FILLING LETTER ORDERS A SPECIALTY

John Macdonald & Co.

Wellington and Front Sts. East, TORONTO.

AT OSGOODE HALL TO-DAY.

Judge's Chambers will be held at 11 a.m. Divisional Court, at 11 a.m.: The Queen v. Ewers; The Queen v. Vabey; Gurney v. Thornbury; Theresson v. Thuresson; Mason v. Massachusetts Benefit Association; Zimmerman v. Kemp; Western Bank v. McGill; Patterson v. Johnston.

Court of Appeal, at 11 a.m.: The court will not give judgments, but will hear appeals from single Judges.

WHEAT MARKETS UNSTEADY

Liverpool Unchanged and Continent Stronger,

Chicago Futures Advanced Half a Cent Per Bushel—Corn Something Lower for the Day — Wheat in United States Farmers' Hands — News About the World's Crop — Notes and Gossip.

Saturday Evening, Jan. 14.

Liverpool wheat futures to-day closed unchanged to ½d per cental lower than yesterday's final figures.

Paris wheat advanced 5 to 25 centimes to-day and Paris flour declined 15 centimes.

Chicago wheat futures continued irregular to-day. The market was a decidedly nestating one, Liverpool sending weak advices and then the Continent comparatively firm cables. Chicago futures advanced ½c a bushel to-day and closed near the top.

Liverpool maize futures to-day declined ¼d to ½d per cental. Chicago corn closed about ⅛c per bushel lower for the day.

Peas declined ½d at Liverpool.

Lard declined 3d at Liverpool.

Bacon advanced 6d at Liverpool.

English farmers' deliveries of wheat the past week 68,700 quarters at an average price of 27s 2d.

Total clearances to-day: Wheat and flour 243,000 bushels, corn 442,000 bushels.

Exports at New York to-day: Flour, 2302 barrels and 28,543 sacks; wheat, 139,583 bushels.

The world's shipments of wheat this week are estimated at 7,200,000 bushels.

Wheat receipts at Duluth and Minneapolis to-day 498 cars, against 333 the corresponding day of 1898.

Australia—Broomhall cables: Samples of new crop wheat secured from Victoria, Australia, are of excellent quality.

Argentina—Broomhall's Argentina correspondent cables: The prospects are favorable, and everything indicates a large wheat crop of good quality.

France—The Chicago Daily Bulletin of Thursday reports that St. Louis exporters had received acceptances from France for January-February shipments, with enquiries extending into March, when crop damage is reported from excessive moisture and frost. In contrast to the report, the Paris quotations of that day for March-June wheat were 10 centimes lower than those of Wednesday.

Flour Weak.

The Northwestern Miller, Jan. 11, publishes the following cables: Glasgow, resellers offering flour under mill prices. Liverpool, buyers out of the market, quotations unchanged. London, prices weak and lower.

Wheat in Farmers' Hands.

The Chicago Daily Bulletin publishes an estimate of the percentage of wheat remaining in farmers' hands in each state of the Union, on Jan. 1, as gathered by its correspondents. By applying their percentages to the Washington estimates of the wheat crop of 1898, the quantity so remaining appears to be 260,000,000 bushels; but if applied to commercial estimates of the crop would be about 286,000,000 bushels. In same issue The Bulletin makes the stocks of wheat and flour in commercial channels on above date 85,000,000 bushels, which is an increase over its estimate of same stocks on July 1, 1898, of 60,000,000 bushels.

Was Wheat Injured?

From The Orange Judd Farmer.

The last three days of 1898 carried the line of zero temperature as far south as Northern Texas, Central Missouri and Central Illinois, Indiana and Ohio. It followed a period of warmth that removed all trace of snow from practically all of the winter wheat belt and found the soil soaked with moisture. That the rank, sappy growth of the wheat plant made serious injury possible is certain.

