Extension of City Sewerage

Hundred Thousand Dollars to Be Raised to Complete System.

Aldermanic Board Select Dr. Robertson as the Civic Health Officer.

The postponed meeting of the city council as held last evening owing to Monday being a legal holiday, and there being but Alderman Cameron on hand Tuesday evening. The usual routine of the week's municipal business was handled during the sitting, which reached adjournment about 10 p. m. The by-law to expropriate additional land for the James Bay causeway was given its third reading and passed.

Taking up the work of the evening, a letter was read from Major Maude stating that the civic address had been laid before the governor-general and had been approved of. Filed.

Messrs. Pemberton & Son, wrote that they were willing as agents of the property on the corner of Johnson and Douglas streets to have the buildings raised and all repairs necessary to be done carried out at the expense of the owners. This went to the building inspector for a report.

F. Elworthy asked for $250, being the corporation's share of the gold purchase guarantee fund. The finance committee were given power to act.

James Townsley again asked attention to the existence of a nuisance complained of some time ago. The sanitary officer will be asked to give the matter immediate despatch.

James Leigh & Son requested that an overdue account be given consideration.

Ald. Cameron in explanation, said that the finance committee had asked the council for instructions in the matter. It was for lumber purchased before the cut in price. On motion the finance committee were instructed to pay the account.

Walter Noble wanted a box drain put in opposite his residence so as to abate a nuisance at present existing on Oswego street. The engineer will make a report on the subject.

Rev. W. H. Barraclough, secretary of a meeting held at the Metropolitan church, entered a protest against the sale of liquors at the Agricultural grounds during the forthcoming show. A similar letter from the Royal Templars of Temperance was also read.

Ald. Beckwith moved that the letters be received, and the committee of the exhibition be informed that the council emphatically objected to the granting of such a licence. The sale of liquor on such occasions was not at all necessary, and in large cities the practice had been done away with. Besides this it was unfair to the present dealers.

Ald. Brydon seconded the motion, as a licence to sell liquors was no necessary adjunct to a first class exhibition.

Ald. Yates advised caution in doing anything in the matter. The council had stated distinctly that they would not pay any deficit in case such occurred and it would be wrong for the council to interfere with the financial arrangements of the exhibition committeee. The sale of liquors would mean at least $1,000 to the finances of the committee.

Ald. Beckwith pointed out that the loss of the $1,000 would be largely made up by those who refused to subscribe in case liquors were sold.

Ald. Yates, "Then let them guarantee the $1,000 and the matter will be settled."

The motion was defeated.

J. F. Sprinkling laid before the council the facts of the accident which occurred to him last July while driving a hose cart to a fire. He could prove that the cart was not in proper order when taken out, and asks that the council recoup him for loss of time, etc., caused by the accident.

Ald. Stewart said that the accident was simply the result of furious driving, and he would like an investigation into the charge that the apparatus was defective. The fire wardens will be asked to make a report in this connection.

F. S. Tolmie applied for the position of veterinary surgeon and milk inspector. Laid on the table.

W. W. Northcott, the building inspector reported in reference to the request of F. M. Rattenbury to erect veneer brick building near the Union club, that there was nothing in the by-law with respect to such building, although it did not conform in other respects to the requirements of the bylaw. A copy of the report will be sent to Mr. Rattenbury.

The superintendent of the public market reported collections of $128.50 during the past month. Filed.

The health board reported as follows, which was received and adopted.

To His Worship the Mayor and Board of Aldermen:

Gentlemen,—I have the honor to acquaint your honorable body that at a meeting of the local Board of Health, held yesterday, the following resolutions were passed, and are hereby submitted for your favorable consideration and adoption, viz:

1. Resolved that in the opinion of the Board of Health it would be advisable to separate the duties of milk inspector from those of plumbing and sanitary inspector, and further that this Board would recommend to the Council's favorable consideration an increase of salary to $90 per month for the remainder of the year to the plumbing and santary inspector.

2. Resolved that this Board recommend to the Council the appointment of a milk inspector to fill the vacancy caused by the rearrangement of the position of sanitary and plumbing inspector, as indicated in the foregoing resolution.

3. Resolved that this Board expresses its appreciation of the services rendered to the corporation by Dr. R. L. Fraser as medical health officer during the time he has filled that position, and its regret that he has seen fit to tender his resignation.

W. J. DOWLER.
Sec'y Local Board of Health.

The following petition was then read:

To His Worship the Mayor and Board of Aldermen of the City of Victoria:

Gentlemen,—The petition of the undersigned assessed owners of real property within the Municipality of the city of Victoria, humbly sheweth:

1. That certain extensive areas within the city containing large numbers of buildings (residences, etc.,) have up to the present time remained unsewered.

