AN OLD SHAKER FOUND DEAD.

He Had a Romantic Early Life and a Tragic Death.

Troy, N.Y., April 10.—William H. Russell, one of the oldest members of the North family of Shakers, was found dead in a field about two miles west of the settlement yesterday. Russell left the settlement for a short walk Wednesday afternoon. From the surroundings it would seem that the old man, in attempting to get between the strands of a barbed wire fence, had his foot caught, and, unable to relieve himself, remained to die of exposure. Russell was a graduate of the Wesleyan College, and at one time a professor. His life included a romance. While abroad he met a beautiful woman and married her. A daughter was born, but afterwards a cloud passed over their happy life, and the old man never mentioned his wife again. Soon he joined the Shakers.

The Queen of Tahiti Taken.

San Francisco, April 10.—Advices from Tahiti state that Queen Mamai, who for seven years as ruler of the Island of Raiatea, has ceded the French, has been taken, and the long-standing rebellion on the islands of Raiatea and Hauheine, put down. The French gunboat Auba and the transport Caroline captured the Queen and her chief men after a hot fight, in which 36 natives were killed and 16 wounded. On Feb. 26, the Queen and 136 of her subjects were sent into exile to New Caledonia, the French penal settlement.

She Gets 6 1-4 Cents.

Scranton, Pa., April 10.—Anna Dickinson, one time lecturer and actress, has recovered a verdict of six and a quarter cents from George B. Thompson, Allan Eggleston, John S. Heitman, Gideon Underwood and Henry Dryden of Pittsburg, on the basis of claim that they had brought about her unwarranted incarceration in the Danville Insane Asylum in 1891. Miss Dickinson's suit was originally brought two years ago, but after 10 days' trial the jury disagreed and the case was continued. Her claim was for $500,000 damages.

Provincial Appointments.

His Honor the Administrator of the Government has made the following appointments:

John Aimon Ritchie of Ottawa, to be County Crown Attorney and Clerk of the Peace for the County of Carleton, in the room of Napoleon Antoine Belcourt, resigned.

William Sutherland Turnbull of Galt, barrister-at-law, to be Police Magistrate for Galt, without salary.

Malcolm Ogilvie Macgregor of Mount Forest, to be Police Magistrate for Mount Forest, without salary.

Stephen Thomas Evans of Burk's Falls, to be a notary public for the Province of Ontario.

Henry Rutledge of Cooksville, to be bailiff of the Second Division Court of the County of Peel, in the room of John Henry Glendening, resigned.

U. S. Crop Outlook.

Washington, D. C., April 10.—The report of the Department of Agriculture makes the average condition of winter wheat 81.4, against 99.5 on Dec. 1, 77.1 last April and 81.4 at the same date in 1895. The average rye condition was 88.9, against 82.9 last year. The condition of the soil at the time of seeding was favorable throughout the country, a few scattered counties reporting it too dry or too wet, so that by Dec. 1 a crop nearly standard was indicated.

S. Ackerman, Commercial Traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Electric Oil for inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others as it did so much for me" ed

AT THE CITY HALL.

The Recommendations Which the Engineer Will Submit to the Board of Works To-Day.

In his fortnightly report to the Board of Works, the City Engineer recommends an asphalt pavement on Carlton-street, from Parliament-street to Metcalfe-street; cedar block on Brock-avenue, from Queen-street to Dundas-street, Marion-avenue, from O'Hara-avenue to Lansdowne-ave., O'Hara-avenue, from Queen to a point 1455 feet north, Queen-street, from Gwynne-avenue to Roncesvalles-avenue, Gladstone-avenue, from Queen-street to Dundas-street; gravel on Dunn-avenue, from Queen-street to the lake, Lansdowne-avenue, from Queen-street to Union-street, Macdonald-ave., from Queen-street to point 2826 feet north, Maple Grove-avenue, from Brock-avenue to O'Hara-avenue, Melbourne-avenue, from Cowan-avenue to Dufferin-street.

PAPE-AVENUE EXTENSION.

The Engineer says he does not feel justified in recommending that the city incur the large expense involved in extending the street railway system along Pape-avenue to Danforth-road.

PAVING FOR CYCLISTS.

Regarding the best plan to improve the devil strips throughout the city for the use of cyclists, the Engineer says that, as it is the intention of the deputation that waited on the committee to circulate a petition among the city cyclists to endeavor to induce them to contribute a small tax towards defraying the cost of constructing paths and improving the devil strips for their use, that it would seem advisable to await the result of the endeavors of the deputation before any definite plan is decided upon.

