(Special to Daily News.)

OTTAWA, Jan. 12.

The *Citizen's* Washington correspondent states on what is claimed to be reliable authority that the Senate of the United States intends throwing out the Reciprocity Treaty. He says: "It appears that Commissioner Brown has been endeavoring to secure certain changes before being submitted, and Grant's Cabinet consider the whole thing muddled. It is thought here that Brown has misinterpreted some of the clauses in order to save the Government of Canada by now securing the Treaty's downfall in the American Senate."

The *Citizen's* correspondent further states that the "Sliding Scale, which is unpopular in Canada, was proposed by Commissioner Brown, and that President Grant's Cabinet never asked for such an arrangement." He further says that the Canadian Government also desired changes in New York State Canals and Coasting Privileges; in fact that they have since the Treaty was published endeavoured to entirely remodel it, and that on this account the Senate will reject the document. Cary of Philadelphia is represented as saying that the support of certain papers during the negotiations was purchased, and it is alleged that the Canadian Government have known for some weeks that the Treaty was to be rejected.

But the sale will take place, wind and weather permitting. The sale will take place between two of the interested parties.

City Police Court.

The one prisoner in the dock this morning—James Gordon—looked sad. Whether it was for his offence, or because he was all alone, could not be ascertained. He was arrested drunk in Duke st, and was fined $4.

Yesterday afternoon the Magistrate announced his decision in the charge of assault against John McDonald, wife and son, made by Bernard Murray. The charge of assault was sustained, and he imposed a fine of $20 on McDonald. The wife and son of the prisoner were discharged. The fine was allowed to stand against the prisoner, as there was a desire on both sides to have the affair settled. McDonald and family have moved out of Bradley's house.

However quickly a patient may recover and approach towards robust health, by the use of Fellows' Hypophosphites he must abolish the habits of life which induced the disease; the effect of the greatest triumph in medicine can only be transitory, while man persists in the gratification of vicious or pernicious habits.

Portland Police Court

Two arrests were made last night for drunkenness, and both victims came from the Marsh Road, where Policemen Woods and Dunham acted as guardians. The names, as recorded, were James McDermott and James Robinson, each of whom must pay $4, or, in default, spend a few days with Mr. Rankine.

The Civil Court was in session, and had a few assessment cases and one contested case before it.

"44" DAT. FEB 17 1874. A NEW THING AND A GOOD THING

THE invention of the paper collar was of positive benefit to the world, furnishing as it did, a neat, clean, and most economical art cle of apparel. But it never did answer all the purposes for which it was designed, owing to the frail nature of the material. The problem has been to make a cloth collar as cheap as paper that would last longer, and yet could be made as very fresh and Original. The "44" collar, now upon the market, fills these requirements, being made entirely of cloth, three thicknesses being used; it so closely resembles the finest linen that it might be sold anywhere for linen; and, no matter how much it may be soiled, it can be cleaned and made as bright as ever by the application of a damp sponge or cloth. For sale wholesale, by
