MAY ASK EXTRADITION OF FORMER PRESIDENT

MEXICO GOV'T SUSPICIOUS OF DE LA HUERTA

Officials Keep Watchful Eye on Southern California

Canadian Press

MEXICO CITY, Aug. 18—The Mexican government is still hard at work trying to run down and take into custody all such persons as it believes were connected with the alleged plan for a revolt last Sunday. Also it is keeping a careful eye upon the American border for possible revolutionary incursions into the Northern States of the republic. Meantime the religious controversy continues deadlocked.

There is considerable speculation as to whether Mexico will request the United States to extradite former Provisional President Adolfo De La Huerta, who is believed to be in California; General Enrique Estrada, who is under arrest at San Diego, and other revolutionists across the border. Thus far, however, the government has not made known its policy.

FOUND SAINT JOHN HAS IMPROVED MUCH

C., and reports that the conditions are improving on the Pacific coast.

Mr. Jones, who is a son of the late E. C. Jones, one time manager of the Bank of Montreal here, was prominent in football and other sports as a younger man. He has been warmly greeted during his brief stay in Saint John. Mr. Jones' sister, Miss Allison Jones, who will also be kindly remembered by many here, is at present living in the north of Italy.

FULL REGISTER AT N. B. NORMAL SCHOOL

Opens Sept. 1 With Maximum; Large Number of Applicants Refused

Special to The Times-Star

FREDERICTON, Aug. 18—The maximum registration of the Provincial Normal School, which is 800, exclusive of the French department, has been filled and a large number of applicants have been disappointed through being refused admission to the school.

The new year of the Normal School begins this year Sept. 1. The impression that the school does not open until after Labor Day is incorrect.

HEAVY APPLICATION

The application for admission to Normal School have been so numerous that no student with a poorer entrance qualification than class II has been admitted. This means that all class II students have class 11 qualifications.

This year is the second in which the maximum registration of 800 has been enforced. There is a possibility that the French department, instructed by Prof. T. LeJeune, may receive additional students when the school opens, as only three girls registered at the opening of the French course.

London Is Improved By New Huge Docks

LONDON, Aug. 18—(United Press)—London is trying to come into her own as a world port.

A contract for extensive developments at Tilbury—the Thames River port about 20 miles from the heart of the city—has been let by the Port of London Authority.

The works will include extensive constructions of new facilities for the largest ships afloat. Among these will be a new entrance lock 1,000 feet in length and a 750-foot dry dock, capable of being extended to 1,000 feet if the occasion arises.

Development in the London port will eventually divert much of Liverpool's and Southampton's heavy shipping to the city and eliminate the long overland hauls with expensive rail freight rates, it is said.
