A CLASS BY THEMSELVES

Don't compare the ladies' rain-proof coat we sell with those of which you know—for they are exclusive styles, in a class by themselves.

They were made for stylish dressers—rich in material, rich in finish, natty in design.

They are London, Paris and New York fashions, imported. Selected by a man who has spent most of his life buying goods for Fifth Avenue patrons.

Don't take our word for this; call and satisfy yourself that we have succeeded in onr efforts to be original.

This is rain coat weather, and we're up-to-date, as usual. Every price worth while, from $4 to $18.

Remember this is a new feature of our business—only last month did we open special showrooms for it.

WESTERN ONTARIO CONSERVATIVES

Declare Against Judges Performing Duties of a Political Nature.

London, Sept. 17.—The annual meeting of the Western Ontario Conservative Association was held here this afternoon. Major Beattie, president, was in the chair, and there were also present delegates from the twenty-four constituencies concerned.

A number of important resolutions were adopted. It was resolved that the development of industrial institutions can only be secured by a straight protective policy, and that the interests of the country demand that the national policy be maintained in its entirety. The association further condemned the uncertain hesitating with which the present government deals with the tariff. Other resolutions condemned the practice of judges performing duties of an extra judicial and semi-political nature, allowing seats to remain vacant for an undue length of time, the construction of the transcontinental railway as contemplated by the government, and the sawing off of protests.

Resolutions of confidence were passed on R. L. Borden and J. P. Whitney, and particularly an appreciation of Mr. Borden's fight against the inquitous redistribution bill and the transcontinental railway.

YORK COUNTY AND SUBURBS

Deliberate Attempt to Wreck Humber Power Co.'s Electric Plant Almost a Success.

COMPANY OFFERS $100 REWARD

Weston Fall Fair on Sept. 26—Water Supply for East Toronto to Come From Lake.

Toronto Junction, Sept. 17.—Some miscreant tampered with the wires of the Humber Power and Light Company early this morning and caused a short circuit. It was at once noticed in the power house and immediately the plant was shut down. As far as can be learned, no damage was done to the generator, altho in a few moments it might have been damaged to the extent of several hundreds of dollars. A wire burned out near where the two lines had been joined to form the short circuit, and a live wire hung down, and had any one touched it he would have received 2,200 volts, and wires ordinarily harmless, when handled by linemen, become instant electrocutors. There was no one on the line, and it is fortunate that no one was hurt. The connection was evidently made by an expert electrician, or someone who knew exactly what he was doing. Had it been a novice, he would in all probability have lost his life in the attempt. It took about three hours to locate the circuit, which had been effected by means of a piece of steel, now in the possession of the police. The point of connection was in the Keele-street subway, and to make it the person had to crawl along the stonework under the girders. For the apprehension and conviction of the person doing this fiendish trick the Humber Power and Light Company offers $100 reward.

The town voters' list is out and complaint in regard to errors must be entered before Oct. 12.

A. Powley has taken his tent, guns, dogs and canoe to Lindsay, and will spend four or five weeks on the lakes in the Haliburton district.

Weston.

The York Township and Weston Agricultural Society will hold its annual Fall Fair on Saturday, Sept. 26. There will be exhibits of live stock, poultry and farm produce, and prizes will be given for horse racing, driving and bicycle races. Mimico Industrial School Band will furnish music.

The junior lacrosse team went to Pine Grove on Tuesday and were beaten by 2 goals to 1.

Mr. Burk has made several improvements to the Russell House. He has put down concrete walks and is installing a hot water system.

North Toronto.

A meeting of the Board of Health to discuss the propriety of allowing a slaughter house in Eglinton was to have been held on Wednesday evening, but was postponed till next Tuesday. Objectors to the abattoir have secured a largely signed petition to present to the board.

Frederick Goulding is trying to interest local capitalists in the formation of a loan company, with the especial object of erecting a number of dwellings in the town. The scarcity of habitable dwellings is now very acute.

Mr. T. G. Crown is remodelling a residence bought by him on Yonge-street, north of the C.P.R. crossing, for the purpose of accommodating a modern grocery establishment.

Town Clerk Douglas is taking his annual vacation of two weeks, and is at present visiting with his brother Edgar at Ottawa.

Mrs. W. H. Minns and family have returned from their residence at Kew Beach, and Mrs. E. Kyle and daughter are home after a holiday at Rice Lake.

Swansea.