2. That the necessity for providing some means of dealing with the sewerage of these areas has become imperative.

3. That the Septic Tank system has proved itself to be highly successful and effective in other cities.

4. That such system should be applied to all that area of the city lying to the east of Cook street, to that portion of James Bay district west of Menzies street, to the Rock Bay district and Victoria West.

5. That in adopting this system it is necessary that certain main sewers be laid down.

Wherefore your petitioners humbly pray that your honorable body will introduce and pass a by-law to raise by way of loan upon the credit of the municipality a sum not exceeding $100,000, to be expended in providing main sewers and the Septic Tank system for the treatment and disposal of sewerage in respect of such areas as those above mentioned.

And your petitioners, as in duty bound, will ever pray: F. B. Pemberton and others.

The city assessor reported in this connection that the value of the real estate represented by the petitioners was $2,012,440. The report was ordered received and solicitor requested to prepare a by-law on the line indicated.

Wm. Denny and twenty-one others called attention to the state of Jessie street, Victoria West, which during nine years had not had anything done to it. This went to the city engineer for report.

It was resolved on motion of Ald. Beckwith that provided the property owners affected pay their share towards the cost of permanent sidewalks east of Linden avenue on Fort street that the work be proceeded with forthwith.

To His Worship the Mayor and Board of Aldermen of the City of Victoria:

Gentlemen:—Your special committee appointed to interview Messrs. Pendray & Co., with reference to their claims for interference with their rights as reparian owners on James Bay, beg to report as follows: Your committee met Messrs. Pendray and Munro, representing the B. C. Paint Works, and George Weller, representing Weller Brothers, and had several interviews with them, and asked them to state what they regarded as the equivalent in value for such interference, and they have submitted the following proposition: Messrs. Pendray & Co. will take that strip of land fronting on a road proposed to be constructed along it, plus the sum of $8,000 cash. Messrs. Weller Brothers will take a piece of land, and do not require a payment of any cash.

In view of the fact that the depth of lots 211 and 212, from Humbolt street, is mentioned in the title deeds to the property, your committee is of opinion that it would be advisable in the interests of the city, ta have the matter referred to the city solicitor and barrister, for their opinion as to what rights (if any) Messrs. Pendray & Co., and Weller Bros., have in the matter, and further, your committee would recommend that the work of filling in the said flats be postponed until such rights are determined and (if they exist) settled for.

All of which is respectfully submitted.

The committee on finance handed in accounts amounting to $8,024.20, which will be dealt with in due course as per usual. A second report from the same committee advised the appropriation of $10,000 under the James Bay Improvement Loan by-law. With respect to the complaint of merchants re tax on vehicles, the committee reported that they were in favor of the repeal of the clause under which tax was collected.

Ald. Cameron said the tax was a most unjust one, and was not worth the trouble of collecting it. The committee were in favor of stopping the whole thing.

Ald. Yates could not see why those whose carts used up the streets should not pay for it.

Ald. Beckwith said that there was not any way to carry out the by-law unless everybody who owned a vehicle were made to pay the tax. It made no difference whether a man was a butcher, a hackman, or a drayman. As to cutting up the streets, it would be well enough to tax coal and wood wagons and heavy drays generally. He did not like a by-law which gave any official the power to say who should and who should not be taxed. The report was finally referred to the city solicitor.

The appointment of a successor to Dr. Fraser as health officer was then proceeded with. After five ballots being taken, Dr. Robertson was declared the choice of the council.

The by-law to expropriate the lot at the northwest corner of James Bay bridge was read a second and third time and passed.

The council then adjourned.

THE ROYAL VISIT.

Canadian Programme Too Elaborate in View of Duchess' Delicate Health.

Ottawa, Ont., Sept. 4.—(Special.)—A cable from the Duke of Cornwall insists on the cutting down of the Canadian programme, which at present is toe elaborate and exacting, especially in view of the Duchess' health.

ALIEN LABOR LAW.

Rossland, B. C., Sept. 4.—The hearing of the charge against Albert Geiser of Baker City, Oregon, of having brought one Neil Stevenson from that point, under contract to work in the Le Roi mine here contrary to the Alien Labor law, was commenced at the police court this morning before Judge Boultbee. The only evidence submitted today was that of the complainant. Tomorrow the matter will be resumed and concluded.

When the Complexion Is Pale and Sallow.

