Peculiar

In itself in many important particulars, Hood's Sarsaparilla is different from and superior to any other medicine.

Peculiar in combination, proportion and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in its medicinal merit, Hood's Sarsaparilla accomplishes cures hitherto unknown.

Peculiar in strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "100 doses one dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's Sarsaparilla.

Peculiar in its "good name at home"—there is more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers.

Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time. Do not be induced to take any other preparation. Be sure to get

CRICKET.

LAWYERS DEFEAT THE DOCTORS.

Yesterday afternoon local doctors and lawyers left business to take care of itself and visited the asylum where when the oppressive heat of the afternoon had diminished to some extent, they engaged in a friendly game of cricket. Each side was determined to return home with the honors that the medical men carried off last summer. Yesterday, however, the men of law succeeded in administering a dose of defeat to the men of pills, who swallowed it good-naturedly. The medicos expect their turn will come next, and being more adept at dosing, propose giving the lawyers a prescriptipn that will make them gripe. The vanquished attribute their defeat to an insufficiency of runs. Speaking seriously, the teams put up a good game, and the many spectators were delighted with it. For the medicine men Dr. Williams played admirably. In the first inning he made 83 runs (not out). He also carried his bat out in the second after scoring 22. Dr. Drake made 15 in the first, while Dr. Beemer piled up 26 and Dr. Moore 18 in the second. For the legal lights E. U. Sayers made 55 in the first and 26 in the second; Bayly 13 in the first, H. Cronyn 33, G. C. Gibbons 14 and Frank Love 16. Following is the full score:

A good game of cricket was played at Detroit on Thursday between the Chatham team and the Michigan Athletic Association. For the Canadians, S. S. Kolfage carried his bat out for 43 runs, and Mr. Atkinson made 13; Mr. Ireland got 11 and Mr. Horsted 13. J. Neville, J. O. Hibbard and F. C. Fleming did the best batting for Detroit, scoring 17, 18 and 21, respectively. Chatham won by 108 to 92.

ATHLETICS.

P. J. Dwyer has now the last of the $10,000 deposit of the Sullivan-Corbett stake money in his hands. Dwyer has been appointed the final stakeholder.

TURF TIPS.

N. Kezzer's Gaga won the Austrian Derby at Vienna; E. Blascovit's Primus II. was second, and Count R. Kinsky's Er third.

In the races at Walkerton on Thursday, the open run was won by Nimrod, the local trot by Grey Jessie, and the free-for-all by Kentucky Star.

DEATH OF A VALUABLE STALLION.

In the 2:50 race at Aylmer on Thursday, Gen. Rooker was in hard luck. With a heat to his credit, which gave him a mark of 2:31¼, and puts him in the thirty class, he was distanced in the last heat, having also taken second place in two previous heats. It was evident that the horse was ill, and although he was given special care he died at 9 o'clock. The excessive heat of the day, combined with the pace which had been set, was doubtless the cause of his death. Gen. Rooker was bred by Dr. Sinclair, of Tilsonburg, from Old Rooker, and was sold recently at a Montreal sale for a price said to approximate $1,500. He was owned by Alf. Brown, Homer, and his record Thursday would have made him a valuable animal in the stud to his owner.

FLYS.

The Detroit A. C. Ball Club will play at Tilsonburg on Dominion Day.

The National League have decided that hereafter no club can carry more than thirteen players, all over that number must be released—that is, their names sent to President Young, who will then apportion them out to the clubs in need of players.

New Haven has withdrawn from the Eastern League owing to the high salaries that the management have been paying and small attendance at the games. The organization of an eight-team league is proposed. In case this scheme goes through Erie, Pa., will be taken into the league.

DRAUGHTS.

Mr. Wyllie offers to meet any player in the world in a match of 100 games for a stake of £100 a side.

The "Herd Laddie" has started on a tour through the north of Scotland. Beginning with Stirlingshire and Perthshire, he will proceed by way of Dundee, Aberdeen and Inverness, as far north possibly as Orkney.

A draughts congress and tournament will be held in Chicago in connection with the World's Fair. Papers on the game are expected to be contributed by leading players, and it is proposed to give $3,000 away in prizes, the competitors being divided into three classes, viz., professional, semi-professional and amateur.

