Miscellaneous.

The German Emperor has just lated his 81st year.

A New York auctioneer last week 96,000 of the State of Georgia nds for $118.40.

A new disease somewhat resem- diphtheria has been raging among orses in Skowhegan, Maine. Se- have died.

The negroes of South Carolina are y a fanatic named Palmer, who s to be "the son of Christ," sent e father to raise the blacks out of rty and lead them to riches.

LLED BY A PAIR OF SCISSORS.—At n Mills, Charlotte County, New swick, a six year-old child, fell on loor, driving a pair of scissors into heart, and causing instant death.

Lady Roseberry experienced a new ation on entering her husband's e in Scotland. The housekeeper her at the door, and, in accordance an old Scotch custom broke an heal cake over the bride's head.

While the German Government declares itself anxious to inter- e diplomatically to avert war on part of England, the German Im- ial Cabinet is secretly making all parations for war.

The Irish Government has offered eward of £500 for private informa- n of the murder of Earl Leitrim, and young nobleman offers £10,000. e excitement is unabated, and the lice are still at work. The magisteri- inquiry continues every day.

A few years ago, in Comanche unty, Texas, a number of domestic ckens, deserted by their owner took the bush, and the woods are full of d chickens. They are numbered by e thousand, fly like hawks, and are nted as game.

A young man of 20, at Naples, re- ntly got rid of his wife who was 75 ars old and remarkable ugly, by shing her off a precipice as she was ming home from the well with a cket of water on her head. The jury ndemned him to death.

REWARD OFFERED.—The Government New Brunswick have offered a re- rd of $400, to any person who shall scover the body of Timothy McCarthy, Moncton, whom Annie Parker al- ges on oath, was murdered on Octo- er 12th last, and his body thrown into e Scadouc river at Shediac.

—Naval men are of the opinion that e loss of the *Eurydice* was due to the eculiarity of her construction and the xhaustion of the water in her tanks. is thought that the water, which rmed a part of the ballast, was so re- uced during the voyage that the sta- ility of the ship must have been seri- usly affected.

INTERCOLONIAL RAILWAY.—Now, as the eekly steamers of the Allan Company ave ceased calling at Halifax for the eason it is interesting to know that rom the 12th of December, 1877, to the 2nd of April, 1878, they landed at Richmond wharf, for the Intercolonial Railway and connecting lines, 19,794 tons of freight and it is creditable to know that not a package of goods was lost in transit.—*Chronicle.*

—The New York "Herald's" Paris correspondence says the average ex- penses per day for a single person visit- ing the Exposition should not exceed $3.25; for $5.00 superior attendance and style should be available. These prices include wine and every extra, while on the left bank of Seine the same accommodations can be obtained for half the money.

—One of these days the English plum-pudding will be made and canned in America, and sent across the ocean. Already an enterprising firm of Yankees is putting up boneless ham in cans for domestic and foreign markets. During the past few months it has been pre- serving large quantities of poultry, which is canned in the same style as pressed beef, the fowls being boned and chopped up. Lately it has, with complete success, accomplished the feat of canning turkeys entire, with every bone removed. From boned- turkey to chicken and veal-pies is only a short step, and then will come the British birth-right—the Christmas pud- ding—made, seasoned and canned by down-east Yankees, say about the 4th of July.

OTTAWA, April 26.—An unknown man came across the lower Suspension Bridge at Niagara Falls, from the Ameri- can side, this morning, and inquired of a gate-keeper on this side where he could get a boy to guide him to the falls. Procuring one, they started to- gether. Upon arriving at the new bridge he told the boy he intended crossing. When about midway over he jumped into the river. Mr. Murray de- scribed him as about sixty years of age, five feet nine inches high, grey hair. He spoke with an American accent and looked like a farmer. In a coat which the deceased left in the lower bridge office was found an envelope, addressed:—"Edward M. Groat, Wa- terford, Racine County, Wisconsin." He had mailed a letter before making the fatal leap.

