How to Have Your Own Way

This is a secret which we would like to whisper to the boys and girls, if they will put their ears down close enough.

You have long wanted your way. You have become tired of hearing mother say, "Come right home after school," "Don't be late," "Be sure to tell the teacher." It is, "Do this, and don't do that," all the time. You are sick of it and would like to have your own way.

Well, put your ear down while we whisper the word, "Obey."

Oh, you think I am making fun! No, I am not. I know a boy who decided to do just what his father said. He never offered excuses, never tried to get out of work, until finally his father came to trust him perfectly. His father said, "I know that Harry will do what is right." When he went out at night, or to school, or to play, his father never said a word, for he had come to have perfect confidence in his boy.

Honestly, obedience is the road to freedom. If you want to have your own way, just begin to obey, and you will find that you are having the happiest time of your life.

Germany Seeks Peace

Germans Believe Now is the Time in View of Success in the East

London, Sept. 1—There is an increasing belief that the German Government in one way and another is endeavoring to feel out the peace situation and to let the people of the various nations with which she is at war know that peace at this time or in the very near future will be acceptable to Germany.

The propaganda seems to be carried on through numerous channels, and at this time has reached a wide scope in its cumulative effect, that there remains no doubt in the minds of diplomatists here that the German Government is seeking to educate the minds of foreign people to the idea of an early peace.

It is learned that it is the German view, apparently, that this is the chance to make peace, because the German military successes are at their zenith. Recently word has come from Berlin that the Government does not believe that new victories, won as they must be at increasing cost, will be worth the effort. It seems to be felt in official Berlin, furthermore, that at no time will the Government be able so well to satisfy the people by making peace. It is recalled that when the war began the Government promised indirectly that it would be over in six months. Somewhat restive under the memory of this promise, the people of Germany are beginning to wonder why the Government does not make peace proposals.

Reports are being sent out from Germany that France is facing internal disorders, and that England is menaced by labor troubles. It is impossible, however, to trace these reports to their foundations.

Well informed diplomats themselves say that all official caste to the numerous significant reports from Berlin is lacking, but they feel convinced, nevertheless, that the German Government would welcome an opportunity to end the war.

It is difficult to understand the basis for a German behalf that peace at such a time would be acceptable to the Allies, however, for the feeling that Germany must be defeated is growing rather than diminishing in popularity. This is the case in France and Russia, as well as in Great Britain, and it may be said upon the highest authority that no peace persuasion which by the wildest reaches of imagination might be offered by Germany in the face of her recent successes in the east would be acceptable to any one of the Entente Powers.

The New School Year Begins

The new principal, Mr. A. E. Edgecombe, A. A., entered upon his duties on Sept. 1st. Mr. Edgecombe has done good work at Fortune and in other localities. It was his work at Fortune that secured for him the present position. Out of 26 candidates he secured 20 passes with distinctions, and five of the passes were in the honors division. One pupil secured a $100 scholarship, another an $8 prize, and another a $4 prize. We look for good results the coming year.—News Grand Bank Correspondent.

The only thing to chronicle about the German Fleet up to the time of writing is that it still rests on an even Kiel.