In many respects the present situation is an exact repetition of that existing at this date in 1897. Then, as now, an open fall had encouraged great growth; the ground was bare during a January experience of zero temperatures. On Dec. 1, 1896, the condition of the crop in every state from Ohio to Kansas was reported at 100 or above. Following the January experience, which is this year duplicated, the report for April, 1897, showed a decline of 18 points in Ohio, 35 in Indiana, 50 in Illinois, 41 in Missouri and 23 in Kansas. For the present crop the condition on Dec. 1 was likewise reported perfect, top growth strong and rank, and there is more than a grave possibility that the freeze which worked such great disaster in 1897 may have a duplicated record in 1898-9.

The actual result of the present trying experience cannot be appreciated until growing weather in the spring, but a return of moderate warmth within the next ten days is likely to bring a flood of complaints of blackened fields.

No doubt the apprehension of injury to the winter wheat crop has had considerable influence in imparting recent firmness to the markets of the West. The markets have also been improved by the reduction in ocean freights, which is reported by The Bulletin as follows: Ocean freights for February loading are easy at 2½d from New York to Liverpool, a penny lower than January, and 3d lower than the high point last month. The present rate from Boston to Liverpool is 2d.

Situation in Russia.

The Chicago Daily Bulletin has the following: Some of the Russian shippers ridicule the recent crop estimates of the Minister of Agriculture, and express the opinion that the total wheat crop in Russia this year is at the utmost 400,000,000 bushels, while they claim that the reserves of old wheat carried over are several million quarters less than usual.

The Russian Minister's estimate for wheat crop of 1898 was 440,000,000 bushels. Accepting the reduced estimate published in The Chicago Daily Bulletin, the following may indicate probable exports for current crop year:

	Bushels.
Average wheat crop of Russia for six years, 1892 to 1897, inclusive	380,000,000
Exports from Russia for six years, 1892 to 1897 (incl.)	115,000,000
Indicated annual consumption	265,000,000
Wheat crop of 1898	400,000,000
Consumption, 1898-99	265,000,000
Apparent surplus	135,000,000

Allowing 35,000,000 bushels for deficiency in reserves at harvest of 1898, would leave surplus available for export, 100,000,000 bushels.

Good Profits in Eggs.

From Montreal Trade Bulletin.

The recent upturn in the egg market has already resulted in some splendid profits to holders, both here and in the West. The market is very strong and the recent purchases for shipment to the United States have left some of our dealers with scarcely sufficient stock for their home requirements. Sales were reported to us this afternoon of about 300 cases of limed in different lots at 17c; and a car of poor musty limed, which sold last week at 8c to 9c, is being jobbed out at 14c. It is surprising what a heap of defects is covered up in times of scarcity. This lot of eggs were stored in a pork-packing establishment, and the eggs have a strong briny pork smell and flavor and yet they are sold, and are being resold at a big advance in price. Profits have been made by holders in the West of $740 to $400 per car load, and we presume the same has been realized in this market. The car load of musty eggs above referred to, which sold at 8c to 9c per dozen, will show a gain of about $500 to $600. The shipments to Great Britain last week were 2584 cases, against 725 cases for the same week last year, making the total shipments of the season to date 236,008 cases, against 191,977 cases for the corresponding period last season, showing an increase of 44,031 cases. The destinations of last week's shipments were as follows:

	1899.	1898.
Liverpool, cases	400	400
Manchester, cases	1084	....
Glasgow, cases	1100	300
London, cases	....	25
	2584	725

Exports of Wheat and Corn.

Bradstreet's makes the exports of wheat and flour from both coasts of the United States and Canada during the past week 5,647,671 bushels, as compared with 6,860,268 bushels the previous week, and 3,481,576 bushels the corresponding week of 1898. Corn exports were 3,297,000 bushels, against 4,844,288 bushels and 3,455,416 bushels.

Leading Wheat Markets.