LACROSSE.

One of the chief attractions at the Walkerton celebration on Thursday was the lacrosse match in which Walkerton beat Kincardine by 4 goals to 1.

At Stratford on Thursday a game of lacrosse was played between the Thistles of Fergus and the Stratford Seniors, which resulted in a draw, each team having secured two goals.

THE WHEEL.

SHOCKING DEATH OF A CYCLIST.

SHEFFIELD, Eng., June 17.—A shocking accident occurred at Baslow, a village a few miles from Sheffield. A young man named Moorehouse was riding on a bicycle by the side of a wagonet, in which was his sweetheart, when one of his treadles came into contact with a kerbstone, and he was thrown into the road. The wheels of the wagonet passed over his face and he was killed instantly.

THE KENNEL.

The Hamilton Kennel Club has abandoned its show fixed for Sept. 6 to 9.

DEADLY DOSES OF DRINK.

Two Quarts of Whisky and a Pint of Gin Mrs. Rapp's Daily Ration.

NEW YORK, June 17.—Mrs. Catherine Rapp, 65 years old, was found dead on the floor of her room at 233 Broadway, Williamsburg. Her husband, who was a barber, died five years ago and left her some means. The bedroom she occupied was a part of the flat occupied by Mrs. Helen Von Hope.

Alarmed at the failure of Mrs. Rapp to appear yesterday morning, Mrs. Hope knocked vainly at her door, and then summoned a policeman, who opened the door with a duplicate key, and found Mrs. Rapp stretched dead beside her bed.

Mrs. Von Hope told Coroner Lindsay that Mrs. Rapp, since her husband's death, had often said she wanted to die and that she meant to drink herself to death. It was no unusual thing for her to drink one gallon of whisky and one quart of gin in two days. The coroner found $8,000 to the credit of the old lady in three New York banks and one in Brooklyn. Keys and receipts were found which showed that she had United States bonds to a large amount in the New York Safe Deposit Company's vaults. So far as known she had no relatives.

They Speak for Themselves.

PICTON, Feb. 17.—This is to certify that I have used Polson's NERVILINE for rheumatism, and have found it a valuable remedy for all internal pain, and would greatly recommend it to the public.—N. T. KINGSLEY.

LEEDS COUNTY, Jan. 9.—We are not in the habit of puffing patent medicines, but we cannot withhold our testimony as to the great value of Nerviline as a remedy for pain. We have pleasure in recommending it as a reverfailing remedy.—REV. H. ALLEN, BENJ. DILLON and many others.

F. A. Churchill states: There seems to be no end to the success of Nerviline. I send you a few testimonials, and can send you plenty more if of use to you.

THE CONGREGATIONALISTS.

Doings of the Women's Board of Missions.

OTTAWA, June 17.—At the annual meeting of the Congregational Women's Board of Missions the following officers were elected for the ensuing year: President, Mrs. Rev. D. MacCallum, Maxville; vice-president, Mrs. Rev. George Robertson, Toronto; corresponding secretary, Mrs. Nasmith, Toronto; treasurer, Mrs. C. T. Williams, Montreal; superintendent of the department for the diffusion of missionary literature for Ontario, Miss Hattie Clark, Toronto; Quebec, Miss Richardson, Montreal; department of organization, Ontario, Miss Rawlings, Forest; Quebec, Mrs. T. Moodie, Montreal; missionary correspondence, Miss Foggin, Toronto; auditors, Mrs. Porter and Miss Dougal, Montreal. Miss Wood, Ottawa, read a statement that showed that there are 58 societies divided over three Provinces, and each in a flourishing condition and embracing in all over 1,000 members. The financial statement showed a balance of $370 89. The amount collected during the past year was $1,747 73, making a total at command of $2,118 62. Of this $1,713 18 was distributed, leaving a balance of $405 44.

PILING IT ON.

An Outline of the Tax Levy That Is To Be Made in Quebec.

