The effect upon the minds of all who enjoyed this feast was no doubt most satisfactory. As to the two Synods they have now testified to the world that in heart and soul they are one—that there is no bitterness, no envying, no strife between them. They are "one body," having been partakers of "one loaf." Seldom was the noble Psalm, "How beautiful a thing it is, and how becoming well."—sang with more power and feeling than on this occasion.

The services commenced at 8 o'clock and closed at a quarter to 10. The impressions and feelings of this solemn evening Communion will no doubt follow the members of the two Synods to their homes, and influence their conduct for the future. We have broken bread together: we are one; the remaining obstacles to an incorporating Union will soon disappear. The whole Union movement of which this Communion was a delightful sympton, is evidently not of man alone. It is the Lord's work, and worthy of Him. He will complete it in His own good time and way.—*Presbyterian Witness*

INSTITUTION FOR THE DEAF AND DUMB.—The annual examination of the pupils of this institution took place on Saturday afternoon at Temperance Hall. His Worship the Mayor occupied the chair. The attendance was about the same as usual, and included clergymen of various denominations, former pupils, and parents of those now in attendance, together with a large number of persons interested in the welfare of the institution. The Band of the 78th was present, as usual, and added much to the attractiveness of the occasion. The several classes, beginning with those of the lowest grade, were put through a variety of exercises consisting of the writing of simple phrases, compound sentences, and exercises in geography, natural history, etc., with the most satisfactory results, some of the pupils displaying a remarkable quickness of perception. A somewhat novel feature was introduced to the notice of the audience in the shape of a class, that for a short time has been receiving instruction in articulation, some of whom are already able to pronounce the vowels, and to utter a few other sounds with considerable distinctness.

This closes the 14th Session of the Institution. Since its organization 184 pupils have been received from all parts of Nova Scotia and the neighbouring provinces. Of those who have gone out into the world, the managers have the satisfaction of knowing that many are doing well. The health of the pupils has been remarkably good, only two deaths have occurred during the whole period of 14 years. Altogether, the teachers and the public have great cause to be thankful for the success of the institution which has been and will be the means of effecting an immense amount of good.—*Chronicle.*

SHIP ON FIRE.—Ship *Golden Fleece*, 1535 tons, Capt. Bray, of and from Boston for Bombay with a cargo of ice, put into this port on Thursday evening, on fire, in the hold. The fire is supposed to have been caught from a spark of a pipe or cigar falling on the sawdust and shavings in which the ice is packed, while the vessel was loading at Boston. The vessel was brought to Tobin's wharf, and the services of the fire department brought into requisition. Water was poured into the hold constantly, from six o'clock on Thursday evening, but it was not until two o'clock yesterday, when she had twenty feet of water in the hold, that the fire was subdued. One of the steam fire engines will be employed to pump her out; but she will probably have to discharge and repair before resuming her voyage. The *Golden Fleece* was built in Boston in 1855, by P. Curtis, and was for several years in the California trade.—*Citizen.*

The "Eastern Chronicle" complains of the carelessness manifested in several country post offices. Our contemporary says:—"Subscribers get their papers so badly soiled as to render the print illegible, and at other times they lose their papers altogether, in consequence of Post Office loafers being allowed to read and carry them off. In such cases we frequently lose good paying subscribers, who, very naturally do not feel inclined to pay for a paper for the benefit of those who are too mean to subscribe and pay for one themselves, and dishonest enough to appropriate the paper of the man who does subscribe. We can sympathise with the "Chronicle." Scarcely a mail reaches us without similar complaints from our subscribers in the country.—*Express.*

TELEGRAPH NEWS.

From the Reporter.

LONDON, July 10th.—The Princess Louise and the Marquis of Lorne are to visit the Dominion of Canada and the Atlantic cities of the United States before long.

The Communist prisoners now at Versailles number sixteen thousand. They are to remain there till the sitting of the courts on the 15th July.

M. Thiers has written a letter to the Pope, in which he regrets his inability to interfere with the purposes of the Government of Italy. He gives it as his opinion that Italian Unity is impossible, and concludes with an invitation to the Pope to make France his home.

NEW YORK, July 10.—Continual preparations are being made in this city to attack the Orangemen on the occasion of their procession next Wednesday.

The Catholic priests, in the several churches yesterday, appealed to their congregations in the interests of peace. The *Herald* says that such demonstrations, if permitted, will be destructive to Anglo-Saxon institutions, and to the liberty of the people.

At Hibernian meetings yesterday violent scenes were enacted. The police were insulted. Many of the largest societies determined to parade, notwithstanding the opposition of the clergy.

