QUESTIONS ANSWERED.

To the Editor of the "Advertiser": Would you through the columns of your weekly paper, inform me of a safe investment of a few hundred dollars, where one can obtain more than 3 1-2 or 4 per cent., and oblige a subscriber?

Ans.—See our advertising columns, both daily and weekly editions.

DISLIKES PUBLIC LIFE.

Winnipeg, Oct. 19.—Hugh John Macdonald once again reiterates his disinclination to re-enter politics. He says he has received no proffer of a portfolio from Premier Bowell and does not expect any.

Hood's Is Wonderful.

No less than wonderful are the cures accomplished by Hood's Sarsaparilla, even after other preparations have failed. The reason, however, is simple. When the blood is enriched and purified, disease disappears and good health returns, and Hood's Sarsaparilla is the one true blood purifier.

Hood's Pills are prompt and efficient and do not purge, pain or gripe. 25c. g

A CONSTANT MENACE TO THE STATE.

London, Oct. 19.—Lord Rosebery, the ex-Premier, in a speech delivered at the opening of the new Liberal Club at Scarborough, said that to his mind the primary obstacle to all reform, and the greatest danger to the stability of the State, lay in the present constitution of the House of Lords, and that if the nation had realized that fact the result of the recent general election would have been very different.

DISASTROUS STORMS.

Rome, Oct. 19.—Severe storms along the Italian coast and in the interior have caused a number of fatalities and done much damage to property. Already fifteen deaths have been recorded. There have been heavy losses sustained by the drowning of cattle and the general damage to property has been immense. At Leghorn several vessels dragged their anchors and were carried by the heavy sea and high wind upon the beach. Twelve fishing boats were wrecked at Ancona and four at Giulianova. The water undermined the foundations of a church at Avellino and caused the building to collapse.

RUSSIA AND THE JAPS.

It is learned that the supplemental treaty which was said to have been framed between Japan and China with reference to the evacuation by the Japanese of the Liao Tung Peninsula has no existence in fact and that no such treaty has yet been agreed upon. The supposed purpose of the treaty was to meet the objection of Russia against any occupation of the Chinese mainland by the Japanese troops. Russia made a protest against such occupation, in reply to which Japan assured the Czar's Government that her retention of the peninsula was not intended to be permanent.

The dispatch to the Paris Eclair from St. Petersburg concerning Corea says: "As to the course proposed, Russia will do her duty, whatever is entailed, without stopping to inquire whether other powers like it or do not like it. She will never abandon Corea and will protect her against all encroachments."

DISGUISING THE MUSSULMAN'S MEDICINE.

Constantinople, Oct. 19.—At a meeting of the ambassadors of the powers, which has just been held, it was decided to send a collective communication to the Armenian Patriarch in order to solicit his assistance in the efforts being made by the representatives of the foreign governments interested to put a stop to the agitation going on among the Armenians.

The Turkish newspapers have published an inspired article contradicting the prevailing idea that special privileges will in future be conceded to the Armenians. The inspired article continues: "As, however, the existing laws and regulations require modification, certain reforms, by which all, without distinction of race or religion will profit, will be introduced tentatively in certain provinces of Anatolia." The article is regarded as intended to prepare the Mussulmans for the promulgation of the reforms forced upon the Turkish Government by the powers and to prevent the impression spreading that they are for the exclusive benefit of the Armenian agitation and the intervention of the powers.

BRITAIN AFTER BELGIUM.

London, Oct. 19.—The Tageblatt says that Great Britain has demanded that Capt. Lothaire, the Belgian officer who ordered the execution of the British trader Stokes in Africa, be tried by a court-martial on the charge of murder, and that Belgium pay an indemnity of 1,000,000 francs to Stokes' family.

THE IMPERIAL POLICY TOWARD THE COLONIES.

London, Oct. 19.—The St. James Gazette makes some highly important and sensational statements regarding Venezuela which seems to show that the dispute between that republic and Great Britain has assumed a very grave aspect. It says that since the Right Hon. Joseph Chamberlain assumed office as Secretary of State of the colonies he has paid close, personal attention to the question of the relations between Great Britain and Venezuela, and that he has taken the initiative in directing, in part, the administration of the affairs of the British colony of Guiana, adjoining Venezuela. Mr. Chamberlain's hand, it appears, has been felt in the local executive council, and the St. James Gazette adds:

"We are now enabled to give the tenor of a remarkable dispatch in which is outlined the Imperial policy towards the colonies. The document is of much importance, inasmuch as it was followed by cabled instructions from Mr. Chamberlain to the Governor of British Guiana, Sir Charles Cameron Lees, K. C. M. G., to obtain without delay a vote for the provision of the maxim Guns, one of which is to be stationed at Uruan or elsewhere along the frontier where the Venezuellans may attempt to cross. The mere fact that Mr. Chamberlain cabled instructions for the defense of the frontier in this manner is positive proof that the Imperial Government will not tolerate a repetition of the Uruan incident, and that it intends to hold the frontier within the Schomburgh line, by force, if necessary.

"In the dispatch Mr. Chamberlain advocates, especially, fostering gold mining, and urges the cutting of a road from the Upper Barima River to Cuyuni, pointing out its importance from a military point of view, as it would enable the Government to keep more closely in touch with the frontier, and repel attempts at Venezuelan aggression, adding that in view of the possibility of early and rapid expansion of gold mining it would be necessary to provide adequately for the protection of the northwest district, and recommending an increase in the number of military and police, as well as the erection of barracks on the frontier."

BRITAIN AND VENEZUELA.

London, Oct. 19.—The St. James Gazette this afternoon follows up its disclosures of yesterday regarding the policy of the Rt. Hon. Joseph Chamberlain, Secretary of State for the Colonies, regarding Venezuela, and the apparent determination of the British Government to uphold its claims by force of arms, by making the following important statement: "We are in a position to state that the Marquis of Salisbury has sent an ultimatum to President Crespo, which not only sets out the demands of the British Government for reparation on account of the arrest of the deputation and the inspectors of police at Uruan; but, it also states the terms upon which Great Britain will definitely determine the boundary dispute with that Republic. The ultimatum is now en route to President Crespo, if it is not already delivered to him.

This final action was decided upon by the Marquis of Salisbury and Mr. Chamberlain before the former's recent holiday in France. Both the Marquis of Salisbury and Mr. Chamberlain are in perfect agreement as to the necessity of ending the frontier dispute, even if Venezuela has to be brought to terms by methods which are the most effective in reaching an understanding with South American republics. The instructions to station maxims on the frontier are to be associated in the dispatch only in the sense that guns will be necessary to overawe those Venezuelans who are not likely to pay attention to President Crespo and the Government of Caracas in whatever agreement the latter may make with Great Britain after a study of the Marquis of Salisbury's message."

The St. James Gazette also published a letter, signed Hugh Watt, deploring the retrograde condition of British Guiana, due, it is said, to the attempts to bolster up the decaying sugar-cane industry; but predicting that Mr. Chamberlains policy will revive its industrial prospects.