Following are the closing prices to-day at important centres:

	Cash.	Jan.	May.	July.
Chicago	.$....	$....	$0 71¼	$0 69⅝
New York	....	....	0 75¼	....
Milwaukee	0 70	....	....	....

Toledo	.. 0 71	0 71	0 73¾	0 70⅝
Detroit	.. 0 71	0 71	....	0 73⅞
Duluth, No. 1 Northern	0 67¼	0 68¼	0 70	0 70
Duluth, No. 1 hard	0 70¼	....	....	....
Minneapolis	....	0 68¾	0 68¾	0 69¾
Toronto, No. 1 hard (new)	0 80	....	....	....
Toronto, red	0 70	....	....	....

GRAIN AND PRODUCE.

Flour—Ontario patents, in bags, $3.60 to $3.80; straight rollers, $3.25 to $3.35; Hungarian patents, $4 to $4.10; Manitoba bakers, $3.70 to $3.80.

Wheat—Ontario red and white, 69c, north and west; goose, at 70c; No. 1 Manitoba hard, 79c to 80c at Toronto, and No. 1 Northern at 74c.

Oats—White oats quoted at 29c west.

Rye—Quoted at 51c.

Barley—Easier, quoted at 46c to 47c west.

Buckwheat—Firm at 46c north and 48c east.

Bran—City mills sell bran at $14 and shorts at $15, in car lots, f.o.b., Toronto.

Corn—Canadian, 35c to 36c west, and American, old, 44½c; new American, 42½c to 46½c on track here.

Peas—Firm at 66c north and west, in car lots.

Oatmeal—Car lots of rolled oats, in bags, on track in Toronto, $3.00; in barrels, $3.70.

ST. LAWRENCE MARKET.

On account of the wet weather there was scarcely any farm produce on the market to-day. One load of barley, and a few lots of butter, eggs and poultry were the bulk of deliveries.

Butter—One pound rolls sold all the way from 15c to 21c, the latter price being paid only by special customers for choice dairy from farmers' baskets.

Eggs—Strictly new laid eggs were easier at 30c to 35c per dozen, the bulk selling at 30c.

Poultry—Turkeys sold at 9c to 11c per lb.; geese 5½c to 6½c, chickens 40c to 70c per pair, and ducks 60c to 90c per pair.

Dressed Hogs—Prices unchanged at $5.25 to $5.50, with a weaker feeling on the market.

H. Wickson, St. Lawrence Market, had on exhibition a spring lamb which dressed 45 pounds.

British Markets.

Liverpool, Jan. 14.—(12.30.)—No. 1 Cal., no stock; red winter, 6s 3d; No. 1 Northern, spring, 6s 0½d; corn, 3s 10¾d, new; peas, 5s 10d; pork, 50s; lard, 29s; tallow, 22s 3d; bacon, heavy, Le., 27s 6d; light, 27s; short cut, 28s; cheese, white, 49s 6d; colored, 49s 6d.

Liverpool—Close—Spot wheat steady at 6s 3d for red winter, red winter futures, 5s 10½d for March and 5s 8¾d for May. Spot maize, 3s 10½d for new. Futures, 3s 10⅝d for old Jan., 3s 8¾d for new March, and 3s 8½d for May. Flour, 19s 3d.

London—Close—Wheat, off coast, nearly due. Walla, Jan., 28s 6d. No. 1 Northern, steam, loading, 29s 6d; steam, Jan., 29s 3d. Maize, off coast, near due. On passage, quiet and steady. Mixed American, sail, grade, steam, loading, 18s 9d. Spot maize, Danubian, 19s 9d; American, 19s 3d. S.M. flour, 24s 6d.

Paris—Close—Wheat, 21f 75c for Jan. and 21f 90c for March and June. Flour, 45f 00c for Jan., and 45f 95c for March and June.

East Buffalo Cattle Market.

East Buffalo, Jan. 14.—Cattle—Two loads on sale, and but little interest in trading. The calf trade was dull, basis of prices generally $7.00 to $7.50.