Volunteers are arriving from other cities, and it is expected that ten thousand assailants will be mustered.

Several of the city regiments are under orders. The Orangemen will be joined by a thousand other Protestant American Associations.

Over a thousand liberal citizens have voted to exercise their rights as citizens, by joining the Orangemen in a peaceful parade. Things look ominous.

EDITOR'S NOTES, &c.

1. COMPLIMENTARY ADDRESSES.—In certain parts of our Conference it is becoming customary to present formal addresses to ministers who are about to change circuits. Such addresses are not usually deemed, by their recepients, at all objectionable, especially when they are accompanied by manifestations of good will more tangible and weighty than mere words. We think, however, that these should generally be considered as matters of merely personal and local interest not requiring publication at length in the columns of the Conference organ.

We propose therefore,—having published this week, the first address with its reply, reported since our late Conference, to allow this to serve as a specimen; it is we think a very good one,—to ask our friends concerned in any affair of a similar kind to be satisfied with our merely mentioning the fact that such an address has been presented and reply been made, when it is reported to us, without our publishing the documents in full. In any case, however, where any of the parties interested—may deem it desirable for any special reasons, to have address and reply published—we shall have no objection to insert them at any length which may be wished, provided they *are paid for as advertisements* according to the usage which obtains in England.

2. Parties interested will please notice that the ensuing Term in the Mount Allison Educational Institution is to begin Thursday the 17th August. *See advertisement.*

The cathartics used and approved of by the Physicians comprising the various Medical Associations of this State, are now compounded and sold under the name of Parsons' Purgative Pills".

7-30 GOLD LOAN.
OF THE
Northern Pacific Railroad.

Rapid Progress of the Work!

The building of the Northern Pacific Railroad (begun July last) is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific coast. The grade is nearly completed 266 miles westward from Lake Superior; trains are running over 130 miles of finished road, and track-laying is rapidly progressing towards the eastern border of Dakota. Including its purchase of the St. Paul and Pacific Road, the Nothren Pacific Company now has 413 miles of completed road and by September next this will be increased to at least 560.

A GOOD INVESTMENT. Jay Cook & Co. are now selling, and unhesitatingly recommend as a profitable and perfectly safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths (per cent, gold interest (more than 8 per cent, currency), and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENT, and also as fast as the Road is completed, on

23,000 ACRES OF LAND to every mile of track, or 500 Acres for each $1,000 Bond. They are exempt from U. S. Tax; Principle and Interest are payable in Gold; Denominations; Coupons, $100 to $1,000; Registered, $1,000 to $10,000.

LANDS FOR BONDS. Northern Pacific 7-30's are at all times receivable AT TEN PER CENT ABOVE PAR, in exchange for the Company's Lands, at the lowest cash price. This renders them practically interest bearing land warrants.

SINKING FUND. The proceeds of all sales of Lands are required to be devoted to the re-purchase and cancellation of the first Montgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres. This immense sinking fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment, accessible to the people, which is more profitable or safe.

EXCHANGING U.S. FIVE-TWENTIES. The success of the New Government 5 per cent. Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.

OTHER SECURITIES. All marketable Stocks and Bonds will be received at their highest current price in exchange for Northern Pacific Seven-Thirties. Express Charges on Money or Bonds received, and on seven-thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc. can be obtained on application at any Agency, or from the undersigned. For sale by

THE objects contemplated in the formation of this Society are three-fold, viz., First—To secure to Stockholders a profitable return on their gradually accumulating capital, by its safe investment on real estate. Second—To afford to borrowers facilities for obtaining legitimate loans on the security of their property, and to enable them to repay such loans by periodical instalments spread over a period of ten years. Third—To provide all the advantages of a thoroughly secured Savings Bank system of business, and paying a higher rate of interest than is paid by those institutions.

Shares may be taken up at any time, and matured either by monthly investments or in one amount.

Money is received on deposit, bearing interest at six per cent. per annum, compounded half yearly.

Monthly investments bear interest at six per cent, compounded monthly at maturity. Paid up shares bear interest at seven per cent, per annum, compounded half yearly at maturity.

The attention of the industrious classes of tradesmen, and of professional gentlemen, is respectfully invited to these arrangements. The wealthy classes will find in this Society a thoroughly safe and convenient mode of investing in shares, and one that will relieve them from much anxiety in seeking after safe channels through which to make their investments.

This Society confers all the advantages of the Savings Bank, pays a higher rate of interest, with more accommodating terms and equal security.

By order THOMAS MAIN,
Secretary.
