# MINES AND MINING STOCKS

## Local Market Strong With Advances in Cariboo, Minnehaha, Hammond Reef and Others.

## GOLDEN STAR AND DARDANELLES

### Both Buoyant—Crow's Nest Coal at $55—General Mining News.

Canadian mining stocks were strong today. Cariboo sold up to 173, on the Toronto Stock Exchange, the highest yet. War Eagle rose to 340, Hammond Reef brought 37½, Minnehaha ran up to 26; Noble Five scored 23½, and Dardanelles was in demand around 18. Crow's Nest Coal brought $54.50 to $55.

### Comstock Mines.

According to The Silverton (B.C.) Silvertonian, the Comstock Mines' new concentrator is now completed, and will be started up soon. It has a capacity of 60 tons per day, and the company expect to be able to send down to Silverton for shipment not less than two car loads of concentrates per week. The mine has been systematically developed, thousands of feet of tunnels driven on the ledge, and numerous upraises put in, and a very large amount of ore blocked out. Enough ore is in sight to ensure the continuous running of the mill for a long time to come. The mill is situated about one mile below the mine, and the ore will be transported for the present over a wagon road, but a tramway will, no doubt, be built in the near future. At present 25 men are employed at the mine, but a large increase in the force will be necessary as soon as the mill is running at full blast.

### CROW'S NEST COAL.

### Advancement of the Kootenays and the Development of a Great Industry.

The following article appears in a western paper:

Five years ago the Kootenay country was in its infancy. The C.P.R. people had not grasped the fabulous worth of the country as a wealth and revenue producer. The Spokane Northern was the only road into the country at that time. In these five years some 60,000 people have come into the Kootenays, and have made their habitation there. From the entrance of the Crow's Nest Pass Railroad in the Rocky Mountains to Grand Forks, west of the Clumbia River, there have been planted, as by magic, dozens of prosperous towns and villages. This new Canadian Pacific Railroad line which winds through the mountains, will soon connect with the east and Pacific Coast markets.

The Crow's Nest Pass coal fields, which will without doubt rank as the best coal belt in the world, will in the course of a short time not only supply British Columbia, the Northwest Territories and Manitoba with coal, but Washington, Idaho, Montana and the Dakotas will pay them tribute.

Thousands of workmen will find employment in mining this coal, and enormous railroad traffic will thereby ensue. The mining country will require thousands of tons of both coke and coal daily, and the people of the world will commence to realize the vast wealth of the country, and there will grow up the greatest industry in Canada in the Kootenay country.

### Greville's Market Letter.

Our first December report mentioned Cariboo (McKinney) as likely to go to $1.50 by the end of January. It is now at $1.75. The McKinney Reef Company's property, Last Chance, is reported by experts to be on the same lode, and only separated from the McKinney property by the Wiarton Fraction.

Golden Star's third mill run, which was estimated in our last report to be from $15,000 to $20,000, is now, by actual returns, proved to be $15,125.20, besides the concentrates—say $3000. We, therefore, look to see the stock at $1 within a few months.

Hammond Reef sells readily at about 35, and if there is much buying it is likely to go higher.

The Smuggler meeting was adjourned for 60 days, to allow Mr. Campbell to make a thorough examination and report, and also to make a 10-day mill run. It turns out that in the last so-called mill run, sometimes 10 stamps were working, sometimes five, and sometimes none, and any sort of rock was put through. In fact, it was no test at all, and the real value can only be ascertained when Mr. Campbell has finished his examination, and made a proper mill run.

Winchester and Tin Horn are reported as amalgamated, and the stock is beginning to sell again at between 6c and 7c.

Athabasca remains steady, and it is advertised that there will be dividends in April, which confirms our last report.

Dundee has sold all the treasury stock, and is held firm in England. It is rising slowly, but steadily.

Dardanelles has also been in steady demand, with slightly increasing prices.

Crow's Nest Pass Coal is still moving upward, and if current reports are true, is likely to go still higher.

Van Anda is bought readily at 4c. Of all the cheap stocks, we would say keep your eye on Van Anda.

Evening Star has been in steady demand, with increasing value.

The Jumbo deal having fallen through, it is quoted at 20 bid and 30 asked.

Monte Cristo sells at 10, and Virginia is in good demand at about 45.

There are two or three stocks under the same management as the Golden Star, which can be bought cheap now, but which will be heard of before long. They are J.O. 41, the Alice A., and a third, which has not yet been put on the market here.

