EDWARD TOWE, AGENT
Office over Bank of Commerce, London, Telephone, No. 567. zxv

HELD FOR MURDER.

Mrs. Smith and Husband Committed for Trial at Moosomin.

Winnipeg, Nov. 27.—The preliminary hearing in the Thompson murder case has been concluded at Moosomin, and has resulted in Mrs. Sylvester Smith being committed for trial for murder, her husband being an accessory, and the brother, Samuel, committed for perjury. The two brothers, Henry and Charles Albert, who were first arrested, charged with murder, which charge was afterwards changed to a charge of aiding and abetting a suicide, will be discharged. The three prisoners who were committed will be sent up to Regina until their trial.

One of the brothers swore that he saw his sister, Mrs. Smith, bring into the house a can containing gopher poison, which had been placed under a tree near the house, and thaw the contents on a stove, then pour out a cupful, which she took into Sarah Jane's bedroom in answer to a request from Sarah Jane for a drink of water. She returned from the room without the cup, after which she went to her house some miles away.

According to the evidence, her husband went over to deceased father's place during the Sunday on which Sarah Jane was poisoned, made inquiries about the poison, and where the dogs were kept at night, noted the condition of the girl, and told his wife all that he had discovered. Then his wife came over to the house at midnight and administered the poison to her sister.

The evidence also went to show that on at least two occasions Mrs. Smith threatened to poison her sister, and also advised her brothers to do so.

The analysis of the deceased's stomach by Prof. Kendrick, of Winnipeg, indicated that the girl was poisoned by strychnine.

Samuel Thompson was committed for perjury arising out of his evidence before the coroner at the inquest.

No well-regulated household should be without a bottle of ANGOSTURA BITTERS, the world-renowned appetizer and invigorator. Beware of counterfeits. Ask for the genuine article, manufactured by Dr. J. G. Siegert & Sons.

In India there is an idea that a lion cannot be induced to attack a prince or any scion of a royal house.

Turkey Yields.

Allows the Powers to Have Extra Warships at Constantinople.

Russia Showing Great Activity in the Black Sea.

Baptism of the Baby Duchess Olga—Scabby Sheep in Britain—General Cable News.

GREECE SHAKEN.

Athens, Nov. 27.—Sharp earthquake shocks were felt yesterday morning here and also at Chalchis, Livadia, Thebis and Corinth.

GEN. PONSONBY'S FUNERAL.

London, Nov. 27.—The burial of Gen. Sir Henry F. Ponsonby, late keeper of the Privy Purse and private secretary to her Majesty the Queen, who died at Osborne Cottage, Cowes, Isle of Wight, on Nov. 21, took place at Whippingham yesterday afternoon.

"IVANHOE."

London, Nov. 27.—Sullivan's "Ivanhoe" was produced last night at the Royal Opera House. The Emperor and Empress occupied the royal box. A large and fashionable audience was present. At the conclusion of the opera the Emperor summoned Sir Arthur Sullivan to his box and congratulated him upon his work.

"OLGA."

St. Petersburg, Nov. 27.—The Grand Duchess Olga, who was born on Nov. 15, was baptized with the usual ceremonies today at the Tzarskoe Selo palace. The ex-Czarina, mother of the Czar, and other members of the imperial family, acted as sponsors. Salutes were fired in honor of the occasion. The town was handsomely decorated, and at night was brilliantly illuminated.

THE VENEZUELAN DISPUTE.

London, Nov. 27.—It is understood that Lord Salisbury has completed his answer to the United States Government regarding the British policy in Venezuela. Nothing is known at the Foreign Office here of the statement coming from Guiana that the British are prepared to use force against the Venezuelans. It is understood that the Council of Guiana has changed its attitude, has resolved to buy a Maxim gun, and has intimated that it will do anything for the defense of the colony which the British Government thinks necessary.

RUSSIAN MILITARY AND NAVAL MOVEMENTS.

St. Petersburg, Nov. 27.—A dispatch from Odessa says that Gen. Scheremetieff, commander of the army of the Caucasus, has been hastily summoned to St. Petersburg, it is believed in connection with the condition of affairs in Anatolia, and the threatening attitude of the Kurds on the Russian frontier.