QUEBEC, June 17.—The tax resolutions brought down to-day provide for an annual tax on all manufacturers of $50 if capital employed is under $50,000; $100 on capital up to $100,000, and $150 if over that sum. Tobacco manufacturers pay an annual license based on the rental value of premises occupied—$300 rental pays $100 up to $400, $150 up to $600, and $250 up to $800, $400 and over $800 license is $500. Every shopkeeper, trader, person or firm carrying on business is to pay a yearly license of $100 in Montreal, $80 in Quebec, $50 in other towns and $30 in other places for wholesale, and $10 to $80 according to rental values if retail. Annual licenses are required from all dealers in liquor including dining cars and druggists, varying from $200 to $50. A peddler's license is $100. Billiard table license $30.

ALONG THE RAILWAY LINES.

Changes in the Central Ontario Staff—The C. P. R. Trying to Get Into New York City.

Important changes have been made in the official staff of the Central Ontario Railway. J. L. Biggar, of Belleville, has been appointed assistant general manager; J. H. Riddell, of Stratford, has been appointed superintendent. Geo. Collins, an old employe of the road, has been appointed assistant superintendent and secretary-treasurer.

There is a good deal of talk at Montreal over the statement that the Canadian Pacific Railway is endeavoring to get into New York city. It is stated that the railroad has the chief interest in the Hudson River and Terminal Company, organized three months ago. The chief officers of the C. P. R. are away, but brokers in Montreal think there is a good deal of truth in the story.

CANADIAN PRESBYTERIANS.

A Year's Contributions for Congregational and Missionary Purposes.

MONTREAL, June 17.—The report of the committee on statistics of the Presbyterian General Assembly for the year ending Dec. 31, 1891, after giving detailed figures for all the congregations in the Dominion, states that the entire contributions for strictly congregational purposes, for the schemes of the church, for Presbytery and synod funds, and for other religious and benevolent purposes amounted to $2,003,239, against $2,002,810 the year before, or an increase of $429.

Mission stations raised $63,996, against $59,484 the year before, or an increase of $4,512. The total payments for all purposes, therefore, amounted to $2,067,235, as against $2,062,293 the year before, or an increase of $4,942, an average of $22 35 to each family, a decrease of nearly 45 cents and of nearly $12 to each communicant, a decrease of about 20 cents.

MISSOURI METHODS.

Disputants Fight a Duel With Knives—Both Men Killed.

FORSYTH, Mo., June 17.—John Nettleton and Richard Meyer, young men, yesterday fought a duel with knives in Taney county. The row was the outcome of the murder of Sheriff Williams several months ago, Meyer saying publicly that all connected with the mob on the occasion ought to be lynched. Nettleton's people were connected with the affair, and Meyer was challenged. The men fought with butcher knives, both dying in half an hour from loss of blood.

Those Suppressed Reports.

OTTAWA, June 17.—The reports of the British tenant farmer delegates, McQueen and Danly, which have been presented to Parliament, are those suppressed by the Dominion Government. The delegates speak in very favorable terms of the agricultural capabilities and the resources of the Maritime Provinces. They came to the conclusion that free trade with the United States was desirable. Mr. McQueen goes so far as to say that he could not recommend the country to intending emigrants until such time as unrestricted reciprocity was adopted between Canada and the States.

Bicycle.

Where in the New Testament is the word, bride last mentioned? To each of the first middle and last persons sending correct answer to the above question will be given a lady's or gentleman's safety bicycle; to each of the next twelve following the first, and twelve preceding the last, and six each way from the middle one will be given a lady's or gentleman's gold watch; proceeding in the same manner in order of merit will be given three dozen diamond ear-rings and three dozen diamond pins. A special prize will be given the reader of the ADVERTISER who sends in first correct answer. All answers are to be mailed and bear postmark not later than 1st July, 1892. Each answer must be accompanied by four 3-cent postage stamps for sample copy of our magazine. Address Eureka Journal, Toronto, Canada. 6 b-t

A KIND WOMAN'S REWARD.

Mrs. Jones Took the Part of a Park Sleeper and Was Locked Up.

NEW YORK, June 17.—Mrs. Mary Jones, 72 years old, of No. 72 West Nineteenth street, was charged with disorderly conduct in the Jefferson Market police court by Park Policeman Patrick McGlone. He found a man asleep in Madison Square Park on Tuesday, and tried to arouse him in the old-fashioned way of pounding his feet with his club.

