tionably an error, as the yarn is made from cotton. The wool seems of tolerably fine quality, of a pale buff colour, apparently natural, and is worth, we are told, about 1s. 3d. per pound. If it can be obtained in quantity, it will prove a very acceptable boon to the woolen manufacturers, of this country, whose supplies of raw material have latterly proved very insufficient.

QUEBEC, 23 April 1853.

Last night after the report left, the House went into Committee on the Currency Bill. Opposition being made to the proposed Gold coinage of royals and marks, Mr. Hincks said he would abandon that part of the bill, so as to cause accounts to be kept in dollars and cents. His principle object was to introduce the decimal currency. The committee rose and reported progress so as to allow Mr. Hincks time to make this change.

The Bill to facilitate the performance of the duties of Justice of the Peace out of sessions in Upper Canada, with respect to persons charged with indictable offences and the bill to facilitate performance of the duties of Justices of the Peace out of sessions in Upper Canada, with respect to summary convictions and orders. Also the bill to protect Justices of the Peace in Upper Canada from vexatious actions were, on motion of Mr. Richards, considered in committee and further considerations of them was postponed till Tuesday next.

The following bills were read a second time:—The bill conveying to the city of Toronto, certain water lots with the said City for the construction of an Esplanade. The bill to amend the Act incoporating the Upper Canada Mining Company. The bill to authorize the formation of a company to be called the Paris Hydraulic Company. The three proceeding bills were referred to the committee on private bills. The bill from the Legislative Council to amend the Act, to establish a consolidated Municipal Loan Fund in Upper Canada, were read a second time. The House went into committee on this bill rose and reported progress when it adjourned.

QUEBEC, April 25, 1853.

On motion of Mr. Cartier, the rules of the House were suspended, relative to the petition of A. Gillespie and others, praying for an act of incorporation for mining purposes in the eastern townships.

Mr. Drummond moved the House to go into Committee of the whole, on a series of resolutions to idemnify the Seigniors. He proposed that the monies required should be paid from the fund he before proposed, viz: Government and other Seignoiral dues, payable to the Brown revenues from the Seigniory of Lauzon, auction duties, licenses to sell liquors in places other than places of public entertainment, commonly called shop or store licenses; debentures to be issued for the indemnity, charged on the consolidated revenue fund; special accounts to be kept of the funds above named and if they are not sufficient to pay the indemnity, the balance to be charged on the consolidated revenue, in this case a like sum to be appropriated for local purposes in Upper Canada.

Messrs. Badgley, MacDonald of Kingston, Langton, Murney, and MacKenzie opposed the proposition, Messrs. Hincks, Morin, Richards and Drummond defended the position of the Government. Against the proposition it was generally urged that the Consolidated Revenue should not be pledged for such a purpose—for the proposition it was contended that the object is of Provincial importance, and that local revenues to the same extent are applied for local purposes in Upper Canada. The debate is going on as the report leaves.

FUNERAL OF JUDGE SULLIVAN.—On Monday at noon, the Barasters of the City assembled at Osgood Hall in their robes, and at a quarter to two o'clock proceeded to the residence of the late Judge Sullivan. There they joined Mr. Chief Justice Robinson, Judge Draper, Judge Macaulay, Bishop Strachan, Rev. Dr. Ryerson, the Hon. R. Baldwin, Hon. Capt Irvine, His Worship the Mayor, and many other leading gentlemen of the City. At about half-past two the funeral procession proceeded to the family vault at Spadina, where the remains of the deceased was solemnly deposited.

At the same time and place was interred the widow of the late Professor Sullivan, who died so suddenly on Friday afternoon at the residence of the late Judge, who was her brother-in-law.

The funeral was attended by a large concourse of people, and the services were conducted by the Rev. Wm. Baldwin.

The population of California is estimated at 250,000. The principal cities are San Francisco which contains nearly 35,000 inhabitants, Sacramento with a population of 8,000, Marysville, 4,500, and Stockton 3,000. The number of Chinese in California is said to be 25,000.

THE DIFFERENCE.—A late Paris letter says:—"The Americans cannot help noticing and admitting the rapidity with which the French fleet went to sea. Thirty-six hours after the despatch was handed to the admiral, his twelve vessels left the roads of Toulon. Should they be ordered as secretly and as promptly to Hayti or Cuba they would arrive at their destination before it could be known at Washington that they had even left the French coast."

If Mr. Dobbin should be permitted by the old fogies who surround the Department to order two or three vessels to sea, in an exigency, whether from Norfolk, New York, Boston or Portsmith, instead of leaving the harbor in thirty six hours, it would require thirty-six days for the officer of the station to ascertain that he could not get one of them ready in thirty-six weeks. for nearly a year the Department has been making desperate exertions to fit out the Vermont, ship-of-the-line, at the Boston yard. She was intended for Perry's flag *ship in the Japan Expedition* and within the past week it has been ascertained that there is not energy enough in the service to accomplish the object, and the ship is going into ordinary.—Would not Dobbin and the old fogies make a nice mess of it, in case of a war with one of the great maritime powers of Europe?—*Buff. Com.*

The population of Italy is three millions greater than that of the United States.

Value of merchandise imported at the port of New York in March, 1853, $18,095,920.

ENGLISH LAW.—The one great principle of the English law is, to make business for itself. There is no other principle distinctly, certainly, and consistently maintained throughout all its turnings. Viewed by this light it becomes a coherent scheme, and not the monstrous maze the laity are apt to think it. Let them but once clearly perceive that its grand principle is to make business for itself at their expense, and surely they will cease to grumble.

MARKETS.

GODERICH, April 28, 1853.

A CARD.

THE Subscribers return their sincere thanks to the inhabitants of Goderich and adjoining country, for the very liberal patronage bestowed upon them while in business in Goderich. They would now state that they have resigned their business in Goderich in favour of Messrs. BANNERMAN & FERGUSON; for whom they would respectfully solicit the same extended support afforded themselves.

GORDON & MACKAY.
Goderich, April 20th, 1853. v6n13

IN reference to the above we have to state that we have purchased the entire Stock of Messrs. GORDON & MACKAY, consisting of DRY GOODS, GROCERIES, CROCKERY, CLOTHING, &c., on the most advantageous terms. The additions we are making thereto will render it complete in all its departments. To the customers of the late Firm as well as the inhabitants generally, we would say that the facilities we possess for purchasing in the best Markets, with a determination to adhere to the Business Principles of our predecessors, namely—One Price, Large Sales, Small Profits, enables us with confidence to solicit the support of a deserving public.

BANNERMAN & FERGUSON.
Goderich, 20th April, 1853. v6n13

DISSOLUTION OF PARTNERSHIP.

THE public are hereby notified that the Copartnership heretofore existing between JOHN & ROBERT DONOGH, as Innkeepers, is this day dissolved by mutual consent. All parties indebted to the said firm are requested to settle their respective accounts with John Donogh, who will also pay all liabilities.
