Good Things Coming to Theatres of St. John

Opera House Has Banner Offerings

SNOOZER, THE DOG WHICH KNOWS THINGS, AT THE OPERA HOUSE TOMORROW AFTERNOON.

Last times tonight at the Opera House for Wells, Virginia and West, that snappy trio of step and eccentric dancers; Harry Meehan, the happy tramp in songs and witty stories; Field Sisters, two little girlies from musical comedy who can sing and do dances; Audley Tobin in a roaring stunt on the revolving globe; Page and Greene in a laughable knockabout acrobatic act; and the serial drama "The Tiger's Trail," with Ruth Roland. This evening at 7.30 and 9.

The regular change of bill opening tomorrow afternoon offers Rutan's Song Bird, with Rosetta Burrows, the biggest little star in vaudeville; Standard Comedy Trio in a variety novelty act; Dave Manley, monologist, in a fun skit, "His Honor the Mayor;" Meredith and Snoozer, introducing the famous intellectual bull dog; Geo. and Nettie Fosto, in a sensational contortion act, with up to date songs and dances as well; and the serial, "The Man of Might." Tomorrow afternoon at 2.30—evening at 7.30 and 9.

NORMA TALMADGE AND TOM MEIGHAN TONIGHT

It has been some months since Imperial Theatre has shown the charming star, Norma Talmadge in one of her splendid productions, therefore her appearance tonight and tomorrow will please her many admirers. The story is George Scarborough's widely-read fiction, "The Heart of Wetona," a tale of a college-bred Indian girl, her still uneducated Indian people; Tom Meighan as the government reserve officer and Gladden unfaithful lover. This picture is exquisitely beautiful from the scenic viewpoint and intensely gripping in its adventure and love interest. At times the flashes of old Indian warfare set the blood . The Imperial will also have the usual news weeklies and Mutt and Jeff.

"The Romance of Tarzan," sequel to "Tarzan of the Apes," which deals with the semi-wild man's trip to English society to claim his father's estate, will be the Imperial's attraction for three days this week, starting Wednesday. It is tremedonsly powerful in its big scenes and, like the first instalment of this story, filled with wonders. The story concludes with this second chapter.

SETTLEMENT OF ORIGINAL STRIKE

Prospect of Ending Metal Trades Trouble in Winnipeg

STATEMENTS ISSUED

Several Sirikes Begun in Montreal —Toronto Street Railwaymen Defer Action—The Telegraphers in the States

Winnipeg, June 16—"Daylight is in sight," said Mayor Gray last night after a conference with Senator Robertson, minister of labor. He would not say anything more, but he let it be understood that his statement was in reference to the settlement of the dispute in the metal trades, the original cause of the general strike. The mayor also said that the street cars would soon be running again.

Major Lyle of the special police force had as visitors during the evening James Winning and R. Brussell, two of the inner circle of the strike committee. Nothing would be disclosed as to the nature of the interview.

Winnipeg, June 16—In a lengthy statement to the public the metal trades employers today outlined their policy on the question of collective bargaining which is endorsed by the mediation committe of the railroad brotherhoods officials as "being in principle and effect the same as that enjoyed by these (railroad) organizations."

Senator G. D. Robertson, minister of labor, after reading the declaration by the companies, said: "The policy outlined is a full and complete recognition of collective bargaining as generally interpreted and applied, and is entirely in accord with the established practice on our Canadian railways. It should, in my opinion, be accepted as satisfactory to labor."

S. C. Coleman of the C. P. R.; A. E. Warren of the C. N. R., and W. P. Hinton of the G. T. P., also endorced the policy as contained in the statement.

The policy outlined provides no discrimination in regard to union men or non-union men, employes to have right to negotiate schedules, covering hours and wages and working conditions; employes to have right to elect representatives from among employes of firms involved. In the case of disputes, if any agreement cannot be reached by methods outlined, the duly accredited international officers of the metal trades organizations shall be called upon to assist in effecting a settlement.

Toronto Street Railway.

Toronto, June 16—Sentiment in favor of an immediate strike of the employes of the Toronto Street Railway Company was strong at a meeting of the men yesterday, but the matter was postponed for a week. In the meantime it is hoped negotiations may result in a satisfactory settlement. The men demand 55 cents an hour and an eight-hour day. The company states that it cannot pay the increased wage and allow the shorter day.

Two in Montreal.

Montreal, June 16—Four thousand employes of the Dominion Textile Company in Montreal struck this morning for higher wages and shorter hours.

A strike which may spread to the whole of the building trades here was started this morning by electrical workers. Four hundred men are affected.

One thousand two hundred employes of packing houses, some of whom are branches of Toronto firms, struck this morning. They refused to wait for the arrival of the terms of the award given to Toronto employes in the concerns.

The striking packers demand a forty-eight hour week instead of sixty hours as at present; same wages for forty-eight hours as sixty, and an increase all round of six cents an hour, making a wage of sixty-eight and one-half cents an hour for butchers and forty-seven and three-quarters an hour for laborers.

