The undersigned will receive tenders for the purchase of terminable annuities running for a period of 40 years, issued by the Province of Ontario under authority of an Act of the Provincial Parliament (47 Vic. cap. 31.)

The annuities will be in the form of certificates signed by the Provincial Treasurer, guaranteeing half-yearly payments at the office of the Provincial Treasurer in Toronto, of sums of $100, or larger sums, on the 30th day of June and 31st day of December in each year, for 40 years from 30th day of June next, the first half-yearly certificates being payable on the 31st December next.

The total amount of annuities to be issued in 1892, and for which tenders are asked is $8,000 annually, but tenders will be received for any part of the same not less than $200 annually.

Tenders will be received up to the 12th of July next. Notification of allotments will be given to tenderers on or before 18th July, and payments from accepted tenderers will be required to be made within ten days thereafter.

Note—Illustration of calculation on interest basis. At the rate of four per cent. per annum (or in strictness 2 per cent. half-yearly) a present payment of $1,987.75 would represent an annuity of $100 for forty years, payable half-yearly, while the actual yearly payment for the forty years would be a fraction above 5 per cent. on the principal sum.

N. B.—No unauthorized advertisement will be paid for.

[New York Press.]

It is reported from Philadelphia that President Griscom, of the Inman Steamship Line, is prepared to give an order in the shipyards of that city for the construction of three ocean racers like the City of Paris and City of New York, when the bill which passed the lower branch of Congress on Tuesday shall become a law. The measure provides for the admission of the two great ships named to American registration when two similar ships of American manufacture shall have been put afloat, to be operated in conjunction with them as an American line from New York to England. The possession of such a line of steamships in American registry would be an additional protection to American shipping on the high seas, since they can be promptly taken by the United States Government for cruisers in any event of war involving ocean operations. The Navy Department discovered during the Chilian and Italian controversies that we were weak in this direction, and the present movement has undoubted merit on that account. It will not injure the protected shipbuilding industry of the country, but will immediately set in active motion large forces of men for the creation of the new steamships.
