PRICES EASED OFF ON CATTLE MARKET

Butchers' Cows Only Class Which Maintained Price Levels.

EMBARGO IS STILL ON

No Word Yet as to Removal of Restrictions on Stockers and Feeders.

The receipts of live stock at the Union Stock Yards on Wednesday numbered 102 cars, comprising 1347 cattle, 263 calves, 1627 hogs, 3020 sheep and lambs and 96 horses.

Butcher cattle: The market was only fairly active after a slow opening, many conspicuous breaks being noticed in the line going to the weighmaster. By noon the bulk, however, was pretty well sold out, a few common ones sticking.

The greater part of the cattle on sale were very poor quality, and so many of this class have passed thru this market lately that the market at once became easier. The bears were active, and the bids were 15c to 25c lower all around, the exception to the rule being the butcher cows, which were stronger in accordance with the place afforded them for nearly a week. Choice cows in number were not equal to the demand. Many buyers would have taken two or three times the quantity available for them.

Stockers and feeders: Hon. Martin Burrell has no definite word as yet concerning the lifting of the English embargo permitting live "stockers" to be traded in. All cattle arriving in English ports alive must be killed there. The lifting of this restriction seems near at hand, and would stimulate trade in the above classes. Locally it is very quiet, while a few light stockers only are being exported to American points.

Milkers and springers: Trade here is at highwater mark, with prospects good.

Sheep, lambs and calves: An extra heavy run of sheep and lambs yesterday made a slow opening market. Trading did not develop until late in the morning, and the prices quoted Monday were lowered. Light sheep suffered a break of 25c per cwt., and lambs 25c to 50c. As for the calves the grassers have no demand, medium to good qualities are barely steady and choice veal sold up to 10¼c lb. yesterday; this is also a cut; last week choice veal brought 11c to 11½c.

Hogs: The light shipments in this division, as stated before, are giving this market a strong tendency.
