent to your Excellency,

That they are of opinion that it is just and expedient that such persons should be appointed to fill the most important public offices in this Province, as have full capacity to discharge the duties thereof, and on whose integrity and assiduity, the people and the Governor of the Province for the time being, have full reliance and confidence.

That the undersigned view the recent appointment of Alfred Reade, Esquire, to the office of Secretary of the Province as made by your Excellency under the impression that that gentleman possesses the confidence of the people of New-Brunswick, and they therefore humbly address your Excellency to express their cordial approval of such appointment, and their confidence in the fitness and integrity of Mr. Reade to fill and discharge the duties of the said office.

To which his Excellency returned the following reply:—

GENTLEMEN,—

Accept my cordial acknowledgments for your Address, from which I am gratified to find that you have rightly appreciated my desire that the duties of the public offices should be conducted with integrity and assiduity.

The Office of the Provincial Secretary being one through the medium of which the Lieutenant Governor corresponds with all classes of Her Majesty's Subjects, it is especially important that the person appointed to it should be entitled to full confidence for his impartiality and freedom from party influence and bias; and as I should exceedingly regret if, at any time, the case of any individual addressing the Government should fail to receive the most prompt and impartial attention, I hope that the provisional appointment I have made, in accordance with the Royal Instructions, will justify the favourable opinion you have formed of Mr. Reade, and the confidence which, from long experience, I have been led to repose in him as a public Officer.

W. M. G. COLEBROOKE.

At a Meeting of the Pewholders and Parishioners held at St. Peter's Church, in the Parish of Upham, King's County, on Monday 24th March, 1845, Mr J. E. UPHAM being called to the chair, and Mr. J. A. DODGE appointed Secretary, the following Resolutions passed unanimously:—

Moved by Samuel Foster, Esq., and seconded by Joshua Upham, Esq.

Resolved, that while we view this beautiful church and contemplate the time and manner in which it has been built, our hearts should be filled with gratitude to the great Disposer of all events, who has given both the will and the means, and thereby encouraged us to hope, that to many this House will in reality prove to be the House of God.

Moved by Joshua Upham, Esq and seconded by William Ganter, Esq.

Resolved, that the thanks of this meeting be given to J. B. S. Raymond, Esq., not only for his skill in planning, and workmanship in finishing this church; but also for his punctuality, disinterested, noble and gentlemanly conduct during the whole time that he has been connected with the Church Building Committee.

Moved by James M. Fowler, Esq. and seconded by John F. Sherwood, Esq.

Resolved, that the thanks of this meeting be given to all persons who are not members of this church and have subscribed and paid anything towards this Building; and particularly to those members of the Baptist church in this Parish, who, unmindful of the difference of creeds and articles of faith, have generously come forward with their contributions to assist us in our need.

Moved by James M. Fowler, Esq. and seconded by William Ganter, Esq.

Resolved, that the Rev. W. W. Walker be requested by the Church Wardens to inform the Rev. Archdeacon that the very liberal donations of the Church Society in favor of this Church are most thankfully received, and it is the sincere desire and prayer of this meeting that it may be a means of advancing the cause of true Religion in our Parish, and then, we firmly believe, it will answer the end for which it was given.

Moved by Mr. Thomas Warrell, and seconded by S. Foster, Esq.

Resolved, that the thanks of this meeting be presented to the Rev. W. W. Walker and the Church Wardens and Vestry of St. Paul's Church in Hampton, for the disinterested, generous and upright principles that they have shewn in petitioning the Legislature for a Bill to pass which would have transferred the title of the Glebe, now belonging to them, and lying in this Parish, to the Corporate Body of this Church; and further, that they hereby formed, that no proper means shall be neglected to obtain this, to us most desirable object, at the next session of the Legislature.

Moved by S. Foster, Esq. and seconded by Jonathan F. Sherwood, Esq.

Resolved, that in the opinion of this meeting it would be greatly for the benefit of a resident clergyman to have the Glebe Lands nearer to the church, when they could be under his inspection and care; therefore the Corporation should not fail to apply to the Bishop as soon as convenient, to exchange the Glebe for other more convenient and productive lands.

Moved by J. F. Sherwood, Esq., and seconded by Mr. William M. Fowler.

Resolved, that it is the opinion of this meeting that it would tend greatly to the advancement of Religion and Morality to have some pious clergyman settled in this Parish, and that the Church Corporation should present an humble Address to the Bishop on this subject, as soon as may be convenient after his arrival in this Province, praying him at the same time to preserve the services of our church pure, and free from the doctrines and practices of that party commonly designated Puseyites.

Moved by S. Foster, Esquire, and seconded by Joshua Upham, Esq.

Resolved, that the Secretary shall furnish copies of the proceedings of this meeting to the Editors of the *Chronicle* and *Observer*, requesting them to publish the same.

The chairman being requested to leave the chair and James M. Fowler, Esq. being requested to take the same, the following Resolution passed unanimously:

Moved by S. Foster, Esq. and seconded by J. F. Sherwood, Esq.