Great activity is being displayed at the Black Sea military ports. Warships are taking on board coal, provisions and munitions. A number of naval officers from St. Petersburg have arrived.

SCABBY SHEEP.

London, Nov. 27.—The sheep brought to Liverpool by the British steamer Scotsman Monday have been found to be infected with scab, and an order has been issued that they be slaughtered.

A new series of wool sales opened here yesterday. There were offered 7,051 bales, including a lot of new clip. The opening was steady, with best merinos, all cross breds, and Cape of Good Hope and Natal wools unchanged, and other sorts of merinos generally five per cent lower than at the close of last series. The attendance was very large, and the competition fairly spirited.

THE SULTAN IS SLOW.

London, Nov. 27.—A dispatch from Constantinople says that the Ministers report on the guardship demand which was sent to the Sultan, was returned for revision, accompanied by a memorandum from the Sultan's first secretary, which stated that his Majesty feared that the arrival of six warships would encourage the Armenians to renew the disorders. The Ministers again debated their report, and came to the conclusion that no reason could be seen for the Sultan's fears. They again recommended compliance with the demands. Halil Rifat Pasha, the Grand Vizier, sought an audience with the Sultan yesterday, with a view to persuading him to sanction the firmans, but he was not successful. It is generally believed that if the guardships shall be refused by the Sultan a serious decision will be taken.

The Standard's Constantinople correspondent telegraphs that the meeting decided to press for the immediate granting of the firmans. He adds that the Sultan's message to Lord Salisbury has aroused bitter indignation. Moslems consider that in sending the message he lowered the dignity of the Caliphate. At the present moment the Empire is virtually governed by a low-born Arab. Izzet Bey. The educated population sees with disgust the Sultan sending deprecating messages to a foreign court, and attributes his action to Izzet Bey's influence.

THE FLEETS ARE THERE.

Constantinople, Nov. 27.—The powers, instead of ordering their fleets away from Turkish waters, as the Sultan earnestly requests, seem to be determined upon keeping them in this vicinity for an indefinite period. A portion of the British Mediterranean fleet, it is reported here, will soon leave Salonica Bay for Smyrna, where the powers are mustering their fighting ships. The squadron of Great Britain, which expects to rendezvous at Smyrna this week, will consist of nine battle ships, four cruisers and four smaller boats.

The rest of the Salonica fleet will, it is said, remain off that port for the present ready for any emergency. France has already at Smyrna one battle ship, two cruisers, and two smaller ships. Italy's flag floats from two battle ships, two cruisers and four small craft in the waters of Smyrna. Russia has two cruisers on the way to Smyrna, in addition to a powerful fleet cruising in the western portion of the Black Sea. The United States will be represented at Smryna by two cruisers, and Germany has one small gunboat, but it is rumored that two German warships are on their way. Austria, off Smyrna, has one battle ship, two cruisers and two small gunboats. Of course this is not a "naval demonstration," it is simply the concentrating of the foreign fleets at a port agreed upon, apparently between the powers.

The North German Gazette publishes an officially authorized denial of the reports which have been in circulation that the Emperor is not in sympathy with the demonstration of the fleets of the powers in Turkish waters.

CHILI GOES BORROWING.

Buenos Ayres, Nov. 27.—It is reported that Chili is about to raise a loan of $30,000,000.

AN INSURGENT VICTORY.

Madrid, Nov. 27.—A dispatch has been received here from Havana announcing that the insurgents have captured Fort Guinez de Miranda, which was defended by 40 soldiers. No further particulars of the engagement have been received.

TURKEY GIVES IN.

Constantinople, Nov. 27.—The Turkish Minister of Foreign Affairs, Tewfik Pasha, called upon Sir Philip Currie, the British amabssador, to day and announced that the Porte had decided to issue the firmans providing for the passage through the Dardanelles of the extra guard ships demanded by Great Britain, Russia, Italy and Austria, as additional protection needed for the safety of the foreign population here. This puts an end to a very dangerous situation, for there is no doubt tht the powers would have insisted upon having the extra gunboats here even if it had been necessary to force the passage of the Dardanelles in order to get them here.

