A foreign paper states that the remains of Daniel O'Connel are held in pledge by the proprietors of the burial ground where they at present lie for the expense of their removal from Genoa, where he died. We scarcely credit this.

Efforts are being made in Liverpool to establish a new company to run screw steamers from that port to Calcutta. The proposal is to build new boats for the service, of 2,500 to 3000 tons, with 500 horse-power engines.

The King of Prussia has presented Mademoiselle Kriel, proprietress of the great place of amusement in Berlin that bears her name, with the sum of 40,000 thalers towards its re-erection.

The Sultan has just conceded to the officers of his guard, of special corps, and of companies of *elite*, the right of allowing their moustaches to grow in all their length! Formerly the Janissaries alone had the privilege of wearing large moustaches, and since the destruction of that formidable body so military corps has enjoyed it. "the people," says *Galignani*, "look upon it as an extraordinary honor. Certain foreigners, at present in the service of Turkey, are also, under certain conditions, and as a special favor, to be allowed the distinction."

The Morning Post says that unhappy Londoners positively live on shams and delusions. "Our milk contains everything but milk, our bread is we know not what, our water full of fighting devils of most ferocious aspect, our white pepper consist chiefly of ground rice, and our black or iron filings and the sweepings of the custom house floors, and the component parts of our coffee are chicory, burnt beans, and rusted wheat, colored with molasses."

An Irishman is successful in any country but Ireland. £54,000 were received at Limerick, last year, money sent by emigrants, and friends at home might seek a better country for the employment of their energies.

What New-Brunswick can do.—The skepticism of many who take their cue from such of our farmers as are wedded to old customs and idleness, and who are stubborn in their assertions that this country is not adopted to Agricultural purposes, may, we think, be fully removed by the following statement. A Mr. ——, of the Jerusalem Settlement, stated to a friend of ours a few days since, that he located on a wilderness farm, 17 years since, in the Jerusalem Settlement, that he was at that time a poor man, having nothing but his industry and a good constitution on which to place reliance for a subsistence; that he went to work with a full determination of testing the possibility of a man's making a living by the exercise of husbandry, and that after the period above stated he has the satisfaction of being able to give the following result: he states that at this time he is seized of a good estate in "fee simple," that he has a large clearing, with a good frame House, 2 frame Barns, and all other necessary out buildings, and implements of husbandry in abundance, and of the most approved quality.—That his stock consists of 9 Milch Cows, 6 yoke of Oxen and some young cattle, a span of Horses, and 35 Sheep. That he cut and housed the last season 70 tons of hay, 500 bushels of oats, 900 do. of prime potatoes, 300 do. of turnips, 21½ do. of wheat, and thrashed and ground 30 barrels of Buckwheat. That he has brought to market and sold this winter, 15 loads of produce, and that he will, after wintering his stock, have a surplus of hay to the amount of 17 tons We can easily imagine with what a gusto such a gem of a farmer as this would respond to the Resolution of R. D. Wilmot, when he says, let us meet the Yankee with a Tariff of cent. for cent., and dollar for dollar. With such a yeomanry, we have little to fear from a duty of $2 dollars a barrel on Flour.

City Matters.—We observe by our City prints, that already have two gentlemen come out as Candidates for Civic honors, at the coming election. Joseph Fairweather, Esq., for Alderman, and Mr. T. G. Hatheway, for Councillor, both for King's. These gentlemen are early in the field in order we presume to allow the constituency a fair opportunity for canvassing their respective competency to fill the offices to which they aspire. For the first gentleman we can we think vouch for his integrity and honesty of purpose. The public have had a spice of his quality for the last fifteen years, during which time he has filled a Chair at the Civic Board, and we believe with usefulness to the people and credit to himself. He has our best wish for his success. For the latter, he may be a good man *untried*.—We have reason to believe that other candidates will be found to meet them on the Hustings in fair competition on the day of trial, when it will be for the citizens to make a judicious choice.

For Duke's Ward, we learn that Mr. John McCoskery, urged by a host of friends, has consented to try titles with the present Councillor, Mr. W. Hagerty. There appears in this instance to be a great desire of a change, and we have no doubt, that Mr. McCoskery if elected, will make a useful and efficient member, he being a staunch advocate for reform and economy in public expenditure.

On the Carleton side, a change is anticipated—Mr. Joseph Coram, an enterprising, faithful, and indefatigable young man, has announced his intention to stand for the Councillorship, while Mr. Beattie contests the Aldermanship with Mr. Cougle.

Election of Parish Officers.—On Tuesday last the Election for Parish Officers, under the new Act took place, at the several places for which notifications had been previously given.—Up to the time of our going to press all the information obtained on the subject, went to shew that the public were well pleased with their new privilege, and that the franchise was exercised with becoming dignity, if we except the Parish of Portland, where owing to some informality in the proceedings, the election is likely to be set aside. We understand that a petition for that purpose to the Sessions is in course of signature.

Connecting the Oceans.—The stupendous work of connecting the Atlantic and Pacific Oceans has at length fairly begun. On the 24th of last month the first Rails of the Panama Road were laid down, thus connecting with an iron band the mighty Oceans. The distance is not great, and in a few short months we may expect to find the transit by this route become general, and the distance from the United States performed, instead of 6 months, in 30 days.

☞The *Boston Bee* states that 86 Gamblers, taken from the Hells of that city on a Saturday night, after being kept in quod the whole of the Sabbath day, were on Monday morning brought up before the authorities, and fined $4 64cts each.

An Extra.—A Poetical writer in a recent number of the *Morning News*, in an article entitled "George's Comment," uses the following graphic language:—

"Blow on, ye hollow-hearted *Zero*,
We'll meet you with the breath of "*Nero*."
If we're "done brown" tis plainly seen
The vic'try comes from Erin's *green*.
If Bishops will their laymen drive,
Lest protestants unite and strive
With firm resolve and Patriot hand,
To sweep Oppression from the land.

We are more than a little surprised at finding such ultra views entertained by the *News*, as its proprietor has been in the habit of denouncing Orangeism, in all its phases. Now Orangeman although we be, we cannot go the length which he proposes, that of *sweeping Catholics from the Land*. We hold another, and as we understand it, a more christian doctrine—that of instructing and assisting that class of people, rather than persecuting of them. We can scarcely reconcile to our mind the very sudden, and rather violent conviction, of our brother of the broad sheet, yet we trust as a proof of his sincerity, that he will in future refrain from that opposition to Orangeism which he has so frequently been in the habit of indulging.

The Challenge Accepted.—Messrs. Thomas Tucker & Co., of Liverpool, have offered to accept the challenge sent out by some New York merchants to build a ship for a race across the Atlantic.

The above article serves to convince us that John Bull is in no respect deficient, either in pluck or nautical skill, to any nation on the globe; neither are his children in the Colonies. This Province has produced some of the finest specimens of Naval Architecture now afloat, nor does there rest the shadow of a doubt on our minds, that our Yankee neighbours might have found a *customer* in this obscure corner of the earth, who would have readily accepted his challenge.

☞New Engine.—We are pleased to find that our hint of last week, as to employing our own Mechanics to build the new Engine, has been adopted. We think we can promise entire success, if so arranged, from the hands of our City Mechanics.

Orange Grand Lodge of New-Brunswick.—This Body met at Fredericton on the 4th instant, for the purpose of addressing Her Majesty on the Papal Aggression—when the following Address was delivered by the Grand Master:

Worshipful Sir and Brethren,—I have called you together for no ordinary purpose; but to determine upon an Address to our Beloved Queen, upon the recent aggression of the Pope of Rome upon her crown and dignity. Numbers of our Protestant fellowmen across the water, in our father land, have addressed Her Most Gracious Majesty, and their addresses have been most graciously received.

I think it becomes our duty at the present time, being an exclusively Protestant Association, to tender Her Majesty ours; and in drawing up the address, I trust it will be couched in the most respectful language.

Orangemen, beyond all others, can come to the consideration of the present crisis with a clear conscience, for we have never changed our sentiments upon the subject of Popery.

Our motto is not expediency,—we yield to no pressure, our sentiments are the same now as they were in 1829, at the passing of the Emancipation Bill,—we always knew we would be required to stand in the front rank to oppose the Beast and false Prophet; it therefore behoves us to put our trust in God.

My Brethren, the interval elapsed since I last met you in the Grand Lodge, has been a time replete with trial. Calumniators have gone forth with a desire to prejudice our fellow men against our blessed Institution. We have been denounced as robbers on the floor of the Legislature of this Province, and opposed by an imbecile Government, ready to yield to expediency for the purpose of gaining Papal influence. But, thank God, our Institution remains unsullied, and in the several Counties where our Societies prevail, they have been marked with tranquility and order, the necessity of a closer union more generally, and the progress of the Society has been onward.

Our institution is alive because it is a religious one. We base our system on the blessed word of God, which gives life immortal to every Institution that is founded and conducted in accordance with that blessed Book, (the Bible.)

We are here this day to let her Majesty know that she can depend upon us in the hour of danger, with the same degree of confidence as if we had been at all times the favoured pets of the Government.—I trust, my Brethren, that this meeting, and the expression in your address which you will send home to Her Majesty from the Grand Lodge of New-Brunswick, may have a tendency to rouse up the Protestant feeling of this Province, and cause a closer union by laying aside sectarian prejudices, and that all Protestants will find the propriety of struggling for those privileges which our forefathers purchased with their blood; and shew to Protestants of every sect that we are the only power that can grapple with Rome.

The present crisis is all important; the Roman Pontiff has denied the supremacy of Britain's Queen, and would fain annihilate the Protestant faith.

My Brethren, I feel indignant at Papal aggression. It behoves every Orangeman to prove himself, as far as in him lies, loyal and faithful to his Sovereign, his Country, and his God.

Finally, my Brethren, let it be your earnest endeavour to cultivate unity and good order; walk worthy of your loyal sentiments and noble name, and may the God of Orangemen bless our Institution, and exalt the British nation in righteousness. JOHN EARLE.

March 4, 1851. *Grand Master.*

TO HER MOST GRACIOUS MAJESTY THE QUEEN.

May it Please Your Majesty,—We, the Members of the Loyal Orange Grand Lodge of New-Brunswick, now in Session convened, and representing many thousands of our Brethren, your Majesty's dutiful and loyal subjects in this Province, beg leave to approach your Majesty with feelings of profound respect, love, and fealty.

Enjoying the blessings of your benign government far distant from our fatherland, we regard with the deepest feelings of anxiety and concern every effort made by any authority to interfere with the privileges, or trespass upon the rights of our Protestant fellow subjects in Great Britain.

We beg to assure your Majesty that we have heard with feelings of unbounded indignation the recent attempt of the Pope to establish a Roman Hierarchy in England, and we unite with our Protestant fellow subjects in deprecating that insidious effort to undermine our Reformed Religion.

We regard the recent Bull of the Bishop of Rome as an attempt to interfere with your Majesty's Royal authority and invade your supremacy in England.

We are advocates of the equality of civil rights enjoyed by all classes of your Majesty's loyal subjects; but your Majesty may rely upon our support in upholding such measures as your Majesty may deem it advisable to adopt to maintain your authority and sustain the Protestantism of the realm.

With such feelings and assurances we humbly lay this our dutiful Address at the foot of the Throne.

LATEST FROM FREDERICTON.

(By Telegraph for the Chronicle.)

Fredericton, March 14th, 3 P. M.

The Bill for the Magistrates of St. John to appoint Commissioners for the Alms' House has been committed. Mr. Needham moved an Amendment that the rate payers elect them, and that vote by ballot be adopted, which was carried, 14 to 6. The numbers were—Yeas—Messrs. Tilley, Needham, Ritchie, Gray, Partelow, Scoullar, Hatheway, Stiles, English, McPherson, McPhelim, Fitzgerald, Williston, and Botsford. Nays—Hon. Messrs. Speaker, Rankin, Street, Barbarie, Taylor and Thomson.

Progress was then reported in order that proper machinery for the Bill may be prepared.

The House afterwards went in Committee on the Municipal Corporation Bill. Mr. Ritchie is now speaking, and is cutting up the details, by exposing its defects

The Anthem arrived on her second trip yesterday, and to the courtesy of her Commander, Capt. Woon, we are indebted for a file of the latest American papers, from which we subjoin the following extracts:—

LATEST FROM CALIFORNIA.

