Chicago Gossip.

Marshall, Spader & Co. wired J. G. Beaty at the close:

Wheat ruled easy at the start on account of the rains thru the southwest. The pit crowd were mostly sellers at first, but covered again at higher prices. Northwest were free buyers on the break. Wheat ranged within narrow limits. The stronger tone of oats helped the wheat market. The market now shows a fair undertone and traders are pretty well evened up over the holidays. We believe wheat is a purchase on any break from the present level.

Ennis & Stoppani wired to J. L. Mitchell:

Wheat—The chief influence in wheat was the rains in the western states, in which predictions are for further precipitation to-night and to-morrow, and, altho the volume of business was not large, the average price was lower and the tone distinctly heavy. Traders, however, were not inclined to enthuse on either side, in view of the coming holiday. Some scattered covering by shorts was in evidence, which caused considerable firmness, but, generally speaking, operators took little interest in the day's proceedings. The general news of the day was bearish, and outside of the possibility of damage to the growing crop, there does not seem to be a sustaining factor to the market. We look for lower prices.

Corn and oats were fairly active, with a firm undertone. Shorts were rather nervous, especially in oats, and there was some scattered covering, which moved prices considerably higher, but did not attract a large volume of business. The situation in this cereal contains many possibilities on the long side, and we would not be surprised to see excitement when the larger shorts decide to cover.

Melady & Co. had the following at the close of the market:

Wheat — The market was featureless and fluctuations narrow. Scattered rains have fallen in Kansas, and the southwestern drought appears to be broken. Winter wheat has begun to joint in Southern Kansas, making damage by late frosts possible. Reports agree that the area infested with green bugs is spreading, but it is an open question whether they will cause damage. The market acts very stubborn at present prices, and any good buying would advance prices, but so far the buying power is not apparent. We look for a scalping market until next week, as to-morrow is a holiday.

Corn—The market was featureless and steady. Receipts light and contract corn is scarce. A good deal of corn will be shipped out when navigation opens, and we believe corn will sell higher.

Oats—Market strong and suggests acute congestion. Local stocks are only 911,000 bushels and receipts small. The bull leader in May oats is here again, and we believe the market will sell considerably higher.

60 LOADS AT CITY YARDS TRADE DRAGS, PRICES EASY

Calves, Sheep and Lambs Unchanged—Hogs $6.90 a Cwt. —Milch Cows $10 Off.

Receipts of live stock at the city market, as reported by the railways, since last Tuesday, were 60 car loads, composed of 796 cattle, 1401 hogs, 625 sheep and lambs, with about 100 veal calves.

The quality of fat cattle was fair.

Trade was dull and draggy, with prices easier generally, as will be seen by sales quoted. Some dealers who held cattle over from Tuesday's market sold them for less money than was then offered. Milch cows and export bulls, as well as common fat cows, were away off in prices.

Exporters.

No loads of export cattle were offered and none apparently wanted. Export bulls were a drug on the market, selling from $3.00 to $4 per cwt.

Butchers.

The demand for butchers' was not nearly as strong. Choice picked lots sold at $4.75 to $5 per cwt.; loads of good, $4.60 to $4.85; fair to good cows at $4 to $4.35; fair cows, $3.50 to $3.90; common cows, $2.75 to $3.35; canners, $1.25 to $1.50.

Feeders and Stockers.

Harry Murby reports few feeders and stockers on the market, altho there was a better demand than for some time, as there were several dealers, as well as farmers, enquiring for them. Mr. Murby bought two loads of stockers and feeders as follows: Stockers, 700 to 900 lbs., $3.50 to $4 per cwt.; feeders, 1000 to 1100 lbs. each, at $4.25 to $4.60 per cwt. Bought and shipped one load butchers' to the north.

Milch Cows.

Trade in milkers and springers was dull, owing to the quality generally not being good, but more especially on account of there being no Montreal dealers on the market. Prices ranged from $30 to $55 each.

Veal Calves.

Few good calves were on sale, the bulk selling from $3.50 to $6.50 per cwt., with a few at $7 to $7.25 per cwt.

Sheep and Lambs.

Export ewes sold at $5 to $5.50 per cwt.; bucks, $4 to $4.50 per cwt.; yearling lambs, $6 to $7.75 per cwt.; spring lambs $5 to $10 each.

Hogs.

Receipts were not large. Mr. Harris quoted prices unchanged at $6.90 for selects and $6.65 for lights and fats.

Important Changes at Muskoka Wharf.

Tourists for Muskoka Lake points the coming summer will find a great many changes at Muskoka Wharf, which should greatly facilitate the handling of passengers and baggage to and from the boats. An additional 100 feet has been added to the end of the wharf, so that the long trains of vestibule coaches and parlor cars now run by the Grand Trunk System can be placed opposite the boats and very convenient for passengers. Twenty feet has been added to width of wharf on the side where the boats tie up, giving plenty of space between boats and train, so that the handling of baggage to and from trains will in no way interfere with passengers passing along the wharf, and, at the same time, boats will be enabled to run much nearer the ticket office. Another track, running the full length of the wharf, has been provided.

A Voice From The Stomach

A Bloodless Fight Between a Tablet and a Habit—The Tablet Wins.

At the age of 22, Clarence had good digestion. He had gastric juice that could dissolve doughnuts and turn apple-skins into good blood corpuscles.

At the age of 24 he began to be profuse about the waist and lean backwards. He also began to cultivate several chins. In his new-found pride he began to think it his duty to gorge himself on everything, the good and the bad, for appetite feeds on appetite—and every good thing is abused.

His picture showed that he took on weight after he put his collar on.

At the age of 26 Clarence married and went to boarding. On top of all this, he attended oyster suppers and wine dinners, which reduced the size of his collar from 16 1-2 to 15. With still abiding faith in the strength of his stomach he guiped his meals, and chewed them afterwards.

At the age of 28 Clarence began to hear an inward voice—a warning from the stomach. After each meal, he would feel bloated—and belching became a habit.

He began to be a light eater—and a heavy thinker. He tried to think out a cure, for now he would sit down at his meals absolutely disgusted at the thought or sight of anything to eat.

He would sit down at his meals without the trace of an appetite, just because it was time to eat.

He would often feel a gnawing, unsatisfied "still-hungry" feeling in his stomach, even after he was thru eating, whether his meal was well cooked or not.

And he suffered a good many other things with his stomach that he could not explain, but that made him grouchy, miserable, out-o'-sorts and generally sour on everybody and everything.

Finally he read an account, something like this, about the truly wonderful results obtained from Stuart's Dyspepsia Tablets in all cases of stomach trouble, dyspepsia, and so on. He bought a 50c box at the drug store, and took the whole box. When he started, he had little faith—and less appetite. When he finished he had absolute faith—and more appetite, and more good cheer. Things began to taste different and better to him.

Now he has no more dyspepsia, no more indigestion, no more loss of appetite, brash, irritation, burning sensation, heartburn, nausea, eructations, bad memory, or loss of vim and vigor.

Remember, one ingredient of Stuart's Dyspepsia Tablets will digest for you 3000 grains of food, just as it did for Clarence.

This relieves your stomach of the work of digesting until your stomach can get strong and healthy again. Your stomach has been overworked and abused. It's fagged out. It needs a rest.

Let Stuart's Dyspepsia Tablets do the work of your stomach. You will be surprised how fine you'll feel after eating, and how lusciously good everything will taste to you.

Feed the call of the stomach now! There's a world of good cheer in one box of Stuart's Dyspepsia Tablets—at any drug store, 50c.