A very interesting event took place at the home of Mrs. Milton Malnprize of Mount Albion, when Miss Bryndon, daughter of Swansea, was united in marriage to Miss Ina Mildred Shaw, second daughter of the late Geo. Shaw of Belhaven and sister to Mrs. Malnprize. The bride was robed in a very becoming gown of white Duchesse satin and honiton lace veil, which was looped at the shoulders with cream roses, and wore a valuable diamond ring, the gift of the groom. The bridesmaid was prettily attired in blue silk and applique, the groom's gift being a beautiful ruby ring. The groom was supported by Mr. John Price of Swansea. The ceremony was performed by the Rev. Mr. Presser of Newmarket. Henry Shaw of Belhaven giving away the bride. After the wedding breakfast the happy young couple left by the evening train for London and Harwich. At the latter place the party will spend a few weeks with Mr. James Brydson, and on their return will take up residence in Swansea.

East Toronto.

East Toronto, Sept. 17.—A special meeting of the Town Council will be called early next week to appoint a collector of taxes and to consider the water supply question, which has of late engrossed public attention. As far as has been learned, the general feeling of the residents is that it will be necessary to go to Lake Ontario to secure an adequate and independent water supply, and the indications are that the special committee of the Council will report to that effect.

Frank M. Blight, inspector of the Scarboro Electric Railway, went over the line this afternoon and found everything in good shape. When asked as to the extension of the line eastward to accommodate the many farmers engaged in the dairy business, Mr. Blight refused to express any opinion in the matter.

Dr. Walters, A. Menzies, D. Lloyd, H. Blaylock, George Empringham and others go west for a rabbit hunt this afternoon. The party took ten dogs with them and brought back ten rabbits.

Constable Tidsberry received a letter this morning from a party who signed himself "Taxpayer," who complained of the boys in camp on Beech-avenue playing ball and using bad language on Sunday on Beech-avenue. If the letter had been signed by the party sending the complaint, immediate action would have been taken, but under present circumstances nothing can be done except to keep a strict watch. The writer of the complaint also thought that the owners of land that rented their property to campers should be held responsible for their good behaviour.

Balmy Beach.

Prof. Burnett will be accompanied by Harry Lee in his balloon ascension from Victoria Park this afternoon. The balloon to be used is the largest in the world, according to current reports, being 150 feet in height.

Mr. Hicks of the boathouse in Munro Park may have quite a time in looking after the aeronaut this afternoon, but he knows his business.

The "cycle whirl" is one of the features at Munro Park this week, with a host of other attractions. The attendance has been very large, and if the weather continues favorable, the show will go on all next week.

Miss Quirk is visiting Mrs. Irving, corner Queen-street and Beech-avenue.

Mrs. Stewart White and son of Bathurst-street spent Thursday with Mrs. Irving. Mrs. A. Work of Arron, Ont., and Mrs. W. Gallagher, who have been visiting Mrs. H. D. Wilson, Beech-avenue, for the past week, have returned to their homes.

A meeting of the Balmy Beach Bowling Club was held last night at "Shore Acres," the residence of F. Lyonde, Balsam-avenue. The meeting was called to settle the financial affairs of the club, which are in good shape, with a large balance on the right side of the ledger. The president, Geo. J. Foy, occupied the chair.

Kew Beach.

A dance will be held to-night in the fire hall, Queen-street. The function will be held under the auspices of the Balmy Beach young folks, which fact ensures a successful and enjoyable time.

Mr. Gates has disposed of a building lot at the corner of Queen-street and Waverly-road, at a good price. The purchaser will build at once.

Simcoe Park.

Fred Bright, Simcoe Park, gave a supper to a few friends Wednesday evening at his summer residence. A good musical program was given. "Mac" Hutchinson, cornetist; Norman Burton, violinist. The whole company engaged in the singing, and it would be unwise to make a distinction when all do so well. Ald. Fleming made an interesting address. Among those present were Mr. and Mrs. S. Apted, Mr. and Mrs. N. Burton, Mr. and Mrs. M. Hutchinson, Mr. and Mrs. Lord, Mr. and Mrs. Jas. Watts, Mr. and Mrs. J. Mashingham and others.

EAST END NOTES.

The Broadview Boys' Institute will have its entire property free from general taxation, this having been decided in the city's assessment appeal case before the County Court judge. The decision will give great satisfaction to the friends of the institute, who recognize the splendid work being done.

Mr. Earle, a well-known member of Broadview Lodge, I.O.O.F., who has been away north for several weeks in search of health, has returned home with regained strength, successful in his quest.

Word has been received by Mr. Maffey, 500 Gerrard-street, informing him of the illness of his son Francis in St. Paul, Minn. The young man went west some time ago, and has been in good health till this sudden attack, the report of which came as a great surprise to his family.

SMALL RATE OF INTEREST

Continued From Page 1.

be a considerable demand for further money on Canadian account by reason of the government's bond issue on this venture and its guarantee. A few years ago Canadian bonds could be floated in London below 3 per cent., but with consols producing very nearly this figure it will be readily seen that no such price can be obtained at the present time.