—A real crushed tragedian killed himself in San Francisco, last week. His name was Louis Aibischer, and his age 26. Being an only son he spent $20,000 of his father's money in study- ing for the stage, and giving entertain- ments to professionals. He played Hamlet twice in San Francisco, amid the jeers and other unpleasant demon- strations of audiences that went to en- joy a jolly bad Hamlet, and were not disappointed. The young man sought appreciation in Oregon, but even the webfeet laughed at him. Then he got married and took rooms at a San Fran- cisco hotel. At the end of the week he called upon his father for $200. The money was refused. A request for a loan of fifty cents was granted, and with that the unhappy young man bought the strychnine that caused his death in three hours.

ITEMS.

Forty-seven miles of the Canada paci- fic R. R. are laid with rails, and one hundred and thirty-one miles graded.

A new law respecting bill stamps is soon to come into force, providing for the use of stamped paper, instead of stamps, though the latter can still be used.

One of Brigham Young's daughters has married a former hostler in her father's stables, who already has one wife. She is homely, but brings her groom $20,000, her share of the pro- phet's stealings.

Mr. John Crowley, in whose house Mrs. Mary Quinn was murdered, died Friday night. He has not been well since the trial, nor indeed since the murder, which gave his nervous system a shock from which it never rallied.—*St John Telegraph.*

Joseph Graham, proprietor of a steam mill at Brookfield, Colchester County, N.S., was killed on the 22nd inst., at his mill. He was alone at the time and nothing was known of the accident until his body, mangled and torn, was found in the machinery a short time after.

Albret Birdsell, a Quaker at Platte- kill, Ulster County, New York., has confessed to having set fire to his house, which was burned nine years ago and paid for by an insurance company. He says that since that day he has not pro- spered, and he didn't think he could prosper until the burden was lifted from his conscience.

FIRST OF THE SEASON.—Four new early blue potatoes were placed on our table, Saturday. They were raised in North King's County, by William Robinson. Two of them are of respectable size. New potatoes on the 18th of April is pretty early for that vegetable.—*St. John Telegraph.*

When you wish to know what the weather is to be, go out and select the smallest cloud you see. Keep your eye upon it, and, if it decreases and disap- pears, it shows a state of the air which will be sure to be followed by fine weather; but, if it increases in size, take your great-coat with you, if you are go- ing from home, for falling weather will not be far off. The reason is this: when the air is becoming charged with elec- tricity you will see every cloud attact- ing all lesser ones towards it, until its gathers into a shower, and on the coun- trary, when the fluid is passing off, or diffusing itself, then a large cloud will be seen breaking into pieces and dissolving.

SUICIDE.—A sad case of suicide occur- red at Boston (St. Mary's Bay) about 11 o'clock on the night of the 19th, in she vicinity of Mr. Bingay's shipyard. James Peter, a man in the employ of Mr. Bingay, shot himself with a revolver which was found under him and in conne- ction with his right hand; and on ex- amination three bullet holes were found in the region of the heart, the last of which probably caused instantaneous death. He must have cocked and fired the pistol twice after the first shot, each shot taking effect. For some time past he had complained of severe pain in his head, had become quite deaf, at times talked strangely, and no doubt was partially deranged. He leaves a wife and five small children in poor circum- stances.—*Yarmonth Herald.*

NICTAUX AND ATLANTIC RAIL-ROAD.

B. Starr- ratt, Hopewell, New Brunswick, 3.00; Ed- win Leonard, Paradise, 1.50; Wallace Langley, South Mail, 1.50; Frederick Tay- lor, Wilmot, 75cts.

Telegraphic News.

EUROPE.

CONSTANTINOPLE, April 25.—The insur- rection in Roumelia is still spreading. There has been another engagement in which thirty officers, "presumably Rus- sians," were placed hors du combat.

Three thousand prisoners of war from Bucharest, were landed at Constantinople on Wednesday.

The return of prisoners from Russia has been postponed until their maintenance is paid for.

ST. PETERSBURG, April 25.—The "Agence Russe" announces that negotiatians con- tinue in a friendly manner by the intimate intercourse of the Cabinets. There will also be before Congress meets, an exchange of views between the Cabinets upon the principal questions at issue. England demands more than an acknowledgment of the European character of questions raised by recent events, as Prince Gortschakoff's official reply to Lord Salisbury was an ab- solute affirmation of such acknowledge- ment.

