OFF THE FIELD.

Donovan's benefit to-day.

Frank White will captain the home team.

The fourth of the St. John—Shamrock series will be played to-morrow.

Parsons will be on hand to play as well as the others of the St. John team.

Should the Shamrocks win, another game will be played to decide the championship.

A St. John man writes the Bangor Commercial as follows: It was alleged by many before the game Wednesday that the Shamrocks were to win in order to secure a large crowd for the last game on the A. A. grounds Friday. They did win by a score of 12 to 10, piling up seven runs in the ninth inning. You can draw your own conclusion. About 2500 witnessed the agony.

Ferson of the Washingtons, was knocked out of the box five times this season which is oftener than any other league pitcher. Yet he is the star pitcher of the Senators.

Out of Pittsburg's great aggregation of twirlers, which at the start off was to sweep everything, Galvin is the only one whose work has been at all creditable all the way through.

Clarkson won the majority of games he pitched against every club except Indianapolis. He dropped five out of eight games to the Hoosiers. The Hoosiers were also the only club to knock him out of the box.

Athletic.

THE M. P. A. A. SPORTS.

Saturday was a great day for athletics in this city, and the M. P. A. A. games are declared a complete success. Notwithstanding the fact that the circular track was heavy and the green poor for jumping, the records made were creditable. The presence of A. A. Jordan, of New York, and many well-known athletes of Halifax, amongst whom were Geo. Tracy, tended to incite a keener interest in the meet, and the attendance consequently was large. It was an enthusiastic gathering, and money was circulated with considerable rapidity, especially after the hundred and two hundred and twenty yards races.

The Halifax men did not make the showing that was expected of them, but they are nevertheless good athlete and were game to the end.

A few of the entries dropped out but these few could be well spared, the events being so well filled.

Tracey in the half mile ran beautifully and won as he pleased in 2:10½. There were some who thought Tracey could have taken taken the quarter mile as well but that he gave it to Bowen.

Bauld in the hundred yards made a good second to White, coming in two yards in his rear, while Brady was right at Bauld's arm. White ran in fine style and showed up in the first fifty in much better form than usual. He always finishes strong.

In the two hundred and twenty yards, White ran away from Brady and Bowen, breaking the tape, hands up, ten yards in advance of the second man.

Brady did not contest the quarter mile owing to illness.

A. A. Jordon, of the New York A.A. club was greeted with applause as he stepped into the green. Jordon won gold medals in the high jump, pole vault, running broad jump and hurdles but was defeated in throwing the hammer by two St. John men, J. McCafferty and R. A. Watson.

Mackintosh of the Royal Blues, Halifax, ran a fine mile considering the track, and won handily from Walsh of the Wanderers. Creighton, of the Wanderers, of Halifax, an old St. John favorite was run off his feet while McLeod of Truro finished third, in the rear.

Tom Hall, rode a plucky bicycle race, with a bad knee and came in first, although in slow time.

McLeod had the shot putting as he liked it.

But the hottest event of the day was the three mile walk, Carroll of Pictou and Grierson of the Wanderers of Halifax walking a dead heat in 25 m. 47½ sec.

A. A. Jordan and O. Watson did some good long jumping, but the Halifax men were out of it.

The Halifax men were also out of the hurdle race, Jordon finishing first and O. Watson second.

Following is a summary of events:

100 yards dash—First heat—F White, St J A A C, first; A M Bauld, W A C, second; G H Bowen, W A C, third. Time 10½ sec.

M. P. A. A. A. ANNUAL MEETING.

The annual meeting of the Maritime Provinces Amateur Athletic Association was held Saturday evening. The election of officers resulted as follows: Dr. Stewart, Pictou A. C., president; C. E. Macmichael, St. John, A. C., vice-president; G. S. Troop, W. A. C., second vice-president; F. H. Bell, Lorne A C, secretary; H D Creighton, Chebucto A C, treasurer. Executive committee—Geo Tracey, W A C; W A Emmerson, R B A C; W B Carvill, St. John A C; S Lane, C A C; W L Brown, Red Cap Snowshoe club; A J Brady, Y M L A; C W Blanchard,—O'Dell, Truro A C; E B Richardson, Lorne A C.

