LITTLE FAITH IN DAMAGE REPORTS

Buying of Wheat at Chicago on Rather Limited Scale.

CHICAGO, May 28.—Altho there was no end of crop damage reports today, especially from the southwest, the news was not backed up with buying orders. Accordingly the wheat market showed weakness. Latest trading was steady, however, at a decline of a shade to 5-8c net. Corn finished 1-8c to ¼c off to a like amount up, oats with a gain of 1-8c to ¼c to 1-8c, and provisions varying from 10c loss to 12½c advance.

Wheat bears argued that if the Kansas and Oklahoma crop had been injured as much as declared in the last three weeks, all central markets would be flooded with public buying orders. Interest was taken also in a well-known expert's opinion that rain within a week would make a marvelous difference as to yield in the dry sections of Kansas.

Rallies developed chiefly about the middle of the session, and were based to a considerable extent on a number of adverse field reports from Illinois points. In addition Baltimore sent word of ocean freight room taken for 35 boatloads. On the other hand, assertions that the harvest had already started in Texas led to much releasing by longs near the close. Export clearances of wheat and flour today equaled 823,000 bushels. Primary receipts of wheat were 349,000 bushels, a year ago 334,000 bushels.

Heavy arrivals and excellent weather carried corn lower except May, which regained a little of the radical setback of the previous session. There was a large speculative business.

Strength in oats grew out of expert opinions that recent damage could not be overcome, even with the best conditions.

Packers were credited with hoisting pork and ribs. Lard succumbed to pressure, due to liberal receipts of hogs.