Banks Will Act Individually Anyway

The government savings bank is now paying three per cent. to depositors and not as stated in your paper this morning two and a half per cent. The government savings institution is not generally recognized as a business venture, but more as an accommodation to people of limited savings. If, however, government bonds should have to pay a rate of three and a half per cent., or close to that price, this would be a reasonable argument for the government to return to its depositors that amount of money instead of sending interest rates to outside countries. Whether the Canadian Bankers' Association decide as a body to advance the rate to three and a half per cent. or not, individual banks, you will find, as in the case of the Nova Scotia, which has already talked of raising its rate, will be found to come out and take action on their single account."

Must Take Less Profits.

One who is in close touch with the banks spoke against any increase in the rate from the stand point that it would be injurious to business. "If you advance the rates," he said, "to depositors, it is reasonable to expect that people who have to borrow from the banks will have to pay more for their money to make up for the deficiency or else the banks would be losing a portion of the profit which they are now making between the interest paid to depositors and that charged to borrowers. It would be difficult to make the commercial rate any higher than it is at the present time, and it looks as tho the banks would have to be satisfied with a little less profits. If this should occur, one thing is certain, and that is that bank stocks will depreciate in price. There is already a tendency for the prices of these stocks to decline to a more reasonable level, comparing the interest paid to holders of them, and that paid for other good investment stocks.

Bank Stocks Show Decline.

"Some of our banks are returning very little more than four per cent. to shareholders at recent prices, and this will not be considered sufficient if the rate to a depositor is advanced, to say three and a half per cent.

With the rainy season just ahead it'll do no harm to emphasize Rain Coats. Everybody won't buy to-day, but you'll know where to come when you get ready.

Our coats are not the clothing store kind. They are stylish to an unusual degree, and bear the marks of fine toiloring all over them.

Comparison must wait until you've seen what we're talking about.

You might have noticed the decline in bank stocks since a few months ago, and this is probably in anticipation of something of this nature. Take the Bank of Commerce, for instance. Last February sales of the stock were made as high as 170 1-8, and this week a good deal of the stock sold as low as 155. This is not an abnormal decline, for less than four years ago the stock, when paying the same rate of dividend as now, sold as low as 141 1-4."

Would Encourage Thriftiness.

One who is usually well versed in social problems was asked his opinion of what would be the effect of raising the rate of bank interest. He said "it would certainly encourage mechanics and other wage-earners to become more thrifty. The mere fact of the advance being made would interest people in saving, and would encourage carefulness and frugality among workingmen. If the chartered banks would pay a reasonable rate of interest he thought it would prevent small savings from going into private banks, which offered higher rates, and had proved so disastrous to depositors of late years.

DID NOT CARRY.

Montreal, Sept. 17.—At the Bankers' Association to-day the proposition of the Bank of Nova Scotia, to increase the rate on deposits from 3 to 3 1-2 per cent., was taken up, and after a full discussion the proposition did not carry.

CAN ALWAYS BE HEARD.

Rumor That Mr. Tarte Will Be Interrupted on Saturday.

Montreal, Sept. 17.—"A still hunt is being made against Hon. Mr. Tarte in St. Mary's division," says La Patrie. "In fact there were people in this city foolish enough to believe that the ex-Minister could be induced to hand over La Patrie to his enemies, and now a new crop of innocents has come to the front. It appears that after a canvass they have decided to call an indignation meeting somewhere in the division on Monday evening, yet in order to keep the matter quiet for a while the notice of the gathering will not be posted before Saturday. There are also many indications to the effect that the hot heads of Montreal Liberalism have decided to prevent Mr. Tarte from speaking on Saturday. What a victory it would be for the government if Montreal bullies only prevent the member for St. Mary's from being heard."

This rumor has reached The La Patrie office, for the ex-Minister comments as follows: "It is stated in the street that an organization has been formed to prevent Mr. Tarte from speaking. We believe, in fact we know, that Messrs. Monet and Bourassa are incapable of playing such a role. However, twenty men can prevent anyone from speaking in public. Mr. Tarte was invited to go and explain his views at a great Liberal meeting, and he accepted the invitation with joy. He will be at Laprairie on Saturday happy to profit by the occasion offered him to discuss before the electorate the public questions of the day. If, after inviting Mr. Tarte, they refuse him a hearing, he will quietly return to the office of La Patrie, where there are always means of making himself heard.

One Killed by Two.

Charlotte, N.C., Sept. 17.—As the result of an altercation between Russell Sherill, a young man of prominent family, and Thomas B. Chal White, well known business man of concord, N.C., Sherill was shot and killed at his home in Rowan County by the two Whites.