Resolved, that the thanks of this meeting be given to Mr. J. E. Upham, for the able manner in which he has this day filled the chair.

J. A. DODGE, *Secretary.*

Upham, March 24, 1845.

MR. EDITOR,—As much interest is felt in the literary world concerning good old Dr. Wolf, I send you an extract of a letter from Colonel Williams respecting him, dated Erzeroom 18th January, which affords the latest intelligence:

"I got a note from Dr. Wolf on the 1st instant, dated 4 days from Erzeroom, and begging me to send out a horse litter for him. I did so, and on the morning of the 5th I rode through the snowy pass of Tahreez and met the excellent old man nearly on the spot where I had taken leave of him 15 months ago! The change which bodily efforts and mental sufferings had made, was tremendous; he looked like a ghost, and was entirely knocked up. However, I made the best of it—cheered up the old man in the best way I could, and then headed the cavalcade through the mountain pass, and got him safely into town by 4 p. m. I brought him home and handed him over to my secretary's wife, who is doing great wondering his exhausted state you may picture, when I tell you she is a good christian and a warm hearted Englishwoman.

Poor old man—his mind constantly under the apprehension of death, I found to be much affected; but day by day an improvement has been visible, and to day he has written to his friends long letters, telling them that his master Williams will allow him to set out on the 27th, (making three weeks of nursing); he is already able to walk half an hour twice a day on the flat roof of my house, when the sun shines, and that will break him in for his remaining fatigues over the mountains of Trebizonde. He met with a sad accident at Bokhara, and his journey 1700 has been one of lawful suffering."

PICTON ELECTION.—*Unexpected Close.*—A Poll for the election of a member to represent the Town ship of Picton, in the place of Mr. Smith, whose seat had been recently vacated, was opened at that place on Monday last.—The election was commenced by the Sheriff, upon a system of alternate voting, as recommended by the Attorney General, and was continued without, as we are informed, any interruption, until *Thursday*, when the friends of Mr. Fraser, being dissatisfied, took up possession of the hustings, and insisted upon their votes being taken. This deviation from the system upon which the election had, up to that time been conducted, was resisted by the Sheriff; and after some delay the poll was finally closed, and a special return made, stating the facts. On Friday evening Mr. *Fraser* arrived in the city; and on Saturday the poll was taken up by the house, and after some further discussion, it was agreed that its further consideration should be postponed until the arrival of the Sheriff, whose attendance was ordered. At the close of the poll the numbers were:—for Mr. Wilkins, 456; Mr. Fraser, 458.—*Halifax Journal.*

The Missing Packets.—The New York Herald says:—All hopes of ever again seeing the packet ships United States and England, seem now to be abandoned by the public. The United States has been 101 days at sea, and the England 96, periods of unparalleled length for packets to be absent.

A Royal Present.—Windsor, Thursday.—A few days since a mechanic of the name of Charles Herbert Wood had the honor of presenting to Her Majesty a shell of the mortar, on which he had engraved with a penknife the Great Britain and Great Western steam ships, the Royal arms, with other devices, and about 1500 words. Previous to Wood's leaving the castle, a sum of money was placed into his hands with an intimation that it was for the purpose of defraying his expenses back to town; and he left highly delighted with the reflection that he had accomplished a work that was considered worthy of so high a destination. Yesterday evening, to the great delight and astonishment of the artisan, a large packing case was brought to his humble abode in Harp court, Farringdon street, which contained a proof print of Hayter's picture of the Coronation in a beautiful frame ornamented with the rose, shamrock, and thistle in dead and burnished gold, which proved to be a present to him from Her Gracious Majesty.

Dr. Lardner.—The New York Courier states, that this gentleman has closed his lecturing tour in the United States and intends ere long to return to Europe. He is preparing a work to contain all the lectures he has delivered in this country, to be accompanied by a personal narrative of his tour, with anecdotes, &c.

Speed of the U. S. Steamer Princeton.—The Norfolk Beacon of Thursday says:—Capt. Stockton, having determined to try the speed of the United States steamer Princeton, with the Ericsson propeller, got under way from the navy yard, on Tuesday morning—having previously measured off a mile below the U. S. ship Pennsylvania, which she performed in five minutes in three several trials, the tide having no influence either way. The Princeton was docked the same afternoon, and will have Stevens' Circular Scull applied to her, when it is determined to give her another trial, to test the relative qualities of the two plans of propellors.

Handsome Speculation.—It is stated that within 40 years the United States have extinguished the Indian title to 430,000,000 acres of land for $82,000,000. At this rate they paid the Indians an average of less than 20 cents per acre. Now, if the United States disposed of those lands to their citizens at the present low government price of one dollar twenty-five cents, they have received into their treasury the sum of $455,500,000 above the original cost.

COTTON.—The Mobile Herald of the 23th ult. says:—Over 10 000 bales of cotton were received in this city yesterday. This is the greatest addition ever made to the stock in one day. The barque Rankin cleared for Liverpool yesterday, with 2997 bales of cotton—a pretty extensive cargo.