Mrs. Jones, who was sitting near by, remonstrated with the policeman, and tried to protect the sleeper, declaring that he was tired and entitled to rest. Her persistence was so great that McGlone finally arrested her. Justice Grady fined her $5, which she did not have, and she was locked up. She has been well known for a long time around police courts, which she has visited as a missionary seeking to reclaim unfortunate women. Much sympathy was expressed (inwards) for the old lady.

AGAINST THE COMMON FOE.

Convention of the Dominion Women's Temperance Union at Ottawa.

OTTAWA, June 17.—The fifth annual convention of the Dominion Women's Temperance Union opened here to-day in the Congregational Church. A large number of delegates from all parts of the Dominion are present and show great enthusiasm. Vice-President Mrs. Judge Foster, of Fredericton, occupied the chair. Reports from committees on Women's Council, Factory Act, Prisoner's Aid Association, heredity and health, and unfermented wine, were read by Mrs. F. M. Williams, Montreal, and adopted.

Miss Tilley, daughter of Sir Leonard Tilley, secretary, read a comprehensive report showing the great progress made by the unions in every respect.

Mrs. Williams, treasurer, read the financial statement showing balance and income to be $1,155 31; expenditure, $717 48; on hand, $437 83. There are now 363 unions in Canada, with a membership of 6,982.

THOUGHTS THAT BREATHE.

There are people who seem to have an idea that they attract attention in heaven for their piety every time they buy a dish of ice cream at a church festival.

Pleasant weather there may be in the voyage of life, but never weather so pleasant that the hand my leave the helm, or the eye the compass.

There is no use in turning over a new leaf unless you have something sensible to write on the page.

There is a tree called the manchaneel, which grows in the West Indies. Its appearance is very attractive, and the wood of it peculiarly beautiful; it bears a kind of apple resembling a golden pippin. This fruit looks very tempting, and smells very fragrant, but to eat of it is instant death, and its sap, or juice, is so poisonous, that if a few drops of it fall on the skin it raises blisters and occasions great pain. The Indians dip their arrows in the juice, that they may poison their enemies when they wound them. Providence hath so appointed it that one of these trees is never found but near it there also grows a white wood or fig tree, the juice of either of which, if applied in time, is a remedy for the disease produced by the manchaneel.

Sin, like this poisonous apple, looks pleasant to the eye, and men desire it, eat of it, and die; but there is a remedy at hand—it is the precious blood of the Son of God, which soothes the troubled conscience, and cleanses it from all sin.—[Biblical Treasury.

THE OUTLOOK.

—A farmers' elevator is to be built at Roland, N.W.T.

—Balder, Man., will grant a bonus for the erection of a flour mill.

—A 50,000 bushel grain elevator will be erected at Glenboro, Man.

—J. & R. Ritchie will erect a 100 barrel flour mill at Edmonton, Man.

—T. E. Dunsford will build a 300 barrel flour mill at Glenboro, Man.

—The sales of real estate in England in 1891 show an average falling off in value of $10 per acre when compared with those of 1890. In Scotland there was an increase of $20 per acre, and in Wales of $95 per acre.

—Chicago received 1,334,000 cattle, 3,579,000 hogs and 877,500 sheep during the first five months of this year, or 171,000 cattle and 368,000 hogs more and 103,000 sheep less than for the corresponding five months of 1891.

—Shipments of live stock from Chicago for New York were 90,644 cattle, 1,600 calves, 252,825 hogs, 49,238 sheep, and 7,429 horses; as against 76,756 cattle, 394 calves, 278,269 hogs, 67,507 sheep, and 8,747 horses for May last year.

—The cropoutlook in Minnesota continues to improve. Considerable corn has been planted within the past week and the prospects are good for a fair, if not large, yield. Wheat, oats and barley are generally in good condition and growing nicely.

—The books for the North Essex Farmers' Institute have arrived to the extent of $99 worth. Alex. McNeil is librarian and the books will be drawn by post. Any member requiring a book notifies the secretary and he receives it postage free but pays return postage.

—F. Fitzgerald and H. J. Minhinnick, of Hamilton, are forming a stock company with $50,000 capital to establish a tile factory in that city for the manufacture of ornamental tiles for flooring, hearths and other architectural purposes. About 50 hands will be employed.