LONDON, April 26.—Bismarck is reported to have recently said to his physician in the course of conversation on the Eastern crisis: "Short of a miracle, war is inevit- able."

In St. Petersburg it is believed that war is decided upon by Beaconsfield's cabi- net.

In Vienna the situation is considered desperate, while "La France" of Paris states with profound regret that it has im- portant private information that war is in- evitable.

The "News'" correspondent at the Rus- sian headquarters at San Stefano states that it is believed there that a simultan- eous withdrawal has been arranged.

The effect of the resolution adopted by the meeting of operatives in Blackburn, on the 24th, is favorable; sixteen mills are now working there. At Preston the strike is renewed in the weaving departments of three mills, in consequence of the re-ar- rangement of prices which exceeds ten per cent. reduction.

BERLIN, April 26.—Professor Heinrich Leo, the German historian, is dead.

A number of German bankers met here to consider the practibility of floating an- other Russian loan, but unaminously refus- ed to engage in the work.

LONDON, April 26.—In consequence of the pressure of the Russians the Porte has peremptorily ordered the evacuation of Batoum. The peasantry near Batoum and Trebizonds are arming against the Russians.

Fifteen battalions have been sent against the Roumelian insurgents.

Berlin dispatches state Prince Charles of Roumania has refused the demand of Rus- sia for the dismissal of his cabinet.

A Belgrade despatch says: "It is stated that the Government, in accordance with agreement with Russia, is preparing a pro- clamation to the Servians, to prepare for a fresh war"

ROME, April 25.—It is asserted that Rus- sian engineers recently here chartered two American steamers now in the Levant, and will proceed on a journey to Suez and the Persian Gulf, under American colors.

LONDON, April 26.—Newspapers take a discouraging view of the course of political negotiations. It is plain to see in Aus- tria's changing attitude a desire to wait in hopeful silence to see what may profit her in calamities and weaknesses of combina- tions.

LONDON, April 26.—10,000 uniforms for the Naval Reserves have been ordered.

CONSTANTINOPLE, April 27.—Seditious meeting are held nightly, and a popular rising is feared. The extre me Mussul- man party have asked the Shareef of Mec- ca and the Muftis of Tunis and Morocco whether Turkey should join England in the event of an Anglo-Russian war. Muftis replied in the affirmative, and the Shareef promised to submit the question to the Council in the event of hostilities.

The Mussulman insurgents are ap- proaching Philippopolis and driving the Bulgarians before them. The spread of the insurrection causes much disquietude even in Adrianople. Some soldiers have been assassinated there.

A Berlin correspondent says negotia- tions for military withdrawal having pro- duced no result, the scheme for the Con- gress is again taken up. There is no chance, however, for a preliminary Confer- ence. The Turkish army is becoming ra- pidly organized and is becoming more and more a main factor to be reckoned within the withdrawal question, as the Turkish Ministry will probably decline to pledge itself to permit the return of English and English and Russians if tney once with- draw.

LONDON, April 26.—A despatch from Ber- lin to the *Daily News* throws some light on the English objections to the German form of invitation to the Congress. The des- patch says:—"The proposed form, the British Government say, expresses an as- sumption that the treaties of 1856 and 1871 are already modified by the results of the war. England insists, on the contrary, that the necessity of superceding or amending those treaties is not to be assum- ed in advance in a way which might pre- judice the negotiations."

ST. PETERSBURG, April 26.—*L'Agence Russe* confirms the report that England and Russia are agreed that direct exchange of views should precede the Congress. Aus- tria, Germany and Italy also favor this course, and have invited England to state her views.

BOMBAY, April 26.—Troops are arriving here daily for embarkation. The first de- tachment leaves for Malta, April 27th, and the second, May 1st. They will not stop at Aden. Fifteen ships and 12 steamers are engaged for the conveyance of the ex- pedition which will be conveyed by a man- of-war. Great enthusiasm is manifested thorough India, and the native troops are volunteering for service.