The complexion tells the quality of the blood, and acts as a thermometer of the health. A pale, sallow skin and pallor of the eyelids, lips and gums bear unquestionable evidence that the blood is thin, watery and vitiated. Poor, weak blood fails to supply the nervous system with proper nourishment, and day by day the nervous system breaks down, and constitutional diseases, such as catarrh, consumption, pneumonia and heart troubles, find easy victims. There can be no cure, no permanent relief, until the blood is made pure, rich and life-sustaining.

The influence of Dr. Chase's Nerve Food in enriching the blood and re-vitalizing the nervous system is seen in the healthful glow which it gives to the complexion, and the new life and vigor which it instils into every motion of the body. By its potent help shattered nerves, palpitating heart, clouded brain, depression of mind and exhausted energies give place to steadiness of nerve, vigorous heart action, good spirits and good health. If you want color to return to the cheeks and strength to take the place of weakness, you must use the great food cure and tissue-builder.

Dr. Chase's Nerve Food

50 cents a box. Six boxes for $2.50. All dealers, or post paid from Edmanson, Bates & Co.

Agents wanted for Dr. Chase's Last and Complete Receipt Book.

The Scottish Evangelist

Rev. John McNeill Electrifies Large Congregation at St. Andrew's Church.

Eccentricity of Delivery Adds to Charm and Force of Eloquence.

A large congregation listened to the first address given by Rev. John McNeill, the famous Scottish evangelist, at St. Andrew's church last night. Mr. McNeill, who is 47 years of age, of medium height and strongly built, was simply dressed in clerical attire, but his appearance at once attracts attention, and directly he speaks the audience listens spellbound. Mr. McNeill began life in a very humble way, occupying a position on a railway in Scotland, but by pluck and perseverence, he worked his way up, and today he is recognized as a great evangelist.

He gave evidence of possessing great oratorical gifts while still a young man, and when engaged in work with the Young Men's Christian Association, during the time he held a position in an Edinburgh railway office, he soon made himself known as an orator of exceptional ability. Mr. McNeill entered college and quickly fitted himself for his great work. He was ordained a minister of the Free Church, and was called to one of the churches in Edinburgh. His oratorical powers drew immense audiences, and Mr. McNeill is pastor of the famous Regent Square church, London, England, and is one of the great intelligent and moral forces of the Metropolis of the World.

Mr. McNeill has a very powerful voice, and his words are uttered in a deliberate manner, which rivets the attention of the audience. His force lies not so much in what he says, or how he says it, but in the homely illustrations he uses to emphasize the word picture formed by him.

Last evening's meeting opened with an organ voluntary by Mr. J. G. Burnett. Rev. W. Leslie Clay then offered prayer and then after the singing of two hymns, Rev. John McNeill read several chapters from Elijah, expounding them as he read.

Mr. McNeill took as his text chapter 4, verse 35, of the Gospel of St. Mark, to the end, being the story of Christ stilling the tempest.

The one great lesson, written across the graphic story is this: "It is Christ's presence that is our salvation. Blow high, blow low, in sickness or death, it is Christ's presence that is our salvation." That night it was not the men's skill or oarsmanship which saved them, and they had considerable skill, being fishermen, but it was Christ's glorious presence with them that was their salvation. Other boats shared the danger. Christ was not with them bodily, but the boats shared in the salvation, because they were with Him. When the storm was over and the sea was like glass, and there was not enough wind to stir Peter's hair, they feared exceedingly, and shivered and shook. They went white to the lips and whispered, "What manner of man is this?" Not a soul said "Hallelujah! Praise the Lord!" but every one shivered and shook. They were all Presbyterians—and they don't say "Hallelujah!" They had a Psalm—the 89th—and they were bound to know it, for they were God-fearing men, but they seemed to have forgotten it. Why did they shiver and shake? It was the Godhead in Him that broke out too close for the comfort of the flesh.

If he might say it with perfect reverence and simplicity: "Jesus takes a deal of knowing." Did not all true friends take a little while to know? As Shakespeare says, "The friends you bind with hooks of steel." The friendships you formed in three weeks in the summer, ended as quickly. What the old Jew Psalmist said of the temple is true of Jesus, "Walk around Zion." You have been stuck at the same place for the last thirty-five years; move on, you are obstructing the ecclesiastical thoroughfare. You cannot see the temple from one corner. Go round. Jesus Christ is no end of a Saviour, no end of a friend. To get into a low, stagnant state of soul is a blasphemy. The disciples were beginning to think they knew Jesus, at any rate, they knew Him better than anyone else; they worked and walked with Him, and they might be tempted to think they knew Him. But that wild night, or rather morning, when He stood among them on the ship, they cowered away from Him as far as the narrow confines of the boat would allow.