—The Perth Flax Mill Company, of Strathford, will build a binder twine factory. Stratford has passed a bylaw exempting the company from taxation for ten years. John Hogarth, manager of the company, will build their factory this summer and be manufacturing twine by December.

—Lake & Bailey, Hamilton, will abandon the flour mill in that city which they have been operating for some time, and erect a large new mill there, of cut stone and brick, and equipped with the best and most modern machinery. They expect to occupy this mill before the end of the current year.

—The Melita Mining Company, Melita, Man., have an offer from capitalists to furnish the requisite amount of money to erect a 200-barrel mill, to be in operation early in September, providing the municipality will grant a bonus of $2,500 to defray the expense of laying pipes to bring water from the river.

—Estimates of loss by the recent western floods are as follows: Missouri, $11,700,000; Arkansas, $10,000,000; Tennessee, $1,900,000; Kentucky, $200,000; Mississippi, $1,000,000; Louisiana, $5,000,000—nearly $30,000,000 in all. Including stagnation in business, conservative estimates put the total loss from Kansas City to New Orleans at $50,000,000.

—About half the reports respecting the English wheat crop on the best lands state that harvest prospects have improved much during the past week; some rain and warm nights have brought about this change for the better. In other districts the plant is thin and the crop patchy and complaints of wire worm ravages are not uncommon.

—A York county correspondent writes: "Seldom have the crops at this season of the year given promise of such an abundant yield, although some low-lying fields are beginning to suffer from an excess of moisture owing to the continuous wet weather of the last two weeks. Hay will be an immense crop. Winter wheat never looked better."

—In Missouri, it must be conceded, says the Kansas City Grain Trade News, that present conditions are not favorable for much more than two-thirds of a crop of wheat, and it is doubtful if the corn can now be put in so as to make a full crop possible. Practically the entire acreage—at least three-fourths of it—remained to be planted after the rains.

—The total shipments of wheat from India since April 1 were 10,040,000 bushels, of which 5,320,000 bushels were to the United Kingdom and 4,720,000 bushels to the Continent. The total shipments for the corresponding time last year were 9,280,000 bushels, of which 4,120,000 bushels were to the United Kingdom and 5,160,000 bushels to the Continent.

—The receipts and shipments of live stock at Chicago for the past month were: 263,873 cattle, 14,255 calves, 736,397 hogs, 188,962 sheep, and 8,822 horses. For May last year the totals were 220,683 cattle, 13,440 calves, 560,115 hogs, 185,881 sheep, and 9,871 horses. These figures show an increase of 43,190 cattle, 815 calves, and 176,282 hogs and 3,081 sheep and a decrease of 1,049 horses.

—Richard Gird is probably the largest individual grower of sugar beet in the world. He has 50,000 acres of ground surrounding Chino, Cal., and this year will have 4,000 acres of it in beets. He is under contract to raise all the beets that are required for the beet sugar factory at Chino. His contract requires him to raise 5,000 acres of beets next year, and the same average the following year.

—As the farmers in North Dakota finish seeding they are turning their attention to thrashing. A surprisingly large part of last year's crop is still in the stack, some of which is badly damaged and others of which are in fair to good condition. A sample of the situation is that of a farmer in Nelson county, who has just threshed 6,000 bushels of No. 2 northern, 3,000 bushels of No. 3 northern and 2,000 bushels of rejected.

—A hive of industry is what the Fredricton, N. B., Farmer calls the business of Alex. Gibson. The total number of workmen now employed in his cotton and lumber branches reaches about 1,300. Of this number 500 are engaged in the cotton mill, 65 in the lath mill, 40 in the shingle mill, 90 in the saw mill, 30 in the brick-yard, 380 in the lumber drives, 25 on the booms on Nashwaak River, and some 30 or 40 at his Blackville mill. Mr. Gibson has been in Marysville for about 30 years, and in that time has manufactured something like 600,000,000 feet of lumber, all of which has been cut on the Nashwaak waters.

The blindest men are the ones who think they have no faults.

The truth always gives life to those who take it to their hearts.

The kitchen god in China at the beginning of every year is supposed to ascend to the supreme ruler to report on the private life of each family under his care. Lazy wives, whose housekeeping is not irreproachable, smear the god's lips with sugar just before his departure, bribing him to make a favorable report to heaven.