The Boy Jones in Greece—His Visit to the Palace of King Otho!—The following is an extract of a letter from an officer on board her Majesty's ship Vixapite, Smyrna, Dec. 23, 1844, to his friend in England:—"The boy Jones, who belongs to this ship, disappeared one night at Athens, and every one said he was gone to call on King Otho. I believe that was his intention as he was found near the Palace, and brought back very much disappointed to think he could not pay his intended visit. He is a strange looking fellow, appears half asleep, and seldom speaks to any one. It is the custom to punish when a man deserts, but Jones is put on the black list and grog stopped as long as he remains in the ship."

THE BLESSED EFFECTS OF THE BIBLE.—If the man of a nation, privileged with the Bible, have their portion at last with the unbelieving, it must not be forgotten that there is in every age a remnant who trust in the Saviour whom the Bible reveals. The blessings which result from the possession of the Scriptures are not to be computed from what appears on the surface of society. There is a quiet under current of happiness which is generally unobserved, but which greatly swells the amount of good to be traced to the Bible. You must go into families and see how burdens are lightened and afflictions mitigated by the promises of holy writ. You must follow men into their retirements and learn how they gather strength from the study of the sacred volume for discharging the various duties of life. You must be with them in their struggles with poverty, and observe how contentment is engendered by the prospect of riches which cannot fade away. You must be with them on their death-beds, and mark how the gloom of the opening grave is scattered by the hope which is "full of immortality." And you must be with them, if indeed the spirit could be accompanied in its heavenly flight, as they enter the Divine presence, and prove, by taking possession of the inheritance which the Bible offers to believers, that they "have not followed a cunningly devised fable." The sum of happiness conferred by revelation can never be known until God shall have laid open all secrets at the judgement. We must have access to the history of every individual from his childhood up to his entering his everlasting rest, before we have the elements from which to compute what Christianity had done for those who receive it into the heart. And if but one or two were gathered from a people, as a result of conveying to that people the records of revelation, there would be, we need not doubt, such an amount of conferred benefit as would sufficiently prove the advantage of possessing the oracles of God.—*Rev. H. Melville.*

Extraordinary.—In her 109th year, at Whitechapel, near Ramsey, Betty Heath. It is a singular fact, that when in her 50th year, she was, after a severe illness, pronounced dead by her Medical attendant. Preparations were made for her funeral; the coffin was about to be nailed down, when she evinced slight symptoms of *returning life*, and in a few days recovered tolerable health. The neighbours state that she "took a new lease for her life." And a pretty long one too; for *fifty eight years* cleaved, between her first and second death.—*English paper.*

In the matter of the Estate of the late WILLIAM BELL, deceased.

UPON reading the Petition of William Greenslade, Executor of the Estate of the said William Bell, duly attested and this day preferred, whereby and by the accounts and inventory therunto annexed it appears that the whole personal Estate of the said William Bell which has come to the hands of the said Executor amounts to the sum of £14:2:6, and there appearing by the Inventory filed in this Court, to be no other personal Estate of the said deceased, and that the debts due by the Estate so far as they have yet been ascertained amount to the sum of £33:7:7; and that after administering the personal estate as far as in his power, there remains a balance of £19:5:1 of debts due from the said Estate, for the payment whereof there are no personal assets. EXTENSIVE MILL PROPERTY FOR SALE.
TO BE SOLD BY PRIVATE BARGAIN,
ALL that large and extensive MILL PROPERTY, situated about a mile and a half from the mouth of the Nashwaak, nearly opposite Fredericton and consisting of one MILL, containing six saws in single Gates, with a GRIST MILL, in good order, driving two pair of stones.
The Saw Mills are capable of containing as many Gangs as there are now single Saws, which could be substituted at little cost; they are in perfect order, and some of the Gangs could be driven throughout the entire year, as there are always several of the Saws kept going during the entire Winter; and the Grist Mill has the same advantage. The Draw is perfect and complete order, having been completed at very great expence, and runs entirely across the river Nashwaak, thus securing the whole waters of the river for the driving of the Mills.
Connected with the Mills, there is a fine large Store, well adapted for the business of the country, also a Blacksmith's Shop, and a good Cottage and Garden attached, well suited for the manager of the Mills besides a number of Houses suitable for the Workmen at the Mills.
There is also a tract of Land on the Eastern side of the river, containing 500 acres, and about 200 acres on the western side the latter embracing the Hardwoodlands Farm, and the whole highly capable of cultivation, and precluding any interference by other establishments on the river. These valuable Properties will be sold along with the Mills, and reasonable accommodation will be given to the purchaser. There can scarcely be found within this Province such a valuable Water privilege, and it is therefore well deserving the attention of any party wishing to embark in the Lumber trade; the whole can be seen at any time, and full particulars given on application to W. J. Bedell and Co. Fredericton, Charles Perley, Esquires, Woodstock, or to the subscribers at St. John. ROBERT RANKIN & CO.