Sheep and Lambs—Offerings 41 loads. Trade very unsatisfactory; prices lower, and 20 loads unsold. Good to extra lambs $5.10 to $5.20, choice to extra $5.10 to $5.25, good to choice $4.75 to $5.00, common to good $4.50 to $4.75. Sheep—Choice to extra $4.25 to $4.50, good to choice $4.00 to $4.25, common to good $2.75 to $3.75.

Hogs—Demand fairly active at the decline. Yorkers sold at $3.75 to $3.80, mostly $3.75 to $3.77½, bulk of the sales were at $3.85, heavy $3.85 to $3.87½, pigs $3.90, medium $3.80 to $3.85, roughs $3.00 to $3.30, stags $2.50 to $2.75. The offerings were 34 loads. The close was steady.

Chicago Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat—The lack of continuity in outside orders has given to wheat a moderate but irregular action, preventing both rallies and breaks from permanency, and causing a hesitancy, owing to which it is puzzling to trace or define a definite tendency in the market. To-day's news has been of both sorts, the Liverpool cables closing unchanged. Clearances were 943,000 bushels. Argentine advices consisted of fine crop of large proportions. Private advices report the Russians are cancelling their rye sales and France is a buyer of wheat. The Continental grain situation is characterized by marked firmness, as compared to an indifferent and weak Liverpool condition. Possibly the latter influenced by a sharp drop on ocean freights, which would be a fair reason for cables coming lower. The weather map showed rains west, and predictions are for more, with cold weather to follow. There is a hesitancy to the market and an irregularity to the trade which, while we feel confident that wheat bought for a long pull will prove profitable, at the same time makes it difficult to write confidently, and decides us to urge buyers to choose carefully their investment points, especially advising soft spots and fair declines. We feel that Argentine is the only uncertainty on the bull side of wheat, but should it develop definitely bearish the combination of professional sentiment and limited trade would be radically against values at the level. The market ranged between 70⅝c and 71¼c and closed at 70⅞c bid. Northwest receipts aggregated 498 cars, against 333 cars a year ago.

Corn—Market held fairly firm and active, with cash steady to firm. Argentine news was bullish on corn, owing to excessive rains. Liverpool was ½d lower, and there was reported a good cash demand prevailing throughout the session. Commission houses bought the May option freely, and elevator people sold moderately. The close was steady. Clearances, 442,000 bushels.

Provisions—There was a good volume of trade reported in provisions to-day, with prices ranging some higher, especially in pork and ribs. Packers were good buyers in both articles, and the selling was scattered. Shipments were fair and cash enquiry good. Receipts of hogs to-day were 26,000. It is expected receipts will fall off fro mnow on, and we advise buying lard and ribs.

Toronto and Georgian Bay Route.

The Young Liberal Club will meet at their rooms, 2½ Queen-street east, to-night, when the adjourned debate on "An Air Line Route Between Toronto and the Georgian Bay, as a Government measure, and the deepening of the St. Lawrence canals" will be resumed. An invitation is extended to all interested in the subject.

A PECULIAR STATEMENT.

Did the Montreal City Council Interfere on Behalf of Gamblers?

Montreal, Jan. 15.—Acting Recorder Desrosiers made a startling statement from the bench yesterday morning. Last week three cases of gambling came up in court, and the delinquents were fined. Some paid their fines and others were allowed a delay. Yesterday the Recorder took up the cases and said he did not see why one man should have to pay or go to jail and another be allowed a delay. This was a case in which the City Council had no right to interfere.

Nelson Dingley.

New York Press (Protectionist).

If the last session of the 55th Congress were remarkable for nothing else, it would be for a dramatically dual bereavement in the deaths of the authors of the earliest and latest of typical Republican fiscal and economic measures, that Nelson Dingley should follow Justin S. Morrill to the grave.

