THEY WAKE THE TORPID ENERGIES.—Machinery not properly supervised and left to run itself, very soon shows fault in its working. It is the same with the digestive organs. Unregulated from time to time they are likely to become torpid and throw the whole system out of gear. Parmelee's Vegetable Pills were made to meet such cases. They restore to the full the flagging faculties, and bring into order all parts of the mechanism.

CALLAN—FRASER.

A happy event was celebrated at the home of Mr. and Mrs. William Fraser, Lake Shore, Lambton County, yesterday morning, when their daughter, Hannah Isabella, was married to Mr. John Callan, in the presence of the immediate relatives of the young couple. Rev. D. S. Hamilton, pastor of the First Congregational Church, of this city, officiated and amongst the invited guests were Mr. and Mrs. John Fraser, Mr. and Mrs. Richard Macken, Mr. and Mrs. Wilkie, Miss Lena Shay, Mr. Robt. Callan and Mrs. D. Brand and Mr. and Miss Flora Vaines, of London. The drawing-room was very prettily decorated for the occasion. A sumptuous wedding breakfast was served, after which the happy couple left on the 2:20 p.m. train for a trip east.

FREE LUNCH IN CHURCH

Novel Plan by Which a Chicago Church Draws a Crowd.

Chicago, June 12.—Free lunch as an inducement to the study of the Scriptures has been tried for the first time in Chicago.

A more effective plan could not have been devised. The Rev. W. R. Newell, pastor of Moody Church, at Chicago and La Salle avenues, was its originator. For some time the Bible classes of the Moody Bible Institute have been lagging, and the problem of increasing interest in them confronted those at the head.

Upon the suggestion of the Rev. Mr. Newell advertisements were inserted in the daily papers and the pastors of 400 of the churches of the city and the suburbs made announcement that free lunches would be given to those who attended the meetings, that are to continue for the rest of June and every Saturday afternoon.

More than 600 men and women responded to the announcement, of which number 200 were entire strangers to the church. One man, who said he had been a Baptist, but had not been inside a church in eight years, entered the church just about 6 o'clock when the lunch was being served. He took his portion of it, and when it was over said that he liked it so well that he would return every Saturday.

The Rev. W. F. Jacoby, who assisted Mr. Newell, said that the man's breath smelled as though he had recently partaken of whisky.

"That does not matter, however," he said. "It is such men that we want, and it was for the purpose of getting some of them that we offered the free lunch."

When lunch hour arrived the number of those who wanted to learn something of the Bible largely increased, and those who volunteered had their hands full in waiting on them.

LONDON STANDS BY THE HON. CHARLES S. HYMAN

Continued from page 5.

towards him, and he looked about as happy as man could be. He moved about the rooms and the lawns, the center of the crowd wherever he went. Many a child was put forward by its proud parents to shake Mr. Hyman's hand, many an old Liberal recounted the fights of the past.

The whole affair was undoubtedly the greatest display of enthusiasm ever seen in London, everyone seeming to consider the victory the greatest that has ever been won in this city.

The dismembered parts of the procession paraded the central streets for several hours afterwards.

INTERESTING COMPARISON

Mr. Hyman Made Gains Over November in Majority of Subdivisions.

A comparison shows that 247 more votes were polled yesterday than at the Hyman-Gray election in November last. In the previous contests wards 3 and 4 gave Mr. Gray majorities, but this time Mr. Hyman carried ward 4 by 44 wiping out Gray's majority of 34, which he had last fall. Then ward 3 only gave Gray 45 votes more than Hyman, whereas in November the Conservative candidate had 111 of a majority. Thus it is seen that the workingmen remembered what Mr. Gray did at St. Thomas when they recorded their votes.

In 90 per cent of the subdivisions Mr. Hyman made gains, while in a few he held his own, and in others he lost a number. In subdivision 11 of ward 1 Mr. Hyman had only a majority of 50, against 75 of a majority in November.

On the whole, however, the vote was a splendid triumph for the Liberal Government, the Liberal party of London and for Mr. Hyman.

The following are the majorities by wards in the present election and in the contest last fall.

FEED YOU MONEY
Feed Your Brain, and It Will Feed You Money and Fame.

"Ever since boyhood, I have been especially fond of meats, and I am convinced I ate too rapidly, and failed to masticate my food properly.

"The result was that I found myself, a few years ago, afflicted with ailments of the stomach and kidneys, which interfered seriously with my business.

"At last I took the advice of friends and began to eat Grape-Nuts instead of the heavy meats, etc., that had constituted my former diet.

