Analysis of the Water of the Georgian Spring.

I have made a careful quantitative analysis of a quantity of this Water sent me by the Proprietor of the Spring, Captain Kains. It is a Saline Water, containing earthy Chlorids, with portions of Bromids and Iodids, thus resembling the Plantagenet Water, from which it differs chiefly in the presence of a portion of Sulphates, which are not often met with in Waters of this class in the Province. It has a specific gravity of 1008.78, and contains in one pound avoirdupois, the subjoined quantities of the following substances:—

	Grains.
Chlorid of Sodium	68.22000
Chlorid of Potassium	.72800
Chlorid of Calcium	.31002
Chlorid of Magnesium	3.45682
Bromid of Magnesium	.02016
Iodid of Magnesium	.01704
Sulphate of Lime	1.35044
Carbonate of Lime	2.08600
Carbonate of Magnesia	2.54016
Carbonate of Iron	Trace
Silica	.14350

☞ After the 20th day of September, the Boats will discontinue to call at Lewiston, and make Hamilton the Port of departure, at 7½ o'clock, on the mornings of Mondays, Wednesdays, and Fridays.

The establishment of this Line will enable the Merchants of Canada West to remain throughout the business day in Montreal, and to reach their homes almost as early as if they had gone by the Mail Line at noon, and connecting, as the Boats will do, with up and down Express Trains at Ogdensburgh, they will afford direct conveyances for Passengers and Freight between the Canadian Ports and the Eastern States.

It is deemed unnecessary to dwell upon the advantages of First Class Steamers passing direct from the head of Lake Ontario to Montreal, and vice versa, over those of Lines that involve a transhipment (on the downward trip) at an unseasonable hour in the morning.

In compliance with a generally expressed wish, on the part of the public, a separate charge will be made for meals.

☞ The Line will be commenced by the *HIGHLANDER* leaving Montreal on TUESDAY, the 26th instant; the *CHAMPION* on THURSDAY, 28th; and the *MAY FLOWER* will be out next month.

THRASHING MACHINES.

LETTERS PATENT.

TIME AND LABOR SAVED IS MONEY EARNED.

THE subscribers having secured to themselves the exclusive right of manufacturing and vending to others to use within the territory of Upper and Lower Canada,

SEVERANCE'S CELEBRATED IMPROVED HORSE POWER & THRASHING MACHINE,

one of the most valuable time and labor saving Machines ever devised by human ingenuity, respectfully inform the public, that they have just completed a new and extensive Factory on Wellington Street, extending from Prince to George Street, which gives them more than double the accommodations they had in the old shop, which will therefore, they trust, enable them to supply the whole farming community of the United Provinces with a machine that will thrash and clean more grain in a day, with less expense and with greater cleanliness, than any other known invention—only requiring two horses.

We beg leave to say to our friends and friends that we have made ample provision to furnish those in want of Thrashing Machines with an article superior even to those heretofore manufactured by us.

Our long experience in making, and the very liberal patronage we have enjoyed in the sale of our Machines, has, together with a constant determination to produce an article that will never fail to excel all others, caused us to spare no pains carefully all the improvements that could be made from time to time, until now we feel confident in saying, that for durability, ease of draught, and amount of work they can do, our Thrashing Machines are unequalled by any in use. And while the grain is thrashed clean, and none of it broken or wasted, it is at the same time, perfectly cleaned, fit for the Mill or any Market.

All orders addressed to us, or our Agent, WM. JOHNSON, will be promptly attended to.

Machines shipped to any port in Canada, and every one warranted to be as good as recommended.

Liberal terms of payment allowed.

E. P. PAIGE & CO.

Whereas, Letters Patent were obtained, bearing date March 5, 1849, on said Machine, the public are cautioned against making, using, or vending the same, as all infringements will be dealt with according to the law of the land.

All genuine Machines will be accompanied by a Deed signed by E. P. Paige, the owner of the right, giving the purchaser the right to use or transfer the same. Without such a Deed, no person will be safe in purchasing or using said Machines.

SAMUEL S. WOOD.

Rectory, Three Rivers, May 12, 1851. 364

* The Rev. James Tate, latterly Canon Residentiary of St. Paul's Cathedral, in addition to many other contributions to the cause of literature, was the author of Horatian Odes, of an Introduction to Greek Metres, and of a Continuous History of St. Paul, works all favorably known to men of letters.

Out of a small number of pupils, compared with that which annually issues from the great public schools of England, a large proportion distinguished and elevated themselves during their Academical Course, or in other walks of life. Not to mention the attainment of various other College honors by many of them, from twelve to fifteen obtained fellowships at the University; among whom were Dr. Brasse, author of a Greek Grammar, &c., &c., Dr. Peacock, Dean of Ely, Archdeacon Thorpe and Musgrave, and the Archbishop of York.
