SCHOOLS.

We observed in the 'Sentinel' of January 27th, a communication which had been copied from the Novascotian, on the subject of Academies and Schools, and an editorial remark from Mr. Ward. The communication itself was a piece of miserable trash, evidently shewing the writer to be unacquainted with the subject of which he attempted to treat, and unable to write well upon any subject. It was copied however into the 'Sentinel,' and pronounced applicable to this Province 'where' it is asserted 'much imposition has also been practised with reference to those institutions of the country.' Now we have no institutions such as those denounced in the communication, which is so remarkably applicable to this Province. If the Grammar Schools are intended we wish Mr. Ward had been more particular in shewing how and where the impositions had been practised, in order that a whole class of Schools might not have laid under the odium occasioned by the mismanagement of a few.

We by no means intend to advocate the practice of allowing the institution of a Grammar School in every County: some Counties doubtless have no need of such seminaries. But let them be established where they are required, and there let a proper support be given to them. The present allowance is not sufficient to admit of employing a second teacher, which defect to a certain extent, cripples the operations and prevents the usefulness of these otherwise valuable institutions.

While upon the subject of Schools we may remark, that the Law regulating Common Schools should not be renewed. The old system must be abandoned if ever we expect to have good Schools, and the assessment system adopted for their support, together with strict regulations for their management. The sooner the change is made the better. Much of the money is now expended to very little purpose, and in some cases absolutely thrown away.

WILLMER AND SMITH'S

EUROPEAN TIMES,

AND

United States, Canada, West Indies and South American Intelligencer.

THE object of this Publication is to present a striking and faithful abstract of all events occuring in Europe or elsewhere, interesting to the citizens of the U. States, Canada, the West Indies, and South America, made up the hour at which the Steamers and Packets sail.

The leading feature of the *European Times* will be a carefully digested abstract of General News, Correct Returns of the principal British and Continental Markets, Arrivals and Sailing to and from all Ports of the above countries,—in short a GLANCE at every circumstance in which the Merchant, the Manufacturer, the Trader, and the Citizen generally can take an interest.

The Value of such a Publication must be tested by its accuracy. No pains will be spared to make it in that respect unexceptionable. Community, who are now obliged on the arrival of a Packet Ship or Steamer, to wade through files of Newspapers, extending, not unfrequently, over Fourteen or Sixteen Days, for information in which they are most interested, can hardly fail, in this COUP D' ŒIL of News, to find their labor abridged, and their wants and wishes immediately gratified.

The *European Times* is not intended to supersede so much as to accompany, the more ponderous files of the London Daily and other Journals, to which it will act as a kind of pilot balloon; the condensation of every item of news will be apportioned to its relative importance, leaving the leaviathans of the press until time and opportunity enable their readers to meander, without inconvenience, through their ample and voluminous pages.

The *European Times* will be edited by a Gentleman long connected in an editoral capacity with the Liverpool Press. Parties who are desirous of bringing New Inventions, Works of Arts or subjects of general interest, under the eye of the American public, may address him personally, and depend upon his services.

The price of the European Times will be $4 per Annum. All Orders to be addressed with remittances or reference for payment, to Messrs. Willmer and Smith's Express Newspaper Office, Church Street, Liverpool.

Subscriptions will be received at all the Offices of Messrs Harden & Co, in the United States.

Communications for the Editor may be addressed to Mr. John Digman, 5 South John Street, Liverpool.