"I found that I was at once benefited by the change, that I was soon relieved from the heartburn and the indigestion that used to follow my meals, that the pains in my back from my kidney affection had ceased, showing that those organs had been healed, and that my nerves, which used to be unsteady, and my brain, which was slow and lethargic from a heavy diet of meats and greasy foods, had, not in a moment, but gradually, and none the less surely, been restored to normal efficiency. Now every nerve is steady and my brain and thinking faculties are quicker and more acute than for years past.

"After my old style breakfasts I used to suffer during the forenoon from a feeling of weakness which hindered me seriously in my work; but since I have begun to use Grape Nuts Food I can work till dinner-time with all ease and comfort." Name given by Postum Company, Battle Creek, Mich.

WILL IMPROVE VAUDEVILLE

Manager Bennett Already Making Preparations for Next Season.

Manager C. W. Bennett, proprietor and general manager of the London Vaudeville, left the city last night for New York, to confer with eastern and European booking representatives, to secure for next season a high class grade of comedy sketches and novelties. His success here has fully demonstrated that London theatergoers appreciate good, clean, high-class, refined vaudeville at popular prices. He is determined not only to keep up the high standard in quality, but to keep on improving it, although he has been laboring for the past season at somewhat of a disadvantage, owing to not having the best of booking connections, and on account of London not being on a direct line with the association of vaudeville theaters.

While in New York, Mr. Bennett will have a thorough understanding with the association of managers which will enable him to procure the best talent available for next season, and will spare no expense whatever in making this theater one of the finest in Canada or the United States. He is fully convinced that the people of London will support a vaudeville theater, providing the acts are of a high-grade quality, and is determined to procure such regardless of cost. When he returns he will bring back with him contracts from some of the leading dramatic stars who have lately entered the vaudeville field.

LONDON'S CARNIVAL

Nothing But the Cleanest in the Mundy Carnival Attractions.

London's carnival, which opens the week of June 19, under auspices of London Old Boys' Association, will be a clean carnival for clean people. Diseased appetites which call for lurid displays and repulsive features may as well stay away from the Mundy shows. There are no oriental shows with the Mundy company, no dancing girls, snake performers, freaks or wild men whose proper home should be an asylum, and, in short, nothing of any nature whatsoever that can in the slightest manner be construed as objectionable to the most sensitive individual. Instead, however, each of the great Mundy shows is replete with high-class features, first quality attractions and large salary acts of skill and sensationalism.

There are in all 2 distinct shows with the Mundy Company, and half a dozen more free acts or exhibitions. The carnival shows will be held in Queen's Park. Here will be found the greatest of all the Mundy shows, an inclosure known as the Hippodrome, wherein but two performances are given each day, one at 3:30 o'clock in the afternoon and again at 9:30 at night. The gates of the Royal Hippodrome are thrown open to the public, and those bent upon seeing the greatest of vaudeville acts will find comfortable seats within close to the large stage, where all may see to good advantage in the Royal Hippodrome.

A programme of genuine and rare merit has been prepared for the unalloyed pleasure of the public, and the fact that in every city visited by the Mundy shows the same happy indorsement of this feature has been extended by all people who attended serves admirably to justify the advance assertion that it is the best show ever presented to the American people at anything near the trifling admission fee charged.

SOME LABOR STATISTICS

7,000,000 Wage Earners in United Kingdom—Wages Poorer Last Year.

London, June 13. — Some interesting facts as to the lives of that section of wage-earners in the United Kingdom popularly known as the "working classes" are given in the annual abstract of labor statistics for the last year, just published.

These number, men and women together, over 7,000,000. Of these over 2,000,000 are employed in agriculture, and of the remainder 1,902,308 are members of the 1,166 trade unions.

Employment so far as trades unions were concerned was not very good last year. Taking the average six in every 100 were unemployed throughout the year, against five in 1903 and in 1902, and three in 1901.

Of the large mass of workmen who do not belong to trade unions, the return does not speak; but the fact that the unemployed unionists were more in number than in any years since 1904 gives a good indication of what must have been the conditions among those who have not had the advantage of a combination to aid them in obtaining employment.

The number of disputes resulting in strikes again showed a decrease. Only 334 were recorded during the year, against 387 in 1903, 442 in 1902, and 642 in 1901.

The disputes only affected 93,922 work-people, less than one-third of the number in 1902, and they lost a total of 1,416, 265 working days, against nearly 2,500,000 days in 1903 and 3,500,000 days in 1902.

Seventeen per cent of the disputes ended in favor of the work-people, and 48 per cent in favor of the employers. The remainder were compromised.

There was little fluctuation in favor of wages during 1904, and where there was any change it was chiefly on the wrong side.

Winnipeg, June 13.—The Scott Furniture Company's mammoth new warehouse, seven storeys, was struck by lightning this evening and totally destroyed. Loss will be $50,000, and insurance about $80,000.