The speaker took the words, "What manner of man is this?" Who is He? as the key to the further interpretation of the story. The disciples acted at the deliverance as they did not at the danger, because the Godhead blazed out so startlingly near. The speaker asked the question, "What manner of man is this?" concerning Christ, as he went on board the fishing boat at the close of a busy day, a day spent in preaching, teaching, and healing all kinds of diseases. It was easy to read between the lines. He was shabbily treated, having to go on board a fishing boat in face of a dirty night and a gathering storm, simply for rest, nobody offering him accommodation. Yet He said nothing. Will you try to be after the manner of this man, gentle, easy to put up with, easy to get on with; and if everything does not stand round and take you at your own valuation of yourself, say nothing? We are not bad people; good people slightly gone wrong, like the goods in a dry goods store after a fire; "slightly damaged."

That night the boat went out on the lake, the storm broke, a Tay bridge wind, and the boat did not go through the storm in a magic way or on an even keel, but she fared worse than the other boats because He was on board. The disciples said, "What manner of man is this?" Christ was asleep with his head on the steersman's pillow. "What manner of man is this?" Sound asleep when everybody else was not only wide awake, but wild awake and talking of perishing

The speaker believed that Jesus slept soundly because He was tired after the day's work. May God help us to be after the manner of Jesus during the day, and then we will be after His manner during the night. But perhaps He was speaking to some of the unemployed, in a West-End sense. To eat four meals a day and do nothing. God never made such an animal except for the purpose of slaughtering him. Jesus slept so soundly because He was tired, because He had a peaceful conscience and because he was at peace with his bitterest enemy. But the best reason was that when lying down he prayed to his Father, committing everything to Him. What a terrible thing unbelief is; it virtually blots out God, and leaves nothing but winds and waves. Why did the disciples not let Christ alone?

The speaker would have liked the story to be the same up to a certain point, but no miracle. It would have been more wonderful without the miracle. If the disciples had trusted Him, he would have brought them safely through to the morning. What spoiled the dispicles is what spoils us. Trying to do things ourselves. He knew that we must do our day's work, but it is not work; it is worry that kills, the fear, "I won't get through; I perish." This story is altogether too common in our newspapers. A prominent citizen on his way to the city is seen to fall suddenly. He is taken to the nearest chemist's, but life is extinct. The coroner's jury brings in a verdict of "Death from failure of the heart's action." Up above, the truer verdict might be, "He burst his heart, through trying to carry a burden which God never meant him to carry alone and unaided."

Jesus means peace; He is our peace; peace by the blood of His cross; peace by the power of His arm; peace by many a word which He has caused us to hope.

Mr. McNeil would break away from his discourse occasionally in order to hammer in a thought. He spoke of an idolator in India bringing chickens and rice for an offering. Pointing to a five cent piece among the money collected during the evening, he said, with great emphasis. "Some people may be thankful that they are brought up in a Christian land, for idolatory would break their little hearts; you could not get many chickens and much rice for five cents. You would not be a good idolator; it costs too much."

He spoke against formality in religion. He could tell the formalist by the expression of his eye. "He that cometh to God must believe that God is."

A number of Mr. McNeill's strongest points lost their force by reason of the discordant tones in which they were spoken. At times his voice was between a shriek and a shout, and at others it sank to a stage whisper. But Mr. McNeill greatly impressed his audience, and this evening the church will probably be crowded.

Rev. W. Leslie Clay invited all members of other churches who may be present this evening and tomorrow evening, to join St. Andrew's choir in the services.

BORNE TO THE GRAVE.

Victims of the Islander Disaster Carried To Their Last Resting Place.

The remains of two more victims of the Islander disaster were sorrowfully carried to the grave yesterday by mourning relatives and friends. All that is mortal of P. Burke, who was an oiler on the lost steamer, and A. E. Kendall, were laid at rest in Ross Bay cemetery. The funeral of the late P. Burke took place from the family residence on the corner of Rupert and Humboldt street, at 9:30 a.m., and at 10 a.m. from the R. C. cathedral, where Rev. Father Kennedy conducted the impressive burial services. The church was well filled. The deceased was a member of Court Northern Light, A. O. F., and the Firemen's Union, and both bodies attended the funeral. The local branch of the Y. M. I. was also present. The pallbearers were: Capt. Douglas Brown, H. Jones, F. Collins, J. C. Darling, L. C. Burns and M. Bantly. Rev. Father Althoff officiated at the grave.