Cobalt, Ont., June 16—There will be no immediate strike in the Cobalt camp. At a meeting of the miners' union yesterday it was decided to abide by the action of the executive promising the minister of labor to take no extreme steps until all possibilities of settling the differences by negotiation had been exhausted.

The Telegraphers.

Atlantic City, N. J., June 16—Frank Morrison, secretary of the American Federation of Labor, announced to national convention delegates here last night that Postmaster-General Burleson had promised to give orders which would result in conferences between representatives of the striking commercial telegraphers of the Western Union and Postal companies and representatives of the companies. At these conferences, he said, machinery for settling difficulties would be arranged.

Mr. Burleson's action in recognizing the electrical workers' union, thereby averting a strike, will not affect the resolutions which have been presented to the convention asking for his removal, said sponsors of these resolutions. They declared that these resolutions would be pushed "to the limit."

Chicago, June 16—Both sides in the strike of telegraphers today awaited amplification of a statement made at Atlantic City last night by Frank Morrison relative to Mr. Burleson's promise.

"I am glad to hear that," said S. J. Konenkamp, president of the Commercial Telegraphers Union, when told of the proposed conference. "I am trying to learn some more about it."

The proposed strike of electric workers set for today, in which some 130,000 persons were to be involved, did not take place, having been called off after Postmaster-General Burleson granted their demands for collective bargaining and adjustment of wages.

OSTEOPATH WINS.

Montreal, June 16—A disagreement between osteopaths and the doctors of medicine, which resulted in the suspension of a bill at Quebec to incorporate the osteopaths at the last session, is echoed in a judgment rendered by Judge Leet on Saturday in the police court, holding that Evan D. Lewis, against whom a prosecution had been directed on behalf of the college of physicians for having assumed the title of doctor of medicine, could not be prosecuted for practising medicine. The action was dismissed.

COMMISSIONER FISHER COMMENTS ON TIMES ARTICLE

"The few citizens who are upholding local taxes for street paving in this city are making a mistake, and as far as they are responsible for the division which exists in the common council are delaying the city's progress, as it is necessary for the council to vote unanimously for the bond issues required for paving."

This statement was made this morning by Commissioner Fisher, in commenting on an article in The Times on Saturday on civic debt and local improvements, the apparent purpose of which, he said, was to advocate the taxing of abutting property for a portion of the cost of paving streets.

The commissioner said that the article referred to contained information upholding the other side of the question, as it showed that St. John, as compared with other cities, could afford to improve its business and through traffic streets without either imposing local taxes or having a higher tax rate than other cities, with respect to its bonded indebtedness.

For example, he said, St. John could add more than one-fifth to its debt of $4,900,000 before having a debt equal to that of Halifax or nearly two-fifths before having a debt equal to the general debt of London, Ont., a city slightly larger than St. John. The general debts of Calgary and Edmonton, with about the same population each as St. John, were respectively three and four times as large as the debt of St. John.

MRS. AVERY SWEENEY.

The death of Mrs. Ada Sweeney, wife of Avery Sweeney of Portland, Me., occurred in Portland on June 13. She was aged twenty-six years and was a daughter of Mr. and Mrs. John E. Parlee of 288 Brussels street. Besides her parents, she is survived by her husband, a son five days old, six brothers and three sisters. The body will be brought to St. John on Tuesday and the funeral and interment will take place at Head of Millstream on Wednesday morning at 11 o'clock, daylight time.

Friends of Miss O'Neill, Main street, will be pleased to hear that she has recovered sufficiently from her long illness to be around again.

MARINE NOTES

The S. S. Manchester Port is due to arrive here this evening from Manchester direct with a large general cargo.

The S. S. War Niagara left Sydney yesterday for this port to load a cargo of deals for the United Kingdom.

Rev. E. J. Grant, who for several years has been connected with the Maritime Baptist, supplied at the Waterloo street Baptist church, Sunday. He gave a very eloquent and inspiring address.

Captain T. Wilmot Bleakney, who recently returned with the C. A. M. C. from overseas, is in the city.

A CENT CHEAPER.

After steadily increasing until it reached double the price asked in 1914, gasoline has apparently climbed over the summit and is on the down grade. At least that is the hope of a great multitude of motorists. At the outbreak of war motor spirit was selling retail at twenty cents a gallon and the highest price prevailing since that itme is forty-two cents. However, last week the cost went down one cent, so that the price now demanded is forty-one cents.

THE ROTARY CLUB.

Dr. A. H. Merrill gave the Rotary Club a very interesting and instructive talk on Dentistry at today's luncheon. R. G. Schofield presided. Mr. Hennessy, representing the labor department, made an appeal in behalf of returned soldiers who were very young when they went overseas and now find it hard to get suitable employment. President Paterson said the club would be glad to cooperate as far as possible.