CABLE NOTES.

A train has been snowbound in Italy.

The Duke and Duchess of Marlborough are at Gibraltar.

The Norwegian bark Anne Elizabeth, bound for Cardiff, from Christiana, has been wrecked near Falmouth. Five of her crew were drowned.

A dispatch from Shanghai says that the Chinese natives have destroyed the extensive French mission at Luih Siang, in the absence of the French gunboat, which is usually stationed in that vicinity.

Echoes of the Gale.

Vessels Driven Ashore and Many Lives Imperiled.

A Large Schooner Dismasted Off Port Stanley Harbor.

Several Persons Injured in Toronto—Four Big Passenger Steamers Beached Off Glencoe, Ill.—Heroic Work of Life-Saving Crews—The Wind Reached a Speed of 76 Miles an Hour.

The following dispatches indicate to some extent the severity of Monday's and Tuesday's great wind and rain storm:

Belleville—Reports from different sections show a very large amount of damage done to property, roofs being blown off, trees, chimneys, fences, wind mills, etc., blown down.

Petrolea—The wind was something terrible, and a large number of oil derricks are reported down. The G. N. W. Telegraph Company's four wires running into this place were all down and telegraphic communication was tied up until 1 o'clock p.m.

Port Stanley—The Port never saw a bigger blow than the one of this morning. The waves were lashed to a fury, the spray going over the top of the lighthouse. A three-masted vessel was disabled about two miles from the shore, almost in front of the village. When first seen it was three miles further out, but was blown that distance towards the shore. The lifeboat was placed on wheels, with Capt. W. Berry and crew in readiness to run it down along the shore opposite the vessel and launch it the minute assistance was asked for by the vessel.

Toronto—A furious southwest gale, with the wind blowing at the rate of 50 to 60 miles an hour, raged here from early morning until late in the afternoon. It was fearfully rough on the lake. Miss McCann, a young woman, was seriously injured by a heavy piece of zinc falling upon her head while she was passing the new fire hall on Dundas street. Her skull was fractured. A Mrs. Edwards was wheeling two little children along College street in a baby carriage when the wind caught her clothing and threw her head foremost and violently against an iron culvert plate. She was severely cut about the head and face. The children were thrown out and the carriage was swept down the street fully 100 yards.

Put-in-Bay, Ohio—The night's storm was very destructive. Several buildings were demolished. A deck hand, unknown, on steamer Messenger, was blown overboard and drowned. The wind reached 76 miles an hour, the highest, with one exception, ever recorded at the weather office here. Two electric towers were blown over and a horse killed by stepping on a live wire. The water in the river has fallen five feet, and only the regular ferries are running. Three vessels are grounded at Grosse Point, and many others lying to, waiting for the water to rise.

Niagara Falls—The rain and wind storm was very severe here. Damage to the extent of over $50,000 was done to the American Gorge Railway. The cataract is greatly augmented in volume by the force of the westerly winds and the wind itself attained velocity scarcely paralleled here. The Suspension Bridge was subjected to such a tremendous strain that it was feared some of the cables might part. The Erie freight sheds were blown down for a distance of 225 feet.

Grand Haven, Mich.—Old-timers can only recollect one previous year when winter set in as early as it has this year. Monday night the snow fall was immense, and there are drifts six feet high on the main streets. Trains on all roads were several hours late, and country roads are completely barricaded.

Buffalo, N. Y.—The $40,000 side-wheel excursion steamer Shrewsbury, belonging to the Niagara Falls Excursion Comapny, was beached on the sand at the foot of Genesee street and may be a complete wreck.

Chicago—Four big passenger steamers, the Jay Gould, City of Duluth, City of Traverse and Peerless, all of the Lake Michigan and Lake Superior Transportation Company's line, were out on the lake in the big storm and up to late last night had not been heard from. Three large vessels are ashore off Glencoe, and are lying about 600 yards off shore. They are the wooden steamer John Emery Owen and her two consorts, the schooner barges Michigan and Elizabeth A. Nicholson. All are loaded with coal and bound from Buffalo to Chicago. Over 30 sailors were on board the three vessels when they struck. All of them were rescued by the Evanston life-saving crew.

