teen years of age, has been afflicted, during his whole life, with a constant cough and pain in the chest, accompanied with night sweats and hectic fever, which produced great emaciation and debility. During this time he was attended by many physicians of the highest repute, whose prescriptions gave but temporary relief. All our neighbours who saw him regarded him as one who was rapidly approaching an early and premature grave. I was prevailed upon by a friend to try WISTAR'S BALSAM OF WILD CHERRY. He commenced its use, and the FIRST bottle gave him astonishing relief, and after using four bottles, his disease was overcome, and he was restored to sound and permanent health. WM. PETIT.

None genuine unless signed I. BUTTS on the wrapper.

Brown's [illegible]

PURE FLUID EXTRACT O[illegible]
(Valerians Offic[illegible])

Manufactured by the United S[illegible] by a process peculiarly their own, [illegible] green root, imported from England and [illegible] themselves, and from which only, and acti[illegible] perty of the Valerian can be obtained. It is hig[illegible] approved of by the Faculty. Physicians and others are respectfully invited to give it a fair trial.

Price, twenty five cents a bottle, or two dollars and fifty cents a dozen, with liberal discount to wholesale dealers. Directions accompany each bottle.

FRIEND SAMUEL BROWN, ENFIELD, N. H.

You ask me to give my opinion of the Fluid Extract of Valerian, which you prepare. Were it a secret remedy or a patent medicine, I certainly would not reply. But from the honourable ground which you have taken in this matter, and knowing also the labor you have bestowed upon this preparation, I am willing to give publicity to my opinion of the preparation referred to. Ever since our knowledge of organic chemistry has been so much increased, we have found out that many very excellent remedies are in the natural state so combined and associated with other principles as to render them in a great degree useless to us. This was remarkably the case with the Valerian. We could not use it as often as we wished, because of the great bulk both of powder and infusion which it was necessary to throw into the stomach in order to get a full effect. Nausea and even vomiting resulted from the large doses. This compelled us to abandon its use. Chemistry showed us that the active principle is a peculiar acid (the Valerianic acid) which exists only in small quantity in the root. In your method of preparation this active principle is detached from the nauseating constituents of the root, and obtained in solution. We may then look upon your Fluid Extract of Valerian as a solution of Valerianic Acid. The action of this article upon the nervous system is most happy in all cases where the sum total of nervous energy is below the healthy standard, and it hence becomes a most important remedy. We owe you and others many thanks for putting so valuable a remedy as the Valerion into a convenient shape for use.

Yours respectfully,
EDWARD E. PHELPS, M. D.
Prof. Therapeutics and Mat. Med. in Dartmouth.

The above invaluable Preparation is signally efficacious in all Nervous and Hysteric Affections, sleeplessness, and Sick Headache, producing quiet, and tranquil sleep, and leaving no unpleasant sensations after its use,—the inevitable result of Opiates, Camphor, and the many articles usually administered.

Having had an opportunity of giving a thorough trial to Brown's Shakers' Fluid Extract of Valerian, and having seen its good effects especially manifested in a severe case of Tic Douloureux, I have no hesitation in saying that I consider it superior to any other form in which the Valerian is ever used, and as eminently deserving the attention of the medical profession.
