SIFTON-DALY SAW-OFF

Both to be Representatives For Brandon.

EACH TO HAVE A WALK-OVER

The Former for the Dominion, the Latter for the Local House.

One Hour Per Day For Religious Instruction Said to Be the Terms of the Compromise on the School Question—Rumors as to Appointments—Sir David Macpherson's Seat Will Go to Robert Jaffray or H. H. Cook—Talk of a General Saw-Off on Election Protests—Sir Charles Tupper on His Golden Wedding—Ottawa News Generally.

Ottawa, Oct. 7.—(Special.)—It is reported that Clifford Sifton will come to Ottawa next Tuesday to be sworn in as Minister of the Interior. It is conceded that he will run for Brandon, and that by arrangement he will be elected without opposition, Mr. Daly taking Mr. Sifton's seat in the Manitoba Legislature, also without opposition. The compromise on the school question, it is said, has been whittled down to a concession of one hour a day for religious teaching, and with this the minority will have to be satisfied.

WILL BE A SCRAMBLE.

It is reported that Mr. F. Rouleau, for many years assistant clerk in the House of Commons, has been superannuated. The position is worth $800 a year, and naturally there is much scrambling for it amongst French-Canadian politicians. Mr. Brodeur, the present Deputy Speaker, it is said, has the inside track for the position, but Dr. Guay, M. P. for Levis, is also in the running.

ONTARIO'S SENATORSHIPS.

It is stated that in filling Senatorial vacancies Mr. Laurier will, as far as possible, adhere closely to district lines. He concedes that the vacancy created by the death of Sir David Macpherson belongs to the Toronto district, hence it will go to a man from that district, either Mr. Robert Jaffray, President of The Globe Publishing Company, or to Mr. H. H. Cook, ex-M. P. The seat vacant by the death of Senator John Ferguson belongs to the Niagara district, and for this Mr. J. A. Lowell seems to be the favored aspirant.

A SAW-OFF ALL ROUND.

It is not unlikely that a compromise may be reached in the matter of the election protests which have been filed in the different provinces. Although the Liberals get the whip-hand of their opponents in Ontario, yet in the other provinces the tables have been turned. The recent protests entered against Mr. Blair and Mr. Paterson have put the Conservatives in a somewhat better position, and it would not be a matter of surprise if all the protests were dropped. So far as Ontario is concerned, the only difficulty lies in the belligerent attitude of the Liberals in two of the western constituencies, but in view of the desire of the Government to engage in more serious matters than election protests, the protesters may be induced to fall into line. It is said that Mr. Laurier and Sir Charles Tupper talked the matter over last night with a view to a saw-off all round.

HANSON MAY LIVE.

Lord Aberdeen to-day signed an order-in-council commuting the death penalty passed on Christian Hanson, a Swede, now in custody in Parry Sound jail, convicted of the crime of murder. The reason for the commutation is that the medical examination showed Hanson was an epileptic, and that he was supposed to have committed the murder while in a fit of insanity. Hanson killed a fellow-labourer, named James Mullin. Both were looking for work and had a scuffle over a stick. The result of the fight was that Hanson killed Mullin. A touching thing in connection with Hanson is that he was a hard-working man in Sweden, and kept saving money until such time as he had sufficient to bring him to Canada, where he intended to go farming. Shortly after his arrival he was robbed in a boarding house in Montreal of his twenty years' savings. From that moment he lost heart, became discouraged, and his health weakened, with the above result.

THE GRAIN STANDARDS.

C. N. Bell, secretary of the Winnipeg Corn Exchange, before his departure for home to-day had another interview with Mr. Miall, Commissioner of Inland Revenue. Mr. Miall explained that in asking the western board to select two standards of No. 1 hard, one under the old classification and the other under the new, the department will be guided by the views of a majority of the farmers on the board, not of the majority of the board, this being on the lines of policy laid down by Sir Henri Joly, to accept the views of farmers on this important question.

LEFT FOR THE COAST.

Lord and Lady Aberdeen left for British Columbia on this afternoon's train. They were accompanied by Capts. Sinclair, Erskine and Wilberforce. On the same train were a number of members of Parliament bound homeward, among them being Mr. and Mrs. Hugh John Macdonald, Mr. and Mrs. Davin, Mr. Earle, M.P., Mr. Macdonnell, M.P., Selkirk; Mr. Oliver, M.P., Alberta, and others.