The funeral of the late A. E. Kendall was also largely attended. It took place at 2:30 p.m. from the Victoria Undertaking Co's rooms, and later from St. James' church, James Bay, where the pastor, Rev. J. H. Sweet, conducted the funeral services. The church was well filled, for as well as a number of sympathizing friends and employees of the C. P. N. service, the members of Pride of the Island, and the other city lodge of the Sons of England turned out in a body. Those who acted as pall-bearers were: A. J. Cooksley, C. Gilman, H. H. Hobbis, E. Dickinson, R. Coburn and N. Snethurst. The deceased, who came to Victoria eight years ago as valet to Admiral Stephens on H. M. S. Royal Arthur, leaves a widow and child to mourn his loss.

There were many flowers sent as emblems of sympathy. Among the floral emblems and flowers which covered the coffin of the late P. Burke were those from the following: Capt. and Mrs. Douglas Brown, wreath; Capt. and Mrs. LeBlanc, wreath; Mr. and Mrs. F. C. Smith, wreath; Mr. and Mrs. Gray, cross; Mr. and Mrs. Golding, anchor; Mr. and Mrs. Brooks, wreath; Mr. and Mrs. Collins, cross; Mr. and Mrs. Hodge, wreath; Mr. and Mrs. Williams, cross; Court Northern Light, A. O. F. (of which the deceased was a member), wreath; Firemen's Union, anchor and wreath; Mr. and Mrs. Clegg, anchor; Miss Tarpey, cross; Mr. and Mrs. Geusnap, cross; Mr. and Mrs. L. G. Burns, wreath; Mrs. G. Leiser, crescent. Among others who sent floral offerings were: Mr. and Mrs. G. O'Leary; Mrs. Conlin and family, Mrs. Connell, Mrs. Getchmann, Mr. and Mrs. Rourke, Miss Gilligan, Mrs. Graney, Mrs. McIllwain, Mrs. Winters, Mrs. Turnan and Mrs. Aberghie.

SHAKESPEARE-RAYMOND.

Centennial Methodist Church the Scene of Pretty Wedding Last Night.

The Centennial Methodist church, Gorge road, was the scene of a pretty wedding last evening, when Rev. Mr. Barraclough solemnized the marriage of Mr. W. B. Shakespeare, second son of Postmaster Shakespeare, and Miss Winnifred G. Raymond, daughter of Mr. John Raymond, of Belleville street. The church had been appropriately decorated by the young ladies of the congregation. The altar platform was banked with ferns and palms on a groundwork of white. In front of the altar was a bower constructed of lattice and ivy, from the centre of which hung a floral bell of white and pink chrysanthemums. The aisles were bordered by bowers of white and ivy twined pedestals, white silk streamers from chandelier to tower, the whole giving a pretty effect.

The bride wore a beautiful white satin dress, trimmed with accordeon pleated chiffon and real lace, and her neck was chiffon, and on her neck was a neck lace and pendant of pearls, the gift of the groom. The groom was supported by his brother, Percy Shakespeare, and Messrs. W. Luney and R. Goodacre. The three sisters of the bride acted as bridesmaids, and were prettily costumed in white organdie and black picture hats. As soon as the ceremony was completed the wedding party proceeded to the residence of the bride's father on Belleville street, where a most sumptuous wedding supper was partaken of.

Between 9 and 11 o'clock a reception was held, during which a large concourse of friends congratulated the newly married couple. The bride was the recipient of a large number of useful and costly presents. Mr. and Mrs. Shakespeare left this morning by the Charmer for Vancouver and other Coast cities, and on their return will take up their residence on South Turner street.

GOOD OPINIONS FROM EVERYWHERE

South American Nervine cures that hackneyed speech, "A trial will convince you." Carries with it no deception when applied to this greatest of Nerve treatment.

An influential gentlemen recently wrote:—"I join with the thousands who have been benefited by South American Nervine in their good opinions of it. It was recommended to me by one who had been cured by it. I tried it and am cured, and I heartily pass the good word along—it's a wonder-worker to shattered nerves, and an excellent tonic.

Sold by Jackson & Co., and Hall & Co.

Take Time by the Forelock

Last year's experience would teach t he wise farmer the necessity of having on hand a sufficient supply of PARIS GREEN for the CUT WORM. Its timely use will put dollars into your pocket. 40 cents per pound at our store.

Beautiful Toast

A delicious piece of toast for breakfast will often stir a lagging appetite and keep it keen all day.

"Cornwall" Steel Ranges

have a special toasting door, and the fire responds to drafts so quickly that red-hot toasting coals can be had in a minute.

Ventilated oven bakes wholesome bread.

Highly polished, black-japanned body makes handsome contrast with white nickel dress. Made in four sizes and ten styles.

Both coal and wood linings always sent.

A "Cornwall" will last a lifetime, looking well and cooking well.

Free pamphlet from local agent or nearest house.