### Mitchell, Wallace & Co.'s Review.

Golden Star was the leader during the past week. The price has hardened somewhat, and the indications are for an advance. Our investigations lead us to believe this stock a good investment and a steady dividend payer. The stock is becoming scarce; the source from which the stock has come of late seems to be exhausted. Buyers of this stock should make their contracts as early as possible. Hammond Reef is scarce, and buyers are ready to take all that is offered at the prevailing price. Camp McKinney shares are prime favorites. Cariboo, Minnehaha and Waterloo have advanced in price. The silver-lead stocks have made exceptional advances. Noble Five was bid up several points; this stock is likely to advance sharply in the near future. Reports from Dardanelles are very favorable. This mine has already sufficient ore in sight to justify constant shipments. Rambler-Cariboo is in favor by shrewd investors. This property is likely to pay two or three dividends this winter. The Rossland list has been more active. Big Three is fetching a good price. Evening Star has doubled in price, owing to the improved conditions at the mine. Monte Cristo is dull. We have received a letter from the secretary of the company, stating that no examination has as yet been made, but that something would likely be done soon. Montreal Gold Fields finds purchasers for all that is offered. Virginia has advanced several points. The following low-priced stocks will, in our opinion, show a profit in a few months, namely: Novelty, St. Elmo, Victory-Triumph and White Bear. B.C. Gold Fields have fallen off a few points. This stock may be slow, but should improve in price. Crow's Nest Coal has been in active demand, at a higher price. The head office of this company will be transferred from Montreal to Toronto. The interest in Republic stocks is being revived. Canadians do not object to have some of the good things, even if they have to go to the State of Washington for them. Republic, Sans Poil, Mountain Lion, Jim Blaine and Lone Pine are the favorites.

## 40 STAMPS FOR HAMMOND REEF.

### One Hundred Tons Will Be Crushed Daily by August Next.

At the annual meeting of the Hammond Gold Reef Mining Company, the directors in their report to the shareholders announced a policy of active operations for the immediate future. Upon that report the stock has been very active and has made rapid advances in price. A meeting of the directors was held in this city yesterday and a contract was closed with the Jenckes Machine Company of Sherbrooke, for thirty additional stamps, the necessary ore crushers, aerial rope tramway, frue vanners, water wheels, etc. This will give the company a thoroughly equipped 40-stamp mill, and will make it one of the largest and most complete free milling gold mill plants in Canada.

A contract has also been let to the Canadian General Electric Company for generators, motors, electric line and complete equipment for the production and transmission of electric power from Clearwater Falls, a distance of less than two miles. The stamp mill is of the latest design and

## CURE DRUNKARDS

### Eloquent Words From a Wife Who Rescued Her Husband From a Terrible Habit.

### Secretly Gave Him a Remedy in His Coffee and He Now Rejoices With Her.

Who can doubt that there is a cure for drunkenness when we have such an eloquent and emphatic statement from Mrs. Katie Lynch, 329 Ellis-street, San Francisco, Cal. She says: My husband was a hard drinker. There never was a doubt in my mind but that liquor had so worked upon his nerves as to actually control his appetite. Like most men who drink he was kind and generous when sober, but the rum demon usually had the better of him and his wife had to suffer. One day I concluded to try a remedy called Golden Specific, which it was said would cure the liquor habit secretly. So I mixed some of it with Mr. Lynch's food for a few days and put a little in his coffee. I could scarcely conceal my agitation and fear lest he should suspicion me, for he had suddenly taken a dislike to liquor, said he despised the stuff, and was the most remarkably changed man you ever saw. I kept bravely at it, determined not to waver in my attempt to cure him, and I soon found out that my mission was a complete success, and that Golden Specific had wrought almost a miracle for me. I want other women to profit by my example, and am glad to learn that Dr. Haines, who discovered Golden Specific, will generously send a free trial package to every woman who writes for it.

Send your name and address to Dr. J. W. Haines, 1108 Glenn Bldg., Cincinnati, Ohio, and if you wish you are at liberty to refer to me as having told you about this marvelous remedy.

## COPPER IS KING

Price October last 12 cents pound, and today selling at 22½c cents pound and over; and a very good reason why you should hurry forward your order before the price of the Baltimore Copper Company shares advances: present price 3½ cents share. Remit $15 for 1000 shares first payment; balance one mill a share per month. The Baltimore claim is paid in full. The shares are non-assessable. Write, with orders, to JOHN M. MacINTRYE, Secretary, or

## British Columbia and Republic Mining Stocks

I invite the investor to call and see me regarding the above, and I ask the correspondent not to be afraid of using his pen. I have some capital stocks at an easy figure, and I am in a good position not only to impart the latest information, but also to quote an easy figure on them all. Having agencies at ROSSLAND, B.C., and REPUBLIC, Wash., I am in close touch with the market at both places.

Purchase now FAIRMONT and CARNES CREEK CONSOLIDATED, and if you will be guided by me take some REINDEER and JUMBO in my Republic list.

