Rotten Eggs Are Thrown, Blame Peterboro Strikers

Peterboro, Ont., July 3.—In police court today Frank Meeks was remanded on a charge of assault. This was the aftermath of an attack that was made this morning on a number of strike-breakers who were on their way to work at the plant of the Canadian General Electric Company. Rotten eggs were used freely on the men going to work. The attacking party was located near the plant. It is claimed they are striking machinists of the Canadian General Electric. The police were called to the scene and Meeks was arrested on a charge of assault. The machinists have been on strike for over six weeks, and this morning's affair was the first of its kind. A taxicab that was taking a number of strike-breakers to the plant was also included in the attack.

COMPROMISE FAVORED BY LLOYD GEORGE

Paris, July 3.—Premier Lloyd George of Great Britain favors a compromise of the financial demands made by Italy and other allies at the Brussels conference of the supreme allied council, according to The Echo de Paris. It is said he favors an agreement giving France 52 per cent. of the sum due from Germany in indemnities, and holds Great Britain should receive 22 per cent. Of the balance, he will give Italy 10 per cent., Belgium 7, Jugo-Slavia 8, Rumania four-fifths of 1 per cent., and Portugal and Japan the remainder for division between them.

The Matin declares the understanding among the allies remains complete, and that they still adhere to the plan adopted at the Boulogne conference, by which Germany would be called upon to pay 3,000,000,000 marks in gold and annuities to be determined later. Under this plan, Germany would receive immediate aid that would assist in her rehabilitation.

Agreement has been reached by the supreme council as to the text of a note concerning the execution of the Versailles treaty, which will be presented to the German delegation at Spa. This note is based on reports from military, naval and aerial experts, and is said to insist that Germany enact a law abolishing compulsory service, and that her army be reduced to 100,000 men. In addition, a stipulation is made, according to report, that the strength of this force be so scattered that it cannot in future be utilized as the framework of an important army.

HARD TIMES IN JAPAN; IRON WORKS CLOSING

Tokio, July 3. — Announcement is made in the newspapers of the closing of the Asana Iron Works, near Yokohama, on Wednesday. More than 700 workmen were paid off and discharged. Suspension of the works is attributed by the newspapers to financial depression.

It is also reported that three steamship companies, the Nippon Yusen Kaisha, the Osaka Shosen Kaisha and the Toyo Kisen Kaisha, as a result of the American shipping pact, have decided to withdraw from the China-Pacific Steamship Union, and operate independently in general freight competition.

The butter in storage on June 1, amounts to 2,036,915 pounds of creamery, and 181,726 pounds of dairy. Comparative figures show this in the case of creamery butter to be 2.97 per cent. more than last year, and 40 per cent. more than last month.