THE GOLDEN WEDDING.

Sir Charles Tupper was in a reminiscent mood to-day. Talking of the event of fifty years ago to-morrow, he said, "My wife and I were born within a mile of each other, near Amherst, in Cumberland County, Nova Scotia, and knew each other from childhood days. Lady Tupper was a daughter of the Hon. H. Morse, prothonotary of the Supreme Court of Nova Scotia, and her mother was Elizabeth Stewart, a sister of the late Hon. Alexander Stewart, C.B., Master of the Rolls and Judge of the Court of Admiralty."

"We were married," continued Sir Charles, "at my wife's residence by the Rev. Canon Townsend. The marriage took place at her residence because the Anglican Church was being re-built at the time."

"There will not be many living at this present day who were present at the wedding ceremony?" the reporter inquired.

"No, not many," said Sir Charles, thoughtfully. "My wife's sister, Mrs. Fullerton of Halifax, Dr. Lewis Johnston, who was one of my groomsmen, and Senator Dickey, are the only persons I can think of that were there. Senator Dickey will likely be here to-morrow. He will be the only guest who was present at the marriage."

Sir Charles' sons and daughters will all be present at the celebration of the event.

A COMPLAINT.

Representations have been made to the Government by United States Consul Kane of Charlottetown, complaining that Dominion cruisers have warned American fishermen out of Northumberland Straits. A decision given by the Department of Justice some months ago defines Northumberland Straits as territorial waters of Canada. As the fishing season is nearly over, Canada's authority will not likely be vigorously asserted this year, but next season it may be different.

HANG ON TO THE QUEUE.

A prominent Chinaman of Victoria, writing to the Controller of Chinese Immigration, thus speaks of advice given to him by Li Hung Chang: "I accompanied him from Vancouver to Victoria on the Empress, where we were detained by fog for nearly 20 hours, during which time he asked many questions. He bade me give my children a good education, both in Chinese and English, which are both useful in China, 'but,' he said, 'do not cut off the queue on any account.'"

SOULANGES CANAL WORK.

Work on the Soulanges Canal has been proceeding very slowly of late. Neither Archie Stewart nor George Goodwin of this city, who hold large contracts, are doing anything. There is said to be some difference of opinion between them and the department which will have to be looked into. It is said by some that the reason more substantial progress was not made was because the money was not forthcoming to pay the contractors for work that each was doing. O'Leary Bros. are the only contractors who have pushed their work to completion. They had a 2-mile section, and expect to have it ready by the close of the session.

Canadian Pacific Operators Have Gone Back

PENDING A SETTLEMENT.

The Trouble Will Likely be Fixed by Some Conciliatory Means.

It is Reported That the Whole Matter Has Been Sent to a Committee in Which the Officials and Employes Will Be Represented—It Was Not a Victory For Either Party, But the Public Mind Has Now Been Relieved.

The great C.P.R. strike is over. The announcement went forth from Montreal yesterday morning, and now the recalcitrant despatchers and operators are going back to work all over the system. Early in the day it was understood that the road refused to reinstate those men who had been guilty of lawlessness, but by a later edict everybody was taken back pending the investigation which is to follow.

The terms of the settlement arrived at between the corporation and their employes are kept secret to a great extent by both sides, but The World is in a position to state that neither of the forces for the past week at loggerheads has gained a real victory. The committee representing the men have ordered the strikers back to their posts on the strength of a promise made by the chiefs of the corporation that the operators' grievances will be looked into and submitted to arbitration.

In Toronto the men who went out were found last night at their posts.

The World last evening questioned Assistant Superintendent Williams of the O. & Q. division as to what was to be done with the great number of outside men imported into the road's service, since the strikers were coming back, and that official stated that they would have to quit now, but that an endeavor would be made to find places for them later on.

The settlement of the strike brings a feeling of relief to the general traveling public, and especially to the large shipping patrons of the C.P.R.:

THE OFFICIAL ORDER

Sent to C.P.R. Superintendents Calling the Strike Off.