The steamer J. Emory Owen and the schooners Elizabeth A. Nicholson and Michigan went ashore off Winneka on the north shore near this city. All the crews were rescued from death by the gallant college boys of the Evanston life-saving crew, aided by the citizens of the suburb of Glencoe. Water was let into the holds of the vessels after they had struck the boulders to keep them from pounding to pieces. It is believed the Owen and Michigan may be saved, but the Nicholson may prove a total loss. The Owen is worth about $100,000 and insured for $75,000. The schooners which were in tow of the Owen are valued at $100,000. The steamer carried a crew of sixteen men, commanded by Capt. Marion Tenny, and there were eight men on each of the consorts. All were from Buffalo.

Detroit—The gale here reached a velocity of 76 miles an hour. Two electric light towers were blown down, but no casualties are reported so far.

Sandwich—The storm had a curious effect at Sandwich. The wind having forced the water back, the river fell lower than it has ever done in the knowledge of the oldest settlers. The water emptied out of Sandwich Bay with great rapidity, leaving the bottom almost perfectly dry and covered with a choice assortment of lizards. The water receded 700 feet in the bay, and people were able to walk along the channel bank, which is something unprecedented. The railway companies had a good deal of trouble with their ferries.

UNCLE SAM GRATIFIED

That Great Britain Will Answer His Communication—Who Will Be the Arbitrator.

Washington, Nov. 27.—The name of Emperor William of Germany has been mentioned as available as an arbitrator for the British-Venezuela dispute if Lord Salisbury's answer to Ambassador Bayard proves favorable to arbitration. The suggestion of the Kaiser's name originated in semi-official circles in London. It appears to be conceded that the United States would not act as an arbitrator, owing to the general belief that the sympathy of this country is on the side of Venezuela. Germany's interests in Venezuela are very large, its merchants controlling all the commerce of Maracaibo and other large cities, and German capital has built the leading railroad lines of the country. The report from London that Lord Salisbury has completed his answer to Mr. Bayard is regarded in diplomatic circles here as having a favorable significance. The reply has been delayed so long that there was a strong belief among officials that Lord Salisbury would make no answer, taking the position that the subject was one in which the United States had no concern. It is with some satisfaction, therefore, that the authorities here receive the report that an answer of Great Britain is about to be delivered.

You Can Believe

The testimonials published in behalf of Hood's Sarsaparilla. They are written by honest people, who have actually found in their own experience that Hood's Sarsaparilla purifies the blood, creates an appetite, strengthens the system and absolutely and permanently cures all diseases caused by impure or deficient blood.

Hood's Pills for the liver and bowels, act promptly, easily and effectively. c

THERE IS NOT a more dangerous class of disorders than those which affect the breathing organs. Nullify this danger with Dr. Thomas' Eclectric Oil—a pulmonic of acknowledged efficacy. It cures soreness and lameness when applied externally, as well as swelled neck and crick in the back; and, as an inward specific, possesses most substantial claims to public confidence.

If you spend every cent you earn, you won't wear out shoe leather in going to the saving bank.

All Recommend It.

Ask you physician, your druggist and your friends about Shiloh's Cure for Consumption. They will recommend it. For sale by W. T. Strong.

R. D. Blackmore has written a new novel called "Dariel, a Romance of Surrey." It will appear in Blackwood's Magazine next year.

DYSPEPSIA OR INDIGESTION is occasioned by the want of action in the biliary ducts, loss of vitality in the stomach to secrete the gastric juices, without which digestion cannot go on; also, being the principal cause of headache. Parmelee's Vegetable Pills taken before going to bed, for a while, never fail to give relief and effect a cure. Mr. F. W. Ashdown, Ashdown, Ont., write "Parmlee's Pills are taking the lead against ten other makes which I have in stock."