THE T. EATON CO.'S AREAS.

In reference to the application made by the T. Eaton Company for permission to excavate for a width of ten feet beneath the sidewalk in front of their new storage warehouse on Louisa and James-streets, the Engineer recommends that an annual rental should be charged for such privileges in addition to the usual bond.

WATERFRONT BREASTWORKS.

The cost of the necessary breastworks along the waterfront from Bay to York-street is estimated at $6000, and this sum has been included in the estimates for this year.

NO CARS FOR ARTHUR-STREET.

The Street Railway Company will not construct a line in Arthur-street, for these reasons: The locality in question is at present surrounded by railway tracks, within five minutes' walk from any point in Arthur-street. On the north there is the College-street line with a five-minute headway, on the south the Queen-street line with a four-minute headway, on the west the Dundas line with an eight-minute headway, and on the east the Bathurst line with an eight-minute headway. The extension in Arthur-street would at the best be a stub line, and of very little convenience to the public.

RETURNING OFFICERS APPOINTED.

On Saturday the Board of Control appointed returning officers for the Sunday car vote. There are many changes, as the new regulations require each officer to reside in the ward in which he acts. Among those appointed were ex-Ald. Jolliffe and Small.

LORD WOLSELEY ILL.

Commander-in-Chief Said to be Suffering From Cancer of the Stomach.

The Marquise de Fontenoy writes: Lord Wolseley is not likely to retain for any length of time his position of commander-in-chief of the British army, for, although, after being confined to his house for a number of weeks, he has at length returned to duty at the branch of the War Department known as the "Horse Guards," yet it is no longer any secret that he is afflicted with cancer of the stomach, which is in a very advanced state. Nothing else is talked about at the so-called "Service" clubs in and around Pall Mall, St. James' and Piccadilly, and, although the field marshal has more enemies than friends, his popularity being restricted to what is known as "his gang," yet regret is expressed on all sides.

It is asserted that the malady has reached a point which enables the doctors to declare that, while his life may be prolonged until the end of the year, he must not look for much extension beyond that, while it is quite possible that he may be carried off long before the season is over. In that event, it is his only daughter Frances who, by virtue of the patent of the Peerage, will become Viscountess Wolseley in her own right. When she marries, if her husband happens to be a commoner or a baronet, she will retain her own name and title, which he will in no sense share, and she will only drop these in the event of her being led to the altar by a nobleman whose rank is the Peerage is loftier than her own. Her Peerage will descend at her demise, but not until then, to her eldest son, if she has one, and such failing, to her eldest daughter, if she have daughters.

Now that the terrible ailment of Lord Wolseley is known, people are veering round and becoming far less bitter in their denunciations of his failure to put into execution all those much-needed military reforms which he urgently recommended before attaining to his present office, and the promise of which was one of the principal objects why the old Duke of Cambridge was ousted from the position of commander-in-chief of the British army in order to make way for him.

McIntyre & Wardwell (John J. Dixon) send the following despatch to their branch office in Toronto:

Lower London prices on the news of fighting in the East gave us a weak opening in stocks to-day, and the Internationals and the railroad list generally was fairly active at the decline throughout the short session. Jersey Central recovered an early decline, but Reading closed weak and a fraction lower. The strong feature in the market was again Chicago Gas, which, in the face of bearish demonstration in other parts of the list, maintained a further advance of a point to 83. Trade reports for the week show no change in the general conditions, business being stationary, while in some sections floods and bad roads caused a decided interruption to activity. Bank clearings for the week increased 12 per cent. The situation at Washington, as regards the tariff bill, is mixed. Western Senators, it is alleged, being disposed to stand out for their pet measures. Tennessee Coal is affected by the idea that the Carnegie-Rockefeller combination will buy the company. The weekly bank statement reflects the large payments of custom duties. Its features were decrease of $2,240,000 in legal tenders, $3,350,000 in deposits and $1,496,000 in surplus.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat—Opened very strong; the first sales were 66¼c to 66⅛c, which was an advance of 1⅝c over last night's closing. Liquidation is over, and wheat is now in the hands of good people, who will hold for much higher prices. Liverpool markets closed ½d higher, with a good demand for future deliveries. Paris market was strong and weather there is wet and unfavorable to growing crop. There was considerable war news about the fighting on the Greek frontier, which helped to encourage bulls. The exports for the week, wheat and flour, aggregated 2,036,000 bush. The