Montreal, Oct. 7.—(Special.)—The C.P.R. telegraph operators' strike is at an end. At 4.30 this morning the following message was sent by Mr. Tait to General Superintendents Whyte at Winnipeg, Abbott at Vancouver, Spencer at North Bay, Leonard at Toronto and Timmerman at St. John: "The following proposition has been made to the company by employes representing the operators, and has been accepted by the company:

"'All employes now engaged in a strike on the C.P.R. may report at once to their respective superintendents, who will reinstate them, without prejudice, to the positions they occupied before the strike took place, except such as have been guilty of such grave misconduct as to cause general superintendents to refuse to accept them.

"'Men employed during the past week will be utilized as far as possible in filling extra positions created by the fall business. All other employes who refused to take the place of strikers, but were guilty of no other offences, who were dismissed, will be reinstated without prejudice.'"

"That is all there is in it. I have nothing to add to that statement," was Mr. Tait's answer to a further question.

WHAT CHIEF POWELL SAYS.

Grand Chief Powell was asked if he considered it as a victory for the men. "It is not a question of victory on either side," he replied. "It is simply a question of conciliation to be followed by arbitration. You will remember that three or four days ago I stated on behalf of our men that we were prepared to take advantage of any reasonable means of settlement, if possible, by arbitration. A means has been offered, and we are quite willing to see what is the outcome of it. We know that many things are said and done during the heat of battle which would not be thought of in moments of tranquility, and we think now that the officials of the company have pledged their word to see that our grievances are considered. They will be as good as their word, and this quite apart from the fact that the other organizations will be beside us to see that the agreement is carried out."

IS IT ARBITRATION?

Later—Nothing definite regarding terms of settlement between the company and operators can be obtained, as both sides refuse to give details. Your correspondent has reason to believe, however, that Mr. Tait has consented to submit employes' grievances to a committee chosen from the locomotive engineers, the strikers' committee and the company's officers, and that they also agree to recognize the order to which the strikers belonged.

A HITCH AT WINNIPEG.

For a Time it Looked as if There Would Be a General Strike.

Winnipeg, Man., Oct. 7.—(Special.)—Early this morning there was a feeling of great relief, particularly among the wheat trade, when the report spread that the telegraphers' strike had been settled and the men were to return to work. This feeling, however, gave way to further anxiety when it became known another hitch had occurred to prevent a settlement. The superintendent of the western division refused to reinstate a number of the strikers who were charged with acts of lawlessness and the result was that none of the men would report for duty. This hitch seemed confined to the western division of the road. Urgent messages began passing between the strike leaders at Winnipeg and the officials at Montreal, and the startling report spread there would be a general strike in all departments if the men were not at once reinstated. However, late this afternoon the company announced that pending an investigation all the men would be reinstated to-morrow morning, every office and station on the trans-continental line will be manned and the strike will pass into history happily without any serious loss or injury.

Satisfaction at Ottawa.

Ottawa, Oct. 7.—(Special.)—General satisfaction is expressed here at the termination of the strike of C.P.R. telegraphers. Some Senators and members of Parliament have been staying here until such time as news came that everything was all right along the line.

Gilonna's Orchestra played during the wedding supper, after which the healths of bride and bridegroom were proposed in felicitous terms. Mr. and Mrs. Aikins left by the evening train for New York. On their return they will reside in Parliament-street.

MATTERS IN HAMILTON.

Wentworth Historical Society Have Trouble Over Selecting a Museum Site—Waterworks Affairs.

Hamilton, Oct. 7. — (Special.) — A meeting of the Wentworth Historical Society was held this evening to ascertain the views of the members as to the location of a site for a historical museum. President Geo. H. Mills tendered his resignation, owing to ill-health, but it was not accepted. He He was of the opinion that the museum should be located in some historic grounds, and suggested Harvey Park, near Burlington Heights. The majority of the men present concurred in his suggestion, but the ladies did not, and there was consequently a heated discussion. The Ladies' Committee appointed to look up a site recommended the old Postoffice, but nearly all the men were opposed to this. After a long discussion the following committee was appointed to further look for a suitable site and report. Chas. Lemon, J. W. Jones, R. T. Lancefield, W. H. Davis, Mrs. Calden, Mrs. G. S Papps, Mrs J S Hendrie, and Mrs J. R. Holden.

FIRE AND WATER COMMITTE.