As tariff maker and revenue finder both Messrs. McKinley and Reed would probably accord to Mr. Dingley superiority among the men of his time. If we look for proofs of this assertion we find it in the fact that the schedules of the Dingley Tariff Bill alone among all bills of the recent era of tariff agitation were Senate-proof. In 1883, 1890 and 1894, the measure sent from the House Ways and Means was, to a greater or less extent, made over in the Upper Chamber. The inherent strength of the Dingley bill schedules caused the withdrawal of every radical Senate amendment.

Mrs. Casey Declined the Offer.

Belleville, Jan. 14.—The Grand Trunk offered Mrs. Casey, wife of the engineer who was killed at Murray Hill, $100 per month for three years, which she refused to accept.

Koladermic Skin Food

Is what its name implies—a food for the skin—builds up the wasted and worn places—restores it to a natural color and imparts a baby-like softness and delicacy. Removes pimples and blackheads and the defects of the complexion caused by indigestion and stomach troubles. At all druggists. Price 25 cents.

STOCK MARKETS OF A WEEK

There Have Been Good Advances on Wall Street,

A Decided Bull Movement in Vogue on the New York Exchange — Canadian Securities Also Incline Strong and Several Issues Are "Pointed" for Good Advances — Notes.

Saturday Evening, Jan. 14.

The week closing to-day has been one of the most remarkable in the history of Wall-street. The volume of trading has broken all records, and many stocks have reached prices never touched by them before. The support to the bullish movement has been general and widespread, and in the railway list such net advances as the following have occurred since last Saturday: Atcheson pref. 4¼ points, B.R.T. 5⅞, Canada Southern 2, Chicago & Northwestern 2⅝, C.B.Q. 3, St. Paul 4⅞, Rock Island 2½, Manhattan 6¼, and N.Y. common 4⅞. The strong condition of the market is due to the fact that a vast amount of capital is seeking investment in issues, which, owing to the good times, appear to have an excellent future. One feature of the situation is the circumstance that exports of wheat from this continent are just now extremely heavy. Another aid to the upward movement is found in the publication of the United States trade returns for 1898, showing that during the past year the increase in exports over imports has surpassed all records. To those who point out that stocks are now unprecedentedly high, the confident bulls reply that the present splendid financial conditions are unparalleled in the history of the country.

Canadian securities have also continued to exhibit an inclination to move forward. There is a plethora of unemployed money which is seeking profitable investment, and the consequence is that a number of our leading stocks are becoming scarce. Toronto Electric has advanced nearly four points and Cable over a point and a half since the 7th inst. There are tips out for further "rises," in these issues, and also in the C.P.R., Richelieu, Toronto Railway and other securities.

London cables received by Messrs. A. E. Ames & Co. quote Grand Trunk 4's at 78⅝, Grand Trunk 1sts at 68⅝, and Grand Trunk 2nds at 46½.

American rails in London to-day closed generally ¼ to 1¼ higher than yesterday.

Consols declined 1-16 in London to-day.

In Paris 3 per cent. rentes were at 101f 62½c.

French exchange on London, 25f 21c.

The New York weekly bank statement: Surplus reserve, increase $4,773,700; loans increased $3,045,200; specie increased $4,742,500; legal tenders increased $2,221,200; deposits increased $8,924,000; circulation decreased $250,100. The banks now hold $28,263,075 in excess of legal requirements.

Bank clearings at the principal United States cities for the week were $1,940,605,370, an increase of 34.5 per cent., as compared with the corresponding week of last year.

Money Market.

On the local market call loans are at 4½ to 5 per cent. In New York call loans to-day were 2¼ to 2½ per cent., closing loan being 2½ per cent. The Bank of England discount rate is 4 per cent., and the open market rate is 2 9-16 per cent.

Foreign Exchange.

Aemilius Jarvis & Co., 23 King-street west, Toronto, stock and exchange brokers, report local rates to-day as follows:
