CANTON HOUSE.

FAMILY TEA, COFFEE AND SUGAR WAREHOUSE.

No. 109, Notre Dame Street.

SAMUEL COCHRAN invites the attention of Customers to his stock of TEAS and COFFEES, which have been selected with the greatest care, and on such terms as allow him to offer them at unusually low prices.

The MACHINERY on the Premises, worked by a Four Horse Power Steam Engine, for Roasting and Grinding Coffee, is on the most approved plan, the Coffee being closely confined in *polished metal spheres*, which are constantly revolving and oscillating in *heated air chambers*, is prevented imbibing taint from Smoke, danger of partial carbonization of the Bean and loss of Aroma, so important to *Connois eurs*, which is further ensured by a Fan for Grinding at the shortest time prior to Sale. To this elaborate process SAMUEL COCHRAN owes the high reputation his Coffee has obtained through a large portion of the Provinces.

CRYSTALIZED SUGAR (much admired for Coffee); REFINED SUGAR in small loaves, and WEST INDIA SUGARS, of the best qualities, always on hand.

A few of the choicest selections of TEAS may be had at the CANTON HOUSE, in Native Catty Packages, unrivalled in flavor and perfume, at moderate terms.

Families residing distant from Montreal will have their orders scrupulously attended to, and forwarded with immediate despatch.

PRICES OF BOARD FOR THE SEASON OF 1851:—
FIVE SHILLINGS PER DAY, or FIVE POUNDS PER MONTH.

Caledonia Springs, 2nd June, 1851.

[Extract of a letter from P. J. Larocque, Esq., of Montreal.]

I beg to state that in July, 1840, I went to the Springs for the purpose of trying their efficacy in a case of the most violent Rheumatism, under which I had been suffering for several years previous. After remaining at the Springs for about three weeks, and making free use of the Waters, my limbs were entirely relieved from all pain, and my health perfectly restored. Several of my friends, to whom I have recommended the Springs, assure me that they have experienced immediate relief from their use. I consider the Waters of the Caledonia Springs to be most efficacious in cases of Rheumatism.

To the proprietor of the Caledonia Springs.

MONTREAL, 4th June, 1851.

DEAR SIR,—In compliance with your request, I have much pleasure in giving you my opinion of the remarkable efficacy of the Waters of the Caledonia Springs, so long and highly appreciated by the Public, based upon the observations of some twenty-five years' experience, and tested as they have been by a great many patients of mine and others, labouring under Rheumatic affections and the different forms of disease to which the lymphatic temperament is liable. I consider them invaluable. Few persons, except those who have suffered from this dreadful malady, can justly appreciate their wonderful salutary effects, have often seen persons sufferers to this disease, (myself for one during ten years,) which baffled all medical skill, both in England and on the Continent, resort to the Caledonia Springs walking on crutches and others that could not walk at all, worn out by protracted sufferings and their general health disordered and broken down by confinement and want of exercise, return to their homes free from pain, leaving behind (with unspeakable joy) their crutches, and with health, strength, appetite, and activity perfectly restored. Striking as such results are, the curative action of these Waters, the Intermittent and Sulphur Springs in particular, have been almost as efficient in other diseases, such as Lepra, generally called *Salt Rheum*, and other affections of the skin; in a variety of Dyspeptic Complaints, Chronic Affections of the Liver and Kidneys; and I am sure that a great number of the cases that leave the Springs greatly benefitted, but not completely restored, would have been cured by a more extended use of the spa. That these Waters have acted in many diseases as a specific, seems to be generally admitted, and much respectable testimony to this effect has already been laid before the Public, that to say more would be superfluous.

HY. MOUAT,
Member of Royal College of Surgeons, London.

To John L. Wilkinson, Esq.,
Proprietor of the Caledonia Springs.

MONTREAL, 13th December 1842.

DEAR SIR,—I have to state that I consider the use of the Caledonia Waters a very valuable curative agent in the treatment of many forms of disease. Circumstances enable me to grant you a favorable Certificate with more than usual propriety, many of my own Patients tried the efficacy, and derived great benefit from the use, of the Waters. Of all diseases that have come under my notice, in which a preserving use of the Baths and Waters promises the most beneficial results, Chronic Rheumatism ranks the first. Many of the cures in this disease have been truly astonishing. I met with a case last summer, where the individual, a delicate female, had been suffering severely for more nine months; she had completely lost the use of her hands, and could only walk a few steps with great pain and difficulty. After a residence of six weeks at the springs, she returned free from pain, and strong enough to walk a considerable distance without fatigue. I have also found the Waters useful in Dyspeptic and Urinary Complaints, in Chlorosis, Secondary Syphilis, and some of the forms of Cutaneous Disease.

In conclusion, allow me to add, from a personal visit to your Establishment, that independently of the acknowledged virtues of the Waters, that great care has been put to in the improvement of the place, and the unwearied care and attention which you bestow to the comfort and convenience of your Boarders, justly entitled you to a large share of public patronage and support.

I remain, dear Sir, yours very truly,

GEORGE W. CAMPBELL, A.M., M.D.,
Lecturer on Surgery, McGill College.

To the Proprietor of the Caledonia Springs.

MONTREAL, December 8th, 1842.

SIR,—I beg to state that I consider the Caledonia Waters efficacious in cases of Dyspepsia, Chronic Rheumatism, or where the constitution has been impaired by the injudicious use of Mercury, and ill-treated Syphilis; I would also add, in certain Cutaneous Diseases. I have frequently recommended their use in the above complaints, and witnessed their good effects. I hope that the benefits that are derivable from them may not be lost to society, by the indiscriminate and almost universal use they have been lately put to, and like the fate of many of our other excellent remedies, fall into unmerited disrepute.

I have never visited the Establishment, but I have often heard it most favorably spoken of.

I am, Sir, your obedient servant,

JAMES CRAWFORD, M.D.

To the Proprietor of the Caledonia Springs.

☞ A FRESH SUPPLY of the above WATERS has been received at the Depot, which can be had at the Counter, or sent to order to any address in town or country. Price of the Water very moderate. 363

MONTREAL TYPE FOUNDRY.

THE undersigned takes this opportunity of announcing to the Printers of Canada, that the promise he made in introducing his New Specimen to the Public is in course of fulfilment. The Artist in Edinburgh has supplied the "BREVIER" Matrixes, and promises other faces shortly. This addition, with other extensive improvements, renders the Establishment worthy of the support which it continues to receive, and for which the Proprietor offers his grateful thanks.

The following Agencies continue their accounts with this Foundry:—

HORSE-SHOEING ESTABLISHMENT.

THE Subscriber most respectfully intimates to the Citizens of Montreal and the Public, that he has OPENED the above BUSINESS in the premises lately occupied by O'Kane as a Coach Factory, corner of Craig and Hermine Streets, and hopes, from his long experience in the business, and his practical knowledge as foreman to the late J. Turner, Veterinary Surgeon, that he will merit the confidence and support of his present friends and former benefactors. He feels confident, by his punctuality, strict attention to business, and moderate charges, to merit Public patronage.

Subjoined is one of the numerous testimonials with which the proprietors have been favored from parties residing in Liverpool and the neighborhood, where these Inks were originally introduced:—

Extract from the British Army Despatch, *March 29th*, 1851.

BLACKWOOD & CO.'S INK-BOTTLES.—This is decidedly the age of inventions. Man's genius seems ever on the stretch to fashion something new; something that will supersede and cast into shade for ever what our forefathers acknowledged as permanently staple, and never dreamt of improving. Among the multiplicity of needful adjuncts to our comfort which refinement has rendered necessary, how many trifles, is a gnificant in themselves, but troublesome by mismanagement, are of necessity resorted to daily, and yet though the inconvience experienced by the ill-fashioning of the article is loudly commended on, how seldom a rectifying principle is attempted. It is not every one who would turn their attention to the manufacture of an ink-bottle, and yet we may venture to assert, that not one of our readers but has at some period stained their fingers and their garments with the sombre liquid, through difficulty in pouring it forth from the awkwardly rounded mouthed Jars in which this particular substance has been vended from time immemorial. At all events, we can answer for ourselves, and many a malediction has we uttered on the stone bottles, impervious to the most searching scrutiny of entailing on the person extracting the contents an almost certain emersion in a color anything but fashionable or generally regarded as improved dye for a lady's fingers. To rectify this abominable nuisance, Messrs. Blackwood & Co. have invented an Ink-bottle, elegant in form, satisfactorily simple in construction, which wholly obviates the annoyance complained of. This capital article can be procured at any price, and from the smallest to whatever size may be required, and as some are constructed of glass as well as others of a more durable material, the evils we have enumerated can readily be guarded against. "There is a time for all things," we are told, and assuedly the obnoxious stone ink-bottles have had their day; and in brief time, when Messrs. Blackwood's patent becomes more generally known, the ancient receptacles for the "dingy fluid" will be numbered among the inventions of a by-gone age.

LIVERPOOL, 1851.