The Fire and Water Committe this afternoon visited the pumping house and reservoir, and decided to make the necessary repairs. The committee met to-night, and decided to recommend the placing of a main from Main-street to Poplin-avenue at a cost of $1300, the present main affording only an inadequate supply. J. G. Coke secured the contract for the rolls at $40, and James Dunlop was the successful tenderer for feed, his price being: Hay, $12 a ton; straw, $8 a ton; bran, $12 a ton; oats, 25c a bushel; carrots, 15c a bushel; oil cake, $1 a hundredweight. It was decided to print the rules and regulations of the Fire Department.

An Erroneous Despatch From New York

A United Press despatch from New York was published here yesterday to the effect that one of the judges of the Supreme Court of New York had given a decision providing for the final distribution of the reserve fund of $120,000 of the "Mutual Reserve Life Association." This item was a surprise to the policy-holders of this company in Canada, and to insurance men in general. Mr. McMurtry, manager for the Mutual Reserve for Ontario, wired New York about it, and received the following message from Vice-President J. D. Wells:

"Error in Associated Press despatch; should read: 'Mutual Benefit Life Association,' which has been in the receiver's hands for 18 months."

It was not the 'Mutual Reserve Fund Life Association' that was concerned at all, but the "Mutual Benefit Life Association," an entirely different institution.

Fresh From the Junction

Toronto Junction, Oct. 7.—(Special.)—The special meeting called by Mayor Clendenan, at the request of ratepayers, to-night, received a setback when the caretaker of Campbell's all, acting under instructions from his employes, kept the crowd out. Why this step was taken is not known, but the meeting was held in the Council Chamber and a number of ratepayers spoke in favor of the retention of Constable Graham on the police force, and presented a petition, signed by three-quarters of the voters of the town, asking for Graham's reappointment. No word was spoken against the constable with such an astonishing popularity and the Mayor promised to submit the petition to the next meeting of the council.

A horse belonging to Mr. Dwyer, the Lambton butcher, ran away to-night on Dundas-street and, as well as smashing the rig, threw out Mr. Dwyer and a lad that was with him. ROSEBERY GETS OUT OF IT.

Resigns the Leadership of the Liberal Party.

HE WANTS A FREE TONGUE.

Cannot Agree With Mr. Gladstone on The Eastern Question.

The Ex-Premier Says When He Speaks This Week it Will Not Be as the Leader of a Party But as a Free Man—Complains Against No One and Thanks His Friends For Loyal Support in the Past.

London, Oct. 7.—Lord Rosebery has written a letter to Thomas Edward Ellis, member of Parliament for Merionethshire, and First Whip of the Liberals, resigning the leadership of the party. The reason given for His Lordship's resignation is that he disagrees with Mr. Gladstone and other leading Liberals regarding the proper policy to be adopted on the Eastern question. Lord Rosebery's letter is dated at his seat, Dalmeny Park, Linlithgowshire, Oct. 6. In the communication His Lordship says: "The recent course of events makes it necessary to clear the air. I found myself in apparent difference with a considerable mass of the Liberal party on the Eastern question, and in some conflict with the opinion of Mr. Gladstone, who must necessarily always exercise matchless authority with the party while scarcely from any quarter do I receive explicit support. This situation, except as regards Mr. Gladstone, is not altogether new, but in saying this I complain of no one and regret only that I should appear to divide the energies and try the faith of the Liberals. This question, however, is above and beyond personal considerations, and when I speak, which I do this week, I must speak my mind without reference to oratory. Under these circumstances it is best for the party and for myself that I speak not as a leader, but as a free man. Consequently, I beg to notify you that the leadership of the party, so far as I am concerned, is vacant, and that I resume my liberty of action. I can only feel the deepest gratitude and regret at parting from you and those who, like you, have given me such loyal co-operation under circumstances so difficult."

MR. LANGELIER WILL QUIT

And Go on the Supreme Court Bench, Says Dame Rumor—Sir Oliver and Tarte Said to Be Unfriendly.

Montreal, Oct. 7.—(Special.)—There can now be no doubt as to the correctness of the report sent out a week ago to the effect that Mr. F. Langelier, M. P. for Quebec Centre, had sent his resignation to the Premier as a protest against Hon. Mr. Dobell's distribution of patronage. This appears to have had the desired effect, as a close friend of Hon. Mr. Laurier informed The World to-day that before two weeks Mr. Langelier would be a judge of the Supreme Court of Canada, in place of Hon. Judge Taschereau, who is to be superannuated.