Write for my circulars on FAIRMONT, CARNES CREEK and REPUBLIC MINES. Note my only address, 12 ADELAIDE-STREET EAST.

MINING BROKER **E. GARTLY PARKER** 12 ADELAIDE ST. E. TORONTO.

## Watch Camp McKinney!

We are making a specialty of Camp McKinney mining shares. Over a week ago we predicted 20 points advance in Cariboo Con. The pointer has materialized and those who bought have a handsome profit. We predict a similar advance in

### MINNEHAHA (CAMP McKINNEY)

This stock is well worth 50 cents per share, with six feet of free milling ore that will assay $27 to the ton at the 100-foot level, and the shaft now down over 130 feet. The financial statement just published shows about $26,000 in cash in the treasury and over 50,000 shares of stock unsold. This stock is the safest investment outside of the dividend paying mines on the market. Those who buy now will make large profits.

Buying or selling orders on the exchange by wire promptly filled. Specify maximum or minimum price and quantity. Don't waste your time trying to buy below the market price.

We will buy or sell on commission, War Eagle, Waterloo, Noble Five, Big Three, Dardanelles, Hammond Reef, Athabasca, Crow's Nest Pass Coal and all the active mining shares.

**CURRIE & KITELEY**
MEMBERS THE MINING EXCHANGE. 52 YONGE ST.

**F. H. THOMPSON & CO**
Official Brokers.

34 TORONTO St. 'PHONE 918

## *GOLD MINING STOCKS.*

DUNDEE—A recent issue of The Rossland Miner says regarding this mine: "The new mill on the Dundee was formally put in motion last Tuesday afternoon (24th January). It is working faultlessly. The mill is of the daily capacity of 50 tons, and it is expected that it will soon be operated to its fullest capacity." At present they are treating about 30 tons daily. There is no better investment on the market, and investors should not overlook that this is a fully equipped working mine.

FAIRMONT (Dundee extension)—For a low-priced stock, you cannot go into anything that has shown up any better for the amount of development work that has been done. They are now taking out shipping ore and the results obtained from a trial shipment were very satisfactory.

We buy and sell all standard mining stocks, and submit the following at low quotations, subject to sale:

| | | |
|---|---|---|
| DUNDEE | FAIRMONT | DARDANELLES |
| CROW'S NEST COAL | SMUGGLER | ATHABASCA |
| HIAWATHA | B.C. GOLD FIELDS | WHITE BEAR |
| MONTE CHRISTO | WATERLOO | EVENING STAR. |

# CRIPPLE CREEK... GOLD CAMP

The returns from the Smelters and Mills for the month of January show the production of Cripple Creek to be over $1,500,000 for that month. It will not pay you to let the numerous opportunities now present pass without investigation. Many fortunes have been made in Cripple Creek Stocks within the past sixty days.

**Mail correspondence** only takes three days to go or come direct from the camp or to the principal Stock Exchanges.

We have been in direct communication with this camp for the past five years, and are always kept well posted by a number of the most reliable operators. A reference to our past advertisements, market letters and special letters will, we think, convince any one of the reliability of our advice, if a comparison of prices is made.

Considerably over **one million shares** of the various Cripple Creek companies are bought and sold daily on the Colorado Springs Mining Stock Association alone.

**PORTLAND** has now reached the $2.00 mark—making it a 12 per cent. stock; at the present purchase price (2c per dollar share per month) we consider it a very safe investment now, and have been advising its purchase all the way up from 50c.

**COLD COIN** at about $1.67 per share is an excellent purchase, because although the present dividend is only 1c per share its production warrants an increase in the dividend rate, which we are looking for very shortly now.

**INDEPENDENCE TOWN AND MINING CO.** produced through lessees about $800,000 last year. All leases expired December 31, '98, and were not renewed; the company now having complete charge, they are doing at present an immense amount of dead work, connecting levels, etc., but we look for declaration of regular dividends in about three months. This stock can be secured now at about 57c per share, but we look for an early advance, as we know of some very large buying orders coming in from the east shortly. This company has $100,000 cash in the treasury. The capitalization is 1,250,000 shares par value $1.00. **Don't let this pass you—**

**We can still get a few blocks of Globe Hill Consolidated at 12c per share. A big deal now pending on this stock. If closed, will advance the stock very fast. The capitalization is 1,500,000 shares, par value $1. 300,000 shares still remain in the treasury. The Company has no debts, and their property is patented.**

**A lessee working on an adjoining property is earning about $100 per day net. One of these veins has been traced and just opened up in Globe Hill property. As an investment to hold for a reasonable period, we know of no better stock in any camp anywhere.**

**Our Weekly Market Letter will be sent to anyone free on application. It has paid others to follow it, and it will pay you too.**

**HIGGINS & HAMPTON,**
62 Victoria Street.
