STEEL STOCKS ARE HEAVY ON WALL ST.

Higher Crude Rubber Prices Cause Stiffening of Tire Issues.

Associated Press Despatch.

New York, May 11.—(Wall Street, 3.30 p.m.)—Presence of a trapped short interest in American Sumatra Tobacco company, preefrred, was apparent when the stock was run up 21 points to 69 in the afternoon as against a recent low of 28 recorded on announcement of receivership proceedings. The terrific pace of general trading with which the session started was not maintained.

Associated Press Despatch.

New York, May 11.—Steel shares were heavy on selling inspired by the decrease of more than 400,000 tons in the unfilled orders of the United States Steel Corporation, which were made public at the close on Saturday. Equipments failed to respond to the recent placing or some large railroad orders, including one for 6,500 freight cars by the St. Paul Railroad. Reactionary tendencies also crept into some of the oils as a result of the differences developing among eastern railroad executives over consolidation plans, although shares of the southern carriers improved in reflection of the growing prosperity of their territories.

Extensive switching from the higher priced motors to the low-priced shares in which pools were active probably accounted for the weakness of Mack Truck, which sold down over three points before noon.

Stiffening of crude rubber prices accounted for further accumulation of tire stocks, Kelly-Springfield and United States Rubber Company mounting to new high levels for the year.

Call money renewed at 3½ per cent.

Market Sidelights

GOOD TRADE SEEN.

"The British resumption of international specie payment is extremely favorable for business," says the Brookmire Economic Service in a recent bulletin. "It will have a marked beneficial influence on American-Canadian business, and will promote general international trade both export and import."

The Hindenburg election on the other hand, can hardly be construed as favorable, according to this authority, which sees in it a victory for those forces least inclined to support the Dawes plan wholeheartedly. These forces are known to prefer a monarchy to the republican form of government, and the generaal effect has been to cause uncertainty on the long-time features of European construction. This, unquestionably, will act as a check on Europe as a market for American goods.

Rolled oats—Bag, 90 lbs., $3.45.

Bran—Per ton, $26.25 to $27.25.
