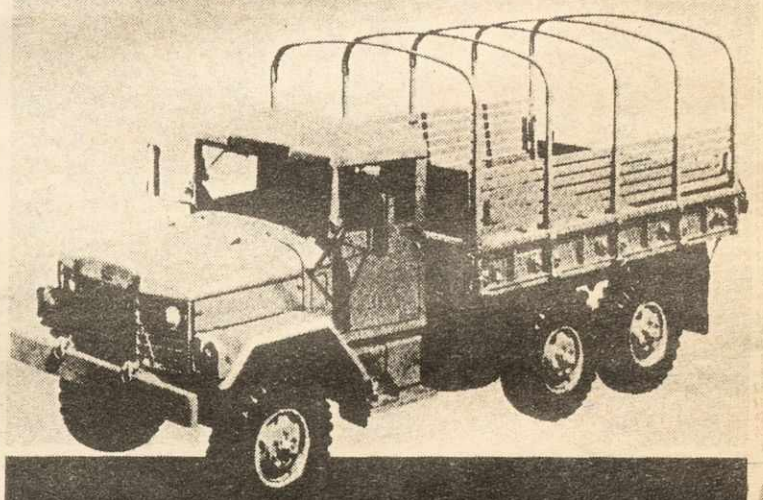
ARMS FOR SALE

THE BOMBARDIER 2.5-TON

The 6x6 - 2.5-ton Truck
Designed by the Military for the Military



Featuring automatic transmission, a fuel-saving engine and independent suspension, this personnel and cargo carrier provides ideal strategic mobility. Currently in use with the Canadian Forces, it has passed with success the most rigorous RAMD tests, the international seal of approval in logistic vehicles. And thanks to Bombardier's engineering flexibility, it can be built to meet specific user needs and requirements.

MONTREAL MOST ACTIVE

The Canadian government - unlike the U.S. - has never revealed the details of military exports. Even under Ottawa's so-called Access to Information act the details of Canada's military exports are still hidden from the Canadian public. National Peace Issues Co-ordinator James Young learned the frightening truth from author Ernie Regehr. **Page 12**