☞ The leading editorial of the *Times*, referring to the statement in a despatch from its St. Petersburg correspondent that Austria is said to be advancing towards a solution on the basis of other powers tak- ing suitable compensation for increased in- fluence of Russia, says:—"Solution of tak- ing suitable compensation means, of course that Turkey should be further despoiled to satisfy the territorial needs of its neigh- bors. Thus, the battle that may to-mor- row be fought over one crippled power may, the day after, be fought over three. England may fight on what it feels is a just cause, yet, after spending more than we can spare of our treasure and blood we may find ourselves falling into a ditch over which others walk quietly to the common goal of their aspirations. Europe, of course, now smiles upon us, cheers us on, and pre- pares, in our eyes, laurel wreaths which are to crown our first successes. It would be more to the purpose if we were not left alone to vindicate treaties and fight the battles of Europe."

GILES' LINIMENT IODIDE OF AMMONIA re- moves all traces of a black eye, and re- stores the natural hue of the discolored skin.

For sale by Dr. Joseph Dennison, Bridgetown.

☞ Some years ago he had in our em- ploy a man, who, several times in the day, ran out of the office to buy a drink of whis- key. Every time he went out, the cashier was instructed to drop ten cents into a drawer to our credit. At the end of seven- teen months, the man who had gone out so often had drank himself out of a good situa- tion; and the drawer, when opened, was found to contain four hundred and nine dollars, which we loaned to a young me- chanic at seven per cent interest. He used it to purchase a set of tinner's tools. On the 15th of February, 1876, he returned it to us with interest, saying in his letter that he has now a wife, two children, and property worth five thousand dollars. The other fellow is a bummer hunting for food. —*Pomeroy's Democrat.*

Electricity.

Thomas' Excelsior Eclectric Oil.

Worth Ten Times its Weight in Gold—Pain cannot stay where it is used?

It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured Bronchitis. Fifty cents' worth has cured an old standing cough. It positively cures catarrh, asthma, and croup. Fifty cents' worth has cured crick in the back, and the same quantity lame back of eight years' standing. It cures swelled neck, tumors, rhematism, neuralgia, con- traction of the muscles, stiff joints, spi- nal complaints, and pain and soreness in any part, no matter where it may be, nor from what cause it may arise, it always does you good. Twenty-five cents' worth has cured bad cases of chronic and bloody dysentry. One tea-spoonful cures colic in fifteen minutes. It will cure any case of exorcitated nipples and inflamed breast. For bruises, if applied often and bound up, there is never the slightest discoloration to the skin. It stops the pain as soon as applied. Cures frosted feet, boils, warts, corns, and wounds of every description on man or beast.

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the sig- nature of *S. N. Thomas* is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and *Take no other.* Sold by all medicine dealers. Price 25 cts. NORTHROP & LYMAN, Toronto, Ont., Proprietors for the Dominion.

Note.—*Eclectric*—Selected and Electrized.

For sale by W. W. CHESLEY, Bridgetown, N. S.

ONIONS: HOW TO RAISE THEM PROFITABLY.—Being the Practical Details, from Selection of Seed and Preparation of Ground to Harvesting and Market ing the Crop, given very plainly by Seventeen Practical Onion Growers of long experience, residing in different parts of the United States. No more valuable work of its size was ever is. used. Paper Cover, 8vo. Price 20cts. Orders for the above taken at the MONI- TOR OFFICE.

Diphtheria Conquered!

UNPARALLELED SUCCESS

—OF—

DR. J. D. DAVIS'

NEWLY DISCOVERED REMEDIES & ORI- GINAL METHOD OF TREATMENT.

FACTS FOR PEOPLE TO CONSIDER.

5000 CASES treated during the past twenty years; not one failure when taken in its first stages. Nine-tenths cured when taken in its advanced stages.

Dr. J. D. Davis will pay one thousand dol- lars for every case of Diphtheria in its first stages that he cannot cure.

For the small sum of two dollars Dr. Davis will send to any address, with directions, me- dicines that never failed to cure Diphtheria when taken in its early stages.

N. B.—The medicine may be obtoined at the office of this paper.