NOT ALL HARMONY.

Dame Rumor is persistent in declaring that Sir Oliver Mowat and Hon. Mr. Tarte are not pulling together as Ministerial brothers should. Mr. Tarte is, however, determined to strengthen himself as much as possible in this district, and with this end in view the Minister of Public Works has completed a deal whereby La Patrie newspaper passes under his control for $30,000, yet rumor does not state what firm of contractors or party men have put up the money to ensure Mr. Tarte a powerful personal organ. The one part of the deal which is displeasing to the French Liberals is the placing of Mr. Oscar McDonnell of Ottawa as editor of the paper in question. The party here would like to see a more pronounced Liberal in charge of a party newspaper.

COLD WEATHER COMING

And Furs are in Order—Special Lines at Bincens' This Week.

When the wind blows cold, as it did yesterday, and the probabilities say frost, then the ladies begin to hunt for their furs, and to think of making fall purchases in that line. Dineens, at King and Yonge-streets, is where the knowing ones go to buy their furs. To-day and for the rest of the week special prices will prevail at the big store. Bargains are to be had in ruffs, scarfs, collars, collarettes, capernines, gauntlets and all other lines of fine furs.

These are a few of the good things for this week: Genuine sable ruffs, with five tails, extra large, reg. price $8, for $6. Sable ruffs, large spring head, best quality, regular $7, for $5. VISIT TO THE JULIET.

The World's Commissioner Sees the Mine.

A MUCH TALKED-OF CLAIM

Prospect Shaft Makes a Good Showing at a Depth of Six Feet.

An Excellent Location Within Four Miles of the Trail Smelter—What the Ore is Like—What the Ex-Superintendent of the Famous Le Roi Says About the Proposition—The Strike in Mugwump and its Results.

Rossland, B.C., Oct. 7.—(Special to The World via Spokane, Wash.)—With Mr. T. R. Morrow, manager of the Juliet, yesterday I visited that much-talked-of claim. The Juliet is situated half a mile from Sayward, an ore station on the Nelson & Fort Shephard Railway, four miles from the Trail smelter, and on the Columbia & Western Railway. The property of the company consists of a full claim of 52 acres, located on the steep western side of Red Mountain, so called from its resemblance to the mountain on which the richest mines of the district are located. On the claim there are two well-defined ledges, which are marked by heavy iron capping similar in every respect to that of Rossland's big mines. On the south ledge a prospect shaft is being sunk, and at a depth of six feet the showing is very good. The rock, a syenitic diorite with a species of blend, is heavily mineralized, and seems to indicate that the mineral vein is of considerable value. There is a continuous seam of decomposed quartz from one to two inches wide, which carries considerable gold. An assay made to-day gives $28 in gold to the ton, while assays of the diorite from the bottom of the shaft give $8 to the ton, which must be regarded as extremely favorable for the slight depth gained. The shaft is to be sunk until the dip or inclination of the vein is established, when a tunnel will be driven into the side of the mountain following the vein as depth will be gained rapidly. In this work a moderate expenditure should result in the disclosure of pay ore, for, unless the Juliet is to be an exception to the rule of the camp, the ledge on which work is now being carried on will be found to contain ore chutes of great value.

There is a wagon road to the smelter, and ore can be shipped by railroad or boat to the smelter at less cost than that from mines in the immediate vicinity of Rossland. The showing of the property is such as to justify vigorous development work, and the opinion of Mr. Monyahan, ex-Supt. of the Leroi, who examined the property, is that the Juliet is a better proposition than a great many properties for which more is claimed. The miners' quarters have been removed to the top of the mountain where the present shaft is being sunk, and work will be carried on all winter.

Mugwump is now 20 cents, and in demand. The Mining Review in its market report to-day says: "The strike of ore in the Mugwump has improved the market for this stock, and when the public realizes the bonafides of the discovery a substantial rise is certain."

The Review has persistently recommended this stock. A representative of The Review visited the property on Saturday and found that the whole face of the cross cut was in ore which had been broken through about 18 inches from the foot wall.