Arrival of the Empire City.—$750,000 in Gold Dust.—A Locomotive on the Isthmus.

The steamship Empire City, Capt. J. D. Wilson, from Chagres, arrived at this port about 10 o'clock on Saturday morning, bringing $750,000 in gold dust and 160 passengers. The Empire City left Chagres at 9 P. M., Feb. 25, and arrived at Kingston at 5 P. M. on the 28th; left Kingston March 1, at 11 o'clock.

On Friday, Feb. 21, lost overboard L. Viel, from Havre, a coal passer on board. He fell forward of the wheel by which he was struck, and probably killed instantly.

The English brig Sarah Hughes, from Chagres for Cuba, put into Navy Bay on the 17th February—all hands sick—but through the attention of Dr. Totten they are at present convalescent, and the vessel will sail in three or four days.

The first rails on the Panama Railroad were laid on Feb. 24. A locomotive and tender were landed by the Port Admiral on the 22d, Washington's birth-day.

Excusable.—A gentleman, whose name we have not been made acquainted with, being in a very distressed condition while crossing the plains was assisted in by one William C. Wright. The gentleman was accompanied by a daughter. After the arrival of the three here Wright carried the daughter off to the "Rough and Ready" diggins. The father went up to this place, searched for her in vain, and even offered to give Wright two hundred dollars, provided he would restore her back. This Wright refused to do. The old man then proceeded to get satisfaction by process of law, but, failing in this, exasperated and in despair, he shot Wright dead. Wright was a gambler, and was from Pike county, Mo. The old man then came immediately to Sacramento City, and delivered himself up to the authorities. We are informed that, under the circumstances, the authorities promptly discharged him without a trial.—[Sacramento Transcript.

[FOR THE CHRONICLE.]

Mr. Editor,—I am one of those who earn my money (and a precious small quantity it is) by the sweat of my brow, of this I do not complain, seeing it is the lot of man, but, Sir, I am at a loss to know how it happens that when Ships are fetching such an excellent price in the old country, the working man is so shabbily paid at this Port. Most of the men who work in the yard with me are members of the Temperance Society, and when any of them are taken sick, fall directly in on that Body for support, because their wages are so small that they cannot save a trifle for a time of sickness. Thus, Sir, the *Wealthy Builder*, who is a leading man in the Division, obtains the lions share of the benefits of the Body; and I cannot but think, under the circumstances, that some of our great employers, who are such sticklers for Tetotalism, have other motives for their *zeal* than those of merely improving the morals of the people.

I am, Sir, yours &c.,
A SHIP CARPENTER.

HIGHLY IMPORTANT!
FROM THE BRITISH PROVINCE OF NEW-BRUNSWICK.

From the St. John Observer, October 17, 1848.

As at this season of the year and throughout the winter months, coughs and colds are the most prevalent of all the various ills that flesh is heir to, we would advise such of our readers and others who may be thus afflicted, to avail themselves of that excellent medicine, "Wistar's Balsam of Wild Cherry," which, judging from our own experience, and that of others, we consider as being one of the safest and most effectual remedies that has ever been concocted for the above complaints, and which meets with the cordial approval of many of the best physicians, and as delays are dangerous, and coughs and cold frequently terminate in consumption, this efficacious and agreeable remedy should at once be resorted to. Mr. S. L. Tilley is the agent in this City, who can enumerate many instances in which the most pleasing results have followed from the use of "Wistar's Balsam."

From the Evening Mirror, New York, March 30.

WISTAR'S BALSAM.—We regard the Wild Cherry tree as one of nature's own physicians, a sort of good Samaritan of the forest; for its "medical gum" has relieved the sufferings and saved the lives of thousands. The Balsam prepared by Dr. Wistar is a pure and perfectly reliable preparation of the real Cherry essence, and it is a remedy by no means "bad to take." We speak confidently and strongly in its praise, from having witnessed its renovating influence in consumptive cases, when all other prescriptions have proved of no effect.

None genuine unless signed I. Butts on the wrapper.
