HAS A PROPELLOR DAMAGED

The C. P. R. steamship Montfort, now on a passage from London and Antwerp, has one of her propellors damaged.

PLASTER EXPORT RESUMED.

For the first time in some years gypsum is to be exported from Halifax to the United States and for this purpose the ocean-going tug Gypsum King arrived at Halifax from New York Friday with the large barge Daniel M. Munro in tow. The first shipment will be embarked from freight cars. It will come overland from Windsor, from whence it is shipped during open navigation, and will total about 1,400 tons.

CROWN POINT ADRIFT AND RUDDERLESS.

Halifax, Feb. 15.—News that the British freighter Crown Point lay helpless in mid-ocean with her rudder smashed by the seas, was brought into port yesterday by the tempest-tost steamers Lackawanna and British Sun, arriving for coal after having used up their fuel in fighting their way across the Atlantic from Europe. Both vessels were in wireless communication with the helpless Crown Point last Wednesday but neither had sufficient bunker to proceed to her aid. She was then 240 miles south of Cape Race and the last word stated the new motor driven craft Christian X. was on the way to pass a hawser and tow the Point to a safe harbor.

The Crown Point left London and Fowey January 23 with cargo for Norfolk. It is not at all improbable that she may be brought to Halifax by her rescuer, but there is a possibility that the pair will make for this harbor as the nearest place for safety where repairs may be effected. In the event of this occurring Halifax shipping men will witness one of the most remarkable ships afloat—the the Christian X. She is driven by Diesel internal combustion oil-burning engines and is a big powerful vessel of 10,500 tons. She has no funnels, the hollow masts conveying all the gaseous residue off into the air.

TO WARN STEAMSHIPS OF PRESENCE OF ICEBERGS.

London, Feb. 15.—The government announces that it has completed arrangements for an ice ship to patrol the Atlantic off the Newfoundland Banks and warn liners of the presence of bergs. The whaler Scotia, which was formerly used in the Scottish Antarctic expedition, will leave Dundee at the end of February and will be stationed in the spring off the western coast of North America, going northward to watch the breaking up of the ice and report its movements at the wireless stations at Newfoundland and Labrador. Three scientists aboard the vessel will make oceanographical and meteorological observations as well as the movement of the berks.

BROUGHT SHIPWRECKED CREW.

The West India liner Oruro, Capt. Bale, arrived in port Friday night from the West Indies. The steamer landed at Halifax the captain and crew of the schooner Muriel M. Richard (Br), which sprang aleak and foundered last month off Dog Island, near St. Kitts, while bound from St. Martins to La Have with a cargo of salt.

SAILORS AND FIREMEN ESCAPE; OFFICERS LOST.

Hamburg, Germany, Feb. 15.—The five officers of the steamer Christiania were drowned when their vessel sank after being cut down yesterday evening by the German steamer Galata, during a dense fog off Borkum. The Christiania foundered three minutes after the collision. The sailors and stokers, nineteen in number, escaped in the ship's boats.

HOCHELAGA TO UNDERGO A SURVEY IN HALIFAX.

The coal steamer Hochelaga which collided with the ferry steamer here one night last week is now in Halifax where she will undergo survey. It is reported she was somewhat damaged.

WAS WEAK AND RUN DOWN.
NOT ABLE TO DO HER WORK.
Many women get run down, and are unable to look after their household duties, owing to their nervous system becoming unstrung. Day in and day out they have to go through the same routine of work, sweeping, dusting, cooking, etc. No wonder their work gets on the nerves and they become run down.
When a woman gets into this state there is only one thing for her to do, and that is, to get something that will build up her system.
For this purpose there is not an equal to Milburn's Heart and Nerve Pills. Their restorative action is felt on every organ and tissue of the body, and in a short time the weakness will give place to strength and vitality, and make life worth living.
Mrs. Henry McIntosh, Oliver, N.S., writes:—"I would recommend Milburn's Heart and Nerve Pills to anyone who is weak and run down. I was not able to do my work, nor rest at night for four years. After taking seven boxes, I am entirely cured, and can recommend them to anyone suffering from heart or nerve trouble."
Milburn's Heart and Nerve Pills are 50 cents per box; 3 boxes for $1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

CARGO VALUATION.

The South African line Bendu, for South Africa, took away Canadian goods valued at $202,245, and foreign goods valued at $101,340, making a total valuation of $303,585.

DANGERS TO NAVIGATION.

Boston, Feb. 14.—Stmr Trunkby reports Feb. 6, lat 38 31, lon 64 10, passed a spar with square top and painted white projecting about 4 feet out of water above a submerged wreck. A break in the sea showed what appeared to be the deck of a large vessel.

Stmr Barotse reports Feb. 2, lat 36 05 N, lon 59 28 W, saw a spar about 30 feet long, painted brown; 5th, lat 37 N, lon 67 20 W, passed a pine log about 30 feet long and 2 feet square, covered with barnacles.

Stmr Baltic reports Jan. 26, lat 40 02 N, lon 49 19 W, passed a large red conical buoy.

WAS BADLY DAMAGED.

Newport News, Va., Feb. 13.—A survey of the stmr Meridian from Shields via Bermuda for Nipe Bay, Cuba, which put in here yesterday, shows the vessel's aft deckhouse smashed in, steering gear out of order and four plates in her bottom damaged. Vessel is also leaking. It will require several days to make repairs.

CONVERTED INTO A DREDGE.

The Russian steel bark Kaleva, which was ashore near the entrance of Tusket river two years ago, and later floated, condemned, and bought by Chas. Brister & Sons, Halifax, has been lying in the N. W. arm, Halifax, ever since, has been taken to Dartmouth, and will be converted into a barge for carrying salt. The bark Laugen will also undergo the same process.

REPORTS AND DISASTERS.

Steamer Vasco, previously reported having struck a rock in Yabacoa, P. R. has been placed ashore (not foundered as reported) in 19 feet of water at San Juan; she has a hole in her bottom and divers have been employed to examine her condition; no appliances at San Juan for salvage.

Schooner Mary A. Whalen, Vallis, from Grand Banks, Nfld., Jan. 11, for Oporto, has been abandoned at sea; crew taken off by steamer Ravenna (Ital.), which passed Peniche 12th.

of the bowels is an absolute necessity for good health. Unless the waste matter from the food which collects there is got rid of at least once a day, it decays and poisons the whole body, causing biliousness, indigestion and sick headaches. Salts and other harsh mineral purgatives irritate the delicate lining of the bowels.