The next meeting of the association will be held at Truro next September, at a date to be fixed by the executive. The only change in the rules of consequence was one relating to walking contests. As it stood the rule read that for unfair walking on the last lap the judge may disqualify a competitor, and it was changed to read that the competitor shall be disqualified for unfair walking in the last lap.

A TRAINER FOR NEXT YEAR.

The success of the St. John men in the M P A A sports, Saturday, has led the managing committee of the Athletic club to the belief that there is good material in this city to make champions of, and they are endeavoring to arrange with Mr. Arthur McHugh to train the boys next year. Should satisfactory arrangements be arrived at, and it is to be hoped this will be the case, Mr. McHugh will have full charge of the grounds, and any of the members of the club who wish to go under his care for a few months.

This is a most important step of the club. It is essential to the good name of St. John that its athletes be first and Mr. McHugh will be found a most careful trainer and a man who understands this element of athletics thoroughly.

WHO IS CHAMPION?

The next great point for the executive of the M. P. A. Association to consider is the offering of an all-round championship medal as its annual meet. The contest for the all-round championship would be highly interesting and it would tend to bring the contestants in different events into greater prominence. An all-round championship medal is offered in nearly every championship meet in the States and Upper Canada and why not in the Maritme provinces.

NO REASON WHATEVER

TO THE SPORTING EDITOR OF THE GAZETTE:—

SIR:—I notice that the annual fall sports of the Montreal Amateur Athletic association are to be held on their grounds Saturday Oct. 5. Now there is a chance for some of our prize winners of Saturday. Frank White in the 100 and 220 yards and O. Watson in the jump and 120 yard hurdles would be pretty sure of good places as these events are handicap. The prizes are gold medals to first, and silver medals to second. Entries close Wednesday Oct. 2, with James A. Taylor, Chairmen, P. O., Box 958 Montreal. Is there any reason why St. John, should not be represented?

Yours truly

A.

Drawing Room Street Cars.

The Cable Car Company in New York intend running a drawing room car on their line to see if it will pay. The car is 32 feet long with rounded ends and will seat 28 persons. The windows are heavy plate glass, and blue shades with gold borderings hang at each. The interior of the car is finished in bird's eye maple and French walnut. It is furnished with cushioned seats covered with dark green leather. Sixteen of these seats are palor chairs turning on pivots. Ten of them are placed at the windows up forward and the remainder extend midway down through the centre of the car. Two lamps of four burners each are supplied with gas from two tanks running lengthways of the car outside. Two radiator gas stoves are supplied from the same tanks, and are expected to prove a neat and economical way of heating the car. Swinging doors at the rear of the car are opened and closed with a lever by the conductor. The car cost $4,500. Should it prove a success, fifteen feet will be added to the next one of its kind. This extension will be used as a smoking car and will be so arranged as to be closed in winter and an open car in warm weather.

On The Toilet Table.

A medical writer says that a sensible girl will not keep a lot of cosmetics and drugs on her toilet table, but she should have an array of glass stopped bottles containing alcohol, alum, camphor, borax, ammonia and glycerine or vaseline. A little camphor and water may be used as a wash for the mouth and throat if the breath is not sweet. Powdered alum applied to a fever sore will prevent it from becoming very unsightly and noticeable. Insect stings or eruptions on the skin are removed by alcohol. A few grains of alum, in tepid water will relieve people whose hands perspire freely, rendering them unpleasantly moist. A few drops of sulphuric acid in the water are also beneficial for this purpose. A good glycerine or honey soap is always preferable. Of course, one may rely on scented soap from a high class manufacturer, but it costs more than it's worth. In addition to the soap for bathing, white castile should be kept for washing the hair. Occasionally, a little borax or ammonia should be used for this purpose but it is usually too harsh in its effects.

An old institution that advances on the modern is Climo's. His far-ahead excellence in the art of photography is attested every day.

The temple of the sun at "Tadmor" in the wilderness has fallen; but the traveller slakes his thirst at Jacob's well, a striking illustration of the survival of the fittest. Just here it can be said that our IDEAL SOAP still pursues the even tenor of its way, while other brands which have had a short run have fallen into ruins, and the survival of the fittest is sure to succeed.