We beg to bear testimony to the excellent quality of your Writing and Copying Inks. The latter gives us great satisfaction, and, as respects its fluidity and copying qualities, is equal, if not superior, to any we have ever used. We need hardly say that your new description of bottle cannot but be considered an immense advantage to all who use them.

Yours, very respectfully,

PETER LEICESTER & Co.

THRASHING MACHINES.

LETTERS PATENT.

TIME AND LABOR SAVED IS MONEY EARNED.

THE subscribers having secured to themselves the exclusive right of manufacturing and vending to others to use within the territory of Upper and Lower Canada,

SEVERANCE'S CELEBRATED IMPROVED HORSE POWER & THRASHING MACHINE,

one of the most valuable time and labor saving Machines ever devised by human ingenuity, respectfully inform the public, that they have just completed a new and extensive Factory on Wellington Street, extending from Prince St George Street, which gives them more than double the accommodations they had in the old shops, which will hereafter, they trust, enable them to supply the whole farming community of the United Provinces with a machine that will thrash and clean more grain in a day with less expense and with greater cleanliness, than any other known in operation—requiring no horses.

We beg leave to say to our customers and friends, that we are again prepared to furnish those in want of Thrashing Machines with an article superior even to those heretofore manufactured by us.

Our long experience in making, and the very liberal patronage we have enjoyed in the sale of our Machines, has, together with a resolute determination to produce an article that will never fail to excel all others, caused us to watch carefully all the improvements that could be made from time to time, until now we feel confident in saying that for durability, neatness of work, and amount of it they can do, our Thrashing Machines are unequalled by any in use. And while the grain is thrashed clean, and none of it broken or wasted, it is at the same time perfectly cleaned, fit for the Miller or any Market.

All orders addressed to us, or our Agent, W. M. JOHNSON, will be promptly attended to.

Machines shipped to any port in Canada, and every one warranted to do as good as represented.

Liberal terms of payment allowed.

B. P. PAIGE & CO.

Whereas, Letters Patent were obtained bearing date March 5, 1849, on said Machine, the public are cautioned against purchasing, using, or manufacturing any imitation article, as all infringements will be dealt with according to the law of the land.

All genuine Machines will be accompanied by a Deed signed by B. P. Paige, the owner of the right, giving the purchaser the right to use or transfer the same. Without such a Deed no person will be safe in purchasing or using said Machines.

B. P. PAIGE.

EDUCATION.

THE central position of Three Rivers in Eastern Canada, its quietude and healthfulness, and its possession of the advantages of ready communication with other parts of the Province by means of Telegraph, Stage and Steamboat, seem to point it out as a place well suited for the establishment of Seminaries for the education of youth.

The undersigned, a Graduate of Corpus College, Cambridge, who enjoyed the happiness and advantage of being one of the pupils of that distinguished scholar, and very admirable teacher, the late Rev. James Tate,* A. M., Master of the Grammar School of Richmond upon Swale, Yorkshire,—has been engaged for several years in the tuition of his own sons, and now proposes to undertake the instruction of a few additional pupils.

The charges, which are payable each Term in advance, are as follows:—

	Per Term.
Tuition for Boys under 12 years of age	£2 0 0
Do. do. above 12 do	2 10 0
Tuition, Board, &c., &c., for Boys under 12 years of age	9 0 0
Do. do. do. above 12	10 0 0

No extra standing charges.

Commencement of Terms: January 13, March 30, July 22, October 6.

Vacations: from December 23 to January 12, and from June 16 to July 21.

School Hours: from 7 to 8, A. M., 9 to 12, and 1 to 2, P. M.

Evening Exercises and partial preparation for the next day.

Some additional time would be devoted to youths who may be desirous of studying the higher Classics, and the Rudiments of Mathematics, in preparation for a College or University Course.

For such pupils, ordinary charge per

Term in full	£12 10 0
Do. with single room	17 10 0

Rectory, Three Rivers, May 12, 1851. 364

* The Rev. James Tate, latterly Canon Residentiary of St. Paul's Cathedral, in addition to many other contributions to the cause of literature, was the author of Hermias Resinutus, or an Introduction to Greek Metres, and of a Continuous History of St. Paul, works all favorably known to men of letters.

Out of a small number of pupils, compared with that which annually leaves the great public schools of England, a large proportion distinguished and advanced themselves during their Academical Course, or in other walks of life. Not to mention the attainments of various other College students by many of them, from twelve to ... at the University, among ... Dr. Peacock, Dean of Ely, Archdeacons Thorpe and Musgrave, and the Archbishop of York.
